Systems**

NOW YOU CAN AFFORD TO SUPPORT YOUR CAMERA IN STYLE

Designed with the needs of TV cameramen, industrial and educational filmmakers in mind, Bogen Cine Video Camera Support Systems incorporate many exceptional features found only in equipment costing much more. They're truly professional performers that don't sacrifice innovative engineering or dependability. Now you can enjoy the confidence of knowing that every movement of your camera will be smooth, steady and shudder-free.

Tripods

PROFESSIONAL CINE/VIDEO TRIPOD the super sturdy support

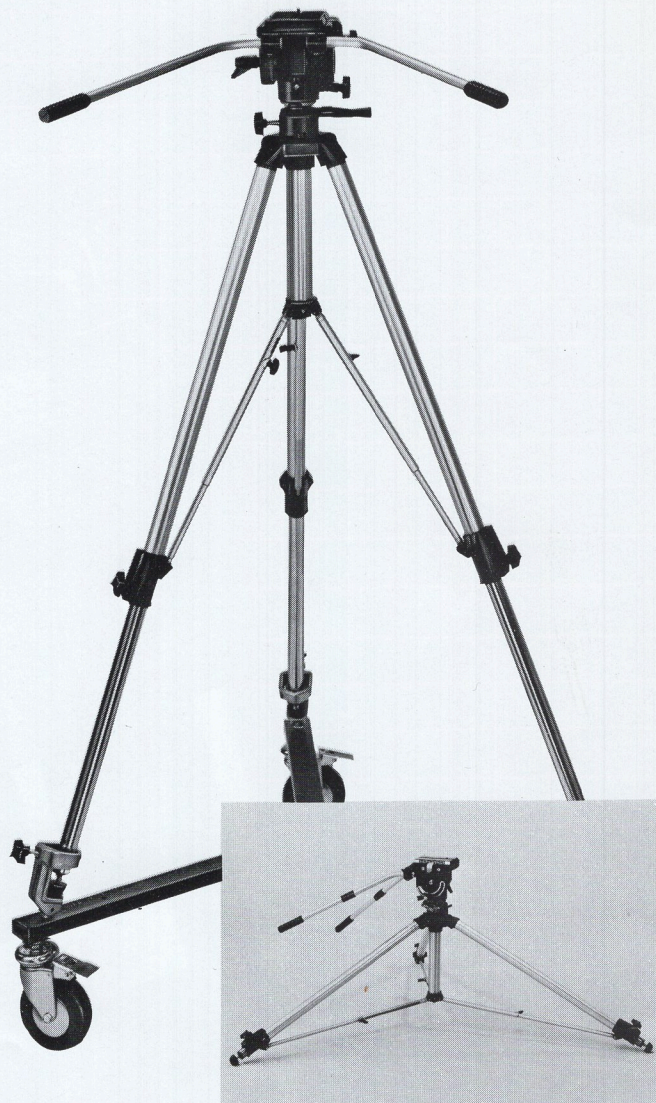

Tandem legs with retractable, spring-loaded spike tips are the secret to the Bogen Professional Cine/Video Tripod's rock-solid support. But there's a lot more to this lightweight (11 lbs.) tripod. It handles cameras up to 22 lbs. when used with the Bogen 3066 Cine Video Fluid Head – and even more with other heads.

It also features a 100mm diameter claw-ball leveller, variable leg angles within a 180° arc with 2 click stop positions, quick-flip lever leg locks, stainless steel fittings with high-quality enamelled castings and built-in leg straps for convenient transport. The tripod measures just 32 in. and extends to 54½ in. without head.

Order Code 3191

Professional Cine/Video Tripod with 3066 Fluid Head

Order Code 3194

THE BOGEN UNIVERSAL TRIPOD stable and versatile

The Bogen Universal Cine/Video Tripod weighs less than 12 lbs., yet extends to 66 in. It is remarkably stable because of its rigid center brace construction and its steel extension legs which lower the center of gravity. Legs are furnished with convertible cushion/spike tips.

For precise positioning, there is a centerpost which permits 9 in. of extension. The unique variable-angle center brace system on the tripod allows minimum elevation of the tripod platform as low as 16 in.

BOGEN'S STURDY 3140 TRIPOD WITH MINI FLUID HEAD

Our aluminum double-strut, center-braced two-section. The design offers remarkable rigidity coupled with light weight (only 11 lbs. 6 oz.).

The ideal tripod for educational and industrial studio applications, especially when used with any of our Bogen Dollies. It extends to a full 73 in. with the Mini Fluid Head. Folds to a compact 32½ in. for travelling. Legs are furnished with convertible cushion/spike tips. The surprisingly affordable all-purpose tripod. **Order Code 3140**
Also available in black anodized finish. **Order Code 3142**

THE 3124 TRIPOD WITH MICRO FLUID HEAD the ideal complement to your portable VCR camera

Combines our 3126 Micro Fluid Head with our lightweight 3011 Tripod that's sturdy, stable, versatile, easy to use and easy to carry. The combination weighs only 7 lbs. **Order Code 3124**
Also available in black anodized finish.

3170 COMPACT CONVERTIBLE VIDEO TRIPOD WITH MICRO FLUID HEAD

Versatile and easy to handle, Bogen's new 3001 Video Tripod with 3126 Micro Fluid Head is designed especially for portable VCR Cameras up to 6 lbs.

It sets up quickly and easily. Sturdy legs are made of tubular hard-finish aluminum and each has sure-grip, quick-acting, non-fouling lever locks.

Add the portable Video Dolly or the Lightweight Tripod Spreader and you have rock-solid support for smooth pans and tilts.

Order Code 3170

3001 Tripod with 3160 XL Fluid Head

Order Code 3165

HEADS

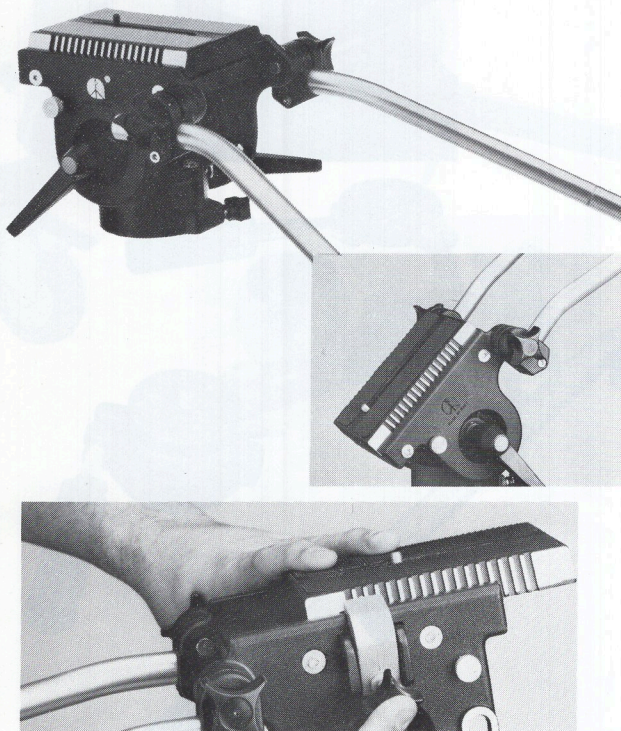

THE BOGEN FLUID HEAD

at the head of its class

This lightweight, professional quality, fluid-damped tripod head is designed for cine and video cameras weighing up to 22 lbs. (10 kg.). The large, removable, camera platform has a mounting stud that travels in a 3½ in. slot and facilitates balancing at the camera's center of gravity. In addition, there are a series of closely-spaced locking detents on the platform, any of which can be used.

The Bogen 3066 Fluid Head pans smoothly 360° and the panning drag can be adjusted by means of a simple adjustment screw. Vertical drag is adjusted by a large pawl-controlled lever. The tilting range is 60° up to 90° down with the camera under perfect control at all times. And there's a detent which can be set to limit the downward movement to 45°. Separate locks, independent of the drag system, provide a positive hold in any position.

Order Code 3066

MINI FLUID HEAD for maxi performance

Now you can make sure your lightweight Cine or Video camera (up to 11 lbs.) follows the action with nary a shudder when you mount it on this multi-talented Mini Fluid Head.

Measuring just 5 in. x 5 in. x 5 in. (excluding handle), this lightweight (3 lbs.), fluid damped head pans and tilts smoothly and has a camera platform that features a quick-release mounting plate with locating pin. For convenience and comfort and to accommodate the widest possible range of cameras, the Mini Fluid Head comes with a versatile handle which is positionable on either side and can be separated into two individual segments, each 9 in. in length. The Mini Fluid Head can be tilted 45° up and 90° down continuously, with detent at -45°, and has separate pan and tilt locks. Vertical drag is continuously adjustable.

Order Code 3063

BOGEN XL FLUID HEAD one smooth operator

If you're looking for a lightweight fluid head (1½ lbs.) with amazingly smooth operation and the ability to handle cameras up to 9 lbs., you've just found it. The Bogen XL Fluid Head. The fourth in our growing line of fluid heads, the XL has a special "quick release plate" which lets you attach and detach the camera quickly and easily. So setting up or changing cameras was never simpler. The adjustable handle can be conveniently located on either the right or left side of the head.

Order Code 3160

MICRO FLUID HEAD here's the head for the new lightweight VCR cameras

You'll be amazed at the smooth, fluid effect movement of the Bogen Micro Fluid Head. Only 2 lbs. including an adjustable handle, it's perfect for just about any of the new lightweight (up to 6 lbs.) VCR cameras.

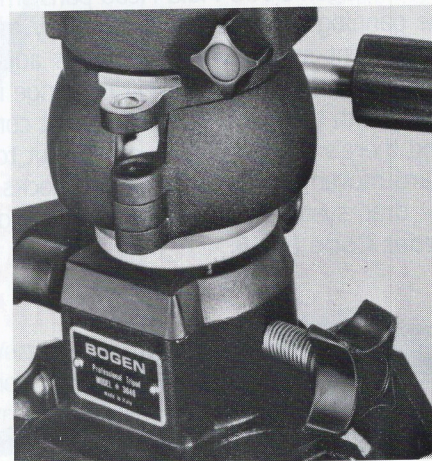

It measures 4¼ in. x 5¾ in. x 2¾ in. (excluding handle); pans smoothly a full 360°, can be tilted up or down 90°, has pan and tilt locks and continuously adjustable drag. Platform has adjustable positioning slot for best camera balance and is designed so that the handle can be on either left or right side.

Order Code 3126

BALL CAMERA LEVELLER

This is an ideal adjunct to the 3063 Mini Fluid Head, 3160 XL Fluid Head or 3126 Micro Fluid Head. It works like a claw ball in that you mount it to your tripod. You can remove the camera and head quickly to mount on another tripod similarly equipped. And you can level your camera even if you haven't levelled the tripod. Ideal for field use on uneven terrain.

Order Code 3115

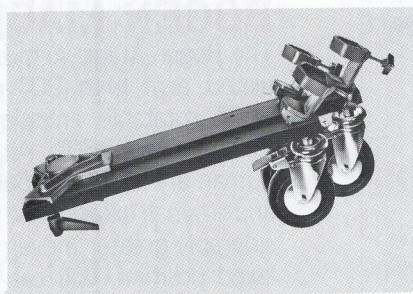

Dollies

THE BOGEN DELUXE CINE/VIDEO DOLLY

The Bogen Cine/Video Dolly is designed for use with the Universal and Heavy-Duty Tripods. Individually braked 5 in. wheels and a unique leg locking system make it extremely stable. And it's easy to assemble and disassemble for transporting. The tripod legs are captured in a 38 in. diameter circle and the doorway clearance needed for the fully assembled dolly is only 39½ in.

Order Code 3067

AUTO DOLLIES

one touch of the central pedal locks (or unlocks) all three casters simultaneously

Many dollies brake against the caster or wheel itself which can cause flats, wear and slippage. But when you depress the centrally located foot pedal of either the Bogen Auto Dolly or the Bogen Folding Auto Dolly, you release all three wheels. When you lift the pedal, cam action raises the wheels free of the ground and the weight of the dolly and tripod rest on separate feet.

The ideal companions for Bogen 3131, 3135, 3140 and 3150 tripods. The Auto Dolly weighs only 6 lbs., incorporates Shepherd Casters and is easily assembled. Spread from center to tripod leg socket is 18½ in. The Folding Auto Dolly features 3 in. wheels, weighs 9¾ lbs. and the spread from center to tripod leg socket is 20 in. Folds to a compact 29 in.

On either dolly, mounting and dismounting the tripod is accomplished by cam operated kick-locks.

If you need to support a camera for very low angle shooting, we've thoughtfully provided a European thread stud on the central casting on which you can mount your Bogen Mini, XL or Micro Head.

Folding Auto Dolly.

Black Folding Auto Dolly.

Order Code 3056

Order Code 3156

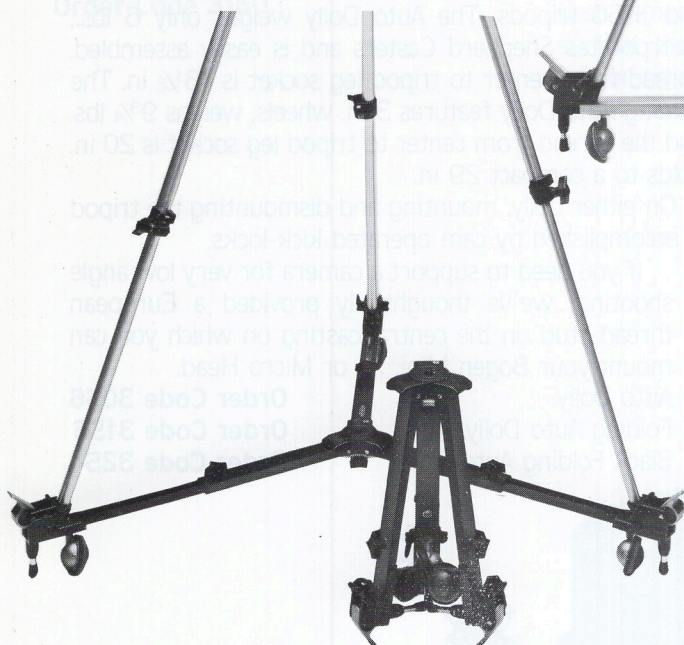

Order Code 3254

VARIABLE LEG SPREAD DOLLY

Here's a dolly with a difference—variable leg spread for added versatility. The newest member of Bogen's growing dolly line, the Variable Leg Spread Dolly has a special feature that allows you to adjust the radius from a maximum of 20 in. to as little as 12½ in. It's ideal for use with the 3124, 3125, 3140 3165 and 3170 tripods. And when our Variable Leg Spread Dolly isn't in use, it packs down to a compact size for easy storage.

Order Code 3137

PORTABLE VIDEO DOLLY

This handy dolly weighs only 5 lbs. 7 oz., has a 20 in. radius, folds to a compact 22½ in. and is suitable for most Bogen tripods. It features our Sure-lock/No-rock system that lifts the 2 in. casters free of the ground so that the dolly rests on separate feet. Heavy duty quick-fastening rubber straps hold tripod securely to dolly.

Order Code 3127

LIGHTWEIGHT TRIPOD SPREADER

Closed length is only 16 in. Opens with adjustable legs to accommodate all Bogen tripods except the 3061. Maximum spread radius is 25½ in. **Order Code 3155**

BOGEN MAGIC ARM

The Bogen Magic Arm is a fully articulated arm with 90° pivotable and 360° rotatable ends and an elbow that rotates 360°. Analogous to a human arm with a shoulder, an elbow and a wrist except that you have considerably greater movement. In the relaxed position, you can move any of the joints to any desired position. A firm turning movement of the control handle—located at the elbow joint—locks all three joints firmly into position.

The Magic Arm is perfect for placement of small lights; great for gobos, reflectors and flags.

Both ends have studs that fit into any standard 5/8 in. socket—such as that on the Super Clamp—and the studs have flats for positive tightening. In addition, both ends are tapped: one is 1/4-20 and the other is for European threads so that they can be screwed on to tripods and light stands.

Accessories

VIDEO CAMERA SUPPORT

Our fully adjustable Video Camera Support keeps both hands free to operate the camera. Weighing just 2.6 lbs., it's made of rugged, black anodized aircraft-grade aluminum and padded with comfortable Neoprene® at shoulder and waist. The support includes a Double Ball Joint Head (2916) with camera platform and folds flat for storage.

Order Code 3147

VIDEO CAMERA SHOULDER MOUNT

contoured, comfortable, convenient

Just about any portable video camera you own can be handled with ease using the Bogen Video Camera Shoulder Mount. It's contoured for a proper fit, padded for extra comfort and designed to be lightweight. For added versatility, it will also attach to a tripod. And it's rugged, too. Made of tough, heavy-duty aluminum, its adjustable screw slides back and forth to suit your needs while keeping the camera securely attached to the cross-bar. **Order Code 3144**

Optional bracket for camera with rear viewfinders. **Order Code 3143**

MINI AUTO-POLE

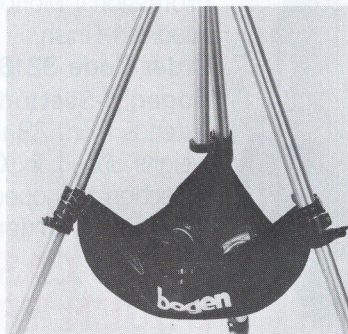

Need to handle a light or small camera in a confined area? The Mini Auto-Pole is just what you need. It's easy to set up, extends from 39 in. (1 meter) to 67 in. (1.7 meters) and uses the same automatic cam action positive locking system as our regular Auto-Pole. Gives you sturdy, secure, positioning where floor space is at a premium. Supplied as a set of 2. **Order Code 2953**

TRIPOD APRON

Attaches easily to any Bogen Tripod.

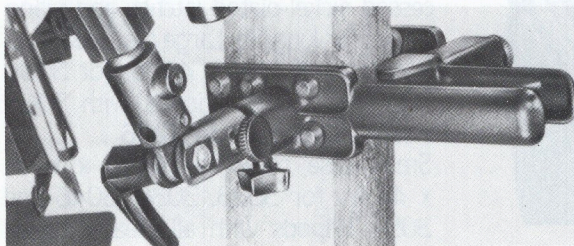

Order Code 3146

SKY HOOK GAFFER CLAMP

Unlike conventional gaffer clamps, the Sky Hook is adjustable so that its jaws can be nearly parallel so more surface area is involved. Combined with durable rubber grippers, the result is a reliable grasp on anything from a 3/4 in. shelf to a 3 x 3. Other features? How about our stud system? The socket is 5/8 in. (16mm) and the standard stud is double-ended (5/8 in. for cine or strobe heads). If you want to hang a remote controlled camera, just get our accessory stud (**Order Code 2971**) – it takes either a 1/4-20 or Euro-thread ball head.

Order Code 2970

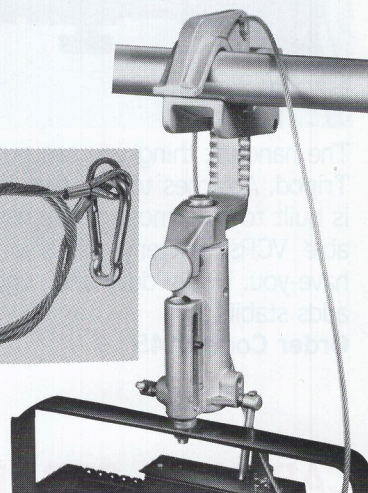

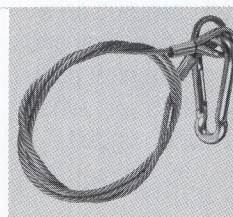

TRIPOD BAGS

Handsome dark blue heavy-duty Cordura® nylon. Protects valuable tripods and heads. 25 in. fits our 3165 and 3170 Tripods. **Order Code 3279** 35 in. fits our 3116, 3120, 3122, 3123, 3124, 3125, 3161, 3163 and 3215 Tripods. **Order Code 3280** 45 in. fits our 3131, 3132, 3135, 3140, 3142 and 3150 Tripods. **Order Code 3281**

HEAVY DUTY SWIVELING "C" CLAMP

Bogen's Heavy Duty "C" Clamp weighs less than 3 1/2 lbs. yet it is load-rated at 165 lbs. (75 kg.), which means that it was subjected to a static test at more than ten times its rating. The adjustable jaws open to handle any pipe up to 3 1/2 in. in diameter. There's a 360° locking swivel which has sockets for 1 1/8 in. (28mm), and 5/8 in. bushings and also a slide-out male 5/8 in. stud. **Order Code 2965** Accessory Wire Rope Safety Chain. **Order Code 2966**

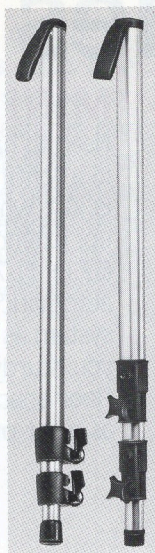

PROJECTOR PLATFORM

Aluminum platform for projectors, speakers, etc. Attaches to Bogen Tripods w/o head. Measures 9 $\frac{3}{4}$ in. x 13 $\frac{3}{4}$ in.
Order Code 3290

MONOPODS
