## and Accessories

PRICE LIST No. 15. Effective MAY 1, 1939

CONTAX III

CONTAX II

Both models have combined optical range and viewfinders, metal-curtain focal plane shutter with speeds from  $\frac{1}{2}$  to  $\frac{1}{1250}$  second, removable back, built-in delayed-action release, and bayonet-mount interchangeable Zeiss lenses. Contax III has a built-in exposure meter of great sensitivity.

CONTAX prices include: cable release, take-up spool, metal magazine for bulk film, neck strap and lens cap.

## FILM ACCESSORIES

|                                                               |         |         |
|---------------------------------------------------------------|---------|---------|
| Metal magazine, complete in dustproof container.....          | #540/1  | \$ 3.50 |
| Dustproof container for magazine.....                         | #540/0  | .30     |
| Spool for magazine.....                                       | #540/5  | .40     |
| Take-up spool for camera.....                                 |         | .40     |
| Film trimming template with sheath.....                       | #541/16 | 1.80    |
| Negative Wallets (for 36 negatives in strips of 6), each..... |         | .04½    |
| Filing box (cardboard), for 50 negative wallets.....          | #3097/5 | 1.25    |

## CAMERA SUPPORTS AND TRIPOD ACCESSORIES

|                                                                                |          |                                 |         |
|--------------------------------------------------------------------------------|----------|---------------------------------|---------|
| <i>Contax</i> Harness .....                                                    | \$20.00  | Micrometer Focusing Slide.....  | \$24.00 |
| Porta-Pod ( <i>Neck-strap unipod</i> ) .....                                   | 4.25     | Tabletop and Chain Tripod.....  | 5.50    |
| Unipod ( <i>single-leg support</i> ) ....                                      | 2.25     | Tilting Tripod Head.....        | 6.00    |
| Tele-lens Tripod Head.....                                                     | 6.60     | Ball-and-Socket Tripod Head.... | 3.50    |
| Extension Piece for using <i>Contax</i> in <i>Eveready</i> case on tripod..... | #1628/11 | 1.20                            |         |

## LENS CAPS

|                                                                     |        |
|---------------------------------------------------------------------|--------|
| Front cap for <i>Contax</i> lens (specify for which lens).....      | \$ .75 |
| Rear cap for 5 cm <i>Contax</i> lens.....                           | .75    |
| Rear cap for 8.5, 13.5 or 18 cm lens.....                           | 1.00   |
| Rear cap for <i>Biogon</i> and <i>Orthometar</i> 3.5 cm lenses..... | 1.50   |
| Dust cap for <i>Contax</i> with lens removed.....                   | 1.00   |

## MISCELLANEOUS

|                                                               |          |      |
|---------------------------------------------------------------|----------|------|
| Cable Release for time and instantaneous exposures, 8¼" ..... | #1312/24 | 1.00 |
| Cable Release for <i>Contax</i> , 20" .....                   |          | 2.00 |
| Autoknips, self-timing automatic release.....                 | #1394/6  | 6.00 |
| Liliput printing frame for single 24x36 mm negative.....      | #2643/24 | .70  |
| Spirit Level for accessory shoe of <i>Contax</i> .....        | #888/1   | 2.70 |
| Neck Strap for the <i>Contax</i> .....                        |          | 1.25 |

## CLOSE-WORKING EQUIPMENT

|                                                                                                |          |      |          |          |
|------------------------------------------------------------------------------------------------|----------|------|----------|----------|
| <b>PLATE BACK</b> (for Contax II and III) using 3x4.5 cm plates,<br>with one plate holder..... |          |      | # 543/13 | \$ 25.00 |
| Insert ground-glass focusing screen.....                                                       | # 540/11 | 2.40 |          |          |
| Extra plate holder.....                                                                        | # 540/14 | 2.10 |          |          |
| Sheath (wedge-plate) for using cutfilm in plate holder.....                                    | # 540/8  | .25  |          |          |
| Template for cutting 3x4.5 cm plates from large sizes.....                                     | # 2006/1 | 2.40 |          |          |
| Wratten & Wainwright Panchromatic Plates 3x4.5 cm, per doz.....                                |          | .50  |          |          |

**PROXARS** for 5 cm Tessars and Sonnars—focused by measurement:

|                                               |      |
|-----------------------------------------------|------|
| 1x42, for 38" to 19" (Scale 1:19 to 1:8)..... | 6.00 |
| 2x42 for 20" to 13" (Scale 1:10 to 1:6).....  | 6.00 |

**CONTAMETER** optical near-focusing device. Combines rangefinder  
focusing with parallax-corrected viewing at distances of  
8", 12" and 20" with 5 cm Tessars and Sonnars. (1:4, 1:6.5, 1:10)

|                          |        |       |
|--------------------------|--------|-------|
| for Contax I and II..... | # 1343 | 65.00 |
| for Contax III.....      | # 1340 | 65.00 |

**PANFLEX** Mirror-Reflex focusing attachment, for close distances only,  
with all Contax lenses.....

|                                                                |           |        |
|----------------------------------------------------------------|-----------|--------|
| with all Contax lenses.....                                    | # 5522/23 | 120.00 |
| Focusing Head (required with Panflex for all 5 cm lenses)..... | # 5522/3  | 27.00  |
| Extension Tube 1x.....                                         | # 5522/13 | 15.00  |
| 2x.....                                                        | # 5522/14 | 18.00  |
| 4x.....                                                        | # 5522/15 | 21.00  |

**SMALL REPRODUCTION OUTFIT** for copying,

|                                         |          |       |
|-----------------------------------------|----------|-------|
| scales 1:1, 1:1½, 1:2, 1:3 and 1:4..... | # 5520/1 | 45.00 |
|-----------------------------------------|----------|-------|

|                           |          |      |
|---------------------------|----------|------|
| Wood box for #5520/1..... | # 5520/0 | 3.60 |
|---------------------------|----------|------|

|                                    |          |      |
|------------------------------------|----------|------|
| *Ground Glass Focusing Screen..... | # 5520/6 | 6.00 |
|------------------------------------|----------|------|

|                                          |           |       |
|------------------------------------------|-----------|-------|
| *Focusing Magnifier 4x, for #5520/6..... | # 5520/13 | 18.00 |
|------------------------------------------|-----------|-------|

|                                                                     |          |       |
|---------------------------------------------------------------------|----------|-------|
| Illumination Box for Optical transparency printing, with bulbs..... | # 5520/8 | 27.00 |
|---------------------------------------------------------------------|----------|-------|

|                             |           |      |
|-----------------------------|-----------|------|
| Tubular bulbs 25W-110V..... | # 1557/82 | 1.20 |
|-----------------------------|-----------|------|

|                              |           |      |
|------------------------------|-----------|------|
| Negative Guide and Mask..... | # 5520/12 | 5.00 |
|------------------------------|-----------|------|

|                                                        |           |       |
|--------------------------------------------------------|-----------|-------|
| Single exposure holder for plates or cutfilm 2x2"..... | # 5520/10 | 12.50 |
|--------------------------------------------------------|-----------|-------|

## \*\*Optional Equipment.

**LARGE REPRODUCTION OUTFIT**—scales 25:1 to 1:20

Carrying arm for camera and lens, for use with column and baseboard

of Magniphot enlarger, for copying in ratios 25:1 to 1:20

(objects up to 18"x28").....

|                              |           |       |
|------------------------------|-----------|-------|
| (objects up to 18"x28")..... | # 1454/25 | 36.00 |
|------------------------------|-----------|-------|

|                                                                 |           |       |
|-----------------------------------------------------------------|-----------|-------|
| Baseboard and column, for Carrying Arm (as with Magniphot)..... | # 1454/26 | 15.00 |
|-----------------------------------------------------------------|-----------|-------|

|                                            |           |       |
|--------------------------------------------|-----------|-------|
| Lighting Equipment, for use on column..... | # 1454/27 | 36.00 |
|--------------------------------------------|-----------|-------|

|                                                                 |           |       |
|-----------------------------------------------------------------|-----------|-------|
| Reflectors, set of two additional with attachment fittings..... | # 1454/37 | 18.00 |
|-----------------------------------------------------------------|-----------|-------|

|                             |          |      |
|-----------------------------|----------|------|
| Delta lenses, Set of 3..... | # 995/32 | 8.40 |
|-----------------------------|----------|------|

|                                   |          |      |
|-----------------------------------|----------|------|
| Ground Glass focusing screen..... | # 5520/6 | 6.00 |
|-----------------------------------|----------|------|

|                                         |           |       |
|-----------------------------------------|-----------|-------|
| Focusing Magnifier 4x, for #5520/6..... | # 5520/13 | 18.00 |
|-----------------------------------------|-----------|-------|

|                                  |           |      |
|----------------------------------|-----------|------|
| Clear Glass focusing screen..... | # 5522/11 | 9.60 |
|----------------------------------|-----------|------|

|                                        |        |       |
|----------------------------------------|--------|-------|
| Zeiss Magnifier 10X, for #5522/11..... | # 1293 | 15.00 |
|----------------------------------------|--------|-------|

|                                                  |          |       |
|--------------------------------------------------|----------|-------|
| Right-angle Focusing Screen, with magnifier..... | # 5520/9 | 25.00 |
|--------------------------------------------------|----------|-------|

|                                      |           |       |
|--------------------------------------|-----------|-------|
| X-Ray Transparency Frame 16x20"..... | # 1454/35 | 24.00 |
|--------------------------------------|-----------|-------|

|                                                                  |           |       |
|------------------------------------------------------------------|-----------|-------|
| Extension arm with column (for use with 16x20" X-ray frame)..... | # 1544/32 | 16.00 |
|------------------------------------------------------------------|-----------|-------|

Extension Tubes 1x, 2x, 4x may be used—(See under Panflex)

**UNIVERSAL MICRO-MACRO OUTFIT** Scales 25:1 to 1:10

|                                                                                                            |           |        |
|------------------------------------------------------------------------------------------------------------|-----------|--------|
| *Universal Stand ( <i>includes: U-shaped foot, 2-section column, and sliding carrier for camera</i> )..... | #5522/1   | \$ 50. |
| *Extension piece .....                                                                                     | #5522/2   | 2.40   |
| *Ball-and-Socket Tripod Head .....                                                                         | #1628/10  | 3.50   |
| *Micrometer Focusing Slide.....                                                                            | #5522/5   | 24.00  |
| *Focusing Head .....                                                                                       | #5522/3   | 27.00  |
| *Delta lenses, <i>Set of 3</i> .....                                                                       | #995/32   | 8.40   |
| *Right-angle Focusing Screen <i>with Magnifier</i> .....                                                   | #5520/9   | 25.00  |
| *Side-viewing diaphragm scale for 5 cm Tessars.....                                                        | #1455/6   | 3.30   |
| *Extension tube 1x.....                                                                                    | #5522/13  | 15.00  |
| 2x.....                                                                                                    | #5522/14  | 18.00  |
| 4x.....                                                                                                    | #5522/15  | 21.00  |
| *Set of 3 Ground Spikes, for Universal Stand.....                                                          | #5522/6   | 7.20   |
| *Carrying Case for above equipment.....                                                                    | #5522/0   | 31.50  |
| Ground Glass focusing screen.....                                                                          | #5520/6   | 6.00   |
| Focusing magnifier 4x, for #5520/6.....                                                                    | #5520/13  | 18.00  |
| Carl Zeiss Microtar f/1.6—1cm.....                                                                         | #11 21 46 | 58.00  |
| Adapter for Microtar.....                                                                                  | #5522/9   | 12.50  |
| Clear Glass focusing screen.....                                                                           | #5522/11  | 9.60   |
| Weight compensating ring for use with Microtar and #5520/11..                                              | #5522/17  | 8.50   |
| Zeiss magnifier 10x, used with #5522/11 and #5522/17.....                                                  | #1293     | 15.00  |
| Base Board for Universal Stand.....                                                                        | #5522/7   | 15.00  |
| Lighting Equipment for Universal Stand.....                                                                | #5522/8   | 24.00  |
| Lamps ( <i>included</i> ) 50W-110V.....                                                                    | #1557/44  | 1.20   |
| Bushing to attach Universal Stand Column to tripod.....                                                    | #5522/12  | 3.00   |
| *Basic Equipment.                                                                                          |           |        |

**TRIPOD REPRODUCTION OUTFIT** Scales 4:1 to 1:20

|                                                         |          |          |
|---------------------------------------------------------|----------|----------|
| Focusing Head .....                                     | #5522/3  | \$ 27.00 |
| Ball-and-Socket Tripod Head .....                       | #1628/10 | 3.50     |
| Delta lenses, <i>Set of 3</i> .....                     | #995/32  | 8.40     |
| Right-angle Focusing Screen <i>with Magnifier</i> ..... | #5520/9  | 25.00    |
| Carrying Case for above equipment.....                  | #5522/30 | 5.00     |
| Extension tubes 1x, 2x and 4x may be used—(See Above)   |          |          |

**CLINICAL EQUIPMENT**

|                                                       |          |          |
|-------------------------------------------------------|----------|----------|
| Clinical Stand .....                                  | #5522/21 | \$ 90.00 |
| Lighting equipment for clinical stand.....            | #5522/20 | 24.00    |
| Adapter fitting camera to Zeiss instrument table..... | #5522/22 | 7.00     |
| Panflex .....                                         | #5522/23 | 120.00   |

**PHOTO-MICROGRAPHIC EQUIPMENT**

MIFLEX for standard microscope body tube, with adapter for Contax  
(uses microscope lenses):

|                              |           |          |
|------------------------------|-----------|----------|
| With Ground Glass.....       | #12 85 66 | \$ 83.25 |
| With Focusing Telescope..... | #12 85 68 | 127.50   |
