

# A superb, fully automated compact with rangefinder.

# Rollei XF 35

With its many convenient features, ranging from programmed CdS exposure system that sets both aperture and shutter speed, to a coupled rangefinder for rapid focusing, this

lightweight 35mm camera makes great picture taking very simple. Finest image quality is assured by Sonnar formula lens specially developed for this camera by Carl Zeiss.

ACTUAL SIZE

## Technical Data

- **Camera Type:**  
Fully automatic, compact 35mm with coupled rangefinder.
- **Picture Format:**  
24 x 36mm.
- **Lens:**  
5 element, 40mm f/2.3 Sonnar; M 46 x 0.75 screw-in filter thread; f/2.3 to f/16 automatic aperture settings.
- **Lens Focusing Range:**  
3 1/4 feet to infinity by coupled rangefinder.
- **Shutter:**  
Automatic settings from 1/30 to 1/650 sec. and bulb.
- **Shutter Release:**  
Bar with cable socket on top.
- **Self Timer:**  
Up to 10 second delay.
- **Exposure Control:**  
Programmed exposure control by CdS meter automatically sets lens aperture and shutter speed.
- **Flash Synchronization:**  
X (electronic flash) synchronization by hot shoe contact, focusing automatically selects aperture after guide number is set.
- **Film Speed Range:**  
ASA 25 to 400.
- **EV Range:**  
7.5 to 17.
- **Film Transport and Loading:**  
Accepts standard 35mm cartridge; film transported by rapid advance lever on top; rewind crank on bottom; frame counter, counts forward from 1 to 36 with automatic return to zero when back is opened.
- **Viewfinder Data:**  
Bright line frame, parallax indicators, under exposure warning signal, aperture and shutter speed display.
- **Size:**  
4.4 x 1.3 x 2.8 inches.
- **Weight:**  
12 1/2 ounces.
- **Other Features:**  
Lug on each side for wrist strap; tripod socket 1/4 - 20 bushing; exposure meter reads through filter giving correct exposure compensation for filter density.
- **Exposure System Battery:**  
Single 1.35 volt cell (PX 625 or equivalent).
- **Accessories:**  
Soft Carrying Case, lens cap supplied.
