Bolex Super Accessories

The extras that add so much to filmmaking enjoyment.

Bolex offers a full range of quality, high performance accessories designed for the Super 8 sound and silent filmmaker.

| Product No. | Item |
|-------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 94775 | <i>Monopod</i> : Small, light and very handy. It ensures a firm, stable support, with positive height adjustment. It can travel anyplace with one third the bulk of a traditional support. Perfect for zoom and longer focal length lenses. |
| 94779 | <i>Joint Head Monopod</i> : Adds expanded convenience and versatility to all the features of the standard monopod. |
| 94732 | <i>Dual Cement Splicer</i> : For Super 8 and Regular 8 film. It makes thin bevelled edge splices that pass through the film gate smoothly, without a jump or noise. This type of durable splice is ideal for editing of sound striped films. |
| 94735 | <i>Tape Splicer</i> : This simple and precise splicer lets you edit Super 8 film with dry, pressure sensitive tape. It can repair film without loss of frames. |
| 94731 | <i>Splicing Tape</i> : Available in packages of five rolls. |
| 94392 | <i>Speaker Case</i> : For all Bolex sound projectors except SM-8, 715 and 815. This special extension speaker with its remarkable output: 25W sinusoidal, 45W musical, 5 ohm impedance, provides improved sound quality. The speaker housing forms a convenient carrying case for your projector. |
| 94095 | <i>Omnidirectional Microphone</i> : With windscreen, 15 foot cable, and switch for remote-control operation. |
| 94093 | <i>Directional Microphone</i> : Condenser type with telescoping boom may be mounted on camera or hand held. |
| 94094 | <i>Extension Cable</i> : For microphone (product number 94095) 15 foot length. |
| 94086 | <i>Electric Remote Control</i> : 20 foot length, for all Bolex sound cameras. |
| 94069 | <i>Extension Cable</i> : 33 foot length, for use with remote control supplied with 680 Macrozoom camera. |
| 94063 | <i>Fitted Carrying Case</i> : For 563 XL, 583 and 564 XL AF cameras and accessories; rugged and padded. |
| 94068 | <i>Macro Close-up Set</i> : For special close-up effects and titling with 680 Macrozoom. |
| 94099 | <i>Battery Charger</i> : For AA-type NiCad batteries. Fits all suitable sound and silent Bolex cameras. |
| 94487 | <i>Universal Recording Cable</i> : A wide range of connectors in one convenient cable set enables you to connect virtually any domestic and foreign sound components and accessories with Bolex projectors. |
| 94442 | <i>Mixing Console</i> : Lets you control several sound sources simultaneously to achieve professional sound effects with Bolex projectors. |
| 94714 | <i>Ground Glass Monitor</i> : Bright, private screen that attaches to Bolex 714/715 projectors. Convenient for sound recording and editing. |
| 94398 | <i>Ground Glass Monitor</i> : Bright, private screen that attaches to Bolex SM-80 projectors. Convenient for sound recording and editing. |
| 94382 | Bolex 200 foot dual automatic reel with case. |
| 94379 | Bolex 400 foot dual automatic reel with case. |
| 94488 | Bolex 600 foot dual automatic reel with case. |
| 94380 | Bolex 800 foot dual automatic reel with case. |
| 94073 | <i>De Luxe Case</i> : Holds 5122 camera and older models of sound cameras plus film and accessories. |
| 94067 | <i>De Luxe Case</i> : Holds 680 Macrozoom camera, film and accessories. |
