### NEW MOVIE ACCESSORIES!

The following new accessories for Canon Super 8 Movie Cameras help to complete one of the finest super 8 movie camera lines in the industry. *These items are included* on page 7 of the April 1968 printing of the Canon Systems Equipment Price Catalog.

**CHESTPOD**—This new item is the perfect accessory for any serious movie-maker. It helps to make movies steadier by supporting the weight of the camera around the user's neck. The adjustable neck strap with pad holds the chestpod in position, yet allows free camera movement. The telescoping post is screwed into the tripod socket of the camera, and the post can be adjusted for the desired height. This unique device can be used with any movie camera and also provides excellent support for a still camera.

**CHESTPOD**  
112779 (617-20) \$11.95

**RUBBER EYECUPS FOR 84C/85C/86C/88C**—These soft rubber eyecups snap easily onto the eyepiece of the cameras listed and provide excellent protection for the eye. The eyecups also help to prevent extraneous light from entering the viewfinder while making movies. The flat-type eyepiece is designed for eyeglass wearers, while the curved-type eyepiece is designed for people who do not wear glasses.

**RUBBER EYECUPS**  
Flat Eyecup, for Eyeglass Wearers  
112758 (62-60) \$1.00  
Curved Eyecup, Standard Type  
112759 (62-60) \$1.00
