

THE FASCINATING ELECTRONIC 35MM SLR CAMERA CUSTOM-BUILT IN SWITZERLAND FOR YOU...

THE **ALPA** FORMULA: SWISS CHRONOMETER PRECISION + HAND SELECTED LENSES =
UNCONDITIONAL GUARANTEE FOR HIGHEST MECHANICAL, ELECTRONIC AND OPTICAL PERFORMANCE

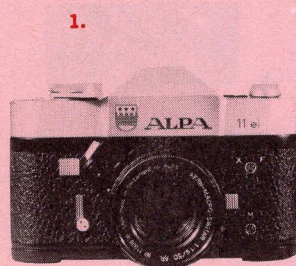

1. A masterpiece of inimitable Swiss precision engineering, optics and electronics, literally custom-built for you like the finest Swiss chronometer.
2. Uncompromisingly solid, virtually unbendable and indestructible die-cast body (no punched-out sheet metal) and sturdy Swiss precision mechanism withstand the most rugged use, for lifelong durability.
3. Lightweight (27 ounces), compact (3 5/8" x 5 3/4" x 1 7/8"), highly automated and virtually foolproof, with instant fingertip controls, for smooth, easy, rapid handling.
4. Streamlined, ultra versatile, sophisticated all-purpose camera, with an exclusive choice of most desirable features for peak performance.
5. Ingenious, unbelievably precise and shockproof electronic light-matching meter, for easier, more sensitive and far more accurate readings—up to 1/10 of an f/stop.
6. Large yellow arrow indicates over-exposure, small red arrow under exposure.
7. Just turn diaphragm (or speed dial) in direction of illuminated arrow, until both arrows light up simultaneously, and your exposure is automatically right.
8. Brilliant arrows are visible even under poorest light conditions, both below ground glass and on top of camera.
9. Arrows are also automatic testlights for standard PX 28 Mallory 6 Volt longlife, leak-proof silver oxide battery, suited for extreme temperatures.
10. 2 CdS cells give centerweighted, optical readings, 3rd CdS cell compensates for light entering eyepiece, electronically computing accurate exposures.
11. Combined meter/shutter release lock offers 3-way choice: light reading with instant release, or light reading with locked release, or release with disconnected light meter.
12. Shockproof, solid state electronic circuit board with 6 transistors and goldplated contacts (instead of delicate galvanometer and quivering needle) withstands the most rugged use, eliminates most meter repairs.
13. Precisely framed 23x35mm image with 1/2mm safety margin for slide mount cut-offs guarantees absolutely accurate composition.
14. Finest grain ground glass, precision ground prism and large mirror offer brilliant image in 1:1 LIFE size.
15. ALL-IN-ONE screen offers 4-way choice, without any screen changes: Ground glass for easy framing and depth-of-field control, 45° diagonal split-image rangefinder for instant line-up on vertical or horizontal lines, micro-prism collar for pinpoint accuracy, clear glass collar with aerial image, for instant viewing of subject, extreme close-ups and photomicrography.
16. Crosshair calibrated in mm, for precise measurements and comparisons.
17. Large, rotating soft rubber eyecup with bayonet mount interchanges easily with angle viewer or magnifier, accepts prescription lenses, 0.7x ocular.
18. Hair-trigger release operates instant-return mirror and smooth gliding, quiet focal-plane shutter on ball bearings.
19. Mirror can be locked up to eliminate vibration, for telephoto lenses, close-ups, photomicrography, etc.
20. High-speed lever for instant winding, without removing ALPA from your eye.
21. High-speed rewind knob with parallelogram, pulls out for quickest rewinding—within seconds.
22. Extreme film speed range: 3-6400 ASA, with intermediate settings, plus separate film reminder.
23. Electronically tested Swiss precision shutter running on ball bearings: 1/1000-1 second, with intermediate settings, plus 4 seconds, B and T, XF and M synchronization.
24. Precise double or multiple exposures, without any film advance.
25. Exposure counter returns automatically to 3 numbers below zero when reloading.
26. Automatic selftimer with 1-20 seconds delay.
27. World famous Macro-Switar 50mm f/1.9 ALL-IN-ONE AUTO-APOCHROMAT combines wide aperture, critical sharpness, APOCHROMATIC correction with precise color fidelity, and focusing from infinity all the way down to 7" (1:3) without any accessories, in ONE standard lens.
28. Each Macro-Switar is calibrated with distances (white), Vistofocus depth-of-field indicator (orange), reproduction ratios (red), exposure factors (green), and supplied with its test film.
29. Choice of more than 35 ALPA lenses of finest optical quality, selected from top manufacturers—Kern, Kinoptik, Angenieux, Schneider, Takumar, Volpi, Zeiss, Zoomar—from 360° (circular image) ultra-wide angle up to 5000mm super-telephoto.
30. Choice of unrivaled APOCHROMATS: Kern Macro-Switar 50mm f/1.9, Kinoptik 18mm f/1.8, 50mm f/2, 75mm f/2, 100mm f/2 and 150mm 1/2.8 offer you ultra luminosity, needle-sharp definition, complete scale of authentic tonal values, acute contrasts and precise color fidelity.
31. Choice of ALL-IN-ONE Macro-Lenses focus from infinity all the way down to 1:1 without any accessories: Macro-Kilar 40mm to 2", Super-Macro-Kilar 90mm to 5", Kinoptik 50mm to 1", 75mm to 2", 100mm to 5" and 150mm to 8".
32. ALPA has maintained the same excellent quick-change bayonet lens mount for more than 25 years, for continued interchangeability of all cameras and lenses, without any obsolescence.
33. Each ALPA lens is individually tested twice—by lens and ALPA factories—and hand selected for you, carries an unconditional guarantee for optical excellence.
34. Choice of more than 1000 adaptable lenses: Adapters for Exakta, Leica, Leicaflex, Nikon, Pentax, Rollei, T-mount lenses, etc., provide infinity focusing, precise through-the-lens light readings, and with auto-adapters even automatic diaphragm control.
35. Solid snap-in filters, precision ground of finest optical glass dyed-in-the-mass, plane parallel and coated, match superior quality of ALPA lenses.
36. Reversible lenshoods fit into camera, compartment or lens cases; recessed sockets for shoulder strap.
37. Macro-lenses, bellows, extension tubes, inversion rings, etc., offer continuous focusing range from infinity all the way down to close-ups of 1:10—1:1—10:1—20:1—(with microscope) 1500:1x magnification, without any gap.
38. ALPA Macrostat stand, an incredibly versatile and portable miniature photo studio based on the construction-unit principle, easily solves any problems of copy and close-up work—indoors or outdoors.
39. ALPA half (single) frame cameras 18x24mm or 17x22.5mm (filmstrip), with optional spacing accuracy of 0.05mm.
40. ALPA electric motor for automatic one-by-one shots or entire sequences, manually, or by remote release, radio, timer, programmer, etc.
41. ALPA 100 ft. backs for standard daylight loading reels offer up to 800 full frame or 1600 half frame (up to 1200 or 2400 with thin-base film) exposures, without any rewinding and reloading.
42. Registration pins of 100 ft. back provide incredible spacing accuracy of 0.02mm, suitable for both 35mm filmstrip or motion picture projectors.
43. Specialized ALPA models for micro-filming, surgery, cystoscopes, screen recordings, sports timing, large volume photography, etc. with choice of picture sizes from 1x24mm up to 24x38mm.
44. Choice of attractive chrome, black chrome, or black finish, or 24 Karat gold-plated top, with black, dark red, green, blue, grey, rosewood or reptile coverings.
45. Ultra modern styling, enhanced by handsome ALPA coat-of-arms, in brilliant red and gold.
46. Gold plate for personalizing ALPA with your initials.
47. ALPA's limited production meets the most rigid European quality standards.
48. Every ALPA is bench-assembled from more than 700 precision parts, by skilled master craftsmen, trained in the inimitable art of Swiss precision for half a lifetime.
49. Each ALPA camera passes the most severe, 100% quality controls, is geared for more than 100,000 operations.
50. World-wide guarantee for highest mechanical, electronic and optical performance.

IDEAL FOR BEGINNERS, INTERMEDIATES, EXPERTS, PROFESSIONALS, SCIENTIFIC AND INDUSTRIAL PHOTOGRAPHERS, PHOTO-JOURNALISM, SPORTS, MACRO-PHOTOGRAPHY, PHOTOMICROGRAPHY, COPY-WORK, MICRO-FILMING, FILMSTRIPS, LARGE VOLUME PHOTOGRAPHY, RAPID SEQUENCES, COMPLETELY AUTOMATIC RECORDINGS — ANY TYPE OF PHOTOGRAPHY.

YOUR CHOICE OF OVER 35 HAND SELECTED LENSES FROM 360° UP TO 5000mm PLUS MORE THAN 1000 ADAPTABLE LENSES

Choice of unrivaled APOCHROMATS: Kern Macro-Switar 50mm f/1.9 Kinoptik 18mm f/1.8, 50mm f/2, 75mm f/2, 10mm f/2 and 150mm 1/2.8 offer you ultra luminosity, needle-sharp definition, complete scale of authentic tonal values, acute contrasts and precise color fidelity.

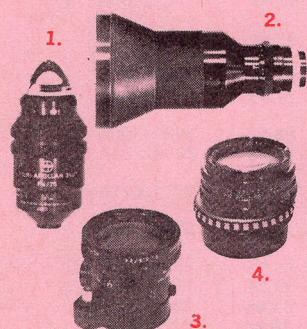

Choice of ALL-IN-ONE Macro-Lenses focus from infinity all the way down to 1:1 without any accessories: Macro-Kilar 40mm to 2", Super-Macro-Kilar 90mm to 5", Kinoptik 50mm to 1", 75mm to 2", 100mm to 5" and 150mm to 8".

ALPA has maintained the same excellent quick-change bayonet lens mount for more than 25 years, for continued inter-

changeability of all cameras and lenses, without any obsolescence.

Each ALPA lens is individually tested twice—by lens and ALPA factories—and hand selected for you, carries an unconditional guarantee for optical excellence.

Choice of more than 1000 adaptable lenses: Adapters for Exakta, Leica, Leicaflex, Nikon, Pentax, Rollei, T-mount lenses, etc., provide infinity focusing, precise through-the-lens light readings, and with auto-adapters even automatic diaphragm control.

THE MULTIPLE COMBINATIONS OF THE MACROSTAT*

THE MACROSTAT CAN BE USED WITH OTHER 35MM, 2 1/4" x 2 1/4" AND 4 x 5 CAMERAS

ALPA Macrostat stand, an incredibly versatile miniature photo studio of modular design for multiple combinations, easily solves any problem of copy work and close-up photography — indoors or outdoors.

ALPA bellows, extension tubes and close-up lenses offer you a continuous focusing range from infinity all the way down to ultra close-ups of 1:10 - 1:1 - 20:1 — and (with microscope) 1500:1, without any gaps!

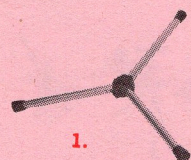

IDEAL FOR COPYING DOCUMENTS, BLUE PRINTS, MAPS, BOOK PAGES, FILMS, SLIDES, PICTURES OF FLOWERS, INSECTS, JEWELS, OTHER SMALL OBJECTS, EXTREME CLOSE-UPS, MICRO-SLIDES, PRODUCTION OF FILMSTRIPS, TIMELAPSE MOTION PICTURES, INDOORS OR OUTDOORS — ANY TYPE OF COPY OR CLOSE-UP PHOTOGRAPHY.

	CODE		PRICE	CATALOG NUMBER
BASIC SET	macrofix	Stand w/simple table fixture (basnox, 2 colon, conox, camtig)	149.50	600120/00A
