

keys to MAMIYA TLR versatility: interchangeable LENSES and ACCESSORIES

Lens interchangeability ranks first among the advantages of the Mamiya twin-lens reflex. The present complement includes seven critically sharp, superbly corrected lens sets. They provide the Mamiya user with complete control of angle and perspective with which he can exploit the full potential of every picture situation. Mamiya lens sets consist of matched viewing and taking optics, the latter fitted in M-X synchro shutters with speeds from 1 second to 1/500th plus 'B'. They are interchangeable in all Mamiya twin-lens cameras. Lenses 105mm and longer are supplied with sportsfinder mask.

focal length	aperture range	picture angle	magnification	closest lens-to-subject distance*	area covered at closest distance	filter size
55mm	f4.5-22	70° 30'	0.52x	3"	2-1/2" sq.	46mm
65mm	f3.5-32	63°	0.6x	4"	2-5/8" sq.	49mm
80mm	f2.8-32	50° 40'	0.76x	7"	3-1/8" sq.	46mm
105mm	f3.5-32	41°	1.0x	16"	8-3/4" sq.	46mm
135mm	f4.5-45	33°	1.29x	24"	10" sq.	46mm
180mm	f4.5-45	24° 30'	1.71x	36"	10-7/8" sq.	49mm
250mm	f6.3-64	18°	2.38x	6'3"	12-3/8" sq.	49mm

*measured from front edge of lens, without supplementary lens.
complete depth-of-field information is furnished with each lens.

ACCESSORIES

1. Porrofinder (Product No. 60625)—Lightweight mirror system for eyelevel viewing/focusing. Shows image unreversed and right side up. Interchanges with standard focusing hood. Supplied with case.

2. CdS Porrofinder (Product No. 60628)—Similar to standard Porrofinder, but with built-in CdS spot meter. Measuring cell (6mm diameter) swings over finder screen, reads subject brightness thru viewing lens. EV 3-18 range. Adjusts for films ASA 12-6400. Supplied with case.

3. Eyelevel Prism Finder (Product No. 60732)—Provides unreversed, right-side-up image of entire screen. Interchanges with standard hood. Supplied with case.

4. Magnifying Hood (Product No. 60732)—Adjusts for 3.5x magnification of entire screen or 6x magnification of central picture area. Interchanges with standard hood.

5. Pistol Grip—Helps steady camera for eyelevel shots. Trigger release leaves one hand free for focusing. Universal Model (Product No. 60439) fits any Mamiya TLR. 330 Model (Product No. 60440), for Mamiya C330 only.

6. Grip Holder—Hefty, handy camera grip provides steadiness, security and added ease of handling. Universal Model (Product No. 60641) has wrap-around strap and accessory shoe for flash unit. Deluxe Model (Product No. 60640), for C330 only, has built-in trigger release.

7. Wide-Angle Optical Sportsfinder Adapter (Product No. 60704)—Gives eyelevel field of view for 55 and 65mm wide angle lenses. Snaps onto sportsfinder frame on focusing hood.

8. Interchangeable Finder Screens (for C330 only)—Six types available; see current price list for details.

9. Adapter Back for Sheet Film/Plate Holders (Product No. 60665 for C330; No. 60663 for all other models except C220)—For medical, scientific and other applications requiring special emulsions. Accepts standard sizes: $2\frac{1}{4} \times 3\frac{1}{4}$, $2\frac{1}{2} \times 3\frac{1}{2}$ and 6.5×9 cm. Supplied with 3 film/plate holders.

10. Paramender Parallax Corrector (Product No. 60600)—Provides precise parallax correction for close-ups with tripod-mounted camera.

11. Optical Glass Filters—Coated, optically flat. Screw-in mounts, 46mm and 49mm. Colors: yellow, orange, green, red and UV haze.

12. Lens Hoods—Four available: Individual hoods for 55 and 65mm lenses, another for 80, 105 and 135mm, plus one for 180 and 250mm lenses.

13. Eveready Camera Cases—Semi-soft cases with hinge-drop fronts. Supplied with adjustable neckstrap.

14. Lens Cases—Reinforced, plush-lined. Each holds lens set with caps and finder mask.

15. Pro Compartment Case (Product No. 60406)—Sturdy, reinforced, fitted case, finished black. Holds camera with grip handle and Porrofinder attached; also 3 additional lens sets, filters, lens hoods, film and compact flash unit. Supplied with adjustable shoulder strap.

16. Expanded Clip-On Distance Scale for 55-65mm and 80mm lenses (Product No. 60630)—Attaches to accessory shoe on side of camera. Focusing movement of lens standard actuates moving scale. Shows subject distance under index line in large numerals visible from above. (Does not fit C220).
