

# New **KEYSTONE** K-14D Sensitron Electric Motor Drive 8mm Reflex Auto-Zoom Movie Camera

# K-14D

## **EXCLUSIVE**

Light-Guard electronic system stops camera from running when light is too weak for proper exposure. Completely takes the guess-work out of movie taking . . . assures perfect exposure on every foot of film and eliminates film waste.

Detachable Battery Storage Unit in Pistol Grip holds 5 long-life penlight size manganese batteries.

## *what does it have?*

- Electric Motor Drive
- Sensitron "Behind-the-Lens" Electric Eye System
- Reflex "Through-the-Lens" Viewfinder
- Feather-Touch Power Control
- Pistol Grip with Battery Storage Unit
- Distance Focusing Ring
- Exposure Indicator in Viewfinder

## *what does it do?*

- *Smooth, continuous, all-automatic ELECTRIC POWER. Always ready to shoot, no missed shots, no winding ever.*
- *New CdS "Behind-the-Lens" system (using a mercury battery) is the ultimate Electric Eye. Sensitive CdS exposure-setting cell is located in the lens system — "sees" exactly the same light as the lens sees and automatically sets exposure accordingly. Adjusts instantly to delicate light changes on zoom shots and fast-moving action scenes. Assures perfect exposure on every shot.*
- *Everything you see in the viewfinder will be recorded on your film . . . framed exactly as you see it; totally eliminates parallax error.*
- *Zooms smoothly — at the touch of the control — from wide-angle to normal to telephoto and back. f1.8 focusing lens has 9 to 27mm range.*
- *Assures smooth, steady shooting. Trigger activates the camera. Permanently attached, with detachable battery storage unit.*
- *Assures pinpoint focus at any distance . . . including portrait-sharp close-ups. Setting for 6 ft. to infinity.*
- *Continually tells you lens setting.*

● Other Features: Battery test indicator in viewfinder. Alternate manual exposure control. Film Speed Selector automatically adjusts lens setting for all popular 8mm films, ASA 10-40. Built-in "A" Filter . . . for shooting indoor film outdoors. Automatic Footage Indicator. Pistol Grip Trigger for Regular or Continuous Run. Focusing eyepiece. Governor-Controlled Motor. Built-In Threaded Socket for light bar or tripod. Simple Drop-In Film Loading. Lens Cover. Compact die-cast aluminum body. Metallic gray finish with contrasting vinyl and chrome.
