

keys to versatility

MAMIYA REFLEX

interchangeable

ACCESSORIES

and LENSES

Lens interchangeability ranks first among the advantages of the Mamiya twin-lens reflex. The present complement includes seven critically sharp, superbly corrected lens sets. They provide the Mamiya user with complete control of angle and perspective with which he can exploit the full potential of every picture situation. Mamiya lens sets consist of matched viewing and taking optics, the latter fitted in M-X synchro shutters with speeds from 1 second to 1/500th plus 'B'. They are interchangeable in all Mamiya twin-lens cameras. Lenses 105mm and longer are supplied with sportsfinder mask.

focal length	aperture range	picture angle	magnification	closest lens-to-subject distance*	area covered at closest distance	filter size
55mm	f4.5-22	70° 30'	0.52x	3"	2-1/2" sq.	46mm
65mm	f3.5-32	63°	0.6x	4"	2-5/8" sq.	49mm
80mm	f2.8-32	50° 40'	0.76x	7"	3-1/8" sq.	46mm **
105mm	f3.5-32	41°	1.0x	16"	8-3/4" sq.	46mm **
135mm	f4.5-45	33°	1.29x	24"	10" sq.	46mm
180mm	f4.5-45	24° 30'	1.71x	36"	10-7/8" sq.	49mm
250mm	f6.3-64	18°	2.38x	6'3"	12-3/8" sq.	49mm

*measured from front edge of lens, without supplementary lens.

**for lens in Seiko-SLV shutter. Lens in Seikosha-S shutter uses 40.5mm filter. complete depth-of-field information is furnished with each lens.

ACCESSORIES

1. Porrofinder — Lightweight mirror system for eyelevel viewing/focusing. Shows image unreversed and right side up. Interchanges with standard focusing hood.

2. CdS Porrofinder — Similar to standard Porrofinder, but with built-in CdS spot meter. Measuring cell (6mm diameter) swings over finder screen, reads subject brightness thru viewing lens. EV 3-18 range. Adjusts for films ASA 12-6400.

3. Eyelevel Prism Finder — Provides unreversed, right-side-up image of entire screen. Interchanges with standard hood.

4. Magnifying Hood — Adjusts for 3.5x magnification of entire screen or 6x magnification of central picture area. Interchanges with standard hood.

5. Pistol Grip — Helps steady camera for eyelevel shots. Trigger release leaves one hand free for focusing.

6. Grip Handle — Hefty, handy camera grip with wraparound leather strap provides steadiness, security and added ease of handling. Has built-in accessory shoe for flash unit.

7. Wide Angle Optical Sportsfinder Adapter — Gives eye-level field of view for 55 and 65mm wide angle lenses. Snaps onto sportsfinder frame on focusing hood.

8. 220 Roll Film Back — Adapts C33 and C22 models (equipped with 24-exposure counter) for use with 220 film. Automatically programs camera counter for 24 exposures. Replaces standard 120 back.

9. Adapter Back for Sheet Film Plate Holders — For medical, scientific and other applications requiring special emul-

sions. Accepts standard sizes: 2 1/4 x 3 3/4", 2 1/2 x 3 1/2" and 6.5x9 cm. Supplied with 3 film/plate holders. (Does not fit C220).

10. Paramender Parallax Corrector — Provides precise parallax correction for close-ups with tripod-mounted camera.

11. Optical Glass Filters — Coated, optically flat. Screw-in mounts: 40.5mm, 46mm and 49mm. Colors: yellow, orange, green, red and UV haze.

12. Lens Hoods — Three available: 2 conventional types, one for 55 and 65mm lenses, another for 80, 105 and 135mm lenses; double type for 180 and 250mm lenses.

13. Eveready Camera Cases — Rigid, plush-lined cases with hinge-drop fronts. Made of top-grain cowhide. Supplied with adjustable neckstrap.

14. Lens Cases — Reinforced, plush-lined cases made of top-grain leather. Each holds lens set with caps and finder mask.

15. Pro Compartment Case — Sturdy, reinforced, fitted case made of top-grain cowhide, finished black. Holds camera with grip handle and Porrofinder attached; also 3 additional lens sets, filters, lens hoods, film and compact flash unit. Supplied with adjustable shoulder strap.

16. Expanded Clip-On Distance Scale for 55-65mm and 80mm lenses — Attaches to accessory shoe alongside camera. Focusing movement of lens standard actuates moving scale. Shows subject distance under index line in large numerals visible from above. (Does not fit C220)

All accessories (except 220 back) may be used with previous Mamiya reflex models.
