

Follow-Focus Lenses

Exclusive

from

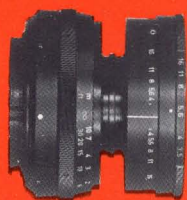

NOVOFLEX

E. Baumann

taken with 400 mm f 5.6 Noflexar

Wide-angle Macro

35 mm Noflexar

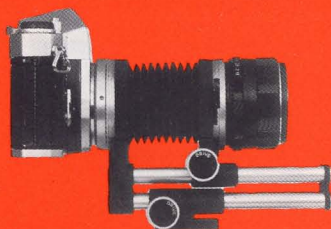

from 7 cm

to infinity

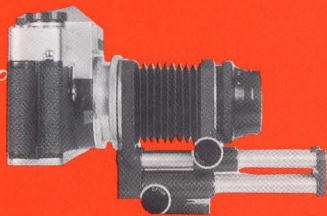

Automatic Bellows Units Automatic Lens Heads

Automatic Iris without
cable release
Open aperture
through the lens
metering for Contax RTS,
Minolta, Miranda, Konica,
Nikon, Olympus OM etc.

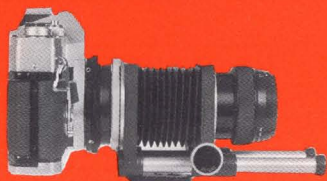

Bellows Units

Universal Bellows Unit BALCAST

for interchangeable
camera adaptors
and with focussing
rack

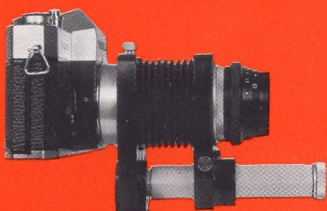

BAL-S

As above
without focussing
rack

Focussing Rack CASTEL

for close-up and
Stereo shots on
tripod

Bellows Unit I

almost the same price
as a set of extension
tubes but more stable
and versatile

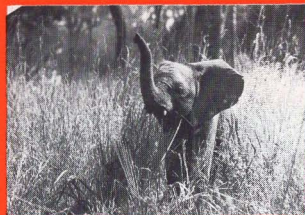

Follow-Focus Lenses

Pistol grip camera attachment with rapid focussing.
Lock bayonet adaptor.
Format filling shots even of small birds.
Three focal length lenses with rapid change bayonet.

280 mm 1:5.6 Noflexar

Accessories

Compendium BALSON-K

overcomes even
extreme back and side
lighting situations
designed to take

transparency holder BALCOP-K

for duplicating
transparencies or
negatives, whole or in
part.

with
BALSON-K

without
BALSON-K

with 105 mm

with 50 mm

Flash bracket X-SHOE

for rapid and trouble
free flash close-ups

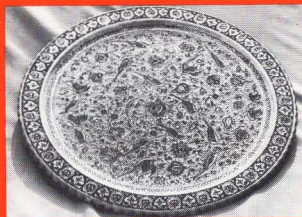

Lensheads

The enormous
focussing range
achieved increases
versatility since the
bellows make
focussing mounts
superfluous, thus
cutting costs
