# KEYSTONE K-10 PUSHBUTTON-POWER ZOOM

8mm MOVIE CAMERA

**1 PUSHBUTTON-POWER ZOOM LENS** Touch the control and zoom automatically, smoothly from wide-angle to normal to telephoto. Another touch zooms you back again. Alternate Manual Control lets you frame each scene before shooting, eliminates wasted film footage.

**2 FULLY AUTOMATIC ELECTRIC EYE** Responds instantly, continuously to light changes to automatically set lens for perfect exposures. Manual Exposure Control lets you set lens for dramatic lighting effects including professional fade-ins and fade-outs. Electric Eye can be used as light meter to guide manual lens settings.

**3 DISTANCE FOCUSING RING** Lets you focus lens at pinpoint sharpness at any distance 6 ft. to infinity. Gives portrait-sharp closeups. Can be set at "Universal" position for general outdoor shooting, if preferred.

**4 ZOOM VIEWFINDER** Zooms automatically with the lens to show you what you're shooting, even while zooming. Indicator in viewfinder tells you lens setting, warns when the light is not adequate for good pictures.

## OTHER FEATURES AND SPECIFICATIONS:

Automatic footage indicator. 3-way trigger: regular, locked and single-frame run. Long-run, governor-controlled motor. Folding crank wind. Built-in threaded socket for light bar or tripod.
