MARINE METER II model L-164B

SEKONIC MARINE METER II

model L-164B

World's First Orthodox Underwater Exposure Meter

SEKONIC MARINE II is a high performance exposure meter indispensable for underwater photography. It's very easy to use. First, set the shutter speed in advance. Then all you need to do is read the aperture stop. It's convenient not only for underwater still photography but also when shooting underwater movies.

Reflected Light Type Exposure Meter with Direct-Reading Aperture System

SEKONIC MARINE II is a reflected light type exposure meter, with a direct-reading aperture system, that's easy to use and read under water. This all-weather type exposure meter can also be used in heavy rain and snowstorms.

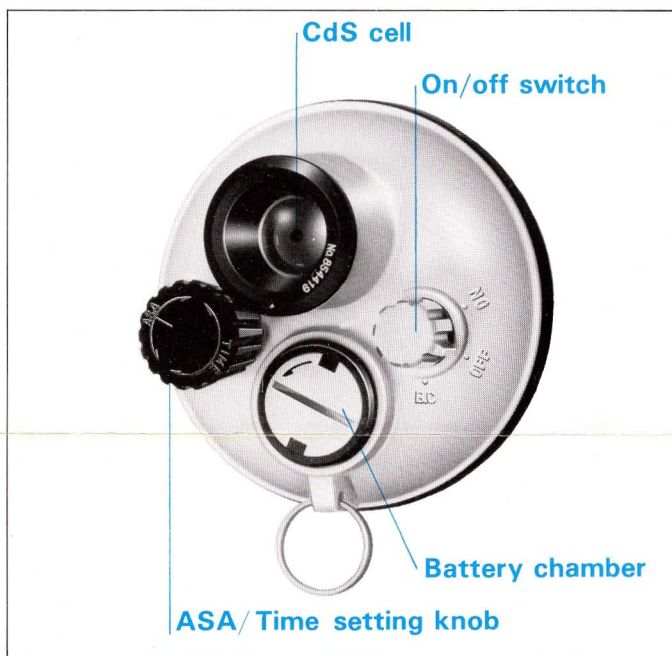

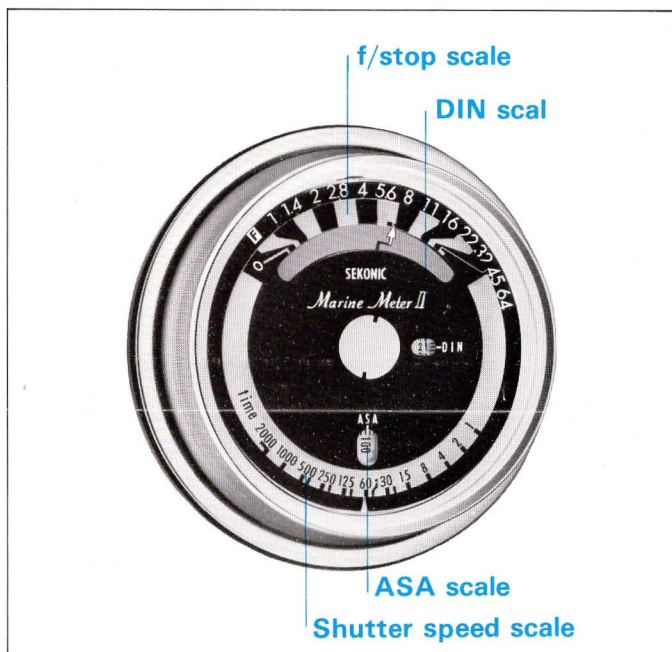

Completely Waterproof and Usable to Depth of 60 Meters (200 Feet)

SEKONIC MARINE II is completely waterproof designed with the joint use of superior elastic O-rings and silicon grease. Each and every SEKONIC MARINE II has passed the most rigid waterproof and water pressure tests at our quality control.
