NOTE: Viewfinder frames delineate 2 1/4 x 2 3/4" Cine Rollex and Super Rollex size.

#### CAMERA - AND - LENS COMBINATIONS — TECHNIKA 70

Most lenses up to 135mm normal, and to 240mm telephoto can be coupled to the Multifocus rangefinder; lenses up to 360mm telephoto can be used for ground glass focusing.

Lenses for the Technika 70, complete with lens board, are listed on the following page. Other lenses in shutter will be found in Section E of the Price List.

#### LENS INSTALLATION AND RANGEFINDER COUPLING — TECHNIKA 70

The following charges include infinity stops, installation of stops on the camera, infinity setting of lens, plotting and machining of rangefinder cam.

If included in the original camera order, up to three lenses selected from the listing on the following page will be installed and coupled to the Multifocus rangefinder **without charge**. Allow 30 days for delivery of complete camera-and-lens outfit.

### CONVERSION OUTFIT

All components of Kardan-Color cameras are interchangeable to permit perfect adaptation of the camera to specific photographic problems.

**10805** KARDAN TRIPLEX CONVERSION OUTFIT; converts 5x7 or 8x10 Duplex models to longer (Triplex) cameras; 39" monorail; additional square 22" bellows; bellows center support standard with same adjustability as front standard

71208-80 **261.00**

**10806** KARDAN 5x7/8x10 CONVERSION OUTFIT; converts 5x7 models to 8x10: Conical 8x10 bellows, 8x10 Back Standard, 8x10 Ground Glass Spring Back

78478-40 **598.00**

### INTERCHANGEABLE BACKS AND REDUCING FRAMES

**10830** 8x10-to-5x7 REDUCING FRAME for 8x10 Kardan-Color camera: permits use of 5x7 revolving ground glass spring back; or, in combination with 5x7 Reducing Frame 10327, accepts 4x5 Universal Back and 2 1/4 x 3 1/4 back . . .

9670-40 **88.00**

**10327** 5x7-to-4x5 REDUCING FRAME for 5x7 Kardan-Color or Super Technika cameras; permits use of 4x5 Universal Back and 2 1/4 x 3 1/4 back; also serves to adapt these backs to 8x10 Kardan-Color camera in combination with 8x10 Reducing Frame 10830 . . . . .

4327-38 **36.50**

**10324** 5x7 GROUND GLASS BACK with folding focusing hood; (supplied as standard equipment with 5x7 Kardan-Color and Super Technika cameras). Available separately for use as revolving back on 8x10 Kardan-Color camera in combination with 8x10 Reducing Frame 10830 . . . . .

5672-75 **97.00**

**10320** 4x5 UNIVERSAL BACK (as supplied with 4x5 Super Technika camera) with Ektalite field lens; for use on Linhof 5x7 or 8x10 cameras in combination with Reducing Frames 10327 and 10830 . . . . .

7668-67 **103.00**

**10326** 2 1/4 x 3 1/4 GROUND GLASS SPRING BACK for using 2 1/4 x 3 1/4 cut films, plates, film magazines, or film pack adapters on 5x7, and 8x10 cameras in combination with Reducing Frames 10327 and 10830 . . . . .

8666-33 **99.50**

NOTE: Linhof Cine Rollex and Super Rollex Roll Film Adapters may be used on 5x7 and 8x10 cameras in combination with the 4x5 Universal Back and appropriate Reducing Frames.

## FILTERS - POLARIZING SCREENS - DIFFUSION DISKS

Filters, Polarizing Screens, and Diffusion Disks are supplied in two styles: in tabbed slip-in mounts to fit the LINHOF Lens Shade/Filter Holders listed on the opposite page, and in slip-on mounts for the 75mm Biogon and 250mm Sonnar.

**STANDARD Filters** are available in the following types (PLEASE SPECIFY):

UV (0x)	Green 1 (2x)	Orange (4x)	Red 2 (10x)	Yellow 2 (3x)
Blue (2x)	Green 2 (3x)	Red 1 (8x)	Yellow 1 (2x)	Yellow 3 (4x)

**DECAMIRED Filters** for color correction are available in the following types (PLEASE SPECIFY):

R 1.5 SKYLIGHT (0x)	R 6 (1 1/2x)	B 1.5 (0x) reduces reddish light	B 6 (2x)
R 3 (0x)	R12 (2x)	B 3 (1 1/2x)	B 12 (3x) daylight to tungsten

Use of a color temperature meter (such as GOSSEN Sixticolor) is recommended for filter determination.

**INFRA RED Filters**, when used with infra-red emulsions, transmit only infra-red (750mu).

**POLARIZING SCREENS** are useful in minimizing reflections from non-metallic surfaces, and for darkening the sky in color photography.

**DIFFUSION DISKS** for soft effects in portrait, landscape or advertising photography are available in two types (PLEASE SPECIFY): I—for moderate diffusion; II—for strong diffusion.

**WHEN ORDERING, SPECIFY CATALOG NUMBER BELOW—AND EXACT FILTER TYPE REQUIRED;  
SEE COMPLETE PRICE LIST IN NUMERICAL SEQUENCE BELOW.**

# *Linhof* SALES POLICY

## **LINHOF CAMERAS ARE SOLD ONLY THROUGH FRANCHISED LINHOF DEALERS**

**CLASS A LINHOF DEALERSHIP** is available to stores prepared to carry Linhof Cameras and Linhof Accessories in stock at all times for prompt service to Linhof customers.

An initial stock order based on store size, location, and potential volume is required to establish Class A Dealership. The initial order, and subsequent orders, are filled at Net 'A' prices shown in current Kling Price Catalogs.

Continuation of a Class A Linhof Dealership Franchise is based on maintenance of adequate stock, and an annual sales volume commensurate with the potential in the area served by the Dealer.

**Orders for an individual Camera or Camera-and-Lens Outfit** may be accepted from a store not desiring a full Class A Franchise, if such store is located in an area not already served by active Class 'A' franchised Linhof Dealers.

Such individual orders will be filled at 'B' Net Prices, available on request.

'B' Dealers qualifying for full Class A Franchise within 60 days after placing their initial order for an individual camera, will receive retroactive credit for the difference between A and B Net prices on their franchise stock order.

An individual camera purchase on Class B basis does not constitute a Franchise. Acceptance of further orders is subject to approval.

All sales of Linhof Cameras by Class A or B Dealers must be to ultimate users only. Trans-shipment to other dealers, or to third parties engaged in re-sale, will result in cancellation of Linhof Dealership privileges.

Linhof products may not be advertised below User Net Prices shown in the current Kling Price Catalogs. Offers of used Linhof equipment must be qualified by the word **USED** in type of the same size as the price at which such equipment is offered for sale. Any other qualifying statements (Like New, Demonstrator, Slightly Used, etc.) are not permissible. Improper advertising of Linhof products will result in cancellation of Linhof Dealership privileges.

Linhof Dealership Privileges are separate from, and independent of, Dealership Privileges for the sale of any other Kling-distributed products.

---

## *Linhof* SERVICE INFORMATION

---

The Linhof Service Departments at our New York Headquarters and West Coast Branch are staffed with factory-trained specialists, and equipped with all facilities for making lens installations, adjustments, or repairs. The following information will be helpful to you in using our Service facilities:

**SEND COMPLETE OUTFITS.** Whenever Super Technika cameras are sent to us for installation of additional lenses\*, adjustment, or repair, ALL lenses, rangefinder cams, and distance scales already provided for the camera **must be sent along** so that the outfit can be checked for proper functioning of all components upon completion of service. Failure to send the complete outfit will cause delay.

**SERVICE INSTRUCTIONS.** Complete instructions concerning the work to be done must be sent with the equipment. (Add 5 cents for letter postage). General statements such as "please adjust" or "please repair" are not sufficient, and will cause delay through correspondence.

**LENS AND SHUTTER REPAIRS.** All imported lenses and shutters supplied with Linhof cameras may be sent to us for servicing. To save time in servicing domestic lenses, we recommend that such lenses and shutters be sent direct to their respective American manufacturers.

**REPAIR OF OLD MODEL CAMERAS.** Because repair parts of old models may be no longer available, we suggest you write to us before sending for repair any camera not originally imported by us.

**SHIPPING.** Cameras, Lenses, and component rangefinder cams, etc. must be carefully packed, and addressed to our Service Department.

**CHARGES.** All Linhof cameras registered with us by the owner within 10 days after purchase on the standard Registration Card, will be serviced by us under the Guarantee.

Lens installation, rangefinder coupling, and similar basic work is charged at the prices shown in the current Linhof Price List.

All other work is charged on a time-and-material basis. If requested, an estimate of charges is sent for approval before we proceed.

**DELIVERY.** Most equipment sent to us for installation, adjustment, or repair is returned within 8-10 working days after arrival.

**APPOINTMENT SERVICE.** For the convenience of photographers desiring lens installation, or routine adjustments, with a minimum loss of time, 48-hour service can be offered, if scheduled in advance. Ask our Service Department for a definite advance date, giving complete detail concerning the work to be done.

**EMERGENCY SERVICE.** Every effort will be made to give preference to emergency situations for immediate service. Please observe the following:

Send a wire or air mail letter notifying us when and how equipment is shipped. Give complete instructions.

Ship equipment—complete with all lenses, cams, distance scales, test films, etc.—via AIR. Advise us if an estimate of charges is wanted.

Give us complete return shipping instructions, i.e. "Air", "Express", "C.O.D." etc.

\*Super Technika V, 4x5 cameras need not be sent to us when additional lenses are ordered.

# **LENSES**

**in shutters**

Latest achievements in optical design and utilization of the newest rare earth glasses distinguish the fine West German lenses listed here.

They are the preferred choice of professionals and advanced amateurs for use with Linhof or regular professional cameras.

**KLING  
PHOTO**

See Section C (KILFITT) and I (RODENSTOCK) for listings of lenses for Miniature and Motion Picture cameras, and for Enlarging.

### Shutter Information Table

## NU-LINE PRECISION TRIPODS

NU-LINE tripods are available in three outstanding models to meet specific needs of the professional or advanced amateur photographer. They are complete with adjustable centerposts and "level control" panheads for utmost speed and convenience in correct positioning of the camera. All models contain these top quality features:

**HYDRONALIUM ALLOY.** Leg sections are made of sturdy, corrosion-resistant Hydronalium proven in hundreds of thousands of Linhof Precision tripods; each section is ground, polished and anodized to a smooth finish which keeps hands and clothing free from smudges. Hydronalium alloy combines lasting sturdiness with surprisingly light weight.

**INSTANT LEG CLAMPS.** Leg sections are continually adjustable and lock firmly at any extension with patented instant-action clamps.

**CONVERTIBLE TIPS.** Leg tips convert from metal spikes to rounded pads to assure a firm footing on smooth or rough surfaces.

**NYLON COLLAR ELEVATION LOCKS.** Centerposts adjust easily in large nylon collar which holds post tightly at any desired elevation for maximum steadiness.

**LEVEL CONTROL PANHEADS.** Panheads are equipped with built-in spirit level for exact positioning of camera to avoid distortions with wide-angle lenses, and for perfect "panning" with movie cameras. Panning and tilting movements, with calibrated scales, operate evenly and smoothly for finest pictorial results, through 360° pan, 90° tilt.

**Superb Linhof styling and workmanship makes each NU-LINE tripod a perfect match for the finest precision camera.**
