Dear Mr. Ancell:

I have your letter of the 2nd regarding the Yalta Secret Agreement. I am sorry but I do not feel that I am in a position to make any valuable comments on this subject. I have read articles and one or two books about it, but I do not feel competent to make any comments. I do think, however, that in judging the wisdom of the action taken, consideration must be given to the Intelligence reports which were presented by the military authorities to the principals at the Conference.

Sincerely yours,

MBFolsom:acm
