FEATURE LIST

## 16MM-TV-APO-REPRO LENSES OF FINEST OPTICAL QUALITY

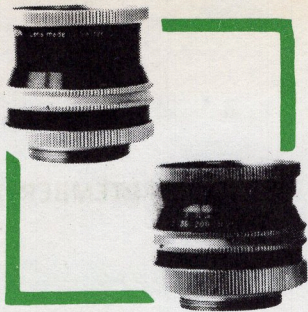

**Unique combination of striking brilliance, critical definition, acute contrast, authentic tonal values and precise color fidelity—with lightweight, compact, yet very rugged precision construction.**

1. Masterpieces of inimitable Swiss precision optics and engineering, literally custom built for you like the finest Swiss watch.
2. Each individual lens element is precision ground by skilled Swiss craftsmen, trained in the art of lensmaking for half a lifetime.
3. Special KERN AR anti-reflection coating prevents stray reflections, protects against tarnishing and scratches, increases luminosity by 50% for strikingly brilliant overall illumination.
4. KERN lens formulas provide needle sharp definition, for reproduction of finest details.
5. Acute contrast, complete scale of authentic tonal values, precise color fidelity.
6. KERN VISIFOCUS automatic depth-of-field scales with flashing orange color dots, clearly indicate exact range of sharpness for each clickstop of diaphragm.
7. Special Macro-Switar 75mm f/1.9, Macro-Yvar 100mm f/2.8 and Macro-Yvar 150mm f/3.3 focus from infinity down to closest distances, without accessories.
8. Unbelievably lightweight metal construction provides drastic weight reduction, for utmost handling ease (see weights below).
9. Uncompromisingly solid, virtually indestructible Swiss precision mechanism withstands the most rugged use, for lifelong durability.
10. Precision built by KERN, Switzerland, makers of the world famous Macro-Switar 50mm f/1.9 APOCHROMAT for the ALPA 35mm single-lens reflex camera as well as KERN prism binoculars and telescopes.
11. ALL KERN lenses pass the most severe, 100% quality controls to meet the most rigid European precision standards.
12. KERN lenses carry an unconditional guarantee for highest optical and mechanical performance.

**IDEAL FOR 16MM MOVIE, TELEVISION, VIDEO, REPRO, HIGHSPEED, UNDERWATER AND SPACE CAMERAS...  
AS WELL AS PROJECTION AND INSTRUMENTATION**
