

FilmShield

Pro Pouch by **sima**

Protects Irreplaceable Cine and Still Film from Airport X-Rays!

The X-ray resistant **FilmShield ProPouch** is specially designed for *professional* cinematographers and still photographers.

The **ProPouch** is triple-laminated with lead foil sandwiched between a layer of tough, puncture resistant polyester and barium impregnated black polyethylene to safely protect all photographic film against X-ray devices used for air travel security.

Don't risk ruining the results of an important and expensive on-location shooting assignment. Use **ProPouch**!

The rugged, *reusable* **FilmShield ProPouch** measures 16" x 20" (41cm x 51cm), and can hold the following types of cine film in a variety of combinations:

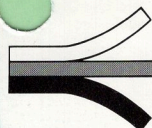

- Six 16mm 400 ft. (120m) rolls of cine film
- Two 16mm 1200 ft. (360m) rolls of cine film
- One 35mm 1000 ft. (300m) roll of cine film

The **ProPouch** can also hold 50-60 rolls of 35mm still photographic film, as well as assortments of *all* other sizes of still film (including sheet film).

sima

FilmShield ProPouch three-layer protection:

1. Tough, puncture resistant polyester *exterior*.
2. X-ray proof lead foil *barrier*.
3. Barium impregnated polyethylene *inside* for added film protection.
