

# WISTAM450

**The Professional Photographer's Advantage**

# WISTAM450

## FEATURES

The Wista M-450 is a general purpose large format camera system developed to international standards. Excellent maneuverability, sturdy construction, abundant swings and tilts, and rack and pinion geared movements are just some of the features that assure the picture of success for users of the Wista M-450 camera.

As the flag-ship camera for Wista, an entire array of systems accessories have been designed for use with the M-450. Included are reducing and enlarging backs, wide angle and extension bellows, camera and accessory case, lenshood, and extension rails.

The superior engineering of the Wista M-450 and its adaptability to internationally standard accessories has made it the camera to expand the professional photographer's existing system.
