

NEW SIMPLIFIED PATHE REPORT 16 AND PATHE REPORT DOUBLE SUPER 8 MOVIE CAMERAS

EXCLUSIVE FEATURE LIST

1. Lightweight (6 lbs.), compact (9" x 3.4" x 6.9"), yet very rugged.
2. Take standard 100 ft. daylight loading reels (see Double Super 8mm film list).
3. Accept 400 ft. magazine, for uninterrupted filmruns of 11 minutes (16mm) or 2x20 minutes (DS8mm).
4. Fingertip release on perfectly angled, detachable pistolgrip, or cable-release on top of camera.
5. Choice of interchangeable C-Mount lenses.
6. Brilliant reflex image with finest etched ground glass and crosshair.
7. Picture is magnified 20% for optimal brightness, with diopter adjustment for individual eyesight.
8. Precise and shockproof electronic BTL behind-the-lens CDS-cell meter with 2 LEDs light emitting diodes, indicating over and under exposure.
9. Variable exposure speeds from 8-32 frames per second, for 12-400 ASA.
10. Integral electric motor 12 Volt DC.
11. Power supply by 8 standard 1.5 Volt batteries inside camera for up to 12 reels, or by external 12 Volt DC battery.
12. Footage counter subtracts to zero.
13. Built-in sound synchronization for one pulse per frame, also suitable for electronic flash.
14. Full one year warranty.

IDEAL FOR SCHOOLS, TV STATIONS, SOPHISTICATED AMATEURS, PROFESSIONAL CINEMATOGRAPHERS
