# Minolta-35

## Model E

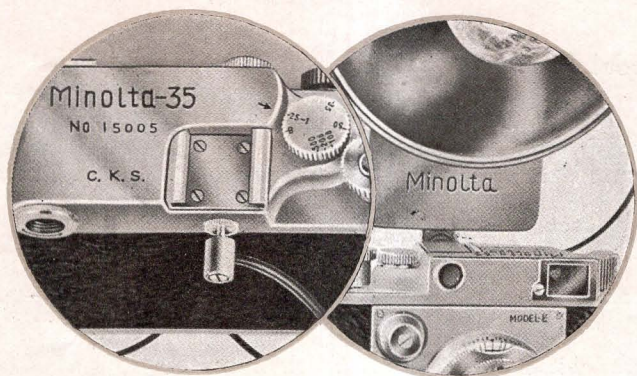

Minolta-35, our de luxe creation of dazzling beauty and consummate workmanship, represents the fruits of many years' research to bring out a camera which would combine light weight with the highest mechanical precision.

Crystallizing in its compact body all our experience and knowledge as optical instrument makers, Minolta-35 opens up a new era in photography in that it is a camera which defies all adverse conditions, a camera of multiple performance which satisfies the requirements of a lifetime, a camera with which you can take a shot wherever and whenever you wish. You can depend on the result with the Minolta-35.

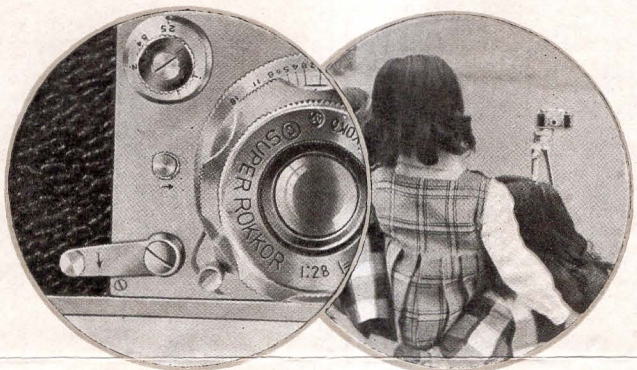

Not only is it a wonder in mechanical perfection, the sleek grace of the camera's form makes it a fine piece of art. It is a joy to look at a Minolta-35!

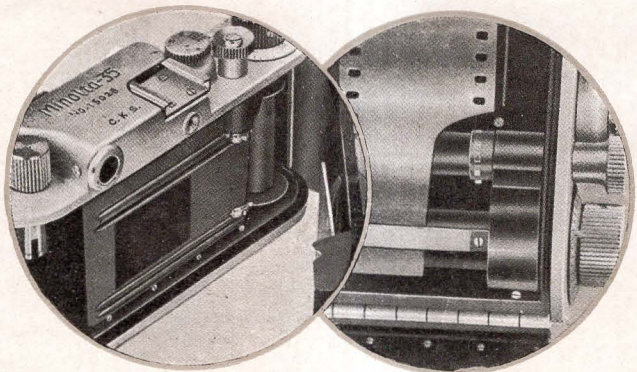

## Built-in Flash Synchronizer

The Minolta Flash Unit is compact, efficient and ideally suited for use with the Minolta-35.

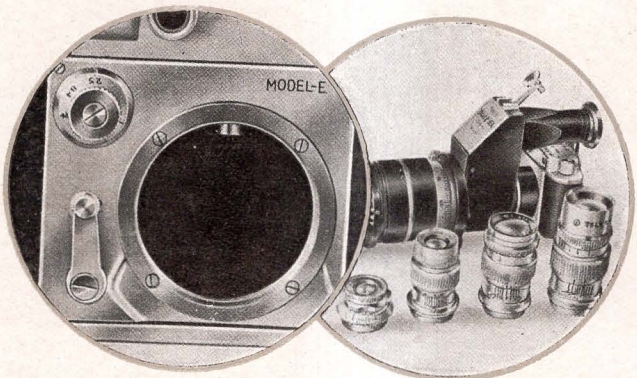

## Built-in Self-Timing Device

Take photos of yourself without asking the aid of another person.

## Hinged Back for easy Film Loading

Hinged back of camera body is most convenient for loading film and dusting the interior.
