**minox®**

*the camera that never stays home*

# minox®

**world's most fabulous ultra-miniature camera . . . world's most remarkable ultra-miniature photography system**

*this is the Minox  $\frac{5}{16}$ " x  $\frac{7}{16}$ " negative*

The MINOX B is the world's smallest, lightest, easiest-to-use precision camera. King of conversation pieces, it is world renowned for its ease of operation and professional excellence in photography for pleasure or business.

Because it's unusually small (a mere  $3\frac{3}{8}$ " long) and featherlight (a mere  $3\frac{3}{4}$  ounces), the Minox B is always with you, carried easily in pocket or purse always ready for photo action both for pleasure or business.

Originally designed for undercover work, the amazing Minox camera is a gem of precision engineering by West German craftsmen. It has 302 parts, requires 2,000 painstaking operations to manufacture and assemble. 388 inspection controls are necessary to comply with 1973 dimensions having mechanical tolerances of  $4/10,000$  of an inch. Optical tolerances are less than  $1/50,000$  of an inch.

The Minox B features a short 15mm focal length that gives great depth of field! An  $f/3.5$  lens! Focusing from 8" to infinity! Automatic parallax correction at all distances. All shutter speeds from  $\frac{1}{2}$  second to a time-splitting  $1/1000$  of a second. The shutter is synchronized for use with flash bulbs, flash cubes and electronic high speed flash units.

A built-in photo-electric exposure meter is coupled to the shutter so you get perfect pictures every time . . . and in all light conditions. It's quick, so sure, and simple to use . . . just match a speed dial with the meter indicator and shoot.

After each shot, close the camera and both film and exposure counter are advanced . . . the shutter is cocked automatically and you're ready for your next rapid sequence shot. You can't take a double exposure. Instant drop-in film cartridges are loaded in seconds.

*camera actual size open and ready for action*

instant-load Minox  
film cartridge*

The Minox is the camera of the "Great": more members of royalty, diplomats, captains of industry, and film stars take pictures with a Minox than with any other camera.

3¼ oz. light, ⅝" thin, 3⅞" short! When a picture is worth 10,000 words, Minox is the one camera you'll always have with you in pocket or purse, ready for action. Take pictures everywhere. Business. Pleasure. Office. Home. Candid's at club or convention. Big sparkling pictures. Superb color prints and slides of vacation or family! And new thrifty PREPAID PROCESSING by Minox Custom Service speeds your prints back to you in mere days.

For IIIS (Cat. No. 173105) **\$5.95**

# New Minox-Heliotron<sup>®</sup> ME-1 Electronic Flash Outfit for Minox B Camera.

The Minox-Heliotron consists of a tiny (2¼") two ounce chrome-finish flash head containing the flash tube and ready light, and a separate, small (3 x 4 x 1") ten ounce power pack with a built-in rechargeable nickel-cadmium battery which delivers up to 160 flashes on each full charge. The power pack can be recharged from any 110-117V AC outlet by means of the charger/power cord supplied with the outfit.

The flash head slides onto the Minox B camera and connects automatically with the camera's flash contact. A flexible 40-inch cord connects to the power pack which may be "worn" in a coat or shirt pocket or, by means of a built-in strap, attached to the trouser belt or slipped, glove-like, over a hand. The cord may be run through a coat sleeve for perfect concealment and quick readiness when wanted.

The signal light in the flash head indicates flash readiness and flash shots may be taken at intervals of 10 seconds with full power.

---

**Complete MINOX-Heliotron ME-1 Flash Outfit for MINOX B.** Includes flash head, power pack with built-in rechargeable nickel-cadmium battery, snap strap for attaching power pack to belt or hand, 40-inch flexible power connecting cord and 110-117V AC charger and power supply for operation direct from wall outlet.

(Cat. No. 172045)      \$74.95

Now, you can take exciting pictures 'round the clock—anywhere, anytime!

**10 oz. Power Pack** is easily carried in pocket or handbag. It can be attached to belt or slipped glove-like over hand. Use with Minox tripod, too.
