

OMEGA VIEW 45F 4"x5" View Camera

The Omega View 45F is an exceptionally versatile 4"x5" view camera, complementing the proven design of the 45E with two impressive, additional features: a standard revolving back and the provision for a wide angle bellows. Even greater flexibility is now possible for the professional, photo student, and serious amateur photographer. Modular designed, accessories are completely interchangeable with the 45E.

Key Features

- 360° revolving back for maximum composing freedom.
- Provision for wide angle bellows
- Full complement of camera movements: Swings, tilts, lateral shifts, rising front and back.
- Swings, tilts and lateral shifts are detented for easy zeroing.
- Rack and pinion movement with lock for rising front and back.
- Easy to apply reference scales are provided for tilts and lateral shifts.
- Accepts all standard 4x5 sheet film holders, Polaroid™ Land Film Holder Model 545, film packs and Graflok™ accessories.
- Large monorail for greater rigidity.
- Elevated monorail rib maintains precise alignment of front and rear standards.
- Rigid tripod mounting block with two tripod mounting sockets.
- Fast and micro focusing for front and rear standards with lock.
- Large square lensboard accepts nearly all lens and shutter combinations.
- Two spirit levels on rear standard.
