TRIPLE TURRET

8mm MAGAZINE CAMERA K-45

GET ALL THE TRICKS OF HOLLYWOOD

into your movies! The Riviera gets long shots, close-ups, wide-angle shots—all in quick succession. ZOOM-TYPE finder adapts instantly to each lens . . . finder image remains maximum size.

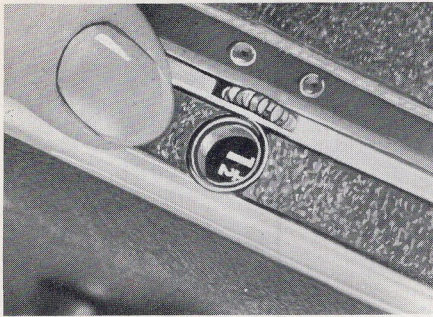

TRIPLE TURRET

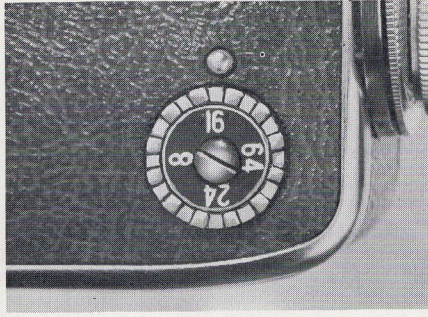

Turret takes any standard wide-angle and telephoto lens... shifts quickly and easily . . . locks with a click into perfect register.

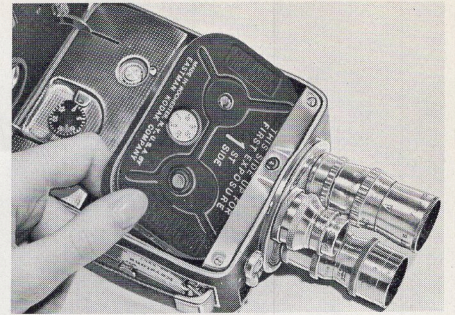

Three frames from a Riviera home movie — all taken *from the same position*.

ZOOM-TYPE FINDER — Optical viewfinder gives full view of scene without reducing field of vision. Adapts instantly to wide-angle or telephoto lens.

WIDE SPEED RANGE — Choose from four speeds — 8, 16, 24 and 64 frames per second — on handy dial next to trigger release. Use 8 to save film on landscape shots; 64 for true slow motion.

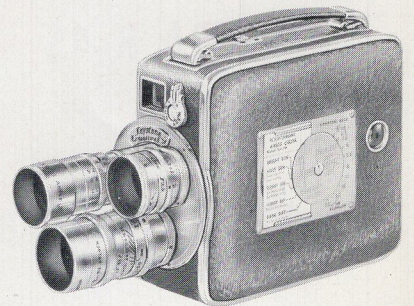

LOADS IN SECONDS — Just drop in magazine! New spring mechanism and precise magazine chamber insure that magazine is properly positioned. Push-button ejector saves probing, broken fingernails.

OTHER KEYSTONE RIVIERA FEATURES

- Lightest, easiest to handle turret camera made — just 27 compact ounces!
- Handy 3-way trigger for normal, single frame, continuous run where you get into the picture.
- Automatic run-down stop prevents overexposure.
- Visible scenelength indicator pops up in viewfinder to tell you the length of exposure.
- Double-action motor gives unusually even exposure . . . precision cut gears keep operation smooth and quiet.
- Precision governor assures accurate exposure speeds . . . oil-less bearings never need lubrication.
- Tested at the factory with live film. Backed by Keystone's Lifetime Guarantee and Free Service Warranty.
- Choice of 13 mm f 2.5 fixed focus lens or 13 mm f 1.9 coated and color corrected lens in focusing mount. Accessory lenses optional at extra cost.
