TRIPODS

TRIPODS

Because no one tripod can meet every photographic need, Bogen offers a broad selection of tripods ranging from our Compact 3411 Series to our Heavy Duty Super Pro. Each is available with a wide choice of heads, dollies, and performance-enhancing accessories so you can select the combination that best fits your working patterns: in your studio or in the field, whether you use 35's or view cameras, whether you use wide angles or tele's. You'll find here the versatility and stability you need. Tripods that are easy to manage, easy to move, and easy on you.

Professionals will appreciate the thought and the field testing that we've lavished on our tripods. That's because there's more to them than meets the eye. All our tripods use hard finish, high strength aluminum alloys. That's one reason why they resist wear and remain rigid and stable with heavy use and abuse. All our models employ a clamping system for leg length adjustment so that they resist fouling and scoring and stay secure even under rough field conditions. And the legs are keyed internally to keep the locks aligned and accessible—a not so small point you'll appreciate the next time you have to level a camera on rough terrain on a cold, windy day.

All Bogen tripods feature removable heads, but there's a unique locking system to make sure that you don't remove the head unless you want to. And the critical point at which the head is mounted uses a $\frac{3}{8}$ " (European) thread connector, 50% larger and much stronger than the quarter inch thread you'll find on most tripods. Most models incorporate a $\frac{3}{8}$ " head mounting screw for low-level shooting.

Whether it's features or performance you are looking for, you'll find both here. Whether you prefer high angle or low angle shooting, you'll find a practical way of doing it with Bogen Tripods. But most of all, you'll find they give you stability so your camera can adjust to life's ups and downs smoothly.

THE COMPACT **3411** SERIES TRIPODS

Designed especially for 35 mm cameras, this is one of our lightest, most versatile tripods. It features a reversible center post, weighs less than 4 lbs. and folds down to only 21 in., making it exceptionally easy to use and carry. Maximum height is 60 in.

Sturdy legs are made of tubular aluminum and feature sure-grip, quick-acting, non-fouling lever locks for quick and easy set-ups.

This is a solid tripod whose versatility can be made even greater when you add any of a number of Bogen Heads and accessories.

THE COMPACT CONVERTIBLE

3001

SERIES TRIPODS

This is our lightest ($3\frac{5}{8}$ lbs.) and the smallest (folds down to $20\frac{1}{2}$ in.) but one of the most versatile tripods we offer. No matter where you use this tripod, indoors or out, rough ground or smooth floor, Bogen's Compact Convertible Tripod sets up—steady, quick, and easy. An ideal tripod for 35's.

Legs are made of sturdy, tubular hard-finish aluminum and each has sure-grip, quick-acting lever locks that don't foul in sand or mud. Legs have three different separately settable click-stopped spread angles for easy levelling that allow you to get close to things like walls and tables or even boulders. Maximum elevation is $54\frac{1}{2}$ in. Adjustable leg-spread combined with reversible center post, lets you get as low as you like.

THE BASIC

3011

SERIES TRIPODS

Here's a tripod with exceptional stability that weighs just $5\frac{1}{4}$ lbs. Bogen professional quality through and through, the 3011 offers high utility combined with simplicity of use and easy portability. It's compact—yet it goes up to 60 in., and has a reversible center post that lets you shoot at almost ground level. Sturdy, tubular aluminum legs have sure-grip, quick-acting lever locks, ideal for cameras up to medium format. Choice of versatile heads and a variety of Bogen accessories.

THE CONVERTIBLE 3021 SERIES TRIPODS

The first thing you'll like about this tripod is its versatility. You'll find that no matter where you want to place your camera—indoors or out, rough terrain or smooth floor—the 3021 will accommodate you.

One of the reasons for this is the legs. Each has 3 different click-stopped spread angles so levelling is easy no matter how rough the going gets. Equally important, they let the 3021 work in confined areas where other tripods normally have to maintain an arm's—or leg's—length distance.

Maximum shooting height is 71 in. The adjustable spread of the legs combined with the convertible center post, which has a removable section, lets you get as low as 10 $\frac{1}{4}$ in. (Even minus the center post extension, you can go up to 64 $\frac{1}{2}$ " with 6" of center post.

THE PROFESSIONAL 3033 SERIES TRIPODS

Most true lightweight tripods are a bit shaky beyond three feet. Not our 3033. It's lightweight, yet can look you steadily in the eye and give support for great, vibration-free shots.

This makes it ideal for location shooting where you need a compact, sturdy tripod. The 3033 has three-section legs and a geared center post, which means it provides good maximum working height—67 in.—then telescopes into a really manageable package for carrying.

Leg adjustment is fast and easy, even when you're wearing gloves, thanks to our exclusive rocker arm leg lock, and a spirit level on the shoulder which shows you when you're on the level. Convertible cushioned spike tip legs and rigid center bracing hold everything firm.

THE WORK HORSE 3036 SERIES TRIPODS

You can use our 3036 Tripod at it's maximum height of 80³/₄ in., then lower it to 16¹/₂ in., or go virtually to ground zero by opening the legs and mounting the camera on the column bottom. Center post is geared and features an automatic safety lock with push button release. Most important, the 3036 maintains its stability at all heights.

Stability is enhanced by independent variable-spread leg braces that allow you to obtain differ entangles on each leg. The three legs are continuously adjustable in relation to each other. A real plus where you need a level head (and a built-in spirit level tells you when you are there). And the 3036's convertible cushion/spike tip legs give you sure footing indoors or out.

THE STURDY 3046 SERIES TRIPODS

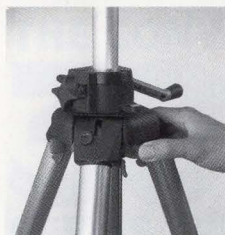

The 3046 Tripod weighs 8¹/₄ lbs., yet gives you features and strength normally found only in twenty pounders.

It's strong. Two section bi-post design, light-weight aluminum alloy construction, with exceptional sturdiness built-in. A single, easy to reach locking knob controls extension of each leg. Geared 19³/₄ in. center post has threaded ⁵/₈ in. mount on the bottom of the column to allow low angle shots. Maximum height is 68¹/₂ in., yet it folds to a compact 34¹/₄ in. Minimum height is 29 in., Legs are equipped with convertible cushion/spike tips.

It's on the level: Built-in shoulder spirit level keeps you on the level.

ORDER CODE 3240	3246 Black Anodized Tripod with 3047 Head

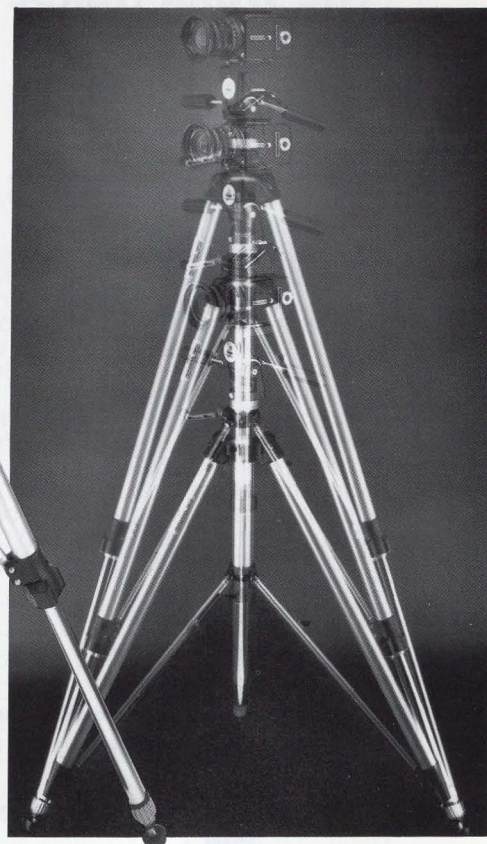

THE AUTOMATIC **3051** SERIES TRIPODS

Extension of each leg can be adjusted individually, or all three can be released simultaneously. All it takes is firm pressure on one of two separate sets of triggers.

These triggers let you move from as low as 15³/₄ in. to 63¹/₄ in., almost as fast as you can lift your camera. And, you can do it all with a level head, thanks to a built-in spirit level on the 3051's shoulder plus two more levels on the 3047 Pan/Tilt Head. Legs are equipped with convertible cushion/spike tips.

The 3051 Auto Tripod has independent, continuously variable leg braces that let you set each leg at a different angle. Ideal for uneven terrain, close quarters, low to the ground, just about everything.

3-D HEAD 3025

Separately locked movements on three axes make the 3025 perfect for 35's, and the conical self-adjusting bearing surfaces on the tilt pivots provide more than enough strength to support medium format cameras. Thumbscrew movement locks won't poke you in the eye like conventional handles sometimes do.

ORDER CODE 3025 3-D Head

SUPER 3-D HEAD 3028

The 3028 has the same three axes movement system, including a pan lock, as does the 3025. But we've made the camera platform a bit wider for better support of larger camera bodies and added a pair of ratchet-type positive locking handles that give you something substantial to grip, yet can be rotated to any desired position so they're always where you want them and never in your way.

ORDER CODE 3028 Super 3-D Head

PAN/TILT HEAD 3029

A beautifully designed, easy-to-use pan/tilt head for cameras up to medium format. Full 3-way action with each axis movement controlled by a separate locking handle.

ORDER CODE 3029 Pan/Tilt Head

PAN/TILT HEAD W/QUICK RELEASE 3030

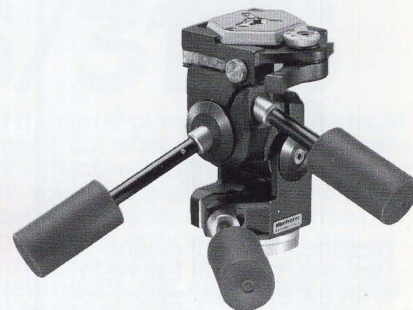

Similar to our 3029 pan tilt head but has a Quick-Release for easy camera changes.

ORDER CODE 3030 Pan/Tilt Head w/Quick Release

HEADS

How better to top your tripod than with a Bogen head? All will fit any Bogen Tripod, and the three locking screws in the center post platform ensure that head stays on until you want to take it off.

SUPER PRO HEAD 3039

Our top - of - the line head, finely machined for greater positioning precision with smooth, certain action. Three built-in bubble levels for horizontal and vertical. Oversized handles have calibrated degree indicators viewed from the operator's position for all axes. This is a rock - steady head that locks into position easily and surely. Quick - release Plate has a Safety Lock for greater security. Auxiliary 3/8" camera screw. The ideal head for heavy cameras and long lenses.

ORDER CODE 3039 Super Pro Head

DELUXE 3-WAY PAN HEAD

3047

Ever had a view camera set up for a precisely framed shot, only to have it move ever so slightly on your tripod head just when you've pulled the slide on a film holder? That won't happen with the 3047. Two fixed bosses seat the mounting plate, while the third opens and closes with a quick-acting, positive-locking lever. Mounting plate has an inlaid friction surface, and a convenient, adjustable length 1/4-20 mounting screw.

For heavier cameras, you can purchase mounting plates with a large, flathead screw. For an even more secure mount, these plates have small slotted wedging screws which can be tightened to bear against the camera base plate (3041 for 1/4-20 sockets, 3042 for 3/8" Euro threads). Both are tapped with 1/4-20 and Euro sockets so that they can be used with conventional tripods without removing the plate.

ORDER CODE 3047 Deluxe 3-Way Pan Head

HEAVY DUTY HEAD 3057

For large format cameras. Supplied with 4" x 4" quick release plate. (Order Code 3297). Oversized locking knobs and heavy-duty construction provide an extra measure of security for view cameras up to 8 x 10, for large format technical cameras, and for 70mm portrait cameras. Weighs 4lbs. 6oz. Height above base plate is 6". Provides tilts along lens axis from + 15° to - 90°, side movement allows full vertical positioning for fixed-back cameras.

ORDER CODE 3057 Heavy Duty Head

MINI BALL HEAD 3009

Designed for lightweight cameras, the Mini Ball Head is an excellent accessory for our Monopods, Car Window Pod, and Table Top Tripod.

ORDER CODE 3009 Mini Ball Head

SWIVEL TILT HEAD 3232

Designed particularly for Monopods, the Swivel Tilt Head features a one-axis movement which allows the positioning of the camera for a vertical format with the Monopod in the upright stance. Has a reversible 1/4-20 and 3/8 in. camera screw.

ORDER CODE 3232 Swivel Tilt Head

DOUBLE ACTION BALL JOINT HEAD 3026

HEAVY DUTY DOUBLE ACTION BALL JOINT HEAD 3055

A new and better idea in ball-joint heads. These have separate, quick-acting locks for panning and tilting functions. You can position your camera anywhere in a 180° sphere with confidence and ease.

Exclusive, quick-release mounting plates let you take your camera on and off quickly; yet offer positive, slip-proof fastening. Additional accessory mounting plates are available for both heads.

ORDER CODE 3026 Double Action Ball Joint Head

ORDER CODE 3055 Heavy Duty Double Action Ball Joint Head

GRIP ACTION BALL HEAD 3265

Grip the handle and you can position your camera anywhere within a 180° sphere. Supplied with a 1/4-20 Quick Release Plate, it features built-in bubble level and tension adjustment. Made of enameled cast metal, 8 1/4" high, weighs 1 lb. 14 oz.

ORDER CODE 3265 Grip Action Ball Head

DOLLIES

AUTO AND FOLDING AUTO DOLLIES 3056/3156

Many dollies brake against the caster or wheel itself, which can cause flats, wear, and slippage. But when you depress the centrally located foot pedal of either the Bogen Auto Dolly or the Bogen Folding Auto Dolly, you release all three wheels. When you lift the pedal, cam action raises the wheels free of the ground and the weight of the dolly and tripod rest on separate feet. The ideal companions for Bogen 3033, 3036, 3046, 3051 and 3058 series tripods, the **Auto Dolly** weighs only 6 lbs., incorporates Shephard Casters, and is easily assembled. Spread from center to tripod leg socket is 18½".

The **Folding Auto Dolly** features 3" wheels, weighs 9¾ lbs., spread from center to tripod leg socket is 20". Folds to a compact 29".

On either dolly, mounting and dismounting the tripod is accomplished by cam operated kick-locks. If you need to support a camera for very low angle shooting, we've thoughtfully provided a European thread stud on the central casting on which you can mount your Bogen head.

ORDER CODE 3056 Auto Dolly

ORDER CODE 3156 Folding Auto Dolly

ORDER CODE 3254 Black Folding Auto Dolly

HEAVY DUTY DOLLY 3067

We also use this model with our large Video Tripods. It features individually braked wheels measuring 5" in diameter and a unique locking system. Folds for transporting. The tripod legs are captured in a 38" diameter circle and the doorway clearance needed for the fully assembled dolly is only 39½".

ORDER CODE 3067 Heavy Duty Dolly

VARIABLE LEG SPREAD DOLLY 3137

Here's a dolly with a difference – variable leg spread for added versatility. The newest member in our growing dolly line, it has a special feature that allows you to adjust the radius from a maximum of 20" to as little as 12½". For use with all Bogen Tripods, this dolly has 2" casters with a sure-lock feature that raises casters free of the ground so that the dolly rests on separate feet.

ORDER CODE 3137 Variable Leg Spread Dolly

PORTABLE DOLLY 3127

Designed for all Bogen Tripods. This dolly weighs only 5 lbs. 4 oz. has a 20" radius and folds to a compact 22½". 3" wheels have a sure-lock feature that raises casters free of the ground so that the dolly rests on separate feet.

ORDER CODE 3127 Portable Dolly

3154

Allows any Bogen Tripod to accept male 3/8" thread. Allows use of the Side Arm (3059) as a column extension.

ORDER CODE 3154 Converter Plate

ADAPTER WITH FLANGE

3367

Converts 1/4 - 20 to 3/8"

ORDER CODE 3367 Adapter With Flange

90° DEGREE ALIGNMENT MOUNTING PLATE

3267

For architectural photography. Assures perfect alignment in the vertical position and repeatability.

ORDER CODE 3267 90° Alignment Mounting Plate

UNIVERSAL MOUNTING PLATE

3268

This unique design fits all Bogen Quick Release Heads. Comes complete with 1/4-20 and 3/8 in. screws.

ORDER CODE 3268 Universal Mounting Plate

PROJECTOR PLATFORM

3290

Aluminum Platform for projectors, speakers, etc. Attaches to Bogen Tripods w/o head. Measures 9 3/4" x 13 3/4".

ORDER CODE 3290 Projector Platform

HARD CASES

3285 AND 3286

Now you can protect your tripods from water, heat, cold, solvents and just plain wear and tear with lockable hard cases from Bogen. Available in two sizes, they're made of heavy duty high density polyethylene and feature exceptional impact resistance outside...superior cushioning inside. They also offer aluminum tongue and groove closures, recessed nickel-plated latches and piano hinges for long life. Small case measures 6" x 6" x 44" for 3033, 3036, 3046 and 3051 Tripods with all Heads. Large case measures 9 1/2" x 9 1/2" x 44".

ORDER CODE 3285 Small Case

ORDER CODE 3286 Large Case

ALL- WEATHER SHOES

3255

Snap these all-weather shoes onto your tripod legs and you're set for snow, sand or other irregular surfaces. Shoes attach easily and provide the stability you need.

ORDER CODE 3255 All-Weather Shoes (Set of 3)

QUICK RELEASE MOUNTING SYSTEM

3296

Designed to fit on any tripod which does not have the quick release feature. Supplied with Bogen Quick Release Plate and extra 3/8" screw. Base is threaded for 1/4 - 20 and 3/8".

ORDER CODE 3296 Quick Release Mounting System

CARRYING STRAP

3044

Here's an accessory strap for all Bogen tripods that makes carrying them easier. Goes off and on quickly and doesn't get in the way of your shooting.

ORDER CODE 3044 Carrying Strap
