

NEW KEYSTONE K-8C AND K-8 DELUXE ELECTRIC EYE ZOOM MOVIE CAMERAS

**K-8C
K-8D**

NEW
"HORIZON"
SERIES

Handsome, compact styling. Packed with a host of advanced, professional features . . . including a fully-automatic electric eye system, and smooth, sure ZOOM control.

what does it have?

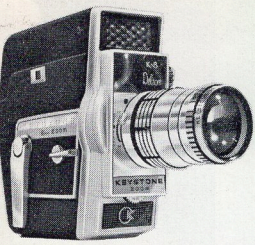

- K-8C has fast *f*1.8FF Zoom Lens
- K-8 Deluxe has *f*1.8 Focusing Zoom Lens

what does it do?

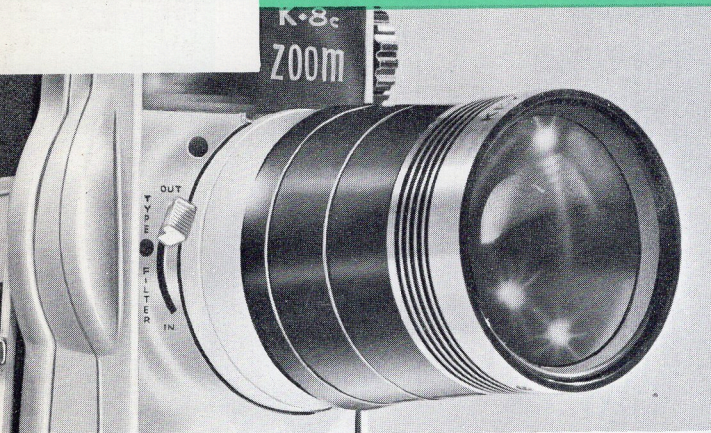

- Gives brilliant pictures over entire Zoom range — 9 to 27mm — because it's always in focus even while you're zooming!
- Distance focusing rings assure pinpoint focusing at any distance . . . from close-ups to infinity. Zooms in focus over 9 to 27mm range.

BOTH K-8C AND K-8D HAVE THESE FEATURES:

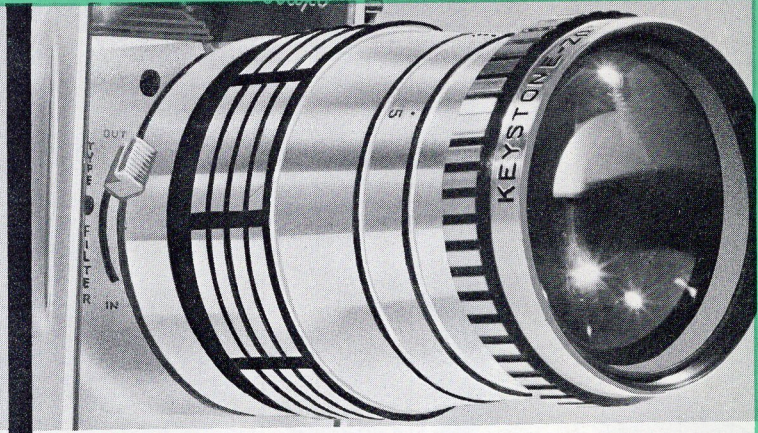

- Automatic Electric Eye System
 - Sets the lens instantaneously . . . automatically for perfect pictures every time. Continuously resets for every light change while you're shooting.
- Smooth, Sure Zoom Control
 - Just turn the ZOOM Control Knob, conveniently located on side of camera, to shift from wide-angle to normal to telephoto scenes and back, swiftly, smoothly, surely.
- Zoom Viewfinder
 - Shows you the exact picture that's being recorded on your film. Coupled to lens to assure precise framing of your pictures . . . even as you zoom.
- Insufficient Light Warning
 - Exposure indicator in Viewfinder tells you how lens is set at all times, warns you when light is insufficient for picture-taking.
- Manual Exposure Control
 - Lets you pre-set the exposure by hand for dramatic lighting effects, professional "fades."

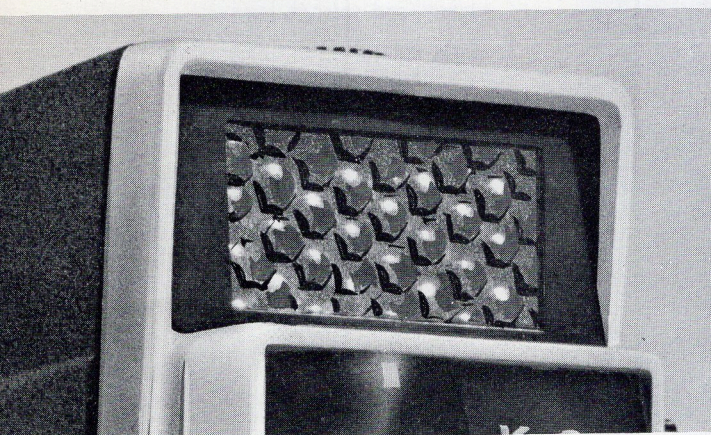

NEW KEYSTONE K-8C AND K-8 DELUXE ELECTRIC EYE ZOOM MOVIE CAMERAS

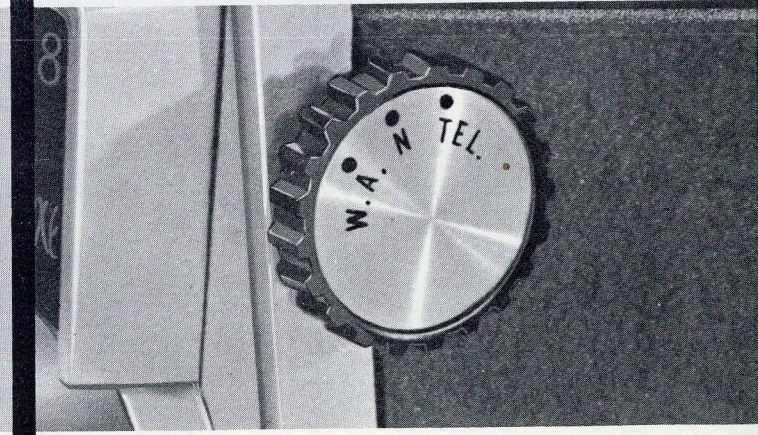

1 **f1.8FF ZOOM LENS** (on K-8C). Always in focus . . . even while you zoom! You get brilliant pictures over entire Zoom range . . . 9 to 27mm.

2 **f1.8 FOCUSING ZOOM LENS** (on K-8 Deluxe). Gives you needle-sharp pictures at any distance from close-ups to infinity. Zooms over 9 to 27mm range in focus. Can be set at "Universal" position for general outdoor shooting.

3 **ELECTRIC EYE** instantaneously measures the intensity of light . . . automatically adjusts lens opening for correct exposure of film. Reacts constantly to even the slightest light changes. Adjusts for all popular film speeds ASA 10 to 40.

4 **ZOOM CONTROL** lets you shift smoothly and surely from wide-angle to normal to telephoto scenes and back. Fast f1.8 Lens assures sharp pictures over entire ZOOM range.
