

# Rollei XF35

## The new Rollei XF35 for perfect pictures without worry. New fully automatic 24 x 36mm compact camera.

The Rollei XF35 is a compact, high-performance 35mm camera with programmed CdS exposure automation with shutter speeds from 1/650 to 1/30 second and apertures from f/2.3 to f/16, settings visible in the view-finder, a coupled rangefinder, automatic flash control, self-timer and hot-shoe flash contact.

A superior lens is a pre-requisite for really sharp pictures. Rollei, therefore, developed a 5-element high-quality lens for the Rollei XF35.

The famous and proved Sonnar lens type now appears in a compact camera as the 40mm Sonnar\* f/2.3, made by Rollei, to guarantee first class pictures.
