KORONAS.

TAKEN WITH A 4 x 5 KORONA.

When You Do Buy a Camera, Get the Best.

REASONS FOR BUYING A KORONA.

PRODUCT OF 1894.

Korona Cameras excel all other folding cameras in improved adjustments and workmanship.

They are extremely compact, light and easy to manipulate, scientifically constructed and adapted for view or portrait work.

We do not expect a mere statement to convince, but invite a comparison of a *Korona* with any other camera.

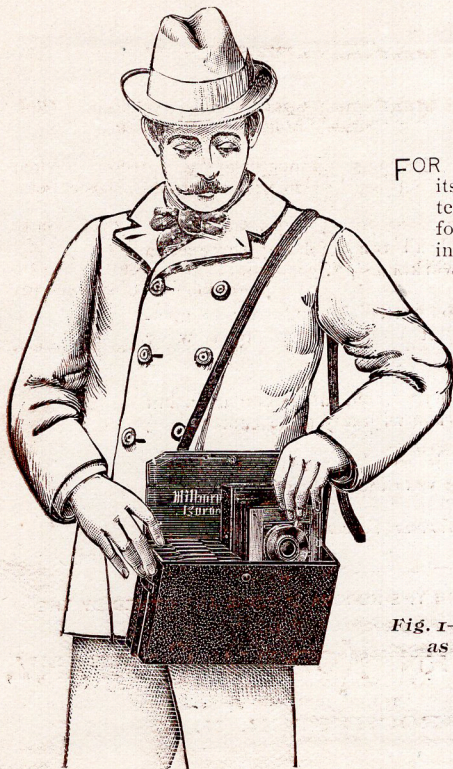

Every *Korona Camera* is tested in actual use before it leaves our factory, obviating vexatious failures.

We guarantee every *Korona Camera* to be perfect.

PATENTS ON THE KORONA CAMERAS ARE OWNED BY THE

MILBURN KORONA COMPANY,

ROCHESTER, N. Y.

FOR USE—Remove the *Korona* from its case, as shown in Fig. 1, then distend to its utmost, when it will be found to be automatically locked and in focus for distant objects.

FOR NEAR OBJECTS—Rack out the lens by means of the thumb-screw at the side of front-board. To this feature we wish to call special attention, it being a very superior method of arriving at a definite focus.

TO CLOSE THE KORONA—Release the lock by pressing on side spring buttons on front-board.

Fig. 1—Showing the No. A Korona as it is taken from its case.

WE believe when these new features are once understood they will be highly appreciated. We call particular attention to the C Koronas.

When You Do Buy a Camera, Get the Best.

PRODUCT OF 1894.

Neat,
Elegant
and
Inconspic-
uous.

No. A. KORONA.

A Hand and Tripod Camera for 4 x 5 Pictures—Views or Portraits.

THE most compact folding Camera. When closed it measures but 3 inches in thickness.

FROM the outside appearance, you would never guess the *No. A Korona Folio Carrying Case* to be a camera, yet it contains the *Korona Camera* and six double plate holders for twelve plates.

SIZE $3\frac{1}{4} \times 6 \times 10$ inches, and weighs only three pounds and two ounces.

No. A KORONA is provided with a Gundlach Optical Co.'s rapid rectilinear combination lens and shutter, a reversible view-finder with metal hood.

ALL THE KORONAS can be focussed by scale or ground glass. When using the latter, the entire ground glass is exposed to view by swinging the back of camera to which the plate-holder pocket is attached.

PRICE COMPLETE, INCLUDING LEATHER CASE AND A DOUBLE RUBBER SLIDE PLATE-HOLDER.....\$30.00

SWING—The lens can be swung to almost any angle, by first releasing lock in the same manner as when closing the camera,

KORONA CAMERAS are provided with the best grade of Gundlach Optical Co.'s make of lenses. Other make of lenses can be substituted. Price will be quoted on application. When writing mention make of lens, length of focus, etc.

When You Do Buy a Camera, Get the Best.

PRODUCT OF 1894.

No. B KORONA.

A Hand Tripod Camera for 4 x 5 Pictures.
Views or portraits.

Compact,
Fine
Adjust-
ments.

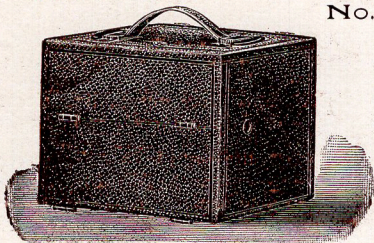

FIG. 4—SIZE 5½ x 5¾ x 6¾.

In this camera the carrying case forms part of the camera. It is focused in the same manner as the No. A Korona; i. e. Pull out the front-board until automatically locked, when it will be in focus for distant objects.

Elegant,
Neat,
and
Substan-
tial.

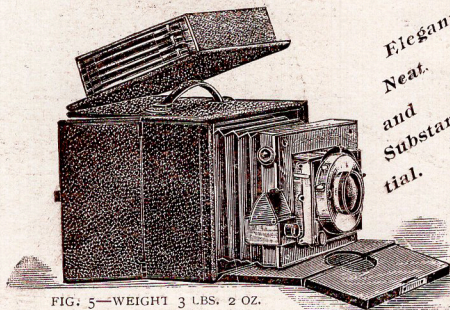

FIG. 5—WEIGHT 3 LBS. 2 OZ.

FOR NEAR OBJECTS—Rack out the lens by means of thumb-screw on side of front-board. The lens can be swung to almost any angle, by first releasing spring buttons on the side of front-board.

It has a double-acting view-finder with metal hood. It has a new patented pocket for plate-holders, swinging out of the way of the ground glass. (See Fig. 5.) This makes focusing on the ground glass convenient and practical.

PRICE COMPLETE, INCLUDING LEATHER CASE AND DOUBLE RUBBER SLIDE PLATE HOLDER \$32.50

THE BED BOARD is divided and hinged, which facilitates the use of a wide angle lens, when so desired.

No. B KORONA is provided with a Gundlach Optical Co.'s Rapid Rectilinear Double-Combination Lens and Shutter, a reversible view-finder with metal hood.

Cameras.

No. C KORONAS

Are Made in two Sizes for 4 x 5 and 5 x 7
Pictures. Views or Portraits.

SIZE of C KORONAS for 4 x 5 pictures— $5\frac{1}{2}$ x $5\frac{3}{4}$ x $6\frac{1}{4}$ inches; weight three pounds and two ounces. Size of C KORONAS for 5 x 7 pictures— $6\frac{1}{2}$ x $9\frac{1}{4}$ x 7 inches; weight five pounds.

THE most perfect folding cameras ever made. They are made with double swings, yet are extremely compact.

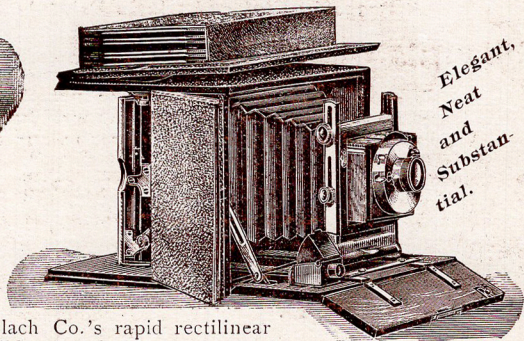

THE C KORONAS are provided with Gundlach Co.'s rapid rectilinear double-combination lenses and shutters, reversible view-finders with metal hoods. Patented pockets for plate-holders.

BED BOARDS are divided and hinged, to facilitate the use of wide angle lens.

PRICE COMPLETE, INCLUDING DOUBLE RUBBER SLIDE PLATE HOLDERS, C KORONAS, 4 x 5 PICTURES\$30.00
5 x 7\$40.00

KORONA CAMERAS must be seen to be appreciated. The chief difference between the C, B and A KORONAS is in the construction, the principle being much alike.

THE C KORONAS are focused by pulling out the front-board to the stop bar and locking by means of small lever in front, when it will be found to be in focus for distant objects. For near objects, the lens is racked out by turning thumb-screw on the side of front-board.
