23-4021	Binocular magnifier (requires 23-4018 & Bellows)	No. 471.21	147.00
23-4018	Light hood for 23-4019/23-4021	No. 531.91	75.00
NOTE: The binocular reflex magnifier is available with a 4.25 diopter loupe for those who are far-sighted.			
23-4024	Binocular reflex magnifier housing w/4.25 loupe (requires 23-4018)	No. 531.12 & No. 531.12.001	\$516.00
23-4023	Loupe only (4.25 diopter)	No. 531.12.001	93.00
NOTE: The following adapters allow the binocular reflex magnifier to be used with 4"x5" cameras other than Sinar.			
23-7015	Toyo adapter	No. 559.16	\$165.00
23-7014	Cambo adapter	No. 559.36	165.00
23-7013	Calumet adapter	No. 559.46	165.00
23-7012	Plaubel adapter	No. 559.56	165.00
	VIEWING MASKS		
23-4016	Viewing mask set: for 6x6cm-2 1/4x2 1/4, 56x72mm-2 1/4x2 3/4, 6.5x9cm-2 1/2x3 1/2, 9x12cm, 4x5" formats (fits 23-4003 & 23-2013)	No. 534.16	32.00
	LINEAR SHADING FILTER SET The Linear shading filter set allows the user to partially or totally introduce a gelatine filter in front of the taking lens. This facilitates making density or color variations over part of the image. The set includes three empty filter frames plus the following mounted filters: 0.3N.D., 0.6N.D., primary red, primary green, medium blue, orange, and heavy frost (diffusion). The filter set is normally used with # 23-4015 bellows mask.		
23-7025	Filter set complete	No. 542.91	\$119.00
23-7040	Empty filter frames (10)	No. 542.91.001	68.00

Product Number	Description	Sinar Code No.	Professional Net
SPECIALIZED FILTERS FOR SUPER ANGULON LENSES			
These concentrically graduated filters are used to compensate for light loss at the edge of the film. A filter factor of 3 is used when calculating exposures.			
		Filter No.
