BOLEX TRIPOD H

BOLEX TRIPOD H

The Bolex Tripod H combines the features and rigidity of professional types with compact design, light weight and reasonable price. It is ideal for use with Bolex H and other 16 and 8mm movie cameras as well as still cameras where a panhead is desired. The Bolex Tripod H has the following features:

1. All lightmetal construction, with a beautiful and durable finish.
2. Two section leg construction for compactness and quick setting up.
3. Unique, quick three position leg lock, permits locking the leg extension instantly and conveniently at any height.

The three positions are:

- a. leg extension locked
- b. leg extension free moving
- c. friction movement for accurate leveling of tripod

4. Square leg design eliminates binding between metal parts. Leg adjustment easy at any temperature; sand or other particles cannot disrupt the smooth adjusting.

5. Quick changing from rubber feet to steel spikes.
6. Double leg construction for maximum rigidity.
7. Panhead perfectly balanced even for cameras equipped with long and heavy lenses.
8. Separate, large locking knobs for horizontal and vertical movements.
9. Smooth horizontal and vertical friction action. Friction variable.
10. Superfast "plug-on" method of attaching camera by means of a removable plate.
11. American and European tripod screw.
12. Built-in spirit level permits accurate panning over 360°.
13. Engraved horizontal and vertical degree scales help to determine the correct speed for panorama shots or to set up camera at a preset position.
14. 135° tilting range permits shooting straight down.
15. Strong lock on tilting movements holds heavy cameras securely in tilted position.

(over)

16. Panhandle can be placed for left or right hand operation.
17. Angled panhandle for greatest ease in panning and compactness while carrying tripod.
18. Adjustable metal chain between tripod legs makes tripod 100% skidproof.
19. Maximum height (measured to taking lens of Bolex H camera) 64".
Closed position 37", weight 8 lbs. 6 oz.
20. Bolex 21" metal cable release can be inserted in panhandle for one hand operation. Especially ideal for use with Pan Cinor lenses since this leaves other hand free for zooming.

Tripod model TRILO is supplied with a cable release for Bolex H-16 Rex cameras equipped with Rexofader; tripod TRICA with a cable release to fit all other Bolex H-8 or H-16 models. Either type can be used with other makes of movie or still cameras.

Bolex Tripod TRICA #772 \$ 99.50

Bolex Tripod TRILO #773 \$ 99.50
