*PRODUCTS FOR THE PROFESSIONAL*

## **Eight Regional Kodak Sales Divisions**

---

**1**

Middle Atlantic Sales Division  
343 State Street  
Rochester, New York 14650

**2**

Midwestern Sales Division  
1901 West 22nd Street  
Oak Brook, Illinois 60523

**3**

Northeastern Sales Division  
1334 York Avenue  
New York, New York 10021

**4**

Pacific Northern Sales Division  
3250 Van Ness Avenue  
San Francisco, California 94119

**5**

Pacific Southern Sales Division  
808 Rivera Road  
Whittier, California 90606

**6**

Southeastern Sales Division  
5315 Peachtree Industrial Blvd.  
Chamblee, Georgia 30005

**7**

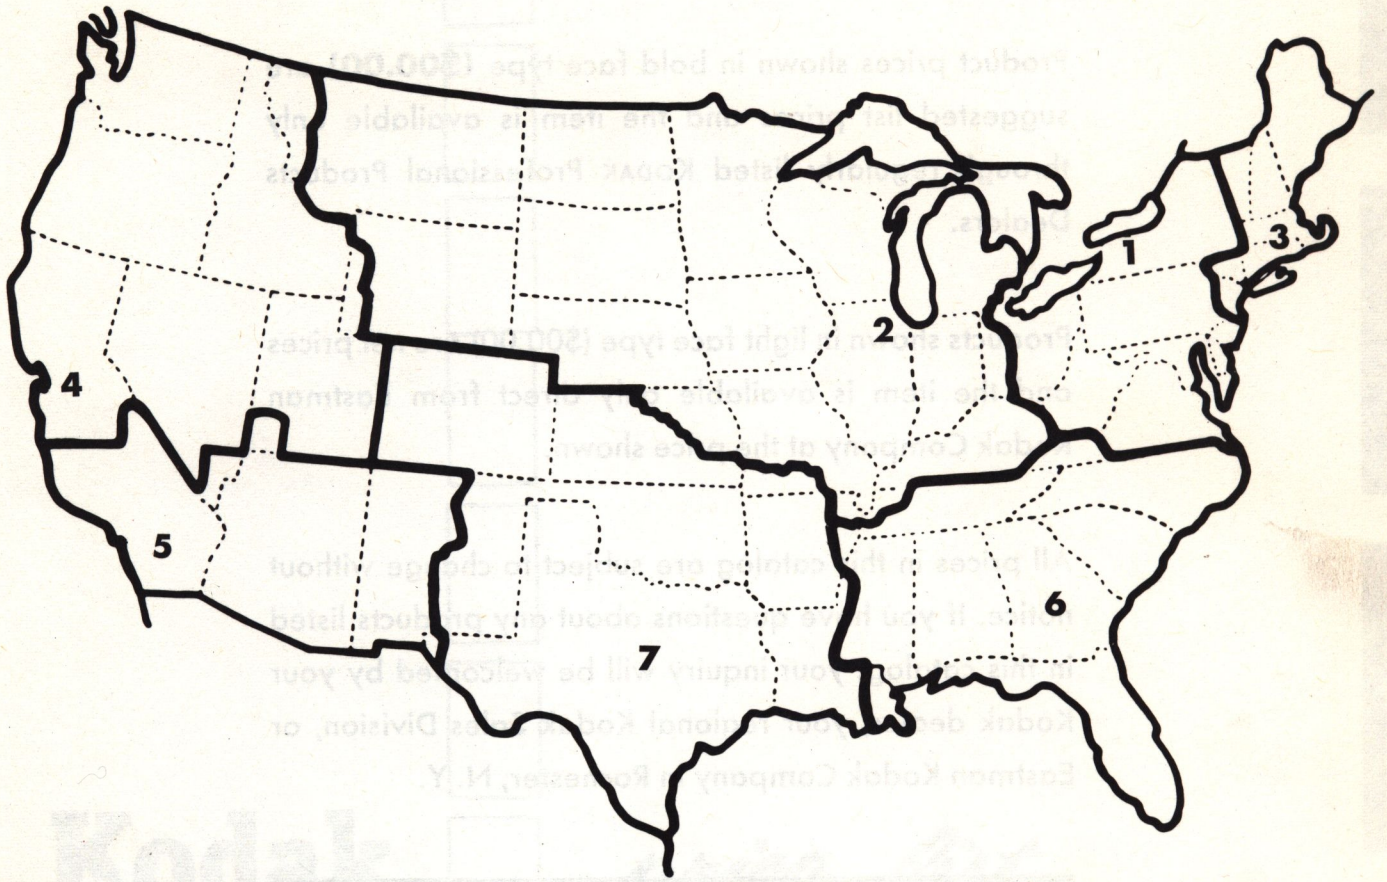

Southwestern Sales Division  
6300 Cedar Springs Road  
Dallas, Texas 75235

**8**

Hawaiian Sales Division  
P. O. Box 1260  
Honolulu, Hawaii 96807

## INDEX

A	Page		Page		Page
Abrasive Reducer, Kodak	89	Attachments:		B/W Film Control Strips, Kodak	27
Achromatic Magnifier, Kodak, 5X	69	Kodak Automatic Numbering (for Kodak Slide Mounting Press, Model 2)	88	B/W Process Record Forms, Kodak	27
Adapter Box, Kodak, Printer Dating and Coding	53	Kodak Contact Printing, Model B	53	B/W Professional Process Control Strips, Kodak	27
Adapter Cable (for Kodak High Intensity Lamphouse)	52	Kodak Contact Printing, Model 5S	50	B/W Quality Control Negative, Kodak	27
Adapter Cable, Kodak (for Kodak Photoelectric Exposure Control, Model D-2)	63	Kodak Film Perforator, Model 3	64		
Adapter Cables, Kodak 3- and 9-Foot (for Kodak Static Eliminator Power Units)	68	Kodak Interval Timer, Model 1	52	<b>C</b>	
Adapter Jaws for Kodak Slide Mounting Press	88	Kodak Radiant Pre-Drying, Model A-2	58	Cable, Adapter (for Kodak High Intensity Lamphouse)	52
Adapter Kit, Kodak Black-and-White, Model 8S	49	Kodak Reel-Process Drying (for Kodak Roll Paper Dryer-Glazer, Model C-2)	63	Cable Assembly for Exposure Time Indicator	50
Adapter Kit, Kodak Printer, Type IVB-2	52	Kodak Splice Advance, Model 1-K (for Kodak Roll Paper Printers)	55	Cable Assembly for Kodak Multiple Print Controller	54
Adapter Rings, Kodak	73, 74, 75	Kodak Sump, Model 40A	60	Cable, Kodak Adapter (for Kodak Photoelectric Exposure Control, Model D-2)	63
Adapters:		Automatic Film Cutter, Kodak, Model 4-K	64	Cable, Kodak Micro Footswitch, Model 2	54
Kodak Cine Lens	83	Automatic Numbering Attachment, Kodak (for Kodak Slide Mounting Press, Model 2)	88	Cable Releases	79
Kodak Phono	83	Automatic Package Printer, Kodak, Model 6	51	Cables, Kodak Interconnect (for Kodak Automatic Time Signal System)	59
Kodak Single Exposure Time Indicator, Model 5S	50	Automatic Reset Counter, Kodak, Model 2	65	Cables, Kodak 3- and 9-Foot Adapter (for Kodak Static Eliminator Power Units)	67
Kodak Versamat Roll Feed, Model 11	67	Automatic Time Signal System, Kodak, Model 1	59	Cam-Action Wind-Up Reel, Kodak	63
Kodak Versamat Roll Take-Up, Model 11	67	Automatic Tray Siphon, Kodak	62	Cam Kit, Kodak Split Detent	55
3-Prong Cord and Plug (for Kodak Roll Film-Paper Cutters)	54	Auxiliary Drive Assembly, Kodak, Model 4	59	Cam, Kodak Two-Stage Advance	55
Adjustable Filter Holder, Kodak	75, 78	Auxiliary Drive Gear Train, Kodak	59	Camel's-Hair Brushes, Kodak	89
Adjustable Lensboard Shelf Kit, Kodak	52	Auxiliary Half-Panel Set, Kodak, Model A	58	Cameras:	
Adjustable Safelight Lamp, Kodak	68	Auxiliary Radiant Panel Units, Kodak	58	Movie	80
Advance Attachment, Kodak Splice, Model 1-K (for Kodak Roll Paper Printers)	55	Auxiliary Timing Unit, Kodak, Model 5S	50	Still	71
Advance Cam, Kodak Two-Stage	55			Cans, Kodak Movie	84
Analyst Movie Projector, Kodak	81, 82	<b>B</b>		Capping Shutter Kit, Kodak Dual	52
Aperture Plates, Kodak 5x7, Model 8S	49	Background Sheeting, Kodak	89	Card, Kodak Neutral Test	26
Aprons, Kodak Darkroom	62	Basket, Kodak Processing	61	Card Outfit, Kodak 3X Thank-You	55
Assemblies:		Bifocal Converter, Cine-Kodak	83	Card Outfits, Kodak Slim-Line Thank-You	55
Cable, for Kodak Exposure Time Indicator	50	Binder, Kodak Metal	88	Cards, Kodacolor Business	24
Cable, for Kodak Multiple Print Controller	54	Binders, Kodak Lantern Slide	88	Cards, Kodak Slim-Line Thank-You and Birth-Announcement	24
Kodak Auxiliary Drive, Model 4	59	Birth-Announcement Cards, Kodak Slim-Line	56	Carousel Projectors, Kodak	86
Kodak Blower and Hose, Model 1	67	Birth-Announcement Masks, Kodak Contact	56	Carousel Slide Tray, Kodak	87
Kodak 8S Lens	49	Birth-Announcement Outfits, Kodak	56	Carrying Cases:	
Kodak F-B Needle	64	Black-and-White Adapter Kit, Kodak, Model 8S	49	Cine-Kodak K-100 Camera	80
Kodak 5S Lens	50	Black-and-White Focus Test Negatives, Kodak	28	Kodak Carousel Projector	87
Kodak Installation, Model 5 (for Kodak Electrical Counter, Model 1)	50	Black-and-White Neutral Density Negatives, Kodak	28	Kodak Carousel Slide Tray	87
Kodak Installation, Type IV (for Kodak Photoelectric Control Unit, Model E)	54	Blade Assembly, Kodak Squeegee	65	Kodak Retina	72
Kodak Leader Stand	57	Blotter Roll, Kodak Photo	65	Movie Camera	80
Kodak Needle	64	Blotters, Muslin-Faced	65	Cases, Kodak Retina Filter	73
Kodak Paper-Cutting Die	64	Blotting Paper, Kodak	65	Cavalcade Programmer, Kodak, Model 1	87
Kodak Plate, Model 8S	49	Board, Kodak Transfer Register	69	Cement, Kodak Ektacolor Print Film	89
Kodak Print Dating and Coding Lamp, Model 1	54	Board, Kodak Vacuum Register	69	Cement, Kodak Rapid Mounting	89
Kodak Print Dating and Coding, Model 5S-C	50	Books, Photographic	91, 92	Cement, Kodak Splicing, No. 7502 (for Kodak Reusable Leader)	89
Kodak Print Dating and Coding Switch, Model D-2	54	Bottles, Kodak Chemical Replenishing	59	Chamois, Kodak Photo	65
Kodak Recirculating, for Reel Drying	63	Box, Kodak Printer Dating and Coding Adapter	53	Check Plaque, Kodak Reflection Densitometer	28
Kodak Replacement Drum	59	Brackets:		Chemical Meter Conversion Kits, Kodak, K-1495 and K-1505	59
Kodak Roll Paper Spindle	57	Knee-Lever (for Kodak High Intensity Lamphouse)	52	Chemical Replenishing Bottles, Kodak	59
Kodak Special Mask Plate, Model 1	52	Kodak Envelope Numbering Stamp, Model 1	54	Chemical Replenishing Unit, Kodak	59
Kodak Squeegee Blade	65	Kodak Print-Cutting Pencil Marker	53	Chemical Replenishment Systems, Gravity Feed	60
Kodak S-S Needle	64	Kodak Roll Head Numbering Stamp	54	Chemical Replenishment Systems, Pressure Feed	60
Paper Feed Roll	57	Support, for Contact Printing Attachment	53	Chemical Storage Tanks, Kodak	60
Printer Pigtail for Kodak Multiple Print Controller	54	Brownie Darkroom Lamp Kit, Model B	68	Chemicals	41, 48
Reflecting Mirror	52	Brushes:		Circuit Film, Kodak	13
Spare Solenoid Valve, for Kodak Intermittent Gaseous Burst Valve	61	Kodak Camel's-Hair	89	Clamp, Kodak Splicing	57
Assembly Unit, Kodak Universal Pick-Up	64	Kodak Deluxe Spotting and Coloring	89	Cleaner, Kodak Lens	79
		Kodak 2-inch and 6-inch	89	Cleaner, Kodak Movie Film	84
		Kodak 2-inch (for Kodak Static Eliminator Power Units)	67	Cleaning Paper, Kodak Lens	79
		Brushing Lacquer, Kodak	48	Clip, Kodak Color Film	66
		Bulbs and Tubing	79	Clip, Kodak Flexo Film	66
		Burst Valve, Kodak Intermittent Gaseous	61	Clips for attaching Kodak Gas Distributor to Kodak Processing Basket	61
		Business Cards, Kodacolor	24		

C (cont):	Page	Page	Page
Close Range and View Finder Kit, Kodak Retina, Model C	72	Converter, Cine-Kodak Bifocal	83
Close-Up Attachment	72	Copy Negatives, Kodacolor	23
Close-Up Kit, Kodak Retina	72	Copying Kit, Kodak Retina 1:1	72
Close-Up Lens Sets, Kodak Retina	72	Cord and Plug Adapter (for Kodak Roll Film-Paper Cutter)	54
Cloth Focusing	79	Cord, Connector, for Envelope Numbering Stamp Bracket	54
Coding Adapter Box, Kodak Printer Dating and	53	Cord, Kodak Remote Extension, 25-foot	87
Color Compensating Filters, Kodak	76, 77, 78	Cords, Kodak 35-ft Speaker Extension	84
Color Control Transparency, Kodak, Indoor	28	Cotton Gloves, Kodak	62
Color Correction Filter, Kodak, No. 308	28	Counter, Kodak Automatic Reset, Model 2	65
Color Densitometers	28	Counter, Kodak Electrical, Model 1	50
Color Film Clip, Kodak	66	Cover, Pageant Projector	83
Color Film Control Strip Hangers, Kodak	27	Crank, Cine-Kodak K-100 Hand	80
Color Print Laminating Sheet, Kodak	66	Crocein Scarlet, Kodak	89
Color Print Processors, Kodak Continuous	59	Crossover, Kodak Versamat Skip Rack, Model 11	67
Color Printer Conversion Kit, Kodak, Type IVS	53	Cut-Off Filter, Kodak Infrared, No. 301	63
Color Printer, Kodak Enlarging, Model 8S-2-K	49	Cutter, Kodak Automatic Film, Model 4-K	64
Color Printers, Kodak Roll Paper	50, 52	Cutter, Kodak Roll Film-Paper, Model 2	64
Color Printing Filters, Kodak	78	<b>D</b>	
Color Printing Lenses, Kodak	54	Darkroom Aprons, Kodak	62
Color Process Record Forms, Kodak	27	Darkroom Graduates, Kodak	62
Color Separation Guides, Kodak	26	Darkroom Lamp Kit, Brownie, Model B	68
Color Temperature Conversion Filter, Kodak, No. 309	28	Darkroom Lamp, Kodak	68
Color Thermometer, Kodak	62	Darkroom Thermometer, Kodak	62
Coloring Brushes	89	Data Books	91, 92
Colors, Kodak Spotting	89	Dataguides	91
Colour Enlarger, Kodak, Model 1	63	Dating and Coding Adapter Box, Kodak Printer	53
Combination Funnel, Kodak	62	Dating and Coding Assembly, Kodak Print, Model 5S-C	50
Compartment File, Kodak	87	Dating and Coding Lamp Assembly, Kodak Print, Model 1	54
Connector Cord for Envelope Numbering Stamp Bracket	54	Dating and Coding Switch Assembly, Kodak Print, Model D-2	54
Connectors, Kodak 1-Way, 3-Way and 4-Way (for Kodak Static Eliminator Power Units)	68	Day-Load Tank, Kodak	61
Contact Birth-Announcement Masks, Kodak	56	DeLuxe Greeting Card Envelopes, Kodak, No. 154	56
Contact Printing Attachment, Kodak, Model B	53	DeLuxe Transparency Illuminator, Kodak, Model 2	69
Contact Printing Attachment, Kodak, Model 5S	50	Densitometer Check Plaque, Kodak Reflection	28
Contact Thank-You Card Masks, Kodak	55	Densitometer Lamp	28
Contemporary Folder Envelopes, Kodak, No. 155	56	Densitometers	28
Continuous Color Print Processors, Kodak	59	Developer Recirculating System, Kodak (for Kodak Hard Rubber Tank, 8x10)	61
Continuous Paper Processors, Kodak	57	Developers	43
Control, Kodak Photoelectric Exposure, Model D-2 (for Kodak Elipton Color Enlarger)	63	Developing and Printing Services, Kodacolor	23
Control, Kodak Precise-Temp, Model 40A	60	Developing Hanger Rack No. 40, Kodak	66
Control Negative, Kodak B/W Quality	27	Developing Hangers, Kodak Film and Plate, No. 4A	66
Control Negatives, Kodacolor Slope, Indoor	28	Developing Hangers, Kodak Sheet Film	66
Control Sensitometer, Kodak Process, Model 101	28	Die Assemblies, Kodak Paper-Cutting	64
Control Strip Hangers, Kodak Color Film	27	Diffusing Disk, No. 5 (for Eastman Projection Printer No. 2)	66
Control Strip Holder for 70mmx100-ft Nikor Reel, Kodak	27	Diffusing Disk 2 (for Kodak Auto-Focus Enlargers)	63
Control Strips, Kodacolor	27	Diffusion Sheets, Kodak	66
Control Strips, Kodak B/W Film	27	Diffusion Sheets, Kodak Lamp	66
Control Strips, Kodak B/W Professional Process	27	Dip Lacquer, Kodak, No. 264	89
Control Strips, Kodak Ektachrome	27	Disconnect Switch, Kodak Heat (for Kodak Slide Mounting Press, Model 2)	88
Control Strips, Kodak Ektacolor Internegative	27	Disk, Diffusing, No. 5 (for Eastman Projection Printer, No. 2)	66
Control System, Kodak Quality, for Kodak Black-and-White Films and Roll Papers	27	Disk, Diffusing 2 (for Kodak Auto-Focus Enlargers)	63
Control System, Kodak Quality, for Kodak Color Films and Papers	27	Disks, Kodak Print Marker	53
Control Transparency, Kodak Color, Indoor	28	Distributor, Kodak Gas (for Kodak Hard Rubber Tank, 8x10)	61
Control Unit, Kodak Photoelectric, Model E	54	Distributor, Kodak Water (for Kodak Hard Rubber Tank, 8x10)	61
Controller, Kodak Multiple Print, Model 400	54	Drain Systems	60
Conversion Filter, Kodak Color Temperature, No. 309	28	Drive Assembly, Kodak Auxiliary, Model 4	59
Conversion Filters for Color Films	77	Drive Gear Train, Kodak Auxiliary	59
Conversion Kit, Kodak Color Printer, Type IVS	53	Drum Assemblies, Kodak Replacement	59
Conversion Kits, Kodak Chemical Meter, K-1495 and K-1505	59	Dry Mounting Tissue, Kodak	88
Conversion Kits, Kodak Print-Cutting Pencil Marker Bracket	53	Dryer-Glazer, Kodak Roll Paper, Model C-2	58
		Dryer, Kodak Roll Paper, Model A	58
		Drying Supplies and Equipment	58, 63, 65
		Dual Capping Shutter Kit, Kodak	52
		Duraflex Trays, Kodak	61
		Dust and Static Eliminating Equipment	67, 68
		Dust and Static Removal Unit, Kodak, 10-inch, Model A2-K	67
		Dust Removal Unit, Kodak	67
		<b>E</b>	
		Easel Base Assembly Kit, K-1165	63
		Eastman Densitometer, Model 1A	28

# KODAK BLACK-AND-WHITE FILMS

KODAK FILM (CODE) ROLL AND 35mm	PROPERTIES, PURPOSE, SIZES	SPEED		COMMENTS
		DAYLIGHT	TUNGSTEN	
VERICHROME PAN (VP)	All-round use, daylight or flash. Rolls.	125	125	Also available for Cirkut cameras.
PLUS-X PAN (PX)	General-purpose 35mm film.	125	125	Also available in 4x5 film pack and 35mm long rolls.
TRI-X PAN (TX)	Very fast. For limited light, action. Rolls, 35mm.	400	400	Also available in film packs, 35, 70mm long rolls.
PANATOMIC-X (FX)	Extremely fine grain. 120, 620, 35mm.	40	40	
PLUS-X PAN PROFESSIONAL (PX)	General-purpose, 25-roll bulk package. 120, 620.	125	125	
HIGH CONTRAST COPY (M)	For copying only. 35mm.	—	64	Also available in 35mm long rolls.
INFRARED (IR)	Haze penetration, special effects. 35mm.	—	—	Use with recommended filter, see instructions.
ROYAL-X (RX)	Ultra-fast. For existing-light exposure. 120.	1250	1250	Note developing precautions.
MOVIE FILMS, 16mm	PROPERTIES, PURPOSE, SIZES	DAYLIGHT	TUNGSTEN	COMMENTS
PLUS-X REVERSAL (PXR)	General use. Processes to projection original.	50	40	Consult photo dealer for processing service.
TRI-X REVERSAL (TXR)	High speed. Processes to projection original.	200	160	Consult photo dealer for processing service.
PLUS-X NEGATIVE (PXN)	General purpose. Develops to negative.	80	64	Also on 35mm x 100' spool. Not processed by Kodak.
DOUBLE-X NEGATIVE (DXN)	Medium-high speed, negative film.	250	200	Also on 35mm x 100' spool. Not processed by Kodak.
TRI-X NEGATIVE (TXN)	Very fast negative film.	320	250	Also on 35mm x 100' spool. Not processed by Kodak.
SHEET FILMS	PROPERTIES, PURPOSE, SIZES	DAYLIGHT	TUNGSTEN	COMMENTS
PANATOMIC-X	Extremely fine grain. For murals and other enlargements.	64	64	
PORTRAIT PANCHROMATIC	For portraits by electronic flash and for commercial uses.	125	125	
SUPER SPEED ORTHO PORTRAIT	For men's portraits and commercial subjects.	125	64	
PLUS-X PAN	Excellent definition. For commercial work.	125	125	Also available in 35, 46, and 70mm, and 3½" x 75' rolls (ESTAR Base).
SUPER-XX PAN	Long tonal gradation.	200	200	
SUPER PANCHRO PRESS, TYPE B	General purpose, good contrast control.	250	250	
ROYAL ORTHO	For men's portraits and character studies.	400	250	
ROYAL PAN	High Speed. General purpose.	400	400	Also available in 70mm, and 3½" x 75' rolls (ESTAR Base).
RS PAN	High red speed minimizes retouching. For available-light exposure.	650	650	Also available in 3½" x 75' rolls (ESTAR Base).
ROYAL-X PAN	Ultra-fast. For available light exposure.	1250	1250	
COMMERCIAL	Blue sensitive, for continuous-tone copying.	50	16	
COMMERCIAL MATTE	Same as above but with matte emulsion and base.	50	16	
CONTRAST PROCESS ORTHO	Extremely high contrast. For line copies.	100*	50

### FACTORY-STOCKED PLATES

The plates on which our factory aims to maintain a constant stock are indicated below. This stocking information is intended as a general guide to dealers and necessarily relates to factory stocking conditions only. Regional Sales Division stocks are determined by the individual Sales Division and vary from factory stocks. Dealers should contact their Sales Division for information on specific items.

Prices for a particular size apply to both factory-stocked items and to those which are not factory stocked. Items which are not factory stocked will be furnished on a minimum order basis of one case of any one size and brand.

Unlisted sizes will be supplied as far as possible, provided the order calls for a minimum of one case of any one brand, size, and thickness. The number of plates in a case for an unlisted size is the same as the next larger listed size. Prices will be quoted on request.

On orders for unlisted sizes or for nonfactory-stocked items, we reserve the option of supplying 10 per cent more or less than the amount ordered because they require a special coating and it is not always practicable to produce exactly the amount ordered. Orders for such sizes may be subject to delays in shipment.

### Descriptions of Specification Numbers

No.

- 401 —35mmx50 ft, darkroom load, perforated, on 1-in. diameter Tenite core, square hole with keyway (Type AA). Frame-numbered.
- 402 —Same as 401 except 100 ft long.
- 404 —35mmx100 ft, darkroom load, perforated, on 2-in. diameter Tenite core with 1-in. hole (Type U). Frame-numbered.
- 410 —35mmx27½ ft, darkroom load, perforated, on 1-in. diameter Tenite core, square hole with keyway (Type AA). Notched and tongued for loading in 36-exposure magazines. Frame-numbered.
- 415 —35mmx100 ft, subdued light load, K.S. perforated, on No. 10-35mm spool. For 35mm high speed cameras.
- 417 —35mmx100 ft, subdued light load, perforated, on No. 10-35mm spool. For Ophthalmograph, Eyemo, De Vry, and similar cameras; Graflex Photorecord Microfilm Outfit, and 35mm Graflex Photorecord Identification Unit or Camera.
- 418-4—35mmx400 ft, darkroom load, K.S. perforated, on 2-in. diameter Tenite core with 1-in. hole (Type R). For 35mm high speed cameras.
- Sp 418—Same as above except for length.
- 421-1—35mmx100 ft, darkroom load, B&H perforated, on 1-in. diameter Tenite core, square hole with keyway (Type AA).
- 426 —35mmx100 ft, darkroom load, not perforated, on 1-in. diameter Tenite core, square hole with keyway (Type AA). For Ve-Ja-De, Willson, and similar cameras. Also Beattie Portronic and Alves Copying Cameras.
- 427 —35mmx200 ft, otherwise same as No. 426. For Ve-Ja-De, Willson, and similar cameras.
- 446-1—46mm (1⅜ in.) x 100 ft, perforated one edge, on special 1-in. diameter Tenite core with ¼-in. center bore with keyway (Type C).
- 446-2—Same as 446-1 except 200 ft long.
- 472 —70mmx100 ft, darkroom load, not perforated, on 2-in. O.D. Tenite core with 1-in. center bore with keyway (Type X). For Cunningham, Ve-Ja-De, and similar cameras.
- 473 —70mmx100 ft, darkroom load, not perforated, on 1¼-in. diameter Tenite core with square hole (Type J). For Beattie Portronic, MacVan R-70, and similar cameras.
- Sp 473—Same as above except for length.
- 474 —70mmx100 ft, subdued light load, not perforated, on No. 10-70mm spool.
- 475 —70mmx100 ft, subdued light load, perforated Type II, on No. 10-70mm spool. For cameras equipped with Type II sprockets, and for use in Graphic 70 Cameras, Linhof Cine Rollex 70mm Film Holder, and similar equipment.
- 476-4—70mmx400 ft, darkroom load, perforated Type I, on 2-in. O.D. Tenite core with 1-in. center bore with keyway (Type X).
- 476-10—Same as 476-4 except 1000 ft long.
- 477 —70mmx100 ft, subdued light load, perforated Type I, on No. 10-70mm spool. For Hulcher and similar cameras.
- 488 —70mmx15 ft, daylight load cassette, perforated Type II. For Graphic 70 Cameras, Linhof Cine Rollex 70mm Film Holder, and similar equipment. Makes about 50 exposures of usual format.
- 651-1—35mm x 100 ft, darkroom load, K.S. perforated, on 1-in. diameter Tenite core, square hole with keyway (Type AA).
- Sp 663—35mm, darkroom load, K.S. perforated, on 2-in. diameter Tenite core with 1-in. hole (Type U).
- 714-4—35mmx400 ft, darkroom load, B&H perforated, footage numbered, on 2-in. diameter Tenite core with 1-in. hole (Type R).
- Sp 763—35mm, darkroom load, not perforated, on 2-in. diameter Tenite core with 1-in. hole (Type R).
- Sp 801—Darkroom load, not perforated, on 1⅞-in. I.D. paperboard core.
- 819-1—46mm (1⅜ in.) x 100 ft, not perforated, on special 1-in. diameter Tenite core with ¼-in. center bore with keyway (Type C).
- 819-2—Same as 819-1 except 200 ft long.
- Sp 825—3½-in., darkroom load, not perforated, on 2-in. O.D. Tenite core with 1-in. center bore with keyway (Type E). For Beattie Portronic and A&F Portramatic Cameras, Keith Camera Adapter Back, and similar equipment.
- Sp 866—Same as 663 except frame-numbered.

## 16mm KODAK MOVIE FILM PERFORATED TWO EDGES

### Kodachrome II

Color projection film for all-round use. Processed by Kodak and other laboratories (Process K-12).

Iden No. & Type		Case	Quan

PXR452-12		1200 ft on core, dkrm load	15	<b>56.40</b>
(Formerly PXR451-12.)				

\*See Section J for additional billing information on 8mm Kodachrome II Movie Film.  
†With integral leader and trailer for loading in subdued light.

### Tri-X Reversal

High-speed black-and-white panchromatic projection film for use in limited light. Processed by commercial laboratories.

Iden No.		Case	Quan	
TXR447		50-ft magazine	50	\$4.85
		Magazine deposit		+ .85
		Price including deposit		<b>5.70</b>
TXR449		100 ft on camera spool†	50	<b>6.00</b>
TXR450		200 ft on camera spool†	30	<b>10.15</b>
TXR451-4		400 ft on core, dkrm load	30	<b>18.80</b>
TXR452-12		1200 ft on core, dkrm load	15	<b>56.40</b>
(Formerly TXR451-12.)				

### Plus-X Negative

Black-and-white panchromatic negative film for all-round use. Developed and printed by commercial laboratories.

Iden No.		Case	Quan	
PXN449		100 ft on camera spool†	50	<b>\$5.10</b>
PXN450		200 ft on camera spool†	30	<b>8.60</b>

### Double-X Negative

High-speed black-and-white panchromatic negative film for use in limited light. Developed and printed by commercial laboratories.

Iden No.		Case	Quan	
DXN449		100 ft on camera spool†	50	<b>\$5.10</b>
DXN450		200 ft on camera spool†	30	<b>8.60</b>

### Tri-X Negative

High-speed black-and-white panchromatic negative film for use in limited light. Developed and printed by commercial laboratories.

Iden No.		Case	Quan	
TXN449		100 ft on camera spool†	50	<b>\$5.10</b>
TXN450		200 ft on camera spool†	30	<b>8.60</b>

### Fine Grain Positive

Black-and-white print film. Developed by user and commercial laboratories.

Iden No.		Case	Quan	
P451-1		100 ft on core, dkrm load		<b>\$1.70</b>
P451-2		200 ft on core, dkrm load		<b>2.65</b>

### Kodak White Movie Leader

	100-ft roll (Sp 574)	<b>\$1.90</b>
	†1000-ft roll (Sp 452*)	<b>14.20</b>

†Packaged 2 rolls to a can; orders must be for 2 rolls or multiples thereof.  
\*Formerly Sp 451.

Prices of Kodak movie films do not include a charge for processing.

## KODAK SOUND RECORDING TAPE

### KODAK SOUND RECORDING TAPE

General-purpose, 1/4-inch-wide magnetic tape for recording sounds of voice and music.

#### 1 1/2 mil triacetate—Standard Play

Iden No.		
31A12	1200-ft, 7-in. Reel	<b>\$3.15</b>
31A6	600-ft, 5-in. Reel	<b>1.85</b>
31A1	150-ft, 3-in. Reel	<b>.85</b>

#### 1 mil triacetate—Extra Play

Iden No.		
21A18	1800-ft, 7-in. Reel	<b>\$4.45</b>
21A9	900-ft, 5-in. Reel	<b>2.60</b>

### KODAK THREAD-EASY REEL

#### Kodak Thread-Easy Reel, 7-inch (for Sound Recording Tape)

Iden No.		
497	In box without tape	<b>\$ .75</b>

## 16mm KODAK MOVIE FILM PERFORATED ONE EDGE

### Kodachrome II

Color projection film for all-round use. Processed by Kodak and other laboratories (Process K-12). Kodak processing provides for dye-image photographic sound track.

Iden No. & Type		Case	Quan	
Daylight	Type A			
KR455	KRA455	100 ft on camera spool‡	50	\$ 9.95

ER434	ERB434	400 ft on camera spool for loading in subdued light	30	<b>43.50</b>

### Ektachrome M5

Medium-speed color projection film for use in limited light. Daylight type only. Processed by Kodak and other laboratories.

Iden No.		Case	Quan	
EMS430		100 ft on spool†	50	<b>\$12.40</b>
EMS432		200 ft on spool†	30	<b>21.25</b>
EMS433-4		400 ft on core, dkrm load	30	<b>40.50</b>
EMS434		400 ft on camera spool for loading in subdued light	30	<b>43.50</b>

### Plus-X Reversal

Black-and-white panchromatic projection film for all-round use. Processed by commercial laboratories.

Iden No.		Case	Quan	
PXR430		100 ft on spool†	50	<b>\$6.55</b>

### Tri-X Reversal

High-speed black-and-white panchromatic projection film for use in limited light. Processed by commercial laboratories.

Iden No.		Case	Quan	
TXR430		100 ft on spool†	50	<b>\$6.55</b>
TXR433-4		400 ft on core, dkrm load	30	<b>19.30</b>

### Double-X Negative

High-speed black-and-white panchromatic negative film for use in limited light. Developed and printed by commercial laboratories.

Iden No.		Case	Quan	
DXN430		100 ft on spool†	50	<b>\$ 5.65</b>
DXN432		200 ft on spool†	30	<b>9.10</b>
DXN433-4		400 ft on core, dkrm load	30	<b>16.20</b>

### Tri-X Negative

High-speed black-and-white panchromatic negative film for use in limited light. Developed and printed by commercial laboratories.

Iden No.		Case	Quan	
TXN430		100 ft on spool†	50	<b>\$ 5.65</b>
TXN432		200 ft on spool†	30	<b>9.10</b>
TXN433-4		400 ft on core, dkrm load	30	<b>16.20</b>
TXN434		400 ft on camera spool for loading in subdued light	30	<b>19.70</b>

### High Speed Infrared

Use recommended filter. Ultrasensitive. Load and develop in total darkness.

Iden No.		Case	Quan	
HIR430		100 ft on spool	50	<b>\$ 6.55</b>

### Royal-X Pan Recording

Ultra-fast panchromatic. Not for general use.

		100 ft on spool (Sp 430)		<b>\$ 7.30</b>
--	--	--------------------------	--	----------------

†With integral leader and trailer for loading in subdued light.

‡Prices include Federal Excise Tax.

## SONOTRACK COATING SERVICES FOR 8mm AND 16mm FILMS

Sonotrack Coating is a magnetic stripe for processed 8mm or 16mm film to permit sound recording. 16mm film perforated 2 edges and 8mm film will be coated between edge of film and the perforations. 16mm film perforated on one edge will be coated with a full-width track. If 16mm film perforated on one edge already has a photographic sound track present, the film will be coated with half-width track. A charge will be made for work required to put films in satisfactory condition for coating.

### †SONOTRACK COATING FOR PROCESSED 8mm OR 16mm FILM

In rolls less than 400 ft, per ft	<b>\$ .06</b>
(Rolls 267 ft through 399 ft are priced at \$16)	
In rolls 400 ft or more, per ft	<b>.04</b>
Minimum charge per roll	<b>3.00</b>

### †KODACHROME DUPLICATE PLUS SONOTRACK COATING

<b>Kodachrome 8mm Duplicate plus Sonotrack Coating of Original or Duplicate</b>	
Per ft	<b>\$ .175</b>
Minimum charge per order	<b>8.75</b>

### Kodachrome 16mm Duplicate plus Sonotrack Coating of Original or Duplicate

Per ft	<b>\$ .22</b>
Minimum charge per order	<b>11.00</b>

If Sonotrack Coating Service is requested for both original film and Duplicate, the additional charge per foot will be **\$ .04** for the additional footage coated. Indicate clearly whether Sonotrack Coating is to be applied to the original, or Duplicate, or both.

†Supplied from Rochester only.

### †KODACHROME AND KODACHROME II PROCESSING PLUS SONOTRACK COATING

### SIZES OF KODACOLOR PRINTS AND ENLARGEMENTS

**Kodacolor Prints 2R**—2½x3½ in.

From 24x36mm and 28x40mm negatives.

**Kodacolor Prints 3S**—3½x3½ in.

From negative areas 1⅝x1⅝ in., 2¼x2¼ in., and 28x28mm.

If negative is rectangular or if whole negative is not to be printed, cropping must be to one of the following dimensions: 1⅝x1⅝ in. or 2¼x2¼ in. Additional charge for first cropped print from each negative.

**Kodacolor Prints 3R**—3½x5 in., 3½x5¼ in., and 3½x5¾ in. (length depending on picture proportions)

From standard-size rectangular negative areas 24x36mm through 2½x4¼ in. If negative is square or if whole negative is not to be printed, cropping must be to one of the following dimensions: 1⅝x1⅝ in., 1⅝x2¼ in., 1⅝x2½ in., or 2¼x3¼ in. Additional charge for first cropped print from each negative.

**Kodacolor Enlargements, 5x7, 8x10, and 11x14**

5x5, 7x10, 8x8, and 11x11

From standard-size negatives. If whole negative is not to be printed, see Kodacolor Enlargement Masking Guide. No additional cropping charge.

NOTICE: If either black-and-white or color films are damaged or lost by us or any subsidiary company, they will be replaced with unexposed film. Except for such replacement, films will be accepted for processing, printing, duplicating, or any other service without warranty, guarantee, or other liability of any kind. The dyes used in Kodak color films and prints, like other dyes, may change in time. These products will not be replaced or otherwise warranted against any change in color.

### KODACOLOR BUSINESS CARDS

Approximately 3 1/2 in. wide and 2 in. high with color picture 1 1/8 in. wide and 1 3/8 in. high on left side of card. Right side of card carries text as specified, such as name, position, company, address, and phone number. From Kodacolor negative or color transparency 24x36mm through 2 1/4 x 2 1/4 in. with head image size 3/8 to 1/2 in., or from color print or enlargement with head size 3/8 to 1 1/2 in. (Additional Kodacolor Copy Negative charge if original is color print or enlargement.)

100 or more from same original, each ..... \$ .20  
Plus setup charge for standard layout ..... 10.00  
Setup charge for special layout—Quotation on request.

### KODAK SLIM-LINE BUSINESS ANNOUNCEMENT CARDS

3 1/2 x 7-in. cards with color pictures 3 x 4 1/2 in. (horizontal or vertical), or 3 x 3 in. #### KODAK EKTACHROME ER AND MS FILMS, 16mm, PROCESSING

Supplied from Rochester, Hollywood, Palo Alto, Chicago, Fair Lawn, Washington, D. C.

	Per Roll
100-ft roll	\$ 7.00
200-ft roll	14.00
400-ft roll	28.00
1200-ft roll	84.00

### KODAK EKTACOLOR PROCESSING SERVICE

#### PROCESSING OF KODAK EKTACOLOR FILM IN LONG ROLLS

Kodak offers a processing service for Kodak Ektacolor Film in 35mm, 70mm, and 46mm long rolls. The price for Kodak processing of Ektacolor Films from the above listed rolls, irrespective of width, in uncut lengths of not less than 15 feet is **25 cents** per foot. In general, we do not expect to process Ektacolor Film in rolls shorter than 15 feet. In those cases where we are requested to do so, there is an additional charge of **65 cents** per strip shorter than 15 feet.

### KODACHROME PROCESSING SERVICES

#### KODACHROME, KODACHROME II, AND KODACHROME-X FILM PROCESSING

◊ Kodachrome and Kodachrome II Processing plus Sonotrack Coating

## LAMINATED SLIDE MOUNTING

### KODAK LAMINATED SLIDE MOUNTING SERVICE

Lamination of the emulsion side of 24x36mm transparencies on Kodak 35mm color films to a single piece of glass which is encased in an aluminum and plastic 2x2-in. mount.

1-24 Transparencies, each	\$1.50
25-99 Transparencies, each	1.25
100 or more Transparencies, each	1.00

## KODAK PREPAID PROCESSING MAILERS

### Mailers for Kodachrome and Ektachrome Films

Enable customer to mail exposed Kodachrome and Ektachrome Films to any Kodak laboratory for direct return after processing to address indicated.

Mailer No.	For Color Slides	
PK28	For Kodachrome, Kodachrome II, Ektachrome, and Ektachrome-X Film 828—8 Frames, 28x40mm, in 2x2-in. mounts	\$1.20
PK20	For Kodachrome, Kodachrome II, Kodachrome-X, Ektachrome, Ektachrome-X, and High-Speed Ektachrome Film, 135—20 Frames, 24x36mm, in 2x2-in. mounts; and for Kodachrome-X and Ektachrome-X, 126—20 Frames, 28x28mm, in 2x2-in. mounts	1.85
PK36	For Kodachrome, Kodachrome II, Kodachrome-X, Ektachrome-X, and High-Speed Ektachrome Film 135—36 Frames, 24x36mm, in 2x2-in. mounts	3.05
PK27	For Ektachrome and Ektachrome-X Film 127—12 Frames, 1 7/8x1 5/8 in., in 2x2-in. mounts	1.85

### For 16mm Movie Film

PK47	For Kodachrome and Kodachrome II Movie Film, 16mm, 50-ft magazine	2.70
	Refund of magazine deposit	-.85
	Processing charge after refund	1.85
PK49	For Kodachrome and Kodachrome II Movie Film, 16mm, 100-ft roll (perforated one or two edges, or for high speed cameras)	4.50

### Mailers for Kodacolor Film

Enable customer to mail exposed Kodacolor Film direct to the Kodak laboratory in Rochester or Palo Alto for developing and printing. Negatives and prints returned direct to customer to address indicated. A certificate, redeemable for one Kodacolor Print, included for each negative not printed.

Mailer No.	For Color Prints	
DP8	For any 8-exp Kodacolor Film. Includes 8 Kodacolor Prints 3R	\$3.20
DP12	For any 12-exp Kodacolor Film. Includes 12 Kodacolor Prints 3S	3.90
DP20-2R	For Kodacolor and Kodacolor-X Film 135, 20-exp. Includes 20 Kodacolor Prints 2R	4.30
DP20-3R	For Kodacolor and Kodacolor-X Film 135, 20-exp. Includes 20 Kodacolor Prints 3R	6.70

## KODACHROME PRINTS AND ENLARGEMENTS

### KODACHROME PRINTS

<b>2R</b> , 1-7 prints, each°	\$ .35
8 or more prints, each°	.30
25 or more prints from same transparency, each	.15
<b>2RM</b> , 1-7 prints, each°	.85
8 or more prints, each°	.75
25 or more prints from same transparency, each	.45
<b>3S</b> , 1-7 prints, each°	.45
8 or more prints, each°	.40
25 or more prints from same transparency, each	.22
<b>3R</b> , 1-7 prints, each°	.45
8 or more prints, each°	.40
25 or more prints from same transparency, each	.25

### KODACHROME ENLARGEMENTS

5x7, 5x5-1 or 2 enlargements, each°	1.25
3 or more enlargements, each°	1.00
25 or more enlargements from same transparency, each	.85
8x10, 8x8, 7x10-1 or 2 enlargements, each°	3.50
3 or more enlargements, each°	3.00
25 or more enlargements from same transparency, each	2.60
11x14, 11x11-1 or 2 enlargements, each°	7.75
3 or more enlargements, each°	7.00
25 or more enlargements from same transparency, each	6.35

\*See table of sizes for Kodak Laboratories supplying.

°From one or more same-size transparencies.

†Regularly supplied semigloss; matte finish on request at no additional charge.

### SIZES OF KODACHROME PRINTS AND ENLARGEMENTS KODAK LABORATORIES FROM WHICH AVAILABLE

#### Kodachrome Prints 2R—2 1/2 x 3 1/2 in.

From mounted transparencies 24x36mm and 28x40mm. Rochester, Chicago, and Palo Alto.

#### Kodachrome Prints 2RM—2 1/8 x 3 1/2 in.

From transparencies 18x24mm, unmounted 10x14mm (double-frame 16mm) and 8mm and 16mm movie frames (9-frame strip of 8mm movie film or 5-frame strip of 16mm movie film required. If longer lengths or rolls are submitted, the frame to be printed should be identified by tying a thread through the perforation adjacent to the frame). Chicago only.

#### Kodachrome Prints 3S—3 1/2 x 3 1/2 in.

From mounted or unmounted transparencies 1 5/8x1 5/8 in. and 2 1/4x2 1/4 in. Rochester, Chicago, and Palo Alto.

From mounted transparencies 24x24mm. Rochester and Chicago only.

From mounted transparencies 28x28mm. Rochester, Chicago, and Palo Alto.

#### Kodachrome Prints 3R—3 1/2 x 5 in.

From mounted transparencies 24x36mm and 28x40mm. Rochester, Chicago, and Palo Alto.

From mounted or unmounted transparencies 1 5/8x2 1/4 in., 1 5/8x2 1/2 in., and 2 1/4x3 1/4 in. Chicago only.

From 2 1/4x3 1/4-in. areas cropped from sheet film transparencies 3 1/4x4 1/4 in., 4x5 in., or 9x12 cm. Additional cropping charge of \$.30 [38-1875] made for first 3R print from each transparency. Chicago only.

#### Kodachrome Prints 3R—3 1/2 x 3 3/4 in.

From stereo-mounted transparencies 23x24mm. Rochester and Chicago only.

#### Kodachrome Enlargements

## KODACHROME DUPLICATES

### Kodachrome 24x36mm Duplicates from Transparencies

24x36mm Mounted in 2x2 Ready-Mounts

From 24x36mm or 28x40mm mounted transparencies

1-7 Duplicates, each°	\$ .30
8-99 Duplicates, each°	.25
100 or more Duplicates, each°	.20
Reduced from 8x10 or smaller transparencies (except 4.5x10.7cm and 6x13cm)	
1-7 Duplicates from same transparency, each	.70
8-99 Duplicates from same transparency, each	.50
100 or more Duplicates from same transparency, each	.30

### Kodachrome 28x28mm Duplicates from Transparencies

28x28mm Mounted in 2x2 Ready-Mounts

From 28x28mm mounted transparencies

1-7 Duplicates, each°	.30
8-99 Duplicates, each°	.25
100 or more Duplicates, each°	.20

### Kodachrome 31x31mm Duplicates from Transparencies

31x31mm Mounted in 2x2 Ready-Mounts

From 1 $\frac{1}{8}$ x1 $\frac{1}{8}$ -in. mounted transparencies

From 2 $\frac{1}{4}$ x2 $\frac{1}{4}$ -in. mounted transparencies

1-7 Duplicates, each°	.40
8-99 Duplicates, each°	.35
100 or more Duplicates, each°	.30

### Kodachrome Stereo Duplicates from Transparencies

Same-size Duplicate pairs from mounted transparency

23x24mm through 24x36mm size. Mounting service is available for only 23x24mm Duplicate pairs as listed below.

1 or more Duplicate pairs (unmounted), per pair°	.60
50 or more Duplicate pairs (unmounted), per pair°	.40

Mounting 23x24mm Duplicate pairs in Kodak

Stereo Ready-Mounts, per pair	.10
-------------------------------	-----

Same-size Duplicates are available from one of Stereo transparency pair. Priced and billed same as Kodachrome 35mm Duplicates.

### \*Kodachrome 8mm Duplicate

Per ft	.135
Minimum charge per order	6.75

### \*Kodachrome 16mm Duplicate

Per ft	Silent \$ .18	<sup>A</sup> Sound \$ .22
Minimum charge per order	9.00	11.00

\*Supplied from Rochester only. Prices include light-weight return reel in carton up to and including 100-ft 8mm or 200-ft 16mm. Longer lengths will be returned in the appropriate Kodak Movie Reel and Can (supplied without charge). For Kodachrome Duplicate plus Sonotrack Coating, see page 63.

<sup>A</sup>Negative sound track required.

°From one or more same-size transparencies.

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

## QUALITY CONTROL MATERIALS

**Kodak Neutral Test Card**—For use with an exposure meter in taking color pictures by artificial light—to determine exposure, adjust lighting ratio, and check lighting distribution. The card also provides a control patch in color negatives for determining printing exposures. It has a gray side of 18 percent reflectance and a white side of 90 percent reflectance. Envelope contain-

ing 4 cards and instructions.

Iden No. R27 ..... \$1.25

**Kodak Projection Print Scale**—Consists of a negative divided into 10 sectors of varying density, each indicating a different printing time. Gives an accurate test strip each time with just one exposure. Size—4 $\frac{3}{8}$ x5 $\frac{5}{8}$  inches.

Package of 5 ..... Each \$1.75

**Kodak Color Separation Guides**—This kit contains a 9-color Kodak Color Control Patch, a 10-step Kodak Gray Scale, and two strips of Kodak Register Marks. The guides are intended primarily for mounting with reflection copy which is to be reproduced photomechanically. Available in two sizes.

Iden No. Q13 Small, 7 inches long. .... \$1.50

Iden No. Q14 Large, 14 inches long. .... 1.95

**Kodak Paper Gray Scales**—Intended for inclusion in the original scene to be photographed. Helpful in balancing and identifying color separation negatives. Ten steps are included on each. Available in both calibrated and uncalibrated forms.

Uncalibrated	Calibrated
2x10 inches. \$ 6.35	2x10 inches. \$15.40
8x10 inches. 18.15	8x10 inches. 27.25

**Kodak Photographic Step Tablets**—Useful in making color prints from Kodachrome and Ektachrome transparencies when a gray scale was not included in the original scene.

Uncalibrated

No. 1A— $\frac{3}{4}$ x3 $\frac{3}{16}$  inches (effective area  $\frac{3}{4}$ x1 $\frac{5}{8}$  inches). 11 steps. Increment .30. Step width 3.75mm. Density range, approximately .05 to 3.05. .... \$ 4.40

No. 2—1x5 $\frac{1}{2}$  inches (effective area 1x4 $\frac{1}{8}$  inches). 21 steps. Density range, approximately .05 to 3.05. .... 5.25

No. 3—1 $\frac{1}{2}$ x9 $\frac{7}{8}$  inches (effective area 1 $\frac{1}{2}$ x8 $\frac{7}{8}$  inches). 21 steps. Density range, approximately .05 to 3.05. .... 6.35

Calibrated

No. 2 (Same as No. 2 above). .... 14.35

No. 3 (Same as No. 3 above). .... 15.45

†**Kodak Quality Control System for Kodak Black-and-White Films and Roll Papers**—For photofinishing, professional, and commercial operations. Complete quality-control procedures for the processing of Kodak black-and-white films and roll papers. Includes information on quality control in general, chemical mixing and replenishment, densitometry, trouble-shooting, and how to handle, prepare, and process quality-control

materials. Also included: loose-leaf binder, Kodak Hypo Estimator, Kodak Film Stop Bath Test Paper, Kodak B/W Quality Control Negatives, registration card, section dividers, and two sets of record forms. . . . \$15.00

**Iden No. Y-70**—†Kodak Processing Record Form (for Kodak Quality Control System for Kodak Black-and-White Films and Roll Papers). Pad of 25. . . . \$ .75

**Iden No. Y-71**—†Kodak B/W Process Record Form (for Kodak Quality Control System for Kodak Black-and-White Films and Roll Papers). Set of 50. . . . \$1.50

†**Kodak B/W Quality Control Negative** (for Kodak Quality Control System for Kodak Black-and-White Films and Roll Papers)—  
620 . . . . . \$1.25  
135 . . . . . .45  
Professional . . . . . 1.25

†**Kodak Film Stop Bath Test Paper** (for Kodak Quality Control System for Kodak Black-and-White Films and Roll Papers). Per package. . . . \$1.00

**Kodak B/W Film Control Strips**—Sensitometrically exposed film strips intended for photographic control purposes in the processing of amateur black-and-white films. Each strip has two uniform-density control spots. Box of 30 strips. . . . \$5.00

**Kodak B/W Professional Process Control Strips**—Sensitometrically exposed film strips intended for photographic control purposes in the processing of professional black-and-white films. Each strip has a step tablet with 11 steps. Box of 30 strips. . . . \$5.00

†**Kodak Quality Control System for Kodak Color Films and Papers**—For photofinishing, professional, and commercial operations. Complete quality-control procedures for the processing of Kodacolor, Kodak Ektacolor, and Kodak Ektachrome (E-2 and E-3) Films and the printing and processing of Kodak Ektacolor and Ektachrome Papers. Sections include Densitometry

and Chemical Mixing and Replenishment. Also included are 3 sets of record forms, section dividers, and a free subscription to future supplements to the Control System. . . . \$25.00

**Iden No. Y-55**—†Kodak Color Process Record Form (for Kodak Quality Control System for Kodak Color Films and Papers). Set of 50. . . . \$1.50

**Iden No. Y-60**—†Kodak Processing Record Form (for Kodak Quality Control System for Kodak Color Films and Papers). Set of 25. . . . \$ .75

**Iden No. Y-61**—†Kodak Processing Record Form (for Kodak Quality Control System for Kodak Color Films and Papers). Set of 25. . . . \$ .75

**Kodak Ektachrome Control Strips (for Process E-2)**—Sensitometrically exposed film strips intended for photographic control purposes in the Kodak Ektachrome Process E-2. A Rochester-processed strip on the same emulsion is included with each package for comparison purposes. Packaged 20 strips in each box. . . . \$5.00

**Kodak Ektachrome Control Strips (for Process E-3)**—Sensitometrically exposed film strips intended for photographic control purposes in the Kodak Ektachrome Process E-3. A Rochester-processed strip on the same emulsion is included with each package for comparison purposes. Packaged 20 strips in each box. . . . \$5.00

†Supplied from Rochester only.

**Kodacolor Control Strips (for Process C-22)**—Sensitometrically exposed film strips for photographic control purposes in the C-22 Kodacolor Process. A Rochester-processed strip on the same emulsion is included with each package for comparison purposes. Unit package consists of four heat-seal foil envelopes, each containing five strips of film 5¼ inches long by 35mm wide. . . . \$5.00

**Kodak Ektacolor Internegative Control Strips**—Sensitometrically exposed film strips for photographic control purposes in the Internegative Process. A Rochester-processed strip on the same emulsion is included with each package for comparison purposes. Unit package consists of four heat-seal foil envelopes, each containing five strips of film 5¼ inches long by 35mm wide. . . . \$5.00

**Kodak Color Film Control Strip Hangers**—For loading Color Control Strips into conventional 5 by 7 or 8 by 10 Kodak Film and Plate Developing Hangers, No. 4A.

5x7 . . . . . \$9.00  
8x10 . . . . . 9.00

**Kodak Control Strip Holder for 70mm x 100-ft Nikon Reel**—For holding film control strips on 70mm x 100-ft Nikon reels during processing. Quickly attached and removed. . . . \$3.75

Note: Control strip holders for 3½-in. roll film (90mm) are available on special order from The Nikon Products Company, Springfield, Mass.

**Quality Control Record Forms for Kodachrome Film Processing**—For quality control record keeping in connection with the processing of 8mm, 16mm, and 35mm Kodachrome Films, these forms provide space for recording all the information pertinent to quality control work. Temporary record forms (for plotting the results of chemical analyses) will be supplied at no charge to those ordering the four forms described below.

†**Iden. No. Y-100**—Kodak Process Control Record Form (for Kodachrome Film Processing). For plotting density differences between Kodachrome Reference Strips and Control Strips. Intended for use with Record Form Y-103. Set of 100. . . . \$6.00

†**Iden. No. Y-101**—Kodak Chemical Analysis Record Form (for Kodachrome Film Process K-12). For recording the analytical results of all tests recommended (for seasoned solutions) in the Kodachrome Manuals. For Process K-12 only. Set of 300. . . . \$6.00

†**Iden. No. Y-102**—Kodak Chemical Mixing Record Form (for Kodachrome Film Processing). For the chemical mixing and analysis rooms. Applies to either tank or replenisher solutions. Set of 100. . . . \$2.00

†**Iden. No. Y-103**—Kodak Densitometry Record Form (for Kodachrome Film Processing). For recording the density values of the gray scale steps and color patches which should be read for each processed Control Strip. For use in connection with Record Form Y-100. Set of 300. . . . \$6.00

## NEGATIVES AND TRANSPARENCIES FOR PRINTER SETUP AND QUALITY CONTROL

### \*Kodak Black-and-White Focus Test Negatives

Size	Part No.	
135	102028	..... \$ .60

3¼x4¼ Negative, 0.65 Density, Part No. 761711		..... 1.25
2¼x3¼ Negative, 2.0 Density, Part No. 761712		..... 1.50

\***Kodacolor Test Negatives, Indoor-Outdoor**—For exposing quality control prints on Kodak Ektacolor Paper as described in the Kodak Quality Control System for Kodak Color Films and Papers. 620 size, per set of 2. Part No. 133980 ..... \$12.00

### \*Kodacolor Slope Control Negatives, Indoor

Size	Part No.	
620	837722	..... Per set of 3 \$22.80

### \*Kodacolor Setup Negative (Glass Mount)

Size	Part No.	
3⅝x4⅜ inches	833215 RED binding—For use with Kodak Roll Paper Color Printers	..... \$18.00

\***Kodak Color Control Transparency, Indoor**—For exposing quality control prints on Kodak Ektachrome Paper as described in the Kodak Quality Control System for Kodak Color Films and Papers. 135 size, in Ready-Mount. Part No. 154134 ..... \$9.90

## SENSITOMETRIC EQUIPMENT

†**Kodak Process Control Sensitometer, Model 101**—Provides repeatable exposures on either black-and-white or color photographic materials for process control purposes. Unit is enclosed in a sheet metal housing with over-all dimensions of 8x12x22 inches. 115-volt, 60-cycle ac.

\*\$900.00

\***Voltage Stabilizer, 50-Cycle**—Converts Process Control Sensitometer to 50-cycle operation. Part No. 819575 ..... \*\$72.00

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

**Kodak Color Correction Filter, No. 308** (3-inch square)—For use in the Kodak Process Control Sensitometer, Model 101, for exposing Kodak Ektachrome and Ektacolor Papers ..... \*\$15.67

**Kodak Color Temperature Conversion Filter, No. 309** (3-inch square)—For use in the Kodak Process Control Sensitometer, Model 101, for exposing Kodak Ektachrome Film, Type F, and Kodacolor Film ..... \*\$15.67

†**Kodak Sensitometric Wedge, No. 2**—For use with the Kodak Process Control Sensitometer, Model 101. Intended for exposing control strips on Verichrome Pan Film, to give strips similar to the Kodak Film Developer Test Strips ..... \*\$30.94

†**Kodak Sensitometric Wedge, No. 3**—For use with Kodak Process Control Sensitometer, Model 101. For exposing Kodak Ektachrome and Ektacolor Papers ..... \*\$30.94

**Kodak Color Densitometer, Model 1**—Supplied with three filters in built-in holder. Takes the guesswork out of both color and black-and-white printing. Optical system utilizes a rotatable plastic density wedge. 115-volt, 50-60-cycle ac. .... \*\$112.50

†**Eastman Densitometer, Model 1A**—Modified form of the Kodak Color Densitometer, Model 1. Especially designed for measurement of black-and-white densities of minute areas, such as motion-picture sound tracks. Not supplied with color filters. 115-volt, 50-60-cycle ac. .... \*\$125.00

**Kodak Reflection-Transmission Color Densitometer, Model 10-K**—For use in measuring film or transparency densities by transmission and print densities by reflection. A new high-intensity light source and related optical system permit full sensitometric strip range in all three colors for process control or negative analysis.

Light-source base supports film or paper sample up to 10x12 inches in size. 115-120-volt, 50-60-cycle ac. .... \*\$380.00

**Densitometer Lamp**—6-8 volt, .25 ampere, T3¼, clear, miniature bayonet base lamp, No. 44, for Kodak Color Densitometer, Model 1; Eastman Densitometer, Model 1A; and Kodak Reflection-Transmission Color Densitometers. .... \$1.15

**Kodak Reflection Densitometer Check Plaque**—For checking spectral sensitivity of the color reflection densitometers to obtain a closer printing and processing color control. .... \*\$16.00

# Kodak photographic papers

**Kodabromide Paper** High-speed projection paper with a wide exposure latitude. Designed for commercial photographic work, for photofinishers and news photographers.

**Kodak Ad-Type Paper** Contact print paper. Folds without cracking.

**Kodak Album Print Paper** Deckle-edged paper for oversize printers. The attached hinge can be torn off if desired. Hinges have two holes punched for insertion of staples when used in album folders.

**Kodak Aristo Paper** Contact printing paper of moderate warmth particularly suited for the portrait photographer.

**Kodak Athena Paper** Contact printing paper of portrait quality producing prints of warmth, brilliance, and fine gradation.

**Kodak Azo Paper** Contact printing paper for commercial work.

**Kodak Dye Transfer Paper** Premordanted paper for the Dye Transfer Process.

**Kodak Ektachrome Paper (Process P-111)** Reversal color print material for making color prints from positive color transparencies such as Kodachrome, Ektachrome, etc.

**Kodak Ektacolor Paper, Type 1583 (Process P-122)** Negative-to-positive color print material for making color prints from color negatives such as Kodacolor, Ektacolor, etc.

**Kodak Ektacolor Professional Paper (Process P-122)** Negative-to-positive color print material for making color prints from color negatives such as Kodacolor, Ektacolor, etc.

**Kodak Ektalure Paper** Warm tone, high-speed, portrait enlarging paper.

**Kodak Electrocardiograph 553 and 797 Papers** Designed for the exacting requirements of photography for scientific records.

**Kodak Illustrators' Azo Paper** Contact printing paper of moderate warmth for the illustrator and commercial photographer.

**Kodak Illustrators' Special Paper** Warm image tone enlarging emulsion on white stock. Excellent for reproduction purposes.

**Kodak Medalist Paper** All-purpose enlarging paper of high speed and warm black tone. Wide development latitude facilitates the best possible print from a wide variety of negatives.

**Kodak Mural Paper** Enlarging paper specially designed for photo-mural and other large print work.

**Kodak Opal Paper** Warm brown-black tone, long scale, portrait paper for enlarging or contact printing with reduced illumination.

**Kodak Panalure Paper** Coated with a panchromatic emulsion, it yields quality black-and-white prints from Ektacolor and Kodacolor Films.

**Kodak Polycontrast Paper** Variable contrast paper for general photographic use, either contact or projection. Warm black tone, medium speed, used with Kodak Polycontrast Filters.

**Kodak Polycontrast Rapid Paper** Variable contrast paper for general photographic use. Warm black tone, high speed, used with Kodak Polycontrast Filters.

**Kodak PolyLure Paper** Variable-contrast, warm-tone, projection-speed portrait paper. Used with Kodak Polycontrast Filters.

**Kodak Portrait Proof Paper** Developing-out paper of sufficient speed for projection printing.

**Kodak Professional Proof Paper** Neutral image tone printing-out paper requiring light sources of high ultraviolet radiation, such as mercury vapor, daylight fluorescent tubes, sunlight, etc.

**Kodak Resisto Paper** Contact printing paper of Velox speed coated on water-resistant stock.

**Kodak Resisto Rapid Paper** Projection paper of Kodabromide speed coated on water-resistant stock.

**Kodak Resisto Rapid Pan Paper** A panchromatic emulsion on water-resistant stock specifically intended for separation positive prints for photomechanical reproduction in color from Kodak Ektacolor and Kodacolor Films.

**Kodak Studio Proof Paper** Printing-out paper which requires sunlight, blue fluorescent proof printer, or a high-powered arc lamp.

**Kodak Super Speed Direct Positive Paper** Smooth, white, semi-gloss. Provides a direct positive image by chemical reversal and is useful both for cameras and for making prints directly from transparencies.

**Kodak Velox Paper** Of normal speed for contact printing. Designed to fit the requirements of the amateur photographer's negatives.

**Kodak Velox Premier Paper** High-speed paper intended as companion product to Velox Unicontrast F. Specially designed for printing miniature negatives with diffused light source.

**Kodak Velox Rapid Paper** Suitable for optical printers. Faster than Velox. Enables the finisher to produce enlargements from miniature negatives of the same quality and tone as Velox contact prints. Not sufficient speed for use with conventional enlargers.

**Kodak Velox Unicontrast Paper** Long scale paper for photofinishing roll printing and processing.

**Paper in Rolls**

Single-weight papers in 1000-foot rolls and double-weight papers in 500-foot rolls, in widths 2½ inches to 5 inches inclusive, are available only in a bulk package of two rolls. The two rolls are without individual wrapping, packed in one bag and enclosed in a corrugated case. Orders should specify the number of rolls rather than the number of cases.

All 40-inch rolls are supplied 41 inches untrimmed, and 42-inch rolls are supplied 43 inches untrimmed, unless otherwise specified. This applies only to the brands of photographic paper listed in this catalog.

The maximum number of splices for narrow width rolls 10 inches and under are: 100 feet—no splices, 250 feet—1 splice, 500 feet—2 splices, 1000 feet—5 splices.

Following is a description of most commonly ordered roll winding specification numbers. Information on other windings is available on request; specification numbers are included on labels to assist when reordering.

# Kodak chemicals

## KODAK PREPARED CHEMICALS

### Condensed Information

#### FILM DEVELOPERS

**Kodak Developer D-8.** A high-contrast, high-density, fast-acting developer for continuous-tone and process materials, such as Kodak Contrast Process Ortho Film and Kodak High Resolution Plates.

**Kodak Developer D-11.** A high-contrast developer for general use with films and plates such as Kodak Gravure Copy, Commercial, Contrast Process Ortho, Separation Negative, Kodalith Contact, and Kodalith Royal Ortho Films, and Kodak High Resolution Plates.

**Kodak Developer D-16.** For motion picture positive film, such as Kodak Fine Grain Positive.

**Kodak Developer D-19.** High-contrast developer used primarily for spectroscopic films and plates, Kodak High Resolution Plates, and special films, such as Kodak Aerecon, Electrocardiograph, and Linagraph Shellburst.

**Kodak Developer DK-50.** A clean-working, moderately fast developer used with or without dilution for commercial and portrait films, such as Kodak Commercial, Pan Masking, Separation Negative, Royal Pan, Super-XX Panchromatic, Portrait Panchromatic, Plus-X Pan, and RS Pan.

**Kodak Replenisher DK-50R.** Replenisher for Kodak Developer DK-50; increases capacity.

**Kodak Developer DK-60a.** A fast-acting, moderate-grain developer for general professional work with films such as Kodak Plus-X Pan, Panatomic-X, Royal Pan, Super Panchro-Press, Tri-X Pan, Super-XX Panchromatic, and Super Speed Ortho Portrait.

**Kodak Replenisher DK-60aTR.** Replenisher for Kodak Developer DK-60a tank development.

**Kodak Developer D-76.** Full emulsion speed and maximum shadow detail with normal contrast; moderately fine grain; excellent development latitude; low fog on forced development with films such as Kodak Verichrome Pan, Plus-X Pan, Panatomic-X, and Fine Grain Positive.

**Kodak Replenisher D-76R.** Replenisher for Kodak Developer D-76.

**Kodak Durafin Developer Starter.** Used with Kodak Durafin Developer Replenisher for commercial photofinishing of roll films. Developer has extra high capacity and long life. Produces low density negatives for low graininess and faster printing.

**Kodak Durafin Developer Replenisher.** Working developer made by diluting replenisher and adding Kodak Durafin Developer Starter. One Size A Starter plus one 5-gallon size Replenisher required for each 12 gallons of working developer. Used full strength (without Starter) as replenisher.

**Kodak Microdol-X Developer (powder).** Low graininess coupled with maximum sharpness; low sludging tendency; low fog level with films such as Verichrome Pan, Plus-X Pan, Panatomic-X, Tri-X Pan, and Infrared.

**Kodak Microdol-X Liquid Developer.** Same as above but ready-to-use liquid.

**Kodak Microdol-X Replenisher (powder).** Replenisher for both Kodak Microdol-X Developer (powder) and Kodak Microdol-X Liquid Developer.

**Kodak HC-110 Developer.** A highly active solution designed to provide shorter development time for most black-and-white films. Since both the Developer and Replenisher are packaged in concentrated liquid form, rather than as powders, they provide great convenience and economy in addition to technical superiority.

**Kodak Polydol Developer.** For commercial and portrait work. Has exceptionally high capacity with consistent activity when replenished. Recommended for use with Kodak Portrait Panchromatic, Super Speed Ortho, Panatomic-X, Super-XX Panchromatic, RS Pan, Super Panchro Press, Royal Pan, Royal Ortho, and Plus-X Sheet Films.

**Kodak Polydol Replenisher.** Replenisher for Kodak Polydol Developer.

**Kodak Portradol Developer.** For continuous and large-reel processing of Kodak Plus-X Portrait and Tri-X Pan Films. Working developer made by diluting and adding Kodak Portradol Developer Starting Solution (each gallon of working solution requires  $\frac{2}{3}$  fluid ounces Starting Solution). Developer used full strength (without Starting Solution) as a replenisher.

#### PAPER DEVELOPERS

**Kodak Dektol Developer.** For neutral and cold-tone images on cold-tone papers, such as Kodabromide, Kodak Medalist, Velox, Azo, Resisto, Polycontrast, and Panalure. High capacity, uniform development rate, good keeping.

**Kodak Dektomat Developer.** For continuous processing of cold-tone single-weight papers, such as Kodak Velox Unicontrast Rapid. Requires addition of Kodak Developer Starting Solution.

**Kodak Dektomat Hi-Temp Solution.** Added to Kodak Dektomat Developer, enables processing of Kodak Velox Unicontrast Paper at 80 F and 85 F. For each 25 gallons of Dektomat Developer, add one bottle of Kodak Dektomat Hi-Temp Solution for 80 F processing, or two bottles for 85 F processing.

**Kodak Duomat Developer.** For continuous or tray processing of cold-tone double-weight papers, such as Kodak Velox Unicontrast Rapid, Medalist, Polycontrast, and Azo. Requires addition of Kodak Developer Starting Solution.

**Kodak Selectomat Developer.** For continuous or tray processing of warm-tone papers, such as Kodak PolyLure and Ektalure. Requires addition of Kodak Developer Starting Solution.

**Kodak Ektonal Developer.** Noncarbonate developer for warm-tone papers, such as Kodak Ektalure, Opal, Athena, Aristo, PolyLure, and Mural. Minimizes stain on prints which are to be toned.

**Kodak Selectol Developer.** For warm-tone papers, such as Kodak Ektalure, Opal, PolyLure, Athena, and Aristo.

**Kodak Selectol-Soft Developer.** Used in conjunction with Kodak Selectol Developer for lower contrast on warm-tone papers.

**Kodak Versatol Developer.** Concentrated liquid all-purpose developer for films or papers. Diluted 1 to 3 for papers or 1 to 7 for films.

#### PACKETS (developers, stop baths, fixers)

**Kodak Tri-Chem Pack.** Consists of 8-ounce size units each of Kodak Dektol Developer, Stop Bath, and Fixer.

**Kodak Dektol Developer.** Provides 8 ounces of working-strength solution.

**Kodak Microdol-X Developer.** Each packet provides 4 ounces of full-strength developer or 1 pint of solution at 1 to 3 dilution.

**Kodak Universal Stop Bath (with Indicator).** Nonhardening stop bath. Turns violet when exhausted. Each packet makes 8 ounces of working solution.

## KODAK PREPARED CHEMICALS

## Condensed information

## PROCESSING AIDS

**Kodak Anti-Calcium.** Prevents or reduces calcium scum formation in developers and other alkaline solutions.

**Kodak Anti-Foam.** Prevents or minimizes air bells, streaks, or stains caused by foam.

**Kodak Desensitizer.** Prebath type. Permits visual inspection of negatives during development.

**Kodak Developer System Cleaner.** Removes calcium-silver scale from developer tanks, rollers, and recirculating systems.

**Kodak Hypo Clearing Agent.** Promotes faster and more complete washing of films and prints with no emulsion swelling or softening.

**Kodak Photo-Flo Solution.** Decreases water surface tension; minimizes water marks and drying streaks on film and speeds drying.

**Kodak Print Flattening Solution.** Minimizes print curl.

**Kodak Testing Solution A for Print Stop Baths.** Provides a quick and accurate method for determining when to discard or revive such baths.

**Kodak Testing Solution B for Print Fixing Baths.** Similar to Testing Solution A but for print fixing baths.

## STOP BATHS, FIXING BATHS, AND HARDENERS

**Kodak Indicator Stop Bath.** General-purpose stop bath. Turns violet when exhausted. Concentrated liquid (16 ounces dilutes to make 8 gallons working solution).

**Kodak Stopomat.** Stop bath for continuous processing of black-and-white papers.

**Kodak Hi-Matic Stop Bath.** Same as above but for processing at higher than normal speeds.

**Kodak Fixomat.** Fixer for continuous processing of black-and-white papers.

**Kodak Hi-Matic Fixer.** Same as above but for processing at higher than normal speeds.

**Kodak Fixer.** Hardening fixer (F-5 type). For general use with films, plates, and papers.

**Kodak Rapid Fixer.** A rapid-acting hardening fixer. Consists of two liquid concentrates—Solution A (the fixer concentrate) and Solution B (the hardener concentrate). Dilutes 1 to 3 for film and 1 to 7 for paper. 1-, 5-, and 24-gallon sizes provide enough Solution A and B concentrates to prepare 1, 5, and 24 gallons respectively of film fixer or 2, 10, and 48 gallons respectively of paper fixer. A 5-gallon Cubitainer package of Solution A provides enough (together with an appropriate amount of Solution B) to make 20 gallons of film fixer or 40 gallons of paper fixer. The 1- and 5-gallon Cubitainer packages of Solution B provide enough hardener for 40 gallons and 200 gallons of film fixer respectively, or 80 gallons and 400 gallons of paper fixer respectively.

**Kodafix Solution.** A single-solution concentrated hardening fixer for general use.

**Kodak Photo-Fix.** Economical hardening fixer, especially for prints.

**Kodak Acid Hardener.** For pretoning bath or preparing hardening fixers.

**Kodak Liquid Hardener.** For preparing acid hardening fixing bath or stop bath. Concentrated solution.

## TONERS

**Kodak Blue Toner.** For cold blue tones on Kodak papers except Azo, Ad-Type, and Kodabromide.

**Kodak Brown Toner.** For warm brown tones on most Kodak papers. Concentrated single-solution polysulfide type. For use, dilute 1 ounce with 1 quart of water.

**Kodak Poly-Toner.** For a series of hues from reddish-brown to a very warm brown by means of various dilutions and toning times. Especially for warm-tone papers. Concentrated, single solution. Dilute 1 to 4 for reddish-brown tones and 1 to 50 for very warm brown tones or intermediate hues with dilutions between these extremes.

**Kodak Rapid Selenium Toner.** For several hues of cold brown tones by means of various dilutions. Concentrated single solution. Used at dilutions from 1 to 3 to 1 to 9.

**Kodak Sepia Toner.** For warm brown tones on cold-tone papers or yellowish-brown tones on warm-tone papers. Two-solution bleach-and-redeveloper type.

## DIRECT POSITIVE CHEMICALS

**Kodak Direct Positive Film Developing Outfit.** Consists of 1 quart each First Developer, Bleach, and Clearing Bath, and five 1-pint units of Redeveloper required for processing Kodak Direct Positive Film. Fixer not included. Use Kodak Fixer, Kodak Rapid Fixer, or Kodafix Solution.

**Kodak Developer D-88.** Developer for Kodak Super Speed Direct Positive Paper.

## COLOR CHEMICALS

**Kodak Dye Transfer Chemicals.**

**Kodak Ektachrome Film Chemicals, Processes E-2 and E-3.**

**Kodak Color Film Processing Chemicals, Process C-22.** For Kodacolor; Kodak Ektacolor, Type S and L; and Kodak Ektacolor Print Films.

**Kodak Color Print Processing Chemicals, Process P-122.** For Kodak Ektacolor Paper and Kodak Ektacolor Professional Paper.

**Kodak Color Print Processing Chemicals, Process P-111.** For Kodak Ektachrome Paper.

<b>Selectol-Soft Developer, Kodak</b>	
To make 1 gal	.90
<b>Versatol Developer, Kodak</b>	
8-oz bottle	.50
1-qt bottle	1.20
1-gal jug	3.90

### PACKET DEVELOPERS, STOP BATHS, AND FIXER

<b>Tri-Chem Pack, Kodak</b> —Consists of developer, stop bath, and fixer, each to make 8 oz of solution. (for film and prints)	
Per Pack	.50
<b>Dektol Developer, Kodak</b>	
Carton of 6 units, each unit to make 8 oz of working solution	.80
<b>Microdol-X Developer, Kodak</b>	
Carton of 4 packet units, each unit to make 4 oz of solution	.70
<b>Universal Stop Bath, Kodak (with Indicator)</b>	
Carton of 6 packets, each packet to make 8 oz of solution	.60

### INTENSIFIER AND REDUCERS

<b>Chromium Intensifier, Kodak</b>	
Per packet	.40
<b>Reducer, Kodak Farmer's</b>	
Per packet	.40

**PROCESSING AIDS**

<b>Anti-Calcium, Kodak</b>	
1-lb bottle	\$ 1.30
<b>B/W Image Tone Stabilizer, Kodak</b>	
1-gal jug (concentrate)	7.90
<b>Desensitizer, Kodak</b>	
1-gram bottle	5.15
<b>Developer System Cleaner, Kodak</b>	
To make 12 gal	2.50
<b>Ferrotone Release Agent, Kodak</b>	
1-gal jug (concentrate)	15.90
<b>Hypo Clearing Agent, Kodak</b>	
To make 5 gal	.90
25 gal	3.40
Carton of 5 packets, each packet to make 5 qt	2.25
<b>Photo-Flo 200 Solution, Kodak</b>	
4-oz bottle	.55
16-oz bottle	1.00
<b>Photo-Flo 600 Solution, Kodak</b>	
1-gal jug (concentrate)	8.30
<b>Photo-Flo 2100 Solution, Kodak</b>	
1-gal jug (superconcentrate)	20.00
<b>Print Flattening Solution, Kodak</b>	
8-oz bottle	.85
1-gal jug	7.10
<b>Testing Outfit for Print Stop Baths and Fixing Baths, Kodak</b>	
	3.00
<b>Testing Solution A for Print Stop Baths, Kodak</b>	
8-oz bottle	1.90
<b>Testing Solution B for Print Fixing Baths, Kodak</b>	
8-oz bottle	1.90
<b>STOP BATHS, FIXING BATHS, AND HARDENERS</b>	
<b>Indicator Stop Bath, Kodak (concentrated solution)</b>	
16-oz bottle	1.20
1-gal bottle	7.25
<b>Hi-Matic Stop Bath, Kodak</b>	
To make 25 gal	8.80
<b>Hi-Matic Fixer, Kodak</b>	
To make 50 gal	10.70
<b>Fixer, Kodak</b>	
To make 1 qt	.40

# Professional printing and processing equipment

## PRINTING EQUIPMENT

†**Kodak Enlarging Color Printer, Model 8S-2-K**—A high-speed printer for producing 8x10 and 5x7 high-quality Ektacolor enlargements on roll paper from 135 through 4x5 Kodacolor or Ektacolor negatives (126 negative masks not included). The printer can also be used for making black-and-white 8x10 and 5x7 enlargements on Kodak Velox Premier Paper.

The printer is equipped with the new Kodak High Intensity Lamphouse, 4x5, Model 1-K, and a 4x5 Negative Holder. The 157mm Lens Assembly for making 8x10 enlargements from 4x5 negatives is not included but must be ordered separately. It is not possible to make 5x7 prints from 4x5 negatives.

The 8S-2-K Printer is similar in operation to the 5S-2 Printer, except for the necessary mechanical and optical components required to handle the larger print sizes. This printer accepts 500-foot rolls of medium-weight or double-weight paper in widths of 5, 8, and 8½ inches.

The print-cutting marker is automatically repositioned when the externally adjustable paper-mask aperture is changed. Includes 7 glass-type horizontal negative carriers, 5 lens assemblies to make 8x10 enlargements from negative sizes 135 to 616 inclusive, and a set of 6-inch color printing filters. Paper mask is adjustable. 115-volt, 50-60-cycle ac. ... \*\$12,750.00

- \*Kodak 126 Square Negative Mask, Part No. 836134 ..... \*\$ 16.00
- \*Kodak Vertical Negative Mask, 24x36mm (for Kodak Enlarging Color Printer, Model 8S). Part No. 835280 ..... \* 16.00
- \*Kodak Vertical Negative Mask (for cropped 126 to 5x7). Part No. 836142 ..... \* 16.00
- \*Kodak Vertical Negative Mask, 28x40mm (for Kodak Enlarging Color Printer, Model 8S). Part No. 835285 ..... \* 16.00
- \*Kodak Vertical Negative Mask, 1½x2½-inch (for Kodak Enlarging Color Printer, Model 8S). Part No. 835286 ..... \* 16.00
- \*Kodak Vertical Negative Mask, 2¼x3¼-inch (for Kodak Enlarging Color Printer, Model 8S). Part No. 835287 ..... \* 16.00
- \*Kodak Horizontal Negative Mask (for cropped 126 to 8x10). Part No. 836140 ..... \* 16.00
- \*Kodak Horizontal Negative Mask (for cropped 620 square to 8x10). Part No. 761940 ..... \* 31.20
- \*Kodak Horizontal Negative Mask (for cropped 127 square to 8x10). Part No. 761941 ..... \* 31.20

### Additional lenses required for making Ektacolor Paper enlargements from negatives.

- \*Kodak 8S Lens Assembly, 70mm-#2 (for 126 horizontal to 8x10). Part No. 859134 ..... \* 109.00
- \*Kodak 8S Lens Assembly, 87mm-#1 (for 126 vertical to 5x7 and cropped 127 square to 8x10). Part No. 859136 ..... \* 109.00
- \*Kodak 8S Lens Assembly, 100mm-#2 (for 24x36mm to 5x7). Part No. 835245 ..... \* 109.00
- \*Kodak 8S Lens Assembly, 113mm-#1 (for 28x40mm to 5x7, 126 square to 5x5, and cropped 620 square to 8x10). Part No. 835246 ..... \* 109.00

- \*Kodak 8S Lens Assembly, 135mm-#1 (for 8-exp 127 to 5x7). Part No. 835247 ..... \* 109.00
- \*Kodak 8S Lens Assembly, 157mm-#1 (for 8-exp 620 to 5x7 and from 4x5 to 8x10). Part No. 835248 ..... \* 93.50
- \*Kodak 8S Lens Assembly, 157mm-#2 (for 8-exp 616 to 5x7). Part No. 835249 ..... \* 109.00
- †Kodak 5x7 Aperture Plates, Model 8S (vertical—crosswise of paper) ..... \* 15.00
- †Kodak 5-inch Paper Mask Insert, Model 8S (horizontal—lengthwise of paper) ..... \* 100.00
- \*Kodak Plate Assembly, Model 8S—A replacement assembly for quickly checking lens focus, using the Kodak Printer Focus Scale Negative A (listed on page 42). Part No. 854536 ..... \* 26.40

†**Kodak Ektachrome Paper Printing Kit, Model 8S**—A kit of parts to adapt the 8S and 8S-2-K Printers for printing mounted transparencies on 5-inch and 8-inch Kodak Ektachrome Paper, producing color enlargements with black borders. Includes 9 transparency holders with case, special mask plate, plug-in 7-button classification switch and dual timing unit, size-compensation adapter plate, and a full set of color printing filters. .... n \*\$650.00

### Additional lenses required for making Ektachrome Paper enlargements from transparencies.

- \*Kodak 8S Lens Assembly, 78mm-#2 (for 126 square to 8x8 and 828 to 8x10). Part No. 859744 ..... n \*\$109.00
- \*Kodak 8S Lens Assembly, 63mm-#4 (for 126 horizontal to 8x10). Part No. 859789 ..... n \* 93.00
- \*Kodak 8S Lens Assembly, 87mm-#2 (for cropped 127 square to 8x10 and 126 vertical to 5x7). Part No. 859746 ..... n \* 109.00
- \*Kodak 8S Lens Assembly, 100mm-#3 (for 135 vertical to 5x7). Part No. 859741 ..... n \* 109.00
- \*Kodak 8S Lens Assembly, 135mm-#2 (for 127 square to 5x5). Part No. 859745 ..... n \* 109.00

†**Kodak High Intensity Lamphouse, 4x5, Model 1-K** (for Kodak Roll Paper Printers)—For converting Model 8S Printers, as well as 5S and 5S-2 Printers, to accept 4x5 negatives. Includes oversize mask plate, 4x5 negative mask, and adapter cable. Does not include 6-inch color printing filter.

Will also fit on Type IVB-3 Printers with certain accessories. 115-volt, 50-60-cycle ac. ... \*\$700.00

Note—Used lamphouses from Model 5S, 5S-2, and 8S Printers, or from Type IVB-2 or IVB-3 Printers, can be returned to Rochester for credit of \$200 to apply on the purchase price of the new lamphouse. Only one lamphouse can be returned against each new one purchased.

- \*Kodak Setup Negative, 4x5, Part No. 855003 ..... \*\$21.00
- \*Kodak Black-and-White Adapter Kit, Model 8S — For converting early-model 8S Printers so that they can be used for making either color or black-and-white enlargements, both 5x7 and 8x10. Part No. 836497. .... \*\$45.00

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

†Kodak Electronic Voltage Regulator, Model 20004 (for Kodak Roll Paper Color Printers)—Required for setting up 8S-2-K Printers. Recommended for continuous operation if the line voltage varies as much as 2 percent during the operating day. Output is 1.5 KVA. Binding posts are provided for the installation of a voltmeter, if desired. 115-volt ac. 60-cycle ..... \*\$650.00  
50-cycle (Model 20009) ..... \* 750.00

**Additional Accessories:**

Kodak Auxiliary Timing Unit, Model 5S.  
Kodak Electrical Numbering Stamp, Model 1A.

†Kodak Electrical Numbering Stamp Mounting Kit, Model 8S \*\$30.50

Kodak Envelope Numbering Stamp.  
Kodak Envelope Numbering Stamp Bracket, Model 1.  
Kodak Holder for Kodak Envelope Numbering Stamp Bracket, Model 1.  
Kodak Electrical Counter, Model 1.  
Kodak Installation Assembly, Model 5 (for Kodak Electrical Counter, Model 1).  
Kodak Triple Exposure Time Indicator, Model 5S.  
Kodak Exposure Time Indicator, Model S-1.  
Kodak Single Exposure Time Indicator Adapter, Model 5S.  
Kodak Markers for automatic print cutting.  
Kodak Multiple Print Controller, Model 400.  
Cable Assembly for Multiple Print Controller.

†Kodak Roll Paper Color Printer, Model 5S-2—A high-speed printer for quality production of color prints on either 3½- or 5-inch Kodak Ektacolor Paper using a subtractive simultaneous tricolor exposure system.

Printer can be operated completely in normal room light, including size change-overs. Optical system is speed-equalized to give approximately the same printing times at all magnifications.

Negative carriers, lenses, etc. are included for all 3R and 3S print sizes with ⅜- inch borders, and will accommodate all negative sizes from 135 to 616. (126 negative holder not included) 115-volt, 50-60-cycle ac. .... \*\$9750.00

moderate all negative sizes from 135 to 616. (126 negative holder not included) 115-volt, 50-60-cycle ac. .... \*\$9750.00

**Accessories:**

**For printing 126 negatives (only one required)**

- \*Kodak Indexing 126 Negative Holder, Rear Detent. Part No. 836120 ..... \*\$35.00
- \*Kodak Indexing 126 Negative Holder, Front Detent. Part No. 854965 ..... \* 35.00
- \*Kodak 126 Insert for 135-828 Negative Strip Holder. Part No. 836144 ..... \* 13.20

**For printing on 5-inch-wide paper (5x5 and 5x7)**

- \*Kodak 5S Lens Assembly (72mm-#1). Part No. 829353 ..... \*\$93.50
- \*Kodak 5S Lens Assembly (78mm-#1). Part No. 829354 ..... \* 93.50
- \*Kodak 5S Lens Assembly (113mm-#2). Part No. 829355 ..... \* 93.50
- \*Kodak 5S Lens Assembly (113mm-#4). Part No. 829356 ..... \*109.00
- †Kodak 5-inch Paper Mask Insert, Model 5S — Set of adjustable inserts for 5-inch paper (⅜- inch borders) ..... \* 60.00

**For printing 2R prints on 3½- inch-wide paper**

From 135 and 828 negatives

- \*Kodak 5S Lens Assembly (103mm-#1). Part No. 829350 ..... \*\$109.00
- \*Kodak 5S Lens Assembly (113mm-#3). Part No. 829351 ..... \* 109.00
- †Kodak 2½x3½- inch Paper Mask, Model 5S (Not required for 5S-2 Printers) ..... \* 35.00

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

\*Kodak Auxiliary Timing Unit, Model 5S— Plug-in potentiometer chassis for quick change-over from one paper emulsion to another. Part No. 829682 ..... \*\$60.00

†Kodak Electrical Counter, Model 1—For Kodak Velox Rapid Printers. An electrically actuated counter which can be used as a total or individual counter. It is easily resettable by rotating a knob on the side of the counter. 115-volt, 50-60-cycle ac. .... \*\$35.00

†Kodak Installation Assembly, Model 5 (for Kodak Electrical Counter, Model 1)—Required for installing an Electrical Counter on the Kodak Roll Paper Color Printers, Models 5S-2 and 8S. .... \*\$10.00

†Kodak Printing Lamp Voltage Regulator, Model 300—Recommended for set-up and continuous operation with 5S and 5S-2 Printers. 115-volt, 60-cycle ac. .... \*\$145.00  
50-cycle (Model 300-J) ..... \* 185.00

†Kodak Contact Printing Attachment, Model 5S (for Kodak Roll Paper Color Printer, Models 5S and 5S-2)—Similar to the Kodak Contact Printing Attachment, Model B, this attachment simultaneously prints by contact (with filters) printed or line copy such as greeting card sentiments, while the continuous-tone color negatives are being printed by projection. Color greeting cards, photographic calling cards, and identification passes can be made in this manner. .... \*\$495.00

†Kodak Print Dating and Coding Unit, Model 5S-C—Exposes date and density classification code, including "yes" or "no" color correction code on border of print. It is automatically positioned by the adjustable masks for all print sizes ..... \*\$165.00

†Kodak Triple Exposure Time Indicator, Model 5S—Individually clocks the three simultaneous color exposures at one time for ease in setup. Electrical reset returns all three clocks to zero. Plugs into receptacle on control panel of 1VS, 5S-2, or 8S Printer. 115-volt, 60-cycle ac. .... \*\$650.00

(Can be used for 50-cycle operation, but the indicated times will be proportionately shorter.)

†Kodak Exposure Time Indicator, Model S-1 —This electric timer is accurately calibrated in 1/100-second increments for measuring printing-time intervals on a roll paper printer. 115-volt ac. 60-cycle ..... \*\$130.00  
50-cycle ..... \* 138.00

\*Cable Assembly for Exposure Time Indicator—Fits all Kodak Roll Paper Printers except 1VS, 5S-2, and 8S. Part No. 135828 ..... \*\$15.00

†Kodak Single Exposure Time Indicator Adapter, Model 5S—Permits the use of the Model S-1 Exposure Time Indicator to time selectively each of the three color exposures (in place of the Triple Exposure Time Indicator listed above) ..... \*\$55.00

†Kodak Notcher Assembly, Model 5—This assembly is used in conjunction with a Multiple Print Controller, Model 400, to measure and notch 20-foot strips of Kodak Ektacolor Paper for reel processing. . . . . \*\$60.00

†Kodak Installation Assembly, Model 5 (for Kodak Multiple Print Controller, Model 400)—Required for installing a Multiple Print Controller in the Kodak Roll Paper Color Printer, Model 5S-2. . . . . \*\$10.00

**Additional Accessories:**

- Kodak Dust Removal and Static Eliminating Equipment
- Kodak Electronic Voltage Regulator, Model 20004
- Kodak High Intensity Lamphouse, 4x5, Model 1-K
- Kodak Markers for automatic print cutting
- Kodak Multiple Print Controller, Model 400
- Cable Assembly for Multiple Print Controller
- Kodak Printer Focus Scale Negatives

†Kodak Automatic Package Printer, Model 6—A printer for School Finishers which makes a complete basic package of 14 prints (black-and-white or color), of 3 different print sizes, at one time in a single exposure on 5-inch-wide paper. These 3 print sizes are printed 1-up, 4-up, and 9-up, each "print group" on one area of paper 3½x5 inches (vertical), or 5x7 inches (horizontal), from a choice of one of the four popular school finisher negative sizes (35mm perforated, 35mm unperforated, 46mm, and half-70mm). Permits the selection of approximately 200 different combinations of the 3 picture sizes within a package

(horizontal and vertical combinations cannot be intermixed).

Basic printer includes only the cabinet, paper-advance system, electrical system, lamphouse (Light Integrator sold separately), rotatable negative housing (with spindles for 100-foot film reels), and compartment to receive the Sequence Programmers. A bracket to mount three Model 5 Print Markers is included (power unit for markers sold separately). A complete set of Printer Pack Filters for color printing is included. 115-volt, 50-60-cycle ac. . . . . \*\$9200.00

**Accessories:**

**Light Integrators** are used to diffuse and concentrate the light beam into an area of the proper size to cover the negative area.

- †Kodak Light Integrator, 35P (for Kodak Automatic Package Printer) . . . . . \* 90.00
- †Kodak Light Integrator, 35U (for Kodak Automatic Package Printer) . . . . . \* 90.00
- †Kodak Light Integrator, 46/70 (for Kodak Automatic Package Printer) . . . . . \* 90.00

†Kodak Marker Power Unit, Model 6 (for Kodak Automatic Package Printer)—Supplies power for three Model 5 Markers. . . . . \*\$165.00

**Optical Multipliers**—Precision-built optical and mechanical assemblies mounted in either a horizontal (side-to-side) or vertical (front-to-back) type cast-aluminum housing with sealed entrance and exit windows. Six units are available—3 for the horizontal and 3 for the vertical print group format. A paper mask and platen are included.

All light beams in each Multiplier are balanced for Kodak Ektacolor Paper printing. Additional Multiplier Balance Filters for black-and-white printers as well as Printer Pack Filters are available from the Apparatus Parts Service Department. Consult your Kodak Technical Sales Representative.

- †Kodak Optical Multiplier, 35P—Vertical (for Kodak Automatic Package Printer) . . . . . \*\$5200.00
- †Kodak Optical Multiplier, 35U—Vertical (for Kodak Automatic Package Printer) . . . . . \* 5200.00
- †Kodak Optical Multiplier, 46/70—Vertical (for Kodak Automatic Package Printer) . . . . . \* 5200.00
- †Kodak Optical Multiplier, 35P—Horizontal (for Kodak Automatic Package Printer) . . . . . \* 5500.00
- †Kodak Optical Multiplier, 35U—Horizontal (for Kodak Automatic Package Printer) . . . . . \* 5500.00
- †Kodak Optical Multiplier, 46/70—Horizontal (for Kodak Automatic Package Printer) . . . . . \* 5500.00

**Sequence Programmers**—Drums with a perforated periphery to accept snapped-in clips. Rearranging the clips provides a different package. Any combination of "print groups" can be obtained. (Programmers are not available for packages consisting of 7 or 9 "print groups.")

- †Kodak Sequence Programmer, Type 1248 (for Kodak Automatic Package Printer)—For package combinations of 1, 2, 4, or 8 "print groups" . . . . . \*\$135.00
- †Kodak Sequence Programmer, Type 36 (for Kodak Automatic Package Printer)—For package combinations of 1, 2, 3, or 6 "print groups" . . . . . \* 135.00
- †Kodak Sequence Programmer, Type 510 (for Kodak Automatic Package Printer)—For package combinations of 1, 2, 5, or 10 "print groups" . . . . . \* 135.00
- †Kodak Negative Strip Holder, 35P (for Kodak Automatic Package Printer)—Aperture size, .937x1.312 inches . . . . . \* 135.00
- †Kodak Negative Strip Holder, 35U (for Kodak Automatic Package Printer)—Aperture size, 1.200x1.690 inches . . . . . \* 135.00
- †Kodak Negative Strip Holder, 46 (for Kodak Automatic Package Printer)—Aperture size, 1.420x2.030 inches . . . . . \* 135.00
- †Kodak Negative Strip Holder, half-70 (for Kodak Automatic Package Printer)—Aperture size, 1.420x2.030 inches . . . . . \* 135.00

\***Universal Platen Kit K-1485** (for Kodak Automatic Package Printer, Model 6)—For updating old style printers. With this kit it is possible for the operator to switch back and forth from horizontal to vertical multipliers in a very few minutes, thus increasing the output and versatility of the Printer. Markers and Power Unit not included. . . . . \*\$129.00

**Additional Accessories:**

- Kodak Photoelectric Spot Monitor, Model 6
- Kodak Dust Removal Unit.
- Kodak Static Eliminator Power Unit, Model A-2-K.
- Kodak Blower and Hose Assembly, Model 1.
- Kodak Electronic Voltage Regulator, Model 20004.
- Kodak Exposure Time Indicator, Model S-1.
- Cable Assembly for Exposure Time Indicator.
- Kodak Markers for automatic print cutting.

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

†**Kodak Roll Paper Printer, Type IVB-3 (5x7)** — Extremely versatile high-speed roll paper printer for making any size prints up to 7 inches long on roll paper up to 5 inches wide from any negative size up to 3½x5 inches. Ideal for "school," "wallet," and identification pictures, in black-and-white or color, using single or multiple lenses. Also readily adaptable to black-and-white 5x7-inch enlargements and 4¼- or 3½-inch greeting cards from photofinishing negatives.

Includes Kodak Photoelectric Control Unit, Model E; fully enclosed 5-inch roll paper head; and adjustable lensboard shelf. Does not include negative carriers, lenses, lens holders, numbering stamps, or paper masks. 115-volt, 50-60-cycle ac. . . . . \*\$3,850.00

**Accessories:**

\***Kodak 1P39 Phototube Replacement Kit** (for Kodak Roll Paper Printer, Type IVB-2)—Blue-sensitive phototube for full negative beam splitter integration, single-lens printing only on Kodak Ektacolor Paper. Part No. 149534. . . . . \*\$25.20

†**Kodak Interval Timer Attachment, Model 1** (for Kodak Photoelectric Control Unit, Models D and E)—An exposure control unit for the IVB-3 Printer (or an enlarger) for printing portrait negatives using the prereading system. A selected spot or area is preread with a densitometer, and the density reading marked on the negative. Adjustment for this density is made on the Interval

Timer Attachment. 115-volt, 50-60-cycle ac. . . . . \*\$160.00

†**Kodak Photoelectric Spot Monitor, Model 6**—Uniquely combines a movable spot projector and a high-sensitivity phototube. This device is readily adaptable to the Type IVB-3 Printer (equipped with the Printer Adapter Kit, Type IVB-2, and the Model E Photoelectric Control Unit). It projects an illuminated ring against the negative, which is easily centered by the operator on the face area. Exposure of either black-and-white or color negatives is photoelectrically controlled by the density of the selected spot area. Standard spot size is 5/16-inch diameter. Mirrors to project 3/16-inch and 1/8-inch spots can be substituted (listed below). . . . . \*\$475.00

\*Reflecting Mirror Assembly 3/16-inch diameter. Part No. 834563 n \* 24.00  
\*Reflecting Mirror Assembly 1/8-inch diameter. Part No. 834565 \* 24.00

†**Kodak Printer Adapter Kit, Type IVB-2** (for Kodak Photoelectric Spot Monitor, Model 6)—An electronic power supply for the Spot Monitor. This kit is required to install a Spot Monitor on the IVB-3 Printer. Kit includes a mounting bracket and handle for positioning the monitor unit. "Plus-Lux" circuitry is included, as well as a power supply for a Capping Shutter.

115-volt, 50-60-cycle ac. . . . . \*\$250.00

†**Kodak Dual Capping Shutter Kit** (for Kodak Roll Paper Printer, Type IVB-2)—For use with either a single-lens shelf or multiple-lens cluster. Recommended for color paper or high-speed black-and-white papers . . . . . \*\$125.00

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

†**Kodak 4-Print and 6-Print Kits, IVB-2** — Multiple-lens kits particularly designed for school finishing use in making a number of prints simultaneously from one exposure. Use 5-inch paper.

Each kit (except the 70mm) includes negative holder, lens cluster mounted on plate, fixed mounting brackets, and paper mask.

Resulting print sizes from 4-lens kit—2½x3½ with 3/16-in. border (except 70mm kit—1/8-in. border); from 6-lens kit—1¾x2½ with 1/8-in. borders.

†Kodak 4-Print Kit (70mm Film), IVB-2 (Negative holder not included) . . . . .	*\$500.00
*Negative Holder. Part No. 104271 . . . . .	* 16.20
†Kodak 4-Print Kit (46mm Film), IVB-2 . . . . .	* 400.00
†Kodak 6-Print Kit (46mm Film), IVB-2 . . . . .	* 480.00
†Kodak 4-Print Kit (35mm Film-Perforated), IVB-2 . . . . .	* 400.00
†Kodak 6-Print Kit (35mm Film-Perforated), IVB-2 . . . . .	* 480.00
†Kodak 4-Print Kit (35mm Film-Unperforated), IVB-2 . . . . .	* 400.00
†Kodak 6-Print Kit (35mm Film-Unperforated), IVB-2 . . . . .	* 480.00

†**Kodak Adjustable Lensboard Shelf Kit** (for Kodak Roll Paper Printer, Type IVB-2)—Includes one single-lens removable shelf with rear light shield and other parts to replace the lens turret assembly in the printer. With this kit it is possible to update the Type IVB-2 Printer to the versatile Type IVB-3 so that several removable single-lens and multiple-lens shelves

can be used. . . . . \*\$95.00

\***Multiple-Lens Shelf Kit No. 1445**—For fitting 4-Print or 6-Print lens cluster to a removable shelf . . . . . \*\$4.50

\***Single-Lens Shelf Kit No. 1455**—Identical to the shelf which is supplied with the IVB-3 Printer and the Kodak Adjustable Lensboard Shelf Kit. . . . . \*\$55.80

\***Front Door Installation Kit No. 1305**—Used with Kodak Adjustable Lensboard Shelf Kit . . . . . \*\$5.70

†**Kodak Special Mask Plate Assembly, Model 1** (for Kodak Roll Paper Printer, Type IVB-2 5x7)—Provides a simple means of inserting filters below the negative and above the table. Especially useful for printing with Kodak Polycontrast Paper or Kodak Ektacolor Paper. See page 29 for 5-inch Filters . . . . . \*\$35.00

Note—A complete line of special accessories is available, such as lens attachments, holders, diaphragms, roll film spindles, negative holders, and paper masks in a variety of sizes. Consult your Kodak Technical Sales Representative.

**Additional Accessories**

- Kodak Color Printing Filters
- Kodak Contact Printing Attachment, Model B
- Kodak Dust Removal and Static Eliminating Equipment
- Kodak Electrical Counter, Model 1
- Kodak Exposure Time Indicator, Model S-1
- Cable Assembly for Exposure Time Indicator
- Kodak High Intensity Lamphouse, 4x5, Model 1-K

\***Adapter Cable** (for High Intensity Lamphouse). Part No. 855061 . . . . . \*\$11.10

\***Knee-Lever Bracket** (for High Intensity Lamphouse). Part No. 855060 . . . . . \* 9.90

- Kodak Markers for automatic print cutting
- Kodak Multiple Print Controller, Model 400
- Cable Assembly for Multiple Print Controller
- Kodak Printer Focus Scale Negatives
- Kodak Printing Lenses

## ROLL PAPER MARKING EQUIPMENT

†**Kodak Print Marker, Model 5**—This marker is a dc solenoid-powered disk marker to provide a conductive graphite mark on the back of roll paper during the printing operation. A completely versatile unit which can be used for both cutting and sorting marks on many types of printing and roll paper transporting equipment. Supplied without mounting bracket. 115-volt, 50-60-cycle ac. .... \*\$90.00

†**Kodak Power Unit, Model 5** (for Kodak Print and Pencil Markers)—Provides dc power for the Kodak Print Marker, Model 5, or the Kodak Pencil Marker, Model 6. 115-volt, 50-60-cycle ac. .... \*\$30.00

†**Kodak Print Marker Disks (Improved Type)**—For use with all Kodak Print Markers. Require the Kodak Print Marker Disk Adapter, listed below. Per box of 10 ..... \$10.00

\***Kodak Print Marker Disk Adapter**. Part No. 500600 ..... 1.50

†**Kodak Pencil Marker, Model 6**—A new marker which uses stick lead rather than graphite disks. Fits on most Kodak Printers and Roll Paper Holders for print cutting only. (Use Model 5 Marker for order sorting). Requires Model 5 Power Unit in some cases. (See Bracket listing). .... \*\$135.00

**Kodak Marker Lead**, per box of 50 leads ..... \$1.00

†**Kodak Print-Cutting Pencil Marker Bracket, Type IV**—For mounting Kodak Pencil Marker for automatic print cutting on all Kodak Velox Rapid Roll Paper Printers and also Kodak Roll Paper Color Printers, Types IVC, IVR, and IVS, and Kodak Roll Paper Printer, Type IVB-2. (Requires Kodak Power Unit, Model 5). .... \*\$52.00

†**Kodak Print-Cutting Pencil Marker Bracket, Model 5S**—For mounting the Kodak Pencil Marker, Model 6, on the Kodak Roll Paper Color Printer, Model 5S-2, for print-cutting purposes. Power unit is included. .... \*\$115.00

\***Kodak Print-Cutting Pencil Marker Bracket, Model 5S, Conversion Kit, K-1625**—For converting old-style disk Marker Bracket to accommodate the Model 6 Pencil Marker. .... \*\$49.75

†**Kodak Print-Cutting Pencil Marker Bracket, Model 8S**—For mounting the Kodak Pencil Marker, Model 6, on the Kodak Enlarging Color Printer, Model 8S-2-K. Includes the power supply. The mark is automatically positioned as the externally adjustable paper mask is changed. 115-volt, 50-60-cycle ac. .... \*\$125.00

\***Kodak Print-Cutting Pencil Marker Bracket, Model 8S, Conversion Kit, K-1635**—For converting old-style disk Marker Bracket to accommodate the Model 6 Pencil Marker. .... \*\$42.75

†**Kodak Print-Cutting Pencil Marker Bracket, Type MRH**—For mounting the Model 6 Pencil Marker on the Model 11-K Master Roll Paper Holder. Power unit is included with Roll Paper Holder. .... \*\$16.50

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

## MISCELLANEOUS PRINTER ACCESSORIES

†**Kodak Color Printer Conversion Kit, Type IVS**—For converting existing Kodak Roll Paper Color Printers, Type IVC, from additive printing to simultaneous tricolor printing of Kodak Ektacolor Paper. The Kit consists of a completely new electronic control chassis mounted on a shelf which replaces existing control panel shelf and slope unit of the IVC Printer. The new chassis contains color correction and subject classification button switches and the slope center and slope change controls. Three adjustable potentiometers, each with vernier scale, provide size compensation.

The Conversion Kit can also be utilized to convert any Kodak Velox Rapid Roll Paper Printer, Type IV (equipped with a Kodak Roll Paper Head), to a high-speed IVS Color Printer. The additional list of parts required for this complete conversion can be obtained on request. 115-volt, 50-60-cycle ac. .... \*\$2650.00

\***Kodak Printer Dating and Coding Adapter Box** (for Kodak Color Printer Conversion Kit, Type IVS). Required for IVS Printer in addition to Dating and Coding Lamp Assembly. Kit No. 1265 ..... \*\$9.00

†**Kodak Contact Printing Attachment, Model B**—For Kodak Velox Rapid Roll Paper Printer, Type IV (Universal), Type IVB-3 (5x7), and Type IVC. Makes possible the production of 3½x7 and 4¼x5½ photo greeting cards on roll paper. It can also be used for making contact prints up to 5x7 inches on roll paper.

Includes interval timer for exposure control of greeting sentiment, and removable pressure platen. 115-volt, 50-60-cycle ac. .... \*\$325.00

\***Front Support Bracket** for mounting Contact Printing Attachment on IVC or IVB-3 Printer. Part No. 132236 ..... \*\$3.30

\***End Support Bracket** for mounting Contact Printing Attachment on IVC or IVB-3 Printer. Part No. 132237 ..... \*\$3.30

**†Kodak Micro Footswitch, Model 2**—The standard footswitch supplied with Kodak Roll Paper Printers. Available for any purpose where a footswitch is required. Equipped with 4-prong connector plug. Part No. 835907 . . . . . \*\$27.60

**\*3-Prong Cord and Plug Adapter**—Required for installation on Kodak Roll Film-Paper Cutter, Model 2. Part No. 802598 . . . . . \*\$4.50

**\*Kodak Micro Footswitch Cable, Model 2**—With this cable assembly, it is possible to wire the footswitch into apparatus which does not have the mating receptacle already installed. Includes 4-prong receptacle. Part No. 837230 . . . . . \*\$6.00

**†Kodak Multiple Print Controller, Model 400**—For use with Kodak Roll Paper Holders and Roll Paper Head Printers to produce a predetermined number of prints from 1 to 400 with a single switch actuation. Also for counting out footage of roll paper for reel processing and for intermittent print making. 115-volt, 50-60-cycle ac. . . . . \*\$140.00

**\*Cable Assembly for Multiple Print Controller.** Part No. 760442 . . . . . \*\$31.80

**\*Printer Pigtail Assembly for Multiple Print Controller (for Type IV series, 5S-2, 8S, and 8S-2 Printers).** Part No. 760641 . . . . . \*\$12.90

**†Kodak Electrical Numbering Stamp, Model 1A**—This stamp is mounted on the Roll Paper Head using the Print Cutting Marker Bracket or the Roll Head Numbering Stamp Bracket. It is actuated electrically by the Envelope Numbering Stamp and is used at the beginning of each order. 110-volt, 50-60-cycle ac. . . . . \*\$157.00

**\*Connector Cord for Envelope Numbering Stamp Bracket**—To connect the Kodak Envelope Numbering Stamp Bracket to the Kodak Electrical Numbering Stamp. Part No. 822275 . . . . . \*\$6.00

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

**†Kodak Envelope Numbering Stamp**—Can be mounted on Roll Paper Head or on the Kodak Envelope Numbering Stamp Bracket. . . . . \*\$33.00

**†Kodak Roll Head Numbering Stamp Bracket**—For mounting Envelope Numbering Stamp or Electrical Numbering Stamp on Roll Paper Head. Not required if Kodak Print Cutting Marker Bracket is used . . . . . \*\$22.00

**†Kodak Envelope Numbering Stamp Bracket, Model 1**—For mounting the Kodak Envelope Numbering Stamp on table top for numbering envelopes. Includes switch and wiring for actuating Electrical Numbering Stamp . . . . . \*\$32.50

**†Kodak Holder for Kodak Envelope Numbering Stamp Bracket, Model 1**—A base for the Kodak Envelope Numbering Stamp Bracket to hold it in position on the printer table top. For all types of Roll Head Printers equipped with Kodak Electrical Numbering Stamp, Model 1A. . . . . \*\$4.00

**†Kodak Photoelectric Control Unit, Model E**—This unit is currently supplied with Type IV Universal Printers and can easily be installed on printers equipped with older style control units. Together with the appropriate installation assembly, this unit provides a stable and effective system of photoelectric exposure control . . . \*\$215.00

**†Kodak Installation Assembly, Type IV (for Kodak Control Unit, Model E)** . . . . . c \*\$125.00

**\*Kodak Plug-in Relay Kit K-745 (for Kodak Photoelectric Control Unit, Model D).** For old-style Model D Units . . . . . \*\$17.40

**†Kodak Print Dating and Coding Lamp Assembly, Model 1**—Essentially a miniature contact printing attachment which photographically exposes a permanent legend in the border of prints. This legend includes month, year, identification of selector switch buttons, and, if desired, an end-of-order signal mark. For Type III, IV, or IVC Printers (not for 5S or 5S-2) . . . . . \*\$51.00

**†Kodak Print Dating and Coding Switch Assembly, Model D-2**—For Type III and IV Printers only . . . . . \*\$80.00

**†Kodak Printing Lamp Voltage Regulator, Model 500**—Recommended for set-up and continuous operation with IVC, IVS, and IVB-3 Printers as well as others using a 500-watt printing lamp. 115-volt, 60-cycle ac. . . . . \*\$155.00  
50-cycle (Model 500-J) . . . . . \* 190.00

## KODAK LENSES

**Kodak Ektar Lenses**—The name "Ektar" identifies Kodak's top quality lenses. They are the best we know how to make for their intended applications, and they meet the stringent requirements of even the most exacting worker.

Truly superlative in design, construction, and performance, *Ektar* lenses meet the highest standards of definition and edge-to-edge sharpness, producing unmatched flatness of field. Though remarkably fast, *Ektar* lenses give outstanding performance at widest apertures. Kodak rare-element glass is used in manufacturing many of the *Ektar* lenses—whenever its use will give them greater light bending power and less dispersion.

*Ektar* lenses are coated—*Lumenized*—at every glass-air surface to reduce flare and also improve the clarity and brilliance of the image in black-and-white and color. Color correction has been carried out to the extent that color pictures made with *Ektar* lenses satisfy the most critical color worker.

All *Kodak Ektar* Lenses focus as a unit. They are supplied in shutters as indicated below:

### LENSES

#### Kodak Ektar Lenses

7½-inch f/4.5 (L) in Ilex Acme Synchro Shutter.	* <b>\$247.00</b>
12-inch f/4.5 (L) in Ilex Universal Synchro Shutter.	* <b>332.00</b>
(L) <i>Lumenized</i> lens.	

#### Kodak Commercial Ektar Lenses f/6.3

Equivalent Focus In inches	Size covered with full aperture In inches	Fitted to Ilex Synchro Shutter	
8½	5x7	.....	* <b>\$237.00</b>
10	6½x8½	.....	* <b>263.00</b>
12	8x10	.....	* <b>279.00</b>
14	8x10	.....	* <b>342.00</b>

The above lenses are *Lumenized*.

#### Kodak Portrait Lenses

12-inch f/4.8 (L) in Ilex Universal Synchro Shutter. [15158-00]c	* <b>\$237.00</b>
16-inch f/4.5 (L) mounted in Barrel with Iris Diaphragm.	* <b>170.00</b>

(L) *Lumenized* lens.

**Kodak Enlarging Lenses**—All Kodak enlarging lenses are designed to meet the particular requirements of enlarging—especially corrected to produce flat fields and sharp images at relatively short image-subject distances. They have good covering power. Kodak Enlarging Ektanon Lenses are high-quality lenses designed largely for black-and-white enlarging. Kodak Enlarging

*Ektar* Lenses are designed and manufactured to meet the most rigid requirements in definition and color correction.

#### Kodak Enlarging Ektanon Lens

6⅜-inch (161mm) f/4.5 (L)	
For negatives up to 4x5 inches.	* <b>\$125.00</b>

#### Kodak Enlarging Ektar Lenses

2-inch (50mm) f/4.5 (L)	
For negatives up to 1⅞x1⅞ inches.	* <b>\$83.50</b>
3-inch (75mm) f/4.5 (L)	
For negatives up to 2¼x2¼ inches.	* <b>87.50</b>
90mm (3½-inch) f/4.5 (L)	
For negatives up to 2¼x3¼ inches.	* <b>87.50</b>

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1000, subject to credit approval.

#### Kodak Enlarging Ektanon Lenses in Barrel with Iris Diaphragm

7½-inch (190mm) f/4.5 (L)	
For negatives up to 5x7 inches.	* <b>\$143.50</b>
10-inch f/8 (L)	
For negatives up to 8x10 inches.	* <b>250.00</b>
10-inch f/4.5 (L)	
For negatives up to 8x10 inches.	* <b>225.00</b>

(L) *Lumenized* lens.

†**Kodak Roll Paper Head Speed-up Kit**—For speeding up production and improving the accuracy of paper advances on Model B, C, and C-2 Roll Paper Heads ..... \***\$120.00**

\***Kodak Split Detent Cam Kit**—For Kodak Roll Paper Heads, all models. To replace old-style shutter drive cams with a new detent-type unit to positively stop the drive shaft before and after exposure. Part No. 827218 ..... \***\$36.60**

†**Kodak Splice Advance Attachment, Model 1-K** (for Kodak Roll Paper Printers)—Automatically advances the roll paper splice beyond the printing aperture. For Kodak Roll Paper Printers, Type III and IV series, and Model 5 series, both black and white and color ..... \***\$75.00**

†**Kodak Two-Stage Advance Cam** (for Kodak Roll Paper Head, Model C-2)—An accessory item to speed up operation and increase production on Kodak roll head printers. With this device, prints from 2½ to 4¾ inches require only one-half revolution of the roll head drive roller to complete the advance, instead of one complete revolution. May be adapted to Model B and C Heads with added parts ..... \***\$75.00**

#### Greeting Card Supplies

†**Kodak Contact Thank-You Card Masks, each** ..... **\$3.95**  
For standard 4¼x5½-inch cards by contact printing. Each of the 2 designs is available in the sizes listed below.

	Design	Sentiment
No. 101	Flowers	Many Thanks For Your Gift
No. 102	Gift and Orchid	Sincere Thanks For Your Lovely Gift
	Opening	Film Size
H	2x3 in.	620/120
V	2x3 in.	620/120
S	2x2 in.	Reflex 620/120

H—Horizontal negative opening; V—Vertical negative opening;  
S—Square negative opening

†**Kodak 3X Thank-You Card Outfit, No. 380** ..... **\$14.25**  
For 3X cards by the combination printing method using *Kodak Contact Printing Attachment*. Consists of 6 masks listed below. Accommodates all standard negative sizes.

3X101H, 3X101V, 3X101S; 3X102H, 3X102V, 3X102S.  
H—2.7 x 4-inch horizontal picture on horizontal card; V—2.7 x 4-inch vertical picture on vertical card; S—2.7-inch square picture on top of vertical card.

†**Kodak Slim-Line Thank-You Card Outfit, No. 382** ..... **\$29.00**  
For color *Slim-Line* Cards produced on the *Kodak Roll Paper Color Printer, Model 5S-2*. Consists of 6 masks (listed below) and color overlays.  
5SL101H, 5SL101V, 5SL101S; 5SL102H, 5SL102V, 5SL102S.

†**Kodak Slim-Line Thank-You Card Outfit, No. 390** ..... **\$18.00**  
For black-and-white *Slim-Line* Cards produced on the IV or IVB-3 Printer. Consists of 6 masks (listed below).  
SL101H, SL101V, SL101S; SL102H, SL102V, SL102S.

†**Kodak Color Slim-Line Overlay Kit, No. 390A** ..... **\$13.50**  
For color *Slim-Line* Cards on the IVC or IVB-3 Printer—must be used with No. 390 Outfit.

## ROLL PAPER PROCESSING EQUIPMENT

†Kodak Slim-Line Thank-You Card Outfit, No. 506 ..... \$18.00  
For Pakomatic (black-and-white) Printers. Same 2 designs as in No. 390 Outfit.

†Kodak Slim-Line Thank-You Card Outfit, No. 507 ..... \$31.50  
For Pakotronic (color) Printers. Same 2 designs as in No. 390 Outfit.

†Kodak Contact Birth-Announcement Masks, each ..... \$3.95  
For standard 4¼x5½-inch cards by contact printing. Each of the 2 designs is available in the sizes listed below.

	Design	Sentiment	
No. 103	Flowers	Hill I'm a New Arrival	
No. 104	Stork and Cradle	Just Arrived	
	Opening		Film Size
H	2x3 in.		620/120
V	2x3 in.		620/120
S	2x2 in.		Reflex 620/120

H—Horizontal negative opening; V—Vertical negative opening;  
S—Square negative opening

†Kodak 3X Birth-Announcement Outfit, No. 383 ..... \$14.25  
For 3X cards by the combination printing method using Kodak Contact Printing Attachment. Consists of 6 masks listed below. Accommodates all standard negative sizes.

3X103H, 3X103V, 3X103S; 3X104H, 3X104V, 3X104S.

H—2.7 x 4-inch horizontal picture on horizontal card; V—2.7 x 4-inch vertical picture on vertical card; S—2.7-inch square picture on top of vertical card.

†Kodak Slim-Line Birth-Announcement Outfit, No. 385 ..... \$29.00  
For color Slim-Line Cards produced on the Kodak Roll Paper Color Printer, Model 5S-2. Consists of 6 masks (listed below) and color overlays.  
5SL103H, 5SL103V, 5SL103S; 5SL104H, 5SL104V, 5SL104S.

†Kodak Slim-Line Birth-Announcement Card Outfit, No. 391 ..... \$18.00  
For black-and-white Slim-Line Cards produced on the IV or IVB-3 Printer. Consists of 6 masks (listed below).  
SL103H, SL103V, SL103S; SL104H, SL104V, SL104S.

†Kodak Color Slim-Line Overlay Kit, No. 391A ..... \$13.50  
For color Slim-Line Cards on the IVC or IVB-3 Printer—must be used with No. 391 Outfit.

†Kodak Slim-Line Birth-Announcement Card Outfit, No. 508 ..... \$18.00  
For Pakomatic (black-and-white) Printers. Same 2 designs as in No. 391 Outfit.

†Kodak Slim-Line Birth-Announcement Card Outfit, No. 509 ..... \$31.50  
For Pakotronic (color) Printers. Same 2 designs as in No. 391 Outfit.

**No. 152 Kodak Standard Greeting Card Envelopes** (for 4¼x5½-inch cards and folders).

1-25 packages of 500, per package	\$3.70
26-99 packages of 500, per package	2.95
100 or more packages of 500, per package	2.50

**No. 153 Kodak Slim-Line Photo-Greeting Envelopes** (for 3½x7-inch cards).

1-25 packages of 500, per package	\$2.50
26-99 packages of 500, per package	2.02
100 or more packages of 500, per package	1.72

**No. 154 Kodak DeLuxe Greeting Card Envelopes** (for 5x7-inch cards).

1-25 packages of 500, per package	\$5.49
26-99 packages of 500, per package	4.39
100 or more packages of 500, per package	3.74

**No. 155 Kodak Contemporary Folder Envelopes** (for 3¼x8½-inch folders).

1-25 packages of 500, per package	\$6.85
26-99 packages of 500, per package	5.45
100 or more packages of 500, per package	4.65

For the 1963 Christmas Photo-Greeting Program see our announcements dated March, 1963.

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

All Kodak Continuous Paper Processors (Model 4) are sturdily built and of attractive and functional design. Each has readily removable Type 316 stainless steel tanks and racks (except those for bleach solutions, which are made from red brass). Rollers and pipe fittings are made from an inert plastic material.

**Splicers:** Each processor is equipped with one of two styles of paper splicing units mounted on its own table. This table is used for holding the unprocessed rolls of paper, three rolls of paper leader (or reusable plastic leader for black-and-white processing), and precut lengths of Kodak Paper Splicing Heat Tape. Model 4A, 4C, 4C-2, and 4R Processors only are equipped with the larger splicing tables with leader stands and stock rolls. On other processors, the leader stands and stock rolls must be ordered separately.

**Tank Modules:** All processors are composed of one or more tank modules, each 2 feet wide by 3 feet long by 4 feet high. Single-module processors, Models 4D-P and 4C-3, and the first module of larger processors are installed in a darkroom. A light trap conveys the strands into the lighted area to the remaining tank modules (if any) and the dryer. Prices shown for Models 4D-P and 4A do not include light trap. It can be ordered separately if desired.

**Temperature Control:** A Kodak Precise-Temp Control, Model 40A, is included with each color processor for automatic accurate temperature control of the developer at 75 F or 85 F, as desired. For the less critical solutions, tempered wash water supplied from the included mixing valve is introduced through the solution jackets and then to the wash tanks.

Temperature control on black-and-white processors is obtained by means of a thermostatic mixing valve, included with the processor. The tempered water is piped into the jacket of the developer tank and from there to the wash tanks. (In localities where the tap water is sometimes higher than the specified temperature, a Kodak Precise-Temp Control, Model 40A, can be added to control the developer temperature independently.)

**Recirculation and Filtration:** All processors are equipped with new seal-less recirculating pumps for recirculating and filtering various solutions.

**Chemical Replenishment Metering:** All processors are equipped with complete chemical metering systems which can be readily calibrated and adjusted for 1, 2, or 3 strands. These can be used with either gravity or continuous pump systems for conveying solutions to the processor from mixing and storage tanks (tanks and conveying systems available separately).

**Convertibility:** Kodak Continuous Paper Processors (Model 4) have the unique advantage of convertibility from one process to another. Tanks, rollers, and working parts are interchangeable.

**Production Capacity:** The width of each of the bottom rollers is 14¾ inches, which permits the following multistrand or single strand operations.

- 1 strand up to 12 inches wide
- 2 strands up to 5½ inches wide, each
- 3 strands up to 4 inches wide, each (or 1 center strand 5 inches and 2 side strands 3½ inches, each)

The production capacity of the processors is somewhat dependent on the processing temperature and drying arrangements used. To compute capacity (prints per minute), multiply the speed (fpm), as shown, by the number of strands and the average number of prints per foot. (For photo-finishing use on 3½-inch-wide paper, a good rule of thumb is 3 prints per foot.)

**Paper-Drive System:** A unique, externally mounted, independent, easily serviced paper-drive system is used, consisting of a Pacer Drive and one or more Auxiliary Drives. This eliminates need of chain or gear drives and simplifies the changing from one speed to another. Tension is easily controlled.

**Ready for Operation:** Kodak Continuous Paper Processors are supplied complete with all required accessories for operation exclusive of the chemical storage tanks and the necessary tubing, valves, etc, to bring the chemical solutions to the processor.

Your Kodak Technical Sales Representative can supply you with special order blanks for each of the Kodak processors, which give dimensions suggested for layouts and list the recommended accessories and kits for chemical replenishment tanks, tubing, and fittings available from Kodak.

**BLACK-AND-WHITE PROCESSORS**

†**Kodak Continuous Paper Processor, Model 4D-P**—A compact, efficient, single-module processor. For photofinishing and professional use. Recommended for *Unicontrast*, *Premier*, *Medalist*, *Polycontrast*, *PolyLure*, and *Ektalure* Papers. Single-weight papers process at 4 fpm and double-weight papers at 2½ fpm. Supplied without dryer — use Kodak Roll Paper Dryer-Glazer, Model C-2. If the Radiant Pre-Drying Attachment is added

to the dryer, speeds of 6½ fpm for single-weight and 5 fpm for double-weight paper are obtained. For best ferrotyping results, include a Kodak Re-Wet Roll, Model C, regardless of whether or not the Radiant Pre-Drying Attachment is used. For matte drying, use Kodak Roll Paper Dryer, Model C-3-M. (Paper feed roll assemblies and leader stand not included.) 115-volt, 50-60-cycle ac. .... \*\$4300.00

†**Kodak Continuous Paper Processor, Model 4A**—A larger, high-capacity, two-module processor. For photofinishing and professional use. Recommended for *Unicontrast*, *Premier*, *Medalist*, *Polycontrast*, *PolyLure*, and *Ektalure* Papers. Single-weight papers process at 8 fpm and double-weight papers at 5 fpm. Supplied with-

out dryer—use Kodak Roll Paper Ferrotype Dryer, Model A-M. With Radiant Pre-Drying equipment added, speeds of 10 fpm for single-weight and 8 fpm for double-weight paper are possible depending on the type of paper to be processed. For best ferrotyping results, include a Kodak Re-Wet Roll, Model A. For matte drying, the Kodak Roll Paper Matte Dryer, Model A-M, is substituted. 115-volt, 50-60-cycle ac. .... \*\$7,600.00

\***Single-Module Drain Kit D-910**—Single-tank module unit for Model 4C-3 and 4D-P Processors. Attaches to horizontal drain outlet on the tank module drain pan. For carrying waste solutions to an adjacent floor drain. If floor drain is not adjacent to processor, one or more 3-foot lengths of 2¼-inch ID hose plus connectors and clamps must be obtained. See your Technical Sales Representative. .... \*\$25.00

\***Two-Module Drain Kit D-900**—Same as above except for processors with two tank modules, such as Models 4A and 4C-2. .... \*\$42.50

\***Three-Module Drain Kit D-920**—Same as above except for processors with three tank modules, such as Model 4C. .... \*\$56.00

\***Water Flow Meter** (for Kodak Continuous Paper Processors)—Can be readily installed on any model Kodak Continuous Paper Processor to indicate the volume of water being delivered to the machine. Capacity, 10 gallons per minute. A convenience for any type of processing equipment. Part No. 761710. .... \*\$22.80

**Paper Feed Roll Assemblies** (order separately for 4C-3 and 4D-P Processors)—

- \*3½-inch, Part No. 1238-109. .... \*\$ 8.70
- \*5½-inch, Part No. 1238-110. .... \* 10.50
- \*11-inch, Part No. 1238-119. .... \* 11.40

\***Kodak Leader Stand Assembly** (order separately for 4C-3 and 4D-P Processors)—  
Part No. 450304. .... \*\$97.50

\***Kodak 5-inch Stock Roll Frame** — Permits processing of one 5-inch strand and two 3½-inch strands on any Model 4 Processor equipped with a Leader Stand. Part No. 453054. .... \*\$40.20

**Kodak Machine Test Leader Paper (For Kodak Color Paper Processing)**—For use in setting up and in testing continuous color print processing equipment for tracking, abrasion, etc. The leader may also be used in color processors when run with one or two strands of Kodak Ektachrome or Ektacolor Paper, as it has the same expansion and tracking characteristics. 3½ in. x 250 ft. [924-68]. .... \*\$7.20

**Kodak Paper Splicing Heat Tape**—For splicing photographic roll paper, either black-and-white or color. Available in 200-foot rolls, 1½ inches wide. [762-17]. .... \*\$3.25

**Kodak Paper Leader** (for Kodak Continuous Paper Processor)—Disposable leader for black-and-white and color continuous paper processors. Should be discarded after use. Supplied in rolls 2 inches wide by approximately 2100 feet long. Case of 3 rolls. .... \$8.00

**Kodak Reusable Leader**—For black-and-white paper processors only. Can be used instead of paper leader and can be run through the processor over and over again. Its wet strength is higher than that of paper leader. It does not wrap around processor rollers when slack develops, and does not absorb chemicals. Not recommended for processors equipped with Radiant Pre-Drying Attachments. Case lots 3 rolls.  
Roll 1½ in. x 1000 ft. .... \$10.00

†**Kodak Wind-Up Reel Flanges** (for Kodak Reusable Leader)—Used for winding up the Reusable Leader in neat rolls at the end of the processors. Per pair. .... \$2.95

**Kodak Splicing Cement, No. 7502** (for Kodak Reusable Leader)—A quick-drying cement used for cementing splices in Reusable Leader. 8-ounce can with brush applicator. .... \$4.70  
Case of 24 cans, per can. .... 4.23

\***Kodak Splicing Clamp** (for Kodak Reusable Leader)—Used for clamping two ends of reusable leader together during the splicing operation. Part No. 760806. .... \*\$17.00

\***Kodak Leader Rewind Stand** (for Kodak Reusable Leader)—For rewinding reusable leader used in black-and-white paper processing. Part No. 760816. .... \*\$90.00

**REEL PROCESSING EQUIPMENT**

†**Kodak Processing Reels**—For efficient processing of Kodak Ektachrome or Ektacolor Paper in 3½-, 5-, or 8-inch widths. Each reel will hold approximately 20 feet of paper.

- Kodak Processing Reel, 3½-inch. .... \*\$18.50
- Kodak Processing Reel, 5-inch. .... \* 18.50
- Kodak Processing Reel, 8-inch. .... \* 22.50

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

†**Kodak Adjustable Processing Reel Loader, Model 3**—Designed for loading all four sizes of Kodak Processing Reels. The loader is supplied without Kodak Paper Guides which must be ordered separately. \*\$125.00

†**Kodak Paper Guides**—Available in four sizes for use with Kodak Adjustable Processing Reel Loader, Model 3.

Kodak Paper Guide, 2¼-inch	*\$25.00
Kodak Paper Guide, 3½-inch	* 49.50
Kodak Paper Guide, 5-inch	* 15.00
Kodak Paper Guide, 8-inch	* 25.00

†**Kodak Processing Reel Holder**—For two-reel system. This device is supplied for holding any size processing reel during the processing cycle. The holder includes a lead ring weight to hold down the reels in the processing tanks. Holds two 2¼- or 3½-inch reels, or one 5- or 8-inch reel \*\$8.50

## ROLL PAPER DRYING EQUIPMENT

\***Kodak Roll Paper Ferrotyping Dryer, Model A-M**—A high-capacity ferrotyping dryer for use with Kodak Continuous Paper Processors, both black-and-white and color. It can be threaded for either matte or gloss-print drying, at speeds up to 10 feet per minute. Drum has a highly polished, chrome-plated surface. Price does not include wind-up reels.

115-220-volt, single-phase, 3-wire, 60-cycle ac. Part 458020	*\$6,000.00
220-240-volt, 3-phase, 3-wire, 60-cycle ac. Part 458021	* 6,000.00
120-208-volt, 3-phase, 4-wire, 60-cycle ac. Part 458022	* 6,000.00
120-208-volt, 3-phase, 4-wire, 50-cycle ac. Part 458023	* 6,000.00

(Other 50-cycle wiring types available on special order—specify wiring.)

\***Kodak Roll Paper Matte Dryer, Model A-M (Frame only)**—When ordered with reconditioned drum, Part No. 458028, is identical to Ferrotyping Dryer A-M except that the drum is suitable for matte drying only. Useful for high-speed matte drying of black-and-white or color papers. Price does not include drum or wind-up reels.

115-220-volt, single-phase, 3-wire, 60-cycle ac. Part 458024	*\$4,150.00
220-240-volt, 3-phase, 3-wire, 60-cycle ac. Part 458025	* 4,150.00
120-208-volt, 3-phase, 4-wire, 60-cycle ac. Part 458026	* 4,150.00
120-208-volt, 3-phase, 4-wire, 50-cycle ac. Part 458027	* 4,150.00

\*Drum for Model A-M Matte Dryer. Part 458028 \* 1,200.00

†**Kodak Radiant Pre-Drying Attachment, Model A-2** (for Kodak Roll Paper Dryer, Model A)—For pre-drying of Kodak color and black-and-white papers prior to ferrotyping, on Kodak Roll Paper Dryers from Kodak Continuous Paper Processors. The Radiant Pre-Drying Attachment consists of two panel heaters (controlled by a percentage timer) mounted on a pedestal frame. The paper coming from the processor is predried by the radiant panels. Then the emulsion surface is rewet by a Re-Wet Roll (with drip tube) and fed onto the polished drum

surface of the dryer for ferrotyping. The Radiant Pre-Drying Attachment can also be used as a drying aid for matte-surface papers. 220-volt, single-phase, 50-60-cycle ac. \*\$895.00

†**Kodak Re-Wet Roll, Model A-2** (for Kodak Roll Paper Dryer, Model A)—Can be installed on the Model A Dryer to rewet paper strands after being predried by the Radiant Pre-Drying Attachment and just before being fed onto the drum surface for ferrotyping. The felt-covered rewet roll is driven by an adjacent roller which gives an efficient application of rewet solution to the paper surface. \*\$185.00

\***Kodak Squeegee Blade Assembly** (for Kodak Roll Paper Dryer, Model A)—For removing surplus water from the back of paper strands prior to drying. Useful particularly with double-weight black-and-white or toned paper. Part No. 450158. \*\$55.80

\***Kodak Pressure Roll Spray Kit** (for Kodak Roll Paper Dryer, Model A)—For use when matte drying Kodak Ektacolor Professional Paper (2½ fpm). Part No. 456360 \*\$75.00

†**Kodak Auxiliary Half-Panel Set, Model A** (for Kodak Radiant Pre-Drying Attachment, Model A-2)—For supplementary drying of Kodak Ektacolor Paper at speeds of 4 fpm or higher. Normally installed above original Radiant Pre-Drying Attachment. 220-volt, 50-60-cycle ac. \*\$425.00

\***Kodak Auxiliary Radiant Panel Unit, Model A** (for Kodak Roll Paper Dryer, Model A)—For aiding in satisfactory drying of Ektalure Paper, Double Weight, on the Model A Dryer. 220-volt, single-phase, 50-60-cycle ac. Kit No. K-965 \*\$435.00

†**Kodak Roll Paper Dryer-Glazer, Model C-2**—A compact, versatile ferrotyping dryer for black-and-white or color papers, after processing in various Kodak Continuous Paper Processors. It can, however, be threaded for either matte or ferrotyping use. Capacity up to 6½ feet per minute. Highly polished, chrome-plated drum can be easily removed and replaced.

115-220-volt, single-phase, 3-wire, 60-cycle ac.	*\$3,600.00
115-220-volt, single-phase, 3-wire, 50-cycle ac.	* 3,800.00

†**Kodak Roll Paper Dryer, Model C-3-M**—Identical to the Dryer-Glazer, Model C-2, except that the drum is made from unpolished stainless steel, for matte drying only. Particularly useful for matte drying of color papers which can then be ferrotyped on the Kodak Pressure Ferrotyping, if desired. 115-220-volt, single-phase, 3-wire, 60-cycle ac. n \*\$3,200.00

†**Kodak Roll Paper Dryer, Model C-3-L**—115-220-volt, single-phase, 3-wire, 50-cycle ac. n \* 3,400.00

†**Kodak Re-Wet Roll, Model C** (for Kodak Roll Paper Dryer-Glazer)—Similar to Re-Wet Roll, Model A-2. Rewets the emulsion surface of the paper strands after they have been predried in the Radiant Pre-Drying Attachment prior to being fed onto the drum surface of the Dryer-Glazer. \*\$150.00

\***Kodak Auxiliary Radiant Panel Unit, Model C** (for Kodak Roll Paper Dryer-Glazer)—For aiding in satisfactory drying of Ektalure Paper, Double Weight, on the Model C-2 Dryer-Glazer. 220-volt, single-phase, 50-60-cycle ac. Kit No. K-975 \*\$480.00

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

**\*Kodak Tank Shelf for Dryers**—Supplied as a convenience for holding a small tank of chemical solution, or distilled water, on the framework of the Kodak Roll Paper Dryer, Model A, or Kodak Roll Paper Dryer-Glazer, Model C-2. Part No. 454951 ..... \*\$48.00

*Replacement Dryer Drums	Part No.	Credit	
Kodak Replacement Drum for Kodak Roll Paper Ferrotyping Dryer, Model A-M.	c 01238-70	\$400.00†	\$1,850.00
Kodak Replacement Drum for Kodak Roll Paper Matte Dryer, Model A.	n 458028		1,200.00

†This credit is applicable if plating only is required. If additional work or replacement parts are found necessary, credit will be issued in accordance with the work required.

### COLOR PROCESSORS

†**Kodak Continuous Color Print Processor, Model 4C-3**—For low-capacity photofinishing use for processing Kodak Ektacolor Paper, Type 1583 (1½ fpm) or Kodak Ektacolor Professional Paper (1¼ fpm). Dryer not included—use Kodak Roll Paper Dryer-Glazer, Model C-2, and Kodak Radiant Pre-Drying Attachment, Model A-2. For ferrotyped prints, it is necessary to order Kodak Re-Wet Roll, Model C. 115-volt, 50-60-cycle ac. \*\$6700.00

†**Kodak Continuous Color Print Processor, Model 4C-2**—For medium-capacity photofinishing or professional use for processing Kodak Ektacolor Paper, Type 1583 (3 1/6 fpm) or Kodak Ektacolor Professional Paper (2½ fpm). Dryer not included—use Kodak Roll Paper Dryer-Glazer, Model C-2, and Kodak Radiant Pre-Drying Attachment, Model A-2. For ferrotyped prints, it is necessary to order Kodak Re-Wet Roll, Model C, and Kodak Auxiliary Half-Panel Set, Model A. 115-volt, 50-60-cycle ac. \*\$11,100.00

typed prints, it is necessary to order Kodak Re-Wet Roll, Model C, and Kodak Auxiliary Half-Panel Set, Model A. 115-volt, 50-60-cycle ac. \*\$11,100.00

†**Kodak Continuous Color Print Processor, Model 4C**—For high-capacity photofinishing or professional use for processing Kodak Ektacolor Paper, Type 1583 (4¾ fpm) or Kodak Ektacolor Professional Paper (4 fpm). Dryer not included—use Kodak Roll Paper Dryer, Model A, equipped with Kodak Radiant Pre-Drying Attachment, Model A-2. For ferrotyped prints, it is also necessary to order Kodak Re-Wet Roll, Model A-2, and Kodak Auxiliary Half-Panel Set, Model A. 115-volt, 50-60-cycle ac. \*\$14,500.00

also necessary to order Kodak Re-Wet Roll, Model A-2, and Kodak Auxiliary Half-Panel Set, Model A. 115-volt, 50-60-cycle ac. \*\$14,500.00

The following items are available for increasing the speed of old-style 4C Processors to 6½ fpm, per strand, when processing Kodak Ektacolor Paper, Type 1583, matte drying only. (Not necessary on new 4C Processors.)

*Kit 1745—Speedup Parts Kit, 4C Processor	*\$485.00
†Kodak Auxiliary Drive Assembly, Model 4 (Stainless Steel Shaft)	* 300.00
†Kodak Auxiliary Drive Gear Train, standard speed	* 25.00

### MISCELLANEOUS PROCESSING ACCESSORIES AND SUPPLIES

†**Kodak Automatic Time Signal System, Model 1**—Provides an audible and visible automatic timing signal for any particular color process (film or paper). Through the use of this system there is no need for the operator to reset or watch a timer, leaving him free to do other operations. Suitable for any manual processing system. 115-volt, 60-cycle ac. \*\$85.00  
50-cycle model \* 85.00

†**Kodak Interconnect Cables** (for Kodak Automatic Time Signal System)—Made available for various film and paper process cycles. When processing cycles are changed, it is only necessary to obtain a new Interconnect Cable or rewire old cable.

Kodak Interconnect Cable, P-111 (Kodak Ektachrome Paper)	*\$7.50
Kodak Interconnect Cable, P-122 (Kodak Ektacolor Paper)	* 7.50
Kodak Interconnect Cable, C-22 (Kodacolor Film)	* 7.50
Kodak Interconnect Cable, E-2 (Kodak Ektachrome Film)	* 7.50

†**Kodak Automatic Time Signal System, Model 1 (50- or 60-cycle), and Kodak Interconnect Cables, P-111, P-122, C-22, and E-2** (Individual items described above) \*\$95.00

†**Kodak Chemical Replenishing Unit**—For intermittent semiautomatic replenishment of measured quantities of a solution for use with Kodak Rack and Tank Color Film Processors, or with sink processing tanks. Ideal for film and paper reel processing, basket processing, or any system using intermittent or batch replenishment. Bottles must be ordered separately. \*\$125.00

†**Kodak Chemical Replenishing Bottles**—These polyethylene bottles are supplied in pairs in four sizes. Bottles are equipped with caps and vent tubing to adjust solution levels.

Kodak Chemical Replenishing Bottles, 1-pint, per pair	*\$ 9.75
Kodak Chemical Replenishing Bottles, 1-quart, per pair	* 13.25
Kodak Chemical Replenishing Bottles, 2-quart, per pair	* 20.25
Kodak Chemical Replenishing Bottles, 4-quart, per pair	* 22.25

\***Kodak Chemical Meter Conversion Kit (Bleach Solution)**

\***Kodak Chemical Meter Conversion Kit (Non-Bleach Solution)**

For converting static head chemical metering systems to the new-style replenishing flowmeters with float-bobbin indicators. One kit should be ordered for each chemical solution replenished to the processor.

\*Kodak Chemical Meter Conversion Kit (Bleach Solution), K-1495 \*\$98.50

\*Kodak Chemical Meter Conversion Kit (Non-Bleach Solution), K-1505 \*\$98.50

\***Kodak Speed-Up Kit** (for Kodak Continuous Color Print Processor, Model 3R). For 85 F processing. Part No. 450296. \*\$1,800.00

†**Kodak Thermostatic Mixing Valve Unit**—complete water-mixing valve unit for providing a constant temperature mix of tempered water unaffected by minor variations in pressure and temperatures of hot and cold water supplies. Capacity 4 to 20 gallons per minute, with supply pressure of 45 pounds per square inch. Includes dial thermometer, ¾-inch shut-off valve, two ¾-inch check stops, and fittings. \*\$97.50

†**Kodak Precision Dial Thermometer, Model 2**—Range, 50 to 100 F. Has 7-foot corrosion-proof capillary with stainless steel bulb to fit into 3/4-inch NPT pipe line. Can be used with any paper or film processor in which the solution is recirculated ..... \*\$165.00

†**Kodak Precise-Temp Control, Model 40A**—For controlling temperature within very close limits of any solution held in a jacketed or unjacketed processing tank or sink. Includes hermetically sealed cooling unit, immersion heater, close-differential thermostat, recirculating pump, and stainless steel heat exchanger. Illustration shows Seven-Day Timer installed. Timer must be ordered separately. 115-volt, 50-60-cycle ac. .... \*\$995.00

†**Kodak Seven-Day Timer, Model 40** (for Kodak Precise-Temp Control)—An automatic seven-day clock timer to be used with the Kodak Precise-Temp Control, Model 40A. It can also be used with other electrical equipment, will turn the power on and off as desired, eliminating start-up delay after overnight or week-end shutdown. 115-volt ac. 60-cycle ..... \*\$40.00  
50-cycle ..... \* 40.00

†**Kodak Sump Attachment, Model 40A** (for Kodak Precise-Temp Control)—This device is needed to automatically purge the air from tank jackets when the Kodak Precise-Temp Control is used to control temperatures of jacketed solution tanks, such as the developer tanks of the Kodak Continuous Paper Processors. Not required when the chemical solution is circulated through the Precise-Temp Control. Not necessary for sink operation. .... \*\$44.00

†**Kodak Chemical Storage Tank (Stainless Steel)** 4 1/2-gallon—Cylindrical tank, 8 1/4-inch diameter, 21 inches high, about 4 1/2-gallon capacity, with two smooth nipple openings (3/8-inch O.D.) at bottom and near top. Originally used for four-reel processing; now available for general utility use ..... \*\$15.00

**Kodak Chemical Storage Tank (Tenite Polyethylene)**, 7-gallon, with spigot—For the mixing, storing, and dispensing of all photographic chemicals. Designed for shelf use. Supplied with floating lid, dust cover, and spigot. The brim capacity is 7 gallons, the 5-gallon level being indicated by an embossed line on the front of the tank. .... \*\$26.00

†**Kodak Chemical Storage Tanks (Tenite Polyethylene)**. Without fittings. 14-gallon (approximately 14 1/4 inches inside diameter, 20 inches high). Includes cover. .... \*\$40.00

Additional covers can be obtained from Apparatus Parts Service. 14-gallon—Part No. 761051.

†**Kodak Chemical Storage Tanks (Translucent Polyethylene)**. Without fittings. 30-gallon (approximately 18 1/2 inches inside diameter, 29 inches high). Includes cover. .... \*\$42.50

55-gallon (approximately 22 1/2 inches inside diameter, 36 inches high). Includes cover. .... \*\$47.50

Additional covers can be obtained from Apparatus Parts Service. 30-gallon—Part No. 761052. 55-gallon—Part No. 761053.

†**Kodak Floating Lids** for Kodak Chemical Storage Tanks—Made from Tenite Polyethylene.

For Kodak Chemical Storage Tank, 14-gallon. .... \*\$5.50  
For Kodak Chemical Storage Tank, 30-gallon. .... \* 6.00  
For Kodak Chemical Storage Tank, 55-gallon. .... \* 6.00  
(Floating lids will fit stainless steel and polyethylene tanks.)

†**Kodak 1/2-inch Fitting** (for Kodak Chemical Storage Tanks, Tenite Polyethylene). Easily installed in side or bottom of tank. Provides female NPT connection. .... \*\$2.80

†**Kodak 3/4-inch Fitting** (for Kodak Chemical Storage Tanks, Tenite Polyethylene). .... \*\$2.80

†**Kodak 1/2-inch Strainer** (for Kodak Chemical Storage Tank, Tenite Polyethylene)—Can be readily fitted into the 1/2-inch Fitting listed above. .... \*\$3.50

†**Kodak 3/4-inch Strainer** (for Kodak Chemical Storage Tank, Tenite Polyethylene)—Can be readily fitted into the 3/4-inch Fitting listed above. .... \*\$3.50

\***Replenishment 3-Valve Bracket Assembly, Kit D-1360**—Attaches to chemical metering bracket of those Kodak Model 4 processors which use three chemical solutions, such as Models 4A and 4D-P. Includes PVC quick-fill valves and all fittings necessary for the processor end of the chemical replenishment system. Facilitates installation and is a convenience for operation of the processor ..... \*\$165.00

\***Replenishment 6-Valve Bracket Assembly, Kit D-1370**—Similar to above except that it attaches to the chemical metering system bracket of the Model 4C and 4C-2 Processors. It also can be installed on the wall adjacent to the Model 4C-3 Processor. .... \*\$315.00

\***Gravity Feed Chemical System Kit D-1340**—Includes all necessary fittings to convey one chemical solution from an overhead Chemical Storage Tank (listed in col. 1) to the Replenishment Valve Bracket Assembly. Sufficient Kits should be ordered for 3 or 6 chemical solutions, depending on model of processor. Does not include storage tank or tubing (see below) ..... \*\$41.50

\***Pressure Feed Chemical System Kit D-1330**—Includes one pump and all necessary fittings to convey one chemical solution direct from a floor-level Chemical Storage Tank (listed in col. 1) direct to the Replenishment Valve Bracket Assembly. Sufficient Kits should be ordered for 3 or 6 chemical solutions, depending on model of processor. Does not include storage tank or tubing (see below) ..... \*\$112.00

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

**\*Pressure-Gravity Feed Chemical System Kit D-1350**—Includes one pump and all necessary fittings to convey one chemical solution from a floor-level Chemical Storage Tank (listed in col. 1) to another tank mounted on an overhead platform, and from there to the Replenishment Valve Bracket Assembly. Sufficient Kits should be ordered for 3 or 6 chemical solutions, depending on model of processor. Does not include mixing and storage tanks or tubing (see below). **\*\$135.00**

**\*Chemical Solution Replenishment Tubing (for Kodak Processors)**  
—An ideal flexible tubing for conveying solutions from Chemical Storage Tanks to Replenishment Valve Bracket Assemblies. Made from an inert black plastic material, 5/8-inch inside diameter with 1/8-inch wall. Will not transmit light through dark walls. Sold in 50-foot and 100-foot lengths only.  
50-foot length, Part No. 761785 **\*\$17.50**  
100-foot length, Part No. 761784 **\* 30.00**

**TANKS, TRAYS, AND WASHING EQUIPMENT**

**Kodacraft Roll-Film Tank** — Loads and pours easily. Holds 16 ounces of solution. After loading, all processing can be done in a lighted room. Tank is made of durable, chip-proof Tenite. Included are film aprons for No. 620-120 and 127 films. Solutions can be changed without opening tank. **\*\$3.25**

**Kodacraft Miniature Roll-Film Tank** —Permits simultaneous development of two rolls of No. 135 film or No. 828 film. After loading, all developing operations can be safely carried on in a fully lighted room. The two identical aprons (supplied) will accommodate either 20- or 36-exposure No. 135 film, as well as No. 828 film. Solution can be changed without opening the tank. **\*\$3.25**

**Kodak Day-Load Tank**—For daylight loading and processing of 35mm black-and-white or color film in 20- or 36-exposure magazines. Easy to load and use. Reel is perforated for easy drying. Tank holds 16 ounces of solution. Made of sturdy corrosion-proof plastic and stainless steel. Easy-to-follow instructions. **\*\$14.75**

**Kodak Hard Rubber Tanks**—For processing 8x10-inch and smaller negatives. Also used for sheet and roll paper (see page 55). 4x5. 1/2 gallon, accommodates six 4x5-inch or smaller Kodak Film and Plate Developing Hangers No. 4A, or eight Kodak Sheet Film Developing Hangers No. 6. Without lid. **\*\$3.95**

5x7. 1 gallon, accommodates eight 4 3/4 x 6 1/2- or 5x7-inch Kodak Film and Plate Hangers. Without lid. **5.00**  
8x10. 3 1/2 gallons, accommodates twelve 8x10- or twenty 5x7-inch Kodak Film and Plate Hangers. Without lid. **11.50**

**Floating Lids**—For use with the Kodak Hard Rubber Tanks. Retards oxidizing of chemicals in tank.  
For Kodak Hard Rubber Tank 4x5. **\*\$1.25**  
For Kodak Hard Rubber Tank 5x7. **1.50**  
For Kodak Hard Rubber Tank 8x10. **2.50**

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

**\*Kodak Developer Recirculating System** (for Kodak Hard Rubber Tank, 8x10), Kit No. 845. For processing Kodak Ektachrome Paper in the Kodak Processing Basket **\*\$107.00**

**Kodak Water Distributor** (for Kodak Hard Rubber Tank, 8x10)—A simple plastic tube with holding clip. Provides water distribution for best washing action of film and paper when processing in the Kodak Hard Rubber Tank, 8x10. **\*\$6.50**

†**Kodak Intermittent Gaseous Burst Valve, Model 90B**—For supplying a controlled gaseous burst intermittently for agitation of any photographic process as desired. Both frequency and duration of gas burst can be adjusted. Includes one solenoid-operated valve and a bypass assembly to maintain constant pressure. 115-volt, 50-60-cycle ac. **\*\$170.00**

\*Spare Solenoid Valve Assembly for Kodak Intermittent Gaseous Burst Valve, Part No. 761552. **\$21.60**

†**Kodak Gas Distributor** (for Kodak Hard Rubber Tank, 8x10)—For distributing gas or air evenly throughout the interior of a 3 1/2-gallon tank for purposes of agitation during the processing of film or paper, either black and white or color. Consists of a grid-type structure which approximately covers the entire area of the tank bottom. **\*\$57.50**

Clips for attaching Kodak Gas Distributor to Kodak Processing Basket are available separately from Apparatus Parts Service Department.

\*Upper Clip, Part No. 151214 (2 required) **\$1.25**

\*Lower Clip, Part No. 151215 (1 required) **1.50**

†**Kodak Processing Basket** (for Kodak Ektachrome or Kodak Ektacolor Professional Paper in sheets)—Made from screen mesh, formed around a stainless steel frame in such a way that 15 compartments are provided. Basket is designed for processing 8x10-inch paper. Two sheets are placed back to back providing a production rate of 30 sheets per cycle. Stainless steel cover is furnished. Clips also included for attaching Kodak Gas Distributor. **\*\$100.00**

**Kodak Duraflex Trays**—Made from a tough, durable, high-impact plastic, permanently inert against chemical corrosion. Packaged in an individual carton, except for 5x7, 8x10, and 10x12 which are packaged three per carton.

Kodak Duraflex Trays	Per Tray
5x 7 inches. Carton of 3	<b>\$ 1.60</b>
8x10 inches. Carton of 3	<b>2.75</b>
10x12 inches. Carton of 3	<b>4.20</b>
11x14 inches	<b>5.25</b>
16x20 inches	<b>10.70</b>
20x24 inches	<b>17.95</b>

**Kodak Duraflex 5-Inch and 6-Inch Deep Trays** (illustrated above)—Ideal for fixing and washing baths when a large number of prints are being processed. Molded of the same rigid material as regular Kodak Duraflex Trays. Packaged in an individual carton.

Kodak Duraflex 5-Inch Deep Tray  
11x14 inches **\$13.80**

Kodak Duraflex 6-Inch Deep Trays  
16x20 inches **25.65**  
20x24 inches **32.45**  
22x28 inches **39.85**

**Kodak Automatic Tray Siphon**—Converts any ordinary tray into an efficient print washer. Water flowing into the tray at the top keeps the prints in motion and separated. Has faucet connector and three feet of  $\frac{3}{8}$ -inch rubber tubing. Strongly made of molded gray Tenite plastic. No moving parts to wear out—will give years of service.

..... \$6.95

**PROCESSING AIDS AND SUPPLIES**

**Kodak Darkroom Aprons**—Made of tough, moistureproof Vinylite. Drip cuff gives added protection to shoes and clothing. Medium, approximately 30x35 inches.

..... \$3.50

Large, approximately 36x45 inches. .... 4.50

**Kodak Cotton Gloves**—Extremely lightweight, lintless gloves for darkroom wear when handling negatives. Available in two sizes.

Small, per package of 10 pairs. .... \$2.90

Medium, per package of 10 pairs. .... 2.90

**Kodak Combination Funnel**—Made in two Tenite polyethylene sections which can be used as single units or in combination to provide three sizes of funnels. The larger section of the funnel has an intake diameter of 5 inches and a spout diameter of 2 inches. The spout diameter of the smaller section is  $\frac{1}{2}$  inch. Carton of 6.

Per Funnel. .... \$1.10

**Kodak Darkroom Graduate**—Glass graduate with pouring lip. Markings in glass show avoirdupois measure. Strong, well made. Available in 32-ounce size.

..... Each \$2.15

**Kodak Stirring Paddle**—Convenient for handling prints in a tray or for stirring solutions. Flared top of handle can be used to crush small particles of chemicals. Paddle is 10 inches long. Made of strong Tenite plastic.

..... Per Paddle \$4.40

**Kodak Darkroom Thermometer**<sup>4</sup>—Gives temperature readings from -10 to 120 F in two-degree increments. Length, 5 $\frac{3}{4}$  inches.

..... Each \$8.80

**Kodak Tank and Tray Thermometer**—Has a pivoted spring clip on the back that will hold it in either tank or tray. Scale readings are from 30 to 140 F in two-degree increments. Has Centigrade scale also. Fluid used is readily visible in subdued light.

Each ..... \$1.75

**Kodak Stirring Rod Thermometer**<sup>4</sup>—Useful for both mixing solutions and determining their temperatures. One end is flattened for easier softening of chemicals. Length, 9 $\frac{1}{4}$  inches. Temperature range, 40 to 140 F in two-degree increments. .... \$3.25

<sup>4</sup>Supplied with F scale unless otherwise specified. Also available with Centigrade scale.

**Kodak Color Thermometer**<sup>4</sup>—Specially designed for use in processing Kodak Ektachrome Film and in other color processing. Accurate to one-half degree at the critical temperatures required in color processing.

..... Each \$3.75

**Kodak Process Thermometer, Type 2**<sup>4</sup>—Accurate to one-quarter degree, for a working range of from 67 to 87 F, and to  $\pm \frac{1}{2}$  F over the rest of the scale from 55 to 125 F. Recommended for all processing (particularly color) that requires extremely accurate temperature control.

..... \$12.00

<sup>4</sup>Supplied with F scale unless otherwise specified. Also available with Centigrade scale.

**Kodak Perfectemp Dial Thermometer**—Multipurpose, accurate processing thermometer with easy-to-read, 3-inch, nonparallax, unbreakable, sealed dial. Range, 50 F to 100 F externally calibrated. Includes clip and lugs for tank or tray processing, and  $\frac{1}{2}$ -inch NPT thread for piping installations. 9-inch stem.

..... \*\$32.75

**Kodak Timer (with Tilting Base)**—Precisely times darkroom or other work, covering all intervals up to sixty minutes. Dependable spring-wound movement. Has both minute and second hands which can be reset to zero. Switch permits stopping timer and then restarting it without resetting the hands. Adjusts to any angle. Easy-read-dial. Can be used on bench or attached to wall.

..... \$11.95

**Kodak Seven-Day Recording Thermometer, Model 1**—Narrow-range (65-120 F), highly accurate thermometer for reading and recording temperatures of a processing solution in any automatic or manual processing equipment. Equipped with  $\frac{3}{4}$ -inch stainless steel threaded adapter and 8-foot capillary tube. Year's supply of 7-day charts and ink included.

..... \*\$190.00

\*Set of 52 Charts. Part No. 859894 ..... 7.50

\* $\frac{1}{2}$ -oz bottle of red ink. Part No. 859895 ..... 1.50

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

## ENLARGING EQUIPMENT

†**Kodak Infrared Cut-Off Filter, No. 301** (for Kodak Elipton Enlarger), 1¼-inch diameter—For infrared cut-off during exposure of Kodak Ektachrome Paper. Will fit either the 100mm or the 135mm lens. . . . . \*\$33.50

**Kodak Enlarging Ektar Lens, 90mm (3½-inch) f/4.5**—For negatives up to 2¼x3¼ inches—Listed on page 30.

†**Kodak Photoelectric Exposure Control, Model D-2** (for Kodak Elipton Color Enlarger)—Provides automatic exposure control for making enlargements on Kodak Ektachrome Paper and black-and-white paper from all photofinishing sizes of transparencies and negatives. 115-volt, 50-60-cycle ac. . . . . c \*\$150.00

\***Kodak Adapter Cable** (for Kodak Photoelectric Exposure Control, Model D-2). Part No. 760995. . . . . c \*\$15.50

**Diffusing Disk 2** (for Kodak Auto-Focus Enlargers)—Used to produce soft focus results from sharp negatives. . . . . \*\$19.50

†**Kodak Colour Enlarger, Model 1**—Makes 5x7, 8x10, and 11x14 color enlargements from all sizes of photofinishing negatives up to and including 8-exposure 620. Unit includes an "integrating box" to mix and diffuse the light source to supply a high level of illumination from a 300-watt lamp, a system of sliding filters provide continuously adjustable color balance, color-control box, Galvanometer, and six glassless negative holders.

Enlarger is wall-mounted for use over a roll paper holder. For use with sheet paper, it will be necessary to order an Easel Base Assembly Kit, K-1165.

The standard 90mm Lens supplied gives a sufficient magnification to make 8x10 enlargements from 35mm negatives. For 11x14 enlargements, a 3-inch (75mm) Enlarging Ektar Lens must be ordered separately. 115-volt, 50-60-cycle ac. . . . . c \*\$800.00

**Kodak Enlarging Ektar Lens, 3-inch (75mm) f/4.5**—For negatives up to 2¼x2¼ to give the required magnification range to make 11x14 enlargements

\***Enlarging Lens Board** (for 3-inch Kodak Enlarging Ektar Lens). Part No. HE-24089. . . . . \*\$2.50

\***Easel Base Assembly Kit, K-1165** (for Kodak Colour Enlarger, Model 1)—For mounting the Kodak Colour Enlarger for use with Kodak Ektachrome Paper in sheets. . . . . \*\$216.00

†**Kodak Master Roll Paper Holder, Model 11-K**—For rapid production of enlargements in roll form up to maximum size of 11x14 inches with a maximum paper width of 11 inches. The paper is advanced on a flat printing surface under a wall-mounted or table-mounted enlarger. Available accessories are the Kodak Pencil Marker, Model 6, and Kodak Print-Cutting Pencil Marker Bracket, Type MRH (for Kodak Master Roll Paper Holder) (not included). 115-volt, 50-60-cycle ac. \*\$3,375.00

†**Kodak Reel-Process Drying Attachment** (for Kodak Roll Paper Dryer-Glazer, Model C-2)—For drying and ferrotyping Kodak Ektachrome 1583 and Ektachrome Papers which have been processed in Kodak Processing Reels. The Kodak Reel-Process Drying Attachment has a drying and ferrotyping capacity of 12 reels of 3½-inch-wide paper, or approximately

700 prints per hour. Kodak Recirculating Assembly for Reel Drying as shown in illustration not included. . . . . \*\$100.00

\***Kodak Recirculating Assembly for Reel Drying**—Provides a constant source of water to the spray header to insure proper rewetting of paper prior to ferrotyping. 115-volt, 50-60-cycle ac. Kit No. 761292. . . . . \*\$155.00

†**Kodak Cam-Action Wind-Up Reel**—Clamps to cardboard cores to accommodate various widths of processed paper coming off Roll Paper Dryers. The reel consists of a pair of plastic flanges equipped with self-locking mechanisms. \*\$33.50

\*Note: It is possible to obtain from Apparatus Parts Service the old-style reel with synthane flanges, while the limited quantity is available. Some customers prefer this style for use with wide double-weight paper. Part No. 01232-57. \*\$43.50

†**Kodak Pressure Ferrotyper, Model 1-M**—A compact, table-top device for ferrotyping rolls of dry Kodak Ektachrome Paper which have been previously processed and matte-dried on conventional processing and drying equipment. Provides a highly glazed

surface, free of edge lift. Utilizes Kodak Cam-Action Wind-Up Reels for winding up the finished rolls. Includes a 7-inch heated, chrome-plated drum, pressure roller, and two steamers. Capacity: 3 strands of 3½-inch paper, or various combinations of paper widths totaling up to 12 inches, speed 5 fpm. 230-volt, 60-cycle, single-phase ac. . . . . \*\$2,850.00  
50-cycle (Model 1-L) . . . . . \* 2,895.00

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

## CUTTING EQUIPMENT

†**Kodak Universal Pick-Up Assembly Unit** (for Kodak Roll Paper Cutters)—One Pick-Up Assembly is supplied with each 22E Cutter for print cutting. This additional unit is supplied for order-sorting purposes. . . . . \*\$100.00

†**Kodak Stop-Jog Switch, Model 22E**—An attachment for Kodak Roll Paper Cutters, Models 20E, 21E, and 22E, permitting quick, positive adjustment of the Universal Pick-Up Assembly before any prints are cut. For installation of 20E Cutters, it will be necessary to obtain a replacement paper guide from Apparatus Parts Service. c \*\$40.00

†**Kodak Photoelectric Pick-Up Unit, Model E** (for Kodak Roll Paper Cutters)—Can be substituted on the 22E or 30E Cutter in place of the Universal Pick-Up Assembly Units. A small mark or spot on either the face or the back of print margin actuates the cutter photoelectrically. Requires one of the two illuminators listed below . . . . . \*\$195.00

†**Kodak Transmission Illuminator, Model E** (for Kodak Photoelectric Pick-Up Unit, Model E)—For illuminating a mark or spot on the back of the paper (by transmitted light through paper). . . . . \*\$44.00

†**Kodak Reflection Illuminator, Model E** (for Kodak Photoelectric Pick-Up Unit, Model E)—For illuminating a mark or spot on the front (emulsion side) of the paper (by reflected light). . . . . \*\$24.00

†**Kodak Roll Paper Spindle Assembly** (for Kodak Roll Paper Cutter, Models 20E, 21E, and 22E) . . . . . \*\$120.00

†**Kodak Paper-Cutting Die Assembly, Deckle Edge, 5-inch**—For all widths of paper up to 5 inches . . . . . \*\$225.00

†**Kodak Paper-Cutting Die Assembly, Straight Edge, 5-inch**—For all widths of paper up to 5 inches . . . . . \*\$225.00

†**Kodak Master Roll Paper Cutter, Model 12-K**—A new automatic cutter for roll paper up to 12 inches wide. The cut is initiated by a conductive graphite mark on back of print or from an exposed spot in border. Cutter is supplied with supply spindle, complete electronic unit including photoelectric pre-amplifier, sturdy straight edge cutting die, and print

hopper. Plug-in pick-up unit is ordered separately (see below) n \*\$1,900.00

†**Kodak Conductive Pick-Up Unit, Model 12** (for Kodak Master Roll Paper Cutter, Model 12-K)—For sensing graphite marks on back of paper strand . . . . . \*\$165.00

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

†**Kodak Photoelectric Pick-Up Unit, Model 12** (for Kodak Master Roll Paper Cutter, Model 12-K)—For sensing exposed spots on face of paper strand by reflected light . . . . . \*\$165.00

†**Kodak Transmission Illuminator, Model 12** (for Kodak Master Roll Paper Cutter, Model 12-K)—An attachment for the Photoelectric Pick-Up Unit to illuminate a mark or spot on the back of paper by transmitted light through paper . . . . . \*\$50.00

†**Kodak Roll Film-Paper Cutter, Model 2**—A manually actuated cutter designed for table-top operation to cut either film strips or roll paper up to 3½ inches wide. Includes nylon plush protector strip to prevent negative scratching. 115-volt, 50-60-cycle ac. . . . . \*\$550.00

†**Kodak Roll Paper Spindle** (for Kodak Roll Film-Paper Cutter, Model 2)—Positions the roll of paper during cutting operation . . . . . \*\$45.00

†**Kodak Automatic Film Cutter, Model 4-K**—An improved high-speed automatic film cutter for cutting of color or black-and-white film strips up to 3½ inches wide into individual negatives or into groups of 2, 3, or 4 frames. The cutter is actuated by the discharge of a high-voltage, low-current circuit through small holes pierced between frames by the Film Perforator Attachment. Film Perforator Attachment and Needle Assemblies must be ordered separately. 115-volt, 50-60-cycle ac. . . . . \*\$2,500.00

Conversion of Kodak Automatic Film Cutter, Model 3, to Model 4-K. Does not include other reconditioning work. Cutter should be shipped, prepaid, to Eastman Kodak Co., Apparatus Service Dept, Rochester 4, N. Y. Price F.O.B. Rochester . . . . . \$200.00

†**Kodak Film Perforator Attachment, Model 3** (for Kodak Roll Paper Printers)—This attachment automatically pierces a small hole between each frame in the film strip during printing operations. The unit includes only one S-S Needle Assembly (see below). One needle assembly is required for each negative holder used in the printer . . . . . \*\$95.00

\***Kodak S-S Needle Assembly** (for Kodak Film Perforator Attachment)—Part No. K-1135. For installation on Type III, IV or 5S Printer negative holders which take roll film strips in a side-to-side travel . . . . . c \*\$4.20

\***Kodak F-B Needle Assembly** (for Kodak Film Perforator Attachment)—Part No. K-1145. Same as above except for negative holders with front-to-back film travel . . . . . \*\$4.20

\***Kodak Needle Assembly Mounting Kit K-1235** (for 135-828 Negative Strip Holder Kit). Uses S-S Needle Assembly . . . . . \*\$4.80

†**Kodak Superslide Film Cutter-Tacker, Model 1-K**—For die-cutting and heat-tacking 1 $\frac{1}{8}$ -inch-square transparencies from 127 film strips. The film is easily advanced by a manual rotating knob through the motor-driven die. Then the edge of the transparency frame is tacked to the edge of a prestripped mount. The operator then folds the mount and places it into a mounting press. A new mount automatically ejected from the hopper is then placed in position to receive the next frame. 115-volt, 50-60-cycle ac. **\*\$1,225.00**

## PRINT SORTING EQUIPMENT

†**Kodak Automatic Reset Counter, Model 2**—Designed to be electrically connected to and cycled by the Kodak Electronic Unit, Model C-2, attached to the Kodak Roll Paper Cutter, Models 20E, 21E, and 22E. It counts the prints in each order and resets itself when switch is depressed, starting the cutter on the next order. 115-volt, 50-60-cycle ac. **\*\$106.00**

†**Kodak Print Sorting Table, Model 2**—This sorting table is equipped with two separately driven belts, each of which is cycled through a Kodak Roll Paper Cutter, Models 20E, 21E, and 22E. Includes two illuminated areas for viewing strips of negatives. Rolls of processed prints are loaded on accessory supply spindles and fed through cutters on the moving belt. Supply spindles or 5-inch Paper Reel

Cradles, Model ST, should be ordered separately for wind-up cutting. 115-volt, 50-60-cycle ac. **\*\$1,250.00**

†**Kodak Supply Spindle Table** (for Kodak Print Sorting Table, Model 2)—Provides support for two supply spindle assemblies holding rolls of processed prints **\*\$33.00**

## DRYING SUPPLIES AND EQUIPMENT

**Kodak Photo Blotter Roll**—Provides an efficient means of drying semi-matte or matte-surface prints. Corrugated backing allows free circulation of air for more rapid, uniform drying. Size—6 feet long and 11 $\frac{1}{2}$  inches wide. Capacity—eighty 2 $\frac{1}{2}$ x3 $\frac{1}{2}$ -inch prints or equivalent. **\*\$3.95**

**Kodak Blotting Paper**—Extra-heavy 120-pound paper. Highly absorbent and chemically pure. Sheets 19x24 inches.

Pkg of 10 sheets. **\$ 2.95**  
 Pkg of 125 sheets. **24.50**  
 Per Roll  
 10 feet, 24 inches wide. Pkg of 5 rolls. Per roll **2.50**

**Muslin-Faced Blotters**—A lintless blotter for use with some professional-type print dryers. Available in separate sheets or rolls. Sheets 19x24 inches for Kodak Professional Print Dryer.

Pkg of 10 sheets. **\$ 9.50**  
 Pkg of 50 sheets. **45.00**  
 Set of 50 Drying Units for Kodak Professional Print Dryer, each unit consisting of Muslin-Faced Blotter, plain blotter, corrugated board, and separator. **75.00**  
 Dryer Rolls for Majestic Print Dryers

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

No. 1—11-inch diameter, for No. 2, 4, and 5; also as outer roll in No. 1 Dryer. **8.75**  
 Muslin-Faced Blotters 9 feet 2 inches x 24 inches for Majestic Print Dryer. For Dryer Rolls No. 1 and 2. **4.95**  
 Rolls 24 inches wide, per linear foot†. **.60**  
 †Minimum order — 10 feet.

**Kodak Photo Chamois**—For removing surplus water and sediment from negatives. Specially treated surface. 11x13 $\frac{1}{2}$  inches. Each **\$1.30**

**Kodak Rubber Squeegee**—Quickly removes superfluous water from flat surfaces. Square-edged, 10-inch blade is made of soft rubber permanently vulcanized into handle. Ideal for use in ferrotyping and for making prints by the Kodak Dye Transfer Process. **\$8.50**

**Kodak Master Print Rollers**—Large, professional-type rollers. Light weight for easy handling. Rust-resistant construction. Rubber roller surfaces precision-ground to close tolerances for uniform contact over entire print area. 12-inch. **\$24.00**  
 17-inch. **29.50**

**Kodak Ferrotyp Plate Polish**—Used to restore the original brilliance and smoothness of ferrotyp plates. Available in 8-ounce bottle. **\$1.00**

**Kodak Print Straightener, Model G**—Provides a means of removing the face curl of prints by carrying them through a steam vapor from a tank of hot water under an adjustable straightening roller. Water is electrically heated, using immersion-type heaters. Will accept single- or double-weight prints up to 14 inches wide. Straightener is 11 inches high, 17 inches long, 21 inches wide, and weighs 34 pounds with water pan empty. Operates on 115-volt 60-cycle ac only. **\$595.00**

## PRINTING AND DEVELOPING SUPPLIES

### GLASS AND SHEETING

#### Kodak Fine Ground Glass—

Sizes	Approximate Thickness	No. Sheets in Pkg	Per Package
4x5 inches	.060 inch	12	\$ 2.40

	Pkg of 6 11x14 inches
.003 inch Clear	\$1.36
.005 inch Clear	1.68
.0075 inch Clear	2.04
.0075 inch Matte	2.41

**Kodak Diffusion Sheets**

	Pkg of 12 8x10 inches	Pkg of 12 11x14 inches	Pkg of 12 20 x 24 inches
.003 inch	\$1.78	\$3.36	\$10.40

**Kodak Lamp Diffusion Sheets**

	Pkg of 6 24x24 inches
.0075 inch	\$7.85

**No. 5 Diffusing Disk** (for Eastman Projection Printer No. 2)—For use with Kodak Projection Ektanon Lens, 10-inch f/4.5. **\$31.25**

†**Kodak Color Print Laminating Sheet**—Specifically designed for the lamination of Kodak Ektacolor Paper and Kodak Ektachrome Paper. Available in the 5 7/8 x 6 1/8-inch size to fit many standard laminating presses for the lamination of two passes simultaneously.

Size	Thickness	Pkg of 500
5 7/8 x 6 1/8 inch	.015 inch	\$23.15

**HANGERS, RACKS, AND CLIPS**

**Kodak Film and Plate Developing Hangers No. 4A**—For tank development of sheet films or plates. Channel type. Consists of a frame of four perforated channels for rapid draining and uniform development. Top channel hinged for easy loading.

3 1/4 x 4 1/4.	Each \$2.75
4x5.	Each 3.00
5x7.	Each 3.25
8x10.	Each 3.75

**Kodak Sheet Film Developing Hangers No. 5**—Designed for tank development of small sheet films (2 1/4 x 3 1/4 inches). Channel type. Clip is provided at top of frame to hold the film. Crossbar at top supports frame. 2 1/4 x 3 1/4 inches. Each **\$3.75**

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

**Kodak Sheet Film Developing Hanger No. 6**—A versatile 2-clip hanger for tank development of sheet films and film packs. Stainless steel. Clips positioned on bar so that they will accept negatives of any size from 2 1/4 x 3 1/4 to 4x5 inches. **Each \$2.00**

**Kodak Multiple Film Hangers**—For processing various sizes of professional sheet film simultaneously. For color or black-and-white film. Used in 3 1/2-gallon size processing tanks. 4x5 Holds 4 films. **\$9.00**  
5x7 Holds 2 films. **6.00**

**Kodak Developing Hanger Rack No. 40**—Consists of a metal cage with the top notched so that hangers rest at points equally separated. Rack fits into the 8x10-inch Kodak Hard Rubber Tank and provides for the use of the Kodak Gas Distributor. It is designed to insure even distribution of gas and uniform agitation. Holds fourteen 8x10- or nineteen 5x7-inch films or plates in Kodak Film and Plate Developing Hanger No. 4A. **\$10.00**

**Kodak Hanger Separators** for Kodak Developing Hanger Rack No. 40—When positioned on each end of the hanger rack, these separators prevent hangers from swinging during development and also maintain an even spacing between hangers. For use with Kodak Film and Plate Developing Hanger No. 4A, 8x10, and with Kodak Multiple Film Hangers. Set of 2 **\$2.95**

†**Kodak Processing Rack** (for Nikor Roll Film Reels in 3 1/2-gallon Tanks)—For small-volume processing of color or black-and-white film, using Nikor Roll-Film Reels. The racks are constructed of stainless steel that will fit in 8x10 Kodak Hard Rubber Tanks (3 1/2-gallon capacity). Open construction permits maximum efficiency in processing solution, re-exposure, and water circulation. **\*\$48.50**

**Kodak Flexo Film Clip**—Made of corrosion-resistant stainless steel for easier use and longer life. Clip grips the film securely without perforating it and opens wide for easy loading. Jaws have a short bite which will not intrude on the picture area. The unique, rugged, one-piece construction allows the clip to drain quickly for drying.

Per Clip **\$ .40**

**Kodak Color Film Clip**—Designed for attachment to hanger frames in custom-built sheet film processing equipment. Spring-actuated jaws have teeth which grip the film tightly without puncturing it. Stainless steel. Pkg of 10. **\$3.95**

## AUTOMATIC EQUIPMENT FOR FILM PROCESSING

†**Kodak Versamat Film Processor, Model 11A-M**—For rapid, automatic, and controlled processing and drying of 4x5 through 11x14 black-and-white sheet films. With available accessories, listed below, accommodates continuous lengths of 16mm through 9½-inch-wide roll film. Stainless-steel construction. Automatic chemical replenishment and temperature control of solutions (at least 4 gallons per minute, at 45-pounds-per-square-inch pressure required with the maximum temperature of the cold water supply of 78 F). Capacity 2 to 25 feet per minute. Average dry-to-dry cycle 6 minutes. Processor supplied complete with two 30-gallon polyethylene chemical replenishment tanks with covers, floating lids, and necessary tubing to install at any convenient place within 20 feet of the processor.

120-208-volt, 60-cycle ac—3 phase, 4-wire service . . . . . \*\$16,500.00

Note: With some internal rewiring, the processor can be used with single-phase, 3-wire, 120-240-volt service. However, for 3-phase, 3-wire, 220-240-volt service, it will be necessary to order a transformer kit listed below.

\***Kodak Transformer Kit, Part No. 457202** (for Kodak Versamat Film Processor) . . . . . \*\$267.60

†**Kodak Versamat Film Processor, Model 11A-L**—208-volt, 50-cycle ac—3-phase, 4-wire service . . . . . \*\$16,500.00

†**Kodak Versamat Skip Rack Crossover, Model 11**—This device allows a processing tank to be by-passed, while retaining the self-threading transport capability. Required when processing certain films through solutions primarily intended for other film types . . . . . \*\$525.00

†**Kodak Versamat Roll Feed Adapter, Model 11**—An adjustable feed stand for one or more film rolls. . . . . \*\$1,150.00

†**Kodak Versamat Roll Take-Up Adapter, Model 11**—An adjustable take-up unit for one or more film rolls. Includes five take-up reels and a supply of paper cores for 16mm, 35mm, 70mm, and 90mm film. Cores for other roll film sizes are available on special order . . . . . \*\$975.00

Illustration shows Roll Feed Adapter and Take-Up Adapter installed on the Processor.

## DUST AND STATIC ELIMINATING EQUIPMENT

By removing static electricity and dust on negatives and transparencies before printing and enlarging operations, the quality of the resulting prints is greatly improved and production time is saved.

In cutting roll film and roll paper, static elimination helps to prevent negatives and prints from sticking together and aids in handling, stacking, and sorting operations.

†Supplied from Rochester only.

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

**Kodak Static Eliminator Power Unit, Model A2-K**—The basic power source which will handle up to three separate inductors in different combinations, at a maximum distance of 12 feet from the power unit. 115-volt, 50-60-cycle ac. . . . . \*\$59.00

**Kodak 2-inch Brush** (for Kodak Static Eliminator Power Units)—The standard Kodak 2-inch Camel's-Hair Brush, supplied complete with inductor and cable, to plug into Power Unit. . . . . \*\$16.50

**Kodak 2-inch Brush With Air Valve** (for Kodak Static Eliminator Power Units)—Similar to the brush described above, except that it includes an air-supply hose and finger-operated valve, for plants that have compressed air lines available. . . . . \*\$54.00

**Kodak Dust Removal Unit**—A special device, designed primarily for use with printers and enlargers for removing dust and static from roll film strips, negatives, transparencies, filters, etc. Supplied with frame and three brushes (top and bottom). Does not include Blower and Hose Assembly or 4-inch Inductor. . . . . \*\$72.00

**Kodak Blower and Hose Assembly, Model 1** (for Kodak Dust Removal Unit)—This consists of a centrifugal blower with a length of flexible hose to connect it to the Dust Removal Unit. 115-volt, 50-60-cycle ac. . . . . \*\$45.00

**Kodak 4-inch Inductor** (for Kodak Static Eliminator Power Unit)—This Inductor will fit into the Dust Removal Unit and will plug into the Power Unit. It can be used also on film and paper cutters to eliminate static charges on cut negatives or prints. Small simple bracket included. . . . . \*\$38.00

**Kodak 18-inch Inductor** (for Kodak Static Eliminator Power Unit)—Supplied principally for removing static from wide papers from a Kodak Roll Paper Dryer, Model A, or Kodak Roll Paper Dryer-Glazer, Model C-2, or for attaching to the Kodak 10-inch Automatic Roll Paper Cutter, Model 30E. Plugs directly into the Power Unit. Unit cannot be combined with other inductors on a single Power Unit. Bracket included. . . . . \*\$47.00

**Kodak 10-inch Dust and Static Removal Unit, Model A2-K**—Designed to remove dust and electrostatic charges from negatives, filters, and other nonsensitized photographic material up to 8x10 inches in size. The power unit is an integral part of this unit. An additional connection on the power unit permits the use of a Kodak 2-inch Brush or a Kodak 2-inch Brush with Air Valve. 115-volt, 50-60-cycle ac. . . . . \*\$177.50

**Kodak 3-Foot Adapter Cable** (for Kodak Static Eliminator Power Units)—To attach the connectors to the Power Unit. Does not include 1-way connector or grounding wire. . . . . \*\$1.65

**Kodak 9-Foot Adapter Cable** (for Kodak Static Eliminator Power Units)—9-Foot Cable eliminates necessity of combining multiples of the standard 3-foot adapter cables. Includes 1-way connector and a grounding wire. .... **\*\$11.25**

**Kodak 1-Way Connector** (for Kodak Static Eliminator Power Units)—Single coupling-type connector for attaching two adapter cables or one adapter cable and a brush or inductor unit end to end. .... **\*\$1.25**

**Kodak 3-Way Connector** (for Kodak Static Eliminator Power Units)—Permits two brushes or 4-inch inductors to operate from one Power Unit. Must be used with adapter cable. .... **\*\$3.65**

**Kodak 4-Way Connector** (for Kodak Static Eliminator Power Units)—Permits three brushes or 4-inch inductors to operate from one Power Unit. Must be used with adapter cable. .... **\*\$3.65**

## SAFELIGHT LAMPS AND SAFELIGHT FILTERS

**Brownie Darkroom Lamp Kit, Model B**—Made of molded plastic. Includes lamp socket cap with 7-watt bulb, Series 0 cup (yellow) for general printing and enlarging, and Series 3 cup (green) for panchromatic film. .... **\$1.95**

**Kodak Darkroom Lamp**—Can be used in a wall socket or from a drop-cord socket. Accepts a circular 5½-inch filter (not included). Sturdy metal construction with pebbled gray finish. Filter is held in position in the lamp base by a molded lock ring. Uses a 15-watt bulb (not included). .... **\$5.50**

**Kodak 2-Way Safelamp**—Can be used in either a wall or a ceiling socket. Swivels on its socket to provide direct or indirect illumination. Whenever light in two directions is desired, a second safelight filter of the same series can be used by replacing a removable metal panel with the appropriate filter.

With 15-watt bulb. Without Safelight Filter. .... **\$6.15**  
 With 7½-watt bulb and Kodak Safelight Filter, Wratten Series 6B, 3¼x4¾. .... **9.40**

**Kodak Adjustable Safelight Lamp**—With its double-swiveled shank and bracket, it can be attached to a wall, shelf, or bench, and swung or tipped as needed. Supplied with bracket and 6-foot cord. Holds a 5½-inch circular filter (not included). Uses a 15-watt bulb (not included). .... **\$11.50**

**Kodak Utility Safelight Lamp, Model C**—Suspends from ceiling for direct or indirect illumination—chain, 6-foot cord, and switch are provided. Holds a 10x12-inch safelight filter (not supplied). A 25-watt bulb (not supplied) is normally used. If it is desired to install the lamp in other than a hanging position, a special bracket is available. .... **\$17.50**

Bracket for Kodak Utility Safelight Lamp, Model C. .... **3.95**

## SAFELIGHT FILTERS

**Kodak Safelight Filters**—Scientifically designed for safelight lamps. Provide maximum safe illumination plus protection from white light when using sensitized materials.

**Wratten Series OA** (greenish yellow)—For all contact and enlarging papers (except Kodak Polycontrast, Polycontrast Rapid, PolyLure, and Kodagraph).

**Wratten Series OC** (light amber)—For Kodak Polycontrast, Polycontrast Rapid, PolyLure, and high-speed enlarging papers; also for Kodak Electrocardiograph 553 Paper.

**Wratten Series 00** (yellow)—For flash exposure technique with Kodak Magenta Contact Screens. Available only in 5½-inch diameter.

**Wratten Series 1** (red)—For blue-sensitive films and plates. Kodagraph Projection Paper, and Kodak Electrocardiograph 797 Paper.

**Wratten Series 1A** (light red)—For Kodalith materials, Kodagraph Contact Papers, Kodak Electrocardiograph Film.

**Wratten Series 2** (dark red)—For orthochromatic films and plates, Kodagraph Fast Projection Paper, and green-sensitive film for photoradiography.

**Wratten Series 3** (dark green)—For panchromatic films and plates.

**Wratten Series 6B** (amber)—For x-ray film, blue-sensitive film for photoradiography, Kodak Electrocardiograph 553 Paper, and Kodak Electrocardiograph Film.

**Wratten Series 7** (green)—For infrared films and plates.

**Wratten Series 8** (dark yellow)—For Eastman Color Print Film, Type 5382. Not available in 2⅝-inch diameter.

**Wratten Series 10** (dark amber)—For Kodak Ektacolor Paper, Type 1583; Kodak Ektacolor Professional Paper; Kodak Ektacolor Print Film; Kodak Panalure Paper. Not available in 2⅝-inch diameter.

\*All Series Safelight Filters of same size (except Series 7) may be assorted.

These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

**Kodak Achromatic Magnifier, 5X**—Indispensable in color work. Has 5-power color-corrected lens in aluminum mount supported by translucent plastic skirt providing shadowless illumination of area being inspected. Focusing movement is one-half inch. . . . . **\$13.50**

**Kodak Illuminator, Model 1A**—Can be used for viewing all sizes of negatives or positives up to and including 8x10 inches. Uses 60-watt lamp (not supplied). For 110- to 125-volt ac or dc. With 6-foot cord and plug. . . . . **\$17.50**

**Kodak DeLuxe Transparency Illuminator, Model 2**—A carefully controlled light source which provides the correct light intensity and spectral distribution necessary for the critical analysis of color transparencies. Uses 75-watt lamp (not supplied). For 110- to 125-volt ac or dc. With 6-foot cord and plug. . . . . **\$33.00**

**Kodak Transparency Viewing Mask** (for Kodak Illuminator, Model 1A, and Kodak DeLuxe Transparency Illuminator, Model 2). Attaches to front of illuminator to hold transparency and eliminate stray light. Available for 2¼x2¼, 5x7, and 8x10 transparencies (specify size when ordering). Each . . . . . **\$1.00**

**Kodak Sleeves**—For protecting both color transparencies and black-and-white sheet-film negatives from scratches and finger marks.

- ‡2¼x2¼ inches, package of 100. . . . . **\$1.85**
- 2¼x3¼ inches, package of 100. . . . . **1.90**

- 5x7 inches, package of 100. . . . . **3.75**
- 8x10 inches, package of 100. . . . . **6.85**
- 11x14 inches, package of 100. . . . . **10.45**

‡For roll-film transparencies.

°Also for 6.5x9-cm sheet-film and 2¼x3¼-inch roll-film transparencies.

**Kodak Register Punch**—For use with Kodak Register Boards. Perforates Kodak Matrix Film and re-perforates Kodak Pan Matrix Film. Perforations fit both large and small register boards. Attachment holes permit secure mounting of film punch to a support board or table. . . . . **\$72.00**

**Kodak Register Printing Frame**—Simplifies mask alignment in color separation work. Accepts an 11x14-inch transparency. Permits masking techniques in complete darkness. For film or glass masks. . . . . **\$53.00**

**Kodak Vacuum Register Board**—Holds sheets of Kodak Pan Matrix Film flat by means of registration pins which fit the holes in the Pan Matrix Film. Also used when transferring dyes. Requires a simple water aspirator or vacuum pump to produce the vacuum. Available in two sizes. Small, for prints 5x7 to 10x12 inches. . . . . **\$ 95.00**

Large, for prints 11x14 to 16x20 inches. . . . . **125.00**

**Kodak Transfer Register Board**—For registering matrix films or transferring dye images. Available in two sizes. Small, for prints 5x7 to 10x12 inches. . . . . **\$ 75.00**

Large, for prints 11x14 to 16x20 inches. . . . . **103.00**

†**Kodachrome Film Splicing Tape** (1-inch, Heat Sensitive)—Thermoplastic splicing tape for use in splicing together individual rolls of Kodachrome Roll Film prior to feeding the film into continuous processing equipment. Available in 200-foot rolls, 1 inch wide. . . . . **\$3.60**

**Kodak Machine Test Leader Film (For Kodachrome Film Processing)**—For use in checking the operation of Kodachrome Film processing equipment for scratches, abrasions and other physical defects. 16mm x 400 ft (on type T core. 16mm perforations one side only.) [923-80] **\$5.70**  
35mm x 400 ft (on type U core. Kodak standard perforations.) . . . . . **10.55**

†**Kodak Machine Test Leader Film (For Kodacolor Film Processing)**—For use in checking the operation of Kodacolor Film processing equipment for scratches, abrasions and other physical defects. Same width as 620 roll film. 2.423 in. x 200 ft . . . . . **\$10.80**

†**Kodachrome Film Verifier, Model 1**—An optical instrument used for visual inspection of unprocessed Kodachrome Film to differentiate the new Kodachrome II Film (Process K-12) from Kodachrome Film (Process K-11). Particularly useful in identifying 8mm and 16mm films from which the perforated emulsion identification has been removed. Not recommended for use with films other than Kodachrome . . . . . **\*\$275.00**

†Supplied from Rochester only.

\*This item may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

## GREETING CARD SUPPLIES

### Kodak Contact Thank-You Card Masks, each \$3.95

For standard 4¼x5½-inch cards by contact printing. Each of the 2 designs is available in the sizes listed below. Supplied from Rochester only.

Design	Sentiment
No. 101 Flowers	Many Thanks For Your Gift
No. 102 Gift and Orchid	Sincere Thanks For Your Lovely Gift

### Kodak Contact Birth-Announcement Masks, each \$3.95

For standard 4¼x5½-inch cards by contact printing. Each of the 2 designs is available in the sizes listed below. Supplied from Rochester only.

Design	Sentiment	Opening	Film Size
No. 103 Flowers	Hi! I'm a New Arrival	2x3 in.	620/120
No. 104 Stork and Cradle	Just Arrived	2x3 in.	620/120
		2x2 in.	Reflex 620/120

H—Horizontal negative opening; V—Vertical negative opening;  
S—Square negative opening

### No. 693 Kodak Christmas Folder Assortment \$40.50

Contains 18 packages of 25 folders with envelopes. For each of the 6 designs there are packages with horizontal, vertical, and square openings. All folders (except No. 339) measure 4¼x5½ inches. No. 339 measures 3¾x8½ inches. Includes Kodak Christmas Folder Selector Card No. 693A (displays 1 sample card of each of 6 designs).

No.	Design	Sentiment
339-H, 339-V, 339-S	Christmas trees (Contemporary)	Season's Greetings
340-H, 340-V, 340-S	House in gold and red	Merry Christmas From Our House To Your House
341-H, 341-V, 341-S	Manger with Angels	Silent Night, Holy Night
342-H, 342-V, 342-S	Stagecoach	Merry Christmas
358-H, 358-V, 358-S	Packages and Santa Claus	Merry Christmas
359-H, 359-V, 359-S	Gold with white snowflakes	Holiday Greetings

### Kodak Christmas Folders

Package of 25 of 1 design and picture-size opening, with envelopes \$2.50

Carton of 250 of 1 design and picture-size opening, without envelopes \$23.50

340-H, 340-V, 340-S; 341-H, 341-V, 341-S; 342-H, 342-V, 342-S.  
H—2¾x4¼-inch Horizontal opening; V—2¾x4¼-inch Vertical opening;  
S—2¾x2¾-inch Square opening.

### Kodak Contemporary Christmas Folders

Package of 25 of 1 design and picture-size opening, with envelopes \$2.50

Carton of 250 of 1 design and picture-size opening, without envelopes \$23.50

339-H, 339-V, 339-S.

H—2¾x4¼-inch Horizontal opening; V—2¾x4¼-inch Vertical opening;  
S—2¾x2¾-inch Square opening.

### Kodak French-Fold Christmas Folders

Package of 25 of 1 design and picture-size opening, with envelopes \$1.75

Carton of 250 of 1 design and picture-size opening, without envelopes \$16.45

358-H, 358-V, 358-S; 359-H, 359-V, 359-S.

H—2¾x4¼-inch Horizontal opening; V—2¾x4¼-inch Vertical opening;  
S—2¾x2¾-inch Square opening.

### Kodak 2R French-Fold Christmas Folders

Package of 25 of 1 design and picture-size opening, with envelopes \$1.75

Carton of 250 of 1 design and picture-size opening, without envelopes \$16.45

No.	Design	Sentiment
602-2R-H, 602-2R-V	Gold with white snowflakes	Holiday Greetings
358-2R-H, 358-2R-V	Packages and Santa Claus	Merry Christmas

H—2x3-inch Horizontal opening; V—2x3-inch Vertical opening.

### Kodak 2R Deluxe Christmas Folders

Package of 25 of 1 design and picture-size opening, with envelopes \$2.50

Carton of 250 of 1 design and picture-size opening, without envelopes \$23.50

No.	Design	Sentiment
601-2R-H, 601-2R-V	House in gold and red	Merry Christmas From Our House To Your House

H—2x3-inch Horizontal opening; V—2x3-inch Vertical opening.

### Kodak Contact Christmas Greeting Masks, each \$3.30

For standard 4¼x5½-inch cards by contact printing. Each of the 2 designs is available in the sizes listed below. Supplied from Rochester only.

No.	Design	Sentiment	Opening	Film Size
No. 69	Pine Cones	Season's Greetings	2x3 in.	620/120
No. 70	Angel with Stars	Peace on Earth	2x3 in.	620/120
			2x2 in.	Reflex 620/120
			5H 22x34mm (7/8x1 3/8 in.)	135/828

H—Horizontal negative opening; V—Vertical negative opening;  
S—Square negative opening

### No. 152 Kodak Standard Greeting Card Envelopes—(for 4¼x5½-inch cards and folders).

1-25 packages of 500, per package \$3.70  
26-99 packages of 500, per package 2.95  
100 or more packages of 500, per package 2.50

### No. 155 Kodak Contemporary Folder Envelopes—(for 3¾x8½-inch folders).

1-25 packages of 500, per package \$6.85  
26-99 packages of 500, per package 5.45  
100 or more packages of 500, per package 4.65

# Kodak cameras and projectors

## KODAK RETINA AUTOMATIC III CAMERA§

Compact, modern styling, fully automatic exposure control, yet manual operation when desired, coupled rangefinder, and shutter speeds to 1/500 are the outstanding features of this camera.

The fully automatic exposure control, by a single release lever, operates with any one of the preselected shutter speeds from 1/30 up to 1/500. If manual operation is desired, both the lens setting and shutter speeds may be selected. During automatic and manual operation, a convenient, easy-to-read scale indicates the f-setting at which a picture will be made. The exposure control can be set for films from ASA 10-1250. The threaded lens mount accepts 32mm diameter lens attachments.

Coincident-type rangefinder combined with the viewfinder affords accurate focusing. Single-stroke film ad-

vance, double-exposure prevention with provision for taking multiple exposures, easy film loading with film-load indicator, depth-of-field scale, European-type flash connector post, cable release and tripod sockets, and accessory clip are well-known Retina features incorporated in this camera. Retina-Xenar 45mm f/2.8 coated lens. The Compur shutter with speeds from 1/30 to 1/500 and B is synchronized for all flash bulbs and electronic flash. Projected-frame-type viewfinder has parallax marking. A positive "Stop" signal appears in the finder, and the release is locked when there is insufficient or too much light for proper exposure. Many specialized photo aids.

Dimensions, 4 7/8 x 3 1/2 x 2 3/4 inches. Weight, approximately 21 ounces.

**Iden No. 269**

**\$139.50**

## KODAK RETINA REFLEX III CAMERA, f/2.8§ KODAK RETINA REFLEX III CAMERA, f/1.9§

This popular-priced, single-lens reflex camera features parallax-free pentaprism viewing at maximum lens opening. It focuses either by a full-area ground glass or a split-image rangefinder. An extra-large eyepiece makes viewing convenient.

Indicators in the viewfinder and on top of the camera provide an automatic dual-exposure control for films from ASA 3 to 3200. Other features include automatic depth-of-field indicator, single-stroke film advance, and double-exposure prevention with provision for multiple exposures.

Standard 50mm lens—either f/2.8 Retina Xenar (4 elements) or f/1.9 Retina Xenon (6 elements)—has a bayonet mount, and is interchangeable with wide-angle and telephoto lenses (28, 35, 85, 135, 200mm). All lenses couple with automatic features of the camera.

Shutter speeds from 1 to 1/500 second, B, and self-timer are provided by a Synchro-Compur Shutter which synchronizes all types of flash. Changing shutter speeds makes compensating changes in lens openings. The shutter release, conveniently located on the front of the camera, is equipped with a safety lock which prevents unintentional exposures.

The Kodak Retina Reflex III Camera provides the basis for a complete photographic system which greatly extends the camera's picturetaking scope. For photo aids see pages A-6 and A-8 through A-10.

Approximate dimensions and weight:  
Reflex III f/2.8—5 1/4 x 2 3/4 x 3 7/8 inches; 30 ounces.  
Reflex III f/1.9—5 1/4 x 3 1/4 x 3 7/8 inches; 34 ounces.

**Iden No. 270** Kodak Retina Reflex III Camera, f/2.8 (with Retina Xenar Lens, 50mm f/2.8)

**\$229.50**

**Iden No. 271** Kodak Retina Reflex III Camera, f/1.9 (with Retina Xenon Lens, 50mm f/1.9)

**\$263.50**

## AUXILIARY EQUIPMENT FOR KODAK RETINA CAMERAS

**Kodak Retina Xenar Lens, 50mm f/2.8** (for Kodak Retina Reflex III, Reflex S, and IIIS Cameras)—Fast "standard" lens. 4 elements. Coated. Focusing range: 3 feet to "Inf." Automatic depth-of-field indication. Supplied in storage case.

**\$52.00**

**Kodak Retina Curtagon Lens, 28mm f/4** (for Kodak Retina Reflex III, Reflex S, and IIIS Cameras)—Extreme wide-angle lens. 7 elements. Coated. Focusing range: 3 feet to "Inf." Automatic depth-of-field indication. Built-in lens hood. Supplied in storage case.

**\$86.50**

**Kodak Retina Xenon Lens, 50mm f/1.9** (for Kodak Retina Reflex III, Reflex S, and IIIS Cameras)—Ultra-fast "standard" lens. 6 elements. Coated. Focusing range: 3 feet to "Inf." Automatic depth-of-field indication. Built-in lens hood. Supplied in storage case.

**\$87.50**

**Kodak Retina Curtagon Lens, 35mm f/2.8** (for Kodak Retina Reflex III, Reflex S, and IIIS Cameras)—Moderate wide-angle lens. 5 elements. Coated. Focusing range: 3 feet to "Inf." Automatic depth-of-field indication. Supplied in storage case.

**\$74.50**

**Kodak Retina Tele-Arton Lens, 85mm f/4** (for Kodak Retina Reflex III, Reflex S, and IIIS Cameras)—Medium telephoto lens. 5 elements. Coated. Focusing range: 6 feet to "Inf"; with Tele-Auxiliary Lens T 1/32: 6 feet to 3¼ feet. Automatic depth-of-field indication. Supplied in storage case. . . . . **\$78.50**

**Kodak Retina Tele-Xenar Lens, 135mm f/4** (for Kodak Retina Reflex III, Reflex S, and IIIS Cameras)—Long telephoto lens. 5 elements. Coated. Focusing range: 14 feet to "Inf"; with Tele-Auxiliary Lens T 11/60: 12¼ feet to 6½ feet; with Tele-Auxiliary Lens T 1/60: 6½ feet to 4¾ feet. Automatic depth-of-field indication. Supplied in storage case. . . . . **\$87.50**

**Kodak Retina Tele-Xenar 200mm f/4.8 Lens Kit** (for Kodak Retina Reflex III and Reflex S Cameras)—Extreme telephoto lens. 7 elements. Coated. Focusing range: 28 feet to "Inf." Automatic depth-of-field indication. Supplied in fitted leather case with lens hood and rear-mounting gelatin filters. . . . . **\$225.00**

**Kodak Retina 28 Optical Finder** (for Kodak Retina IIIS Camera)—Fits clip on top of camera. Shows field covered by 28mm lens. Supplied in leather case. . . . . **\$13.25**

**Kodak Retina Right-Angle Finder** (for Kodak Retina Automatic III, Retina IIIS, Reflex S, Reflex, IIIC, and, with adapter, Reflex III Cameras)—For low-angle views, copying, and similar subjects. Fits over the eyepiece of the camera. Supplied with adapter in leather case. . . . . **\$19.50**

**Kodak Retina Field Case, Model E** (for Kodak Retina Automatic III Camera)—Top-grain brown leather with reinforcements for added protection. Stitchless construction; chrome-finished metal trim; plush lined; removable front; adjustable neck strap. **Iden No. 269FC** . . . . . **\$12.00**

**Kodak Retina Field Case, Model F** (for Kodak Retina Reflex III, Reflex S, IIIS, f/2.8, and Reflex Cameras)—Similar to Kodak Retina Field Case, Model E. **Iden No. 270FC** . . . . . **\$14.50**

**Kodak Retina Field Case, Model G** (for Kodak Retina Reflex III, Reflex S, IIIS, f/1.9 Cameras)—Similar to Kodak Retina Field Case, Model E. Also accepts above cameras with 28mm, 35mm, 50mm f/2.8, or 85mm lens. **Iden No. 271FC** . . . . . **\$17.50**

**Kodak Retina Fitted Case, Model C**—Accommodates any three Retina interchangeable lenses 28-135mm, and miscellaneous photo aids such as filters, supplementary lenses, finder, lens hood. Top-grain brown leather; chrome-finished metal trim; plush lined; adjustable shoulder strap. **Iden No. 229C** . . . . . **\$34.50**

**Kodak Retina Flashholder Bracket** (for Kodak Retina Automatic III, Retina IIIS, Reflex III, Reflex S, Reflex, IIIC, and IIc Cameras)—Accepts Kodak Flashholders with Kodalite fittings, such as Kodalite, Supermite, Super-M 40, and Generator Type 1. . . . . **\$3.95**

**Kodak Retina Camera Platform, Model C** (for Kodak Retina Automatic III, Retina IIIS, Reflex S, Reflex III, Reflex, IIIC, and IIc Cameras)—Fits bottom of camera providing tripod socket in center of camera base. . . . . **\$5.75**

**Kodak Ektamite and other Flashholders—**

**Kodak Retina Close-Up Lens Set, Type N/32** (for Kodak Retina Reflex III and Reflex S, f/2.8, and Reflex Cameras)—Contains NI and NII auxiliary lenses, 32mm diameter. Used singly or in combination covers picturetaking range from 38¼ to 12 inches film-to-subject distance. . . . . **\$10.00**

**Kodak Retina Close-Up Lens Set, Type N/60** (for Kodak Retina Reflex III and Reflex S Cameras, f/1.9)—Contains NI and NII auxiliary lenses, 60mm diameter, for the Kodak Retina Xenon Lens, 50mm f/1.9. Covers picturetaking range 38¼ to 12 inches film-to-subject distance. . . . . **\$21.00**

**Kodak Retina Close-Up Lens Set, Type R** (for Kodak Retina Reflex III and Reflex S f/2.8, and Reflex Cameras)—Contains R1:4.5, R1:3, and R1:2 auxiliary lenses (32mm diameter). Used singly or in combination covers picturetaking range from 11¾ to 5¼ inches film-to-subject distance. . . . . **\$22.50**

**Kodak Retina Close Range and View Finder Kit, Model C** (for Kodak Retina Automatic III and Retinette 1A Cameras)—Parallax-correcting viewfinder combined with superimposed-image type rangefinder. Set of two type N/32 close-up lenses and fitted leather case. Picturetaking range from 37¾ to 12¼ inches film-to-subject distance. . . . . **\$36.50**

**Kodak Retina Close-Up Kit, Model C** (for Kodak Retina Automatic III, Retina IIIS f/2.8, IIIC, and IIc Cameras)—Measures close distances (11¾ to 6¼ inches). Includes field guide holder, 4 pairs of field guides, and 3 close-up lenses. Fields covered: Maximum—3¾x5¾ inches; minimum—1¼x1¾ inches (Automatic III, about 2x3 inches). Kodak Retina Camera Platform, Model C, required. . . . . **\$42.50**

**Kodak Retina 1:1 Copying Kit** (for Kodak Retina Reflex III, Reflex S, and IIIS, f/2.8 Cameras)—For making natural-size (1:1) pictures and duplicates of 2x2-inch slides (with up to 24x36mm openings). Includes stand with field indicator, Kodak Retina Close-Up Lens R1:2/32mm, and holder with diffusion screen. . . . . **\$39.50**

**Kodak Retina Microscope Adapter Kit, Model D** (for Kodak Retina Automatic III, Retina IIIS, Reflex III, and Reflex S, f/2.8, Reflex, IIIC, and IIc Cameras)—For making photomicrographs. Fits nearly all microscopes. Includes microscope adapter, clamping ring, light value diaphragm locking ring, and lens mount extension. . . . . **\$62.50**

**Kodak Retina 35-50 Lens Hood, Bayonet Type** (for Kodak Retina IIIS, Reflex III, and Reflex S Cameras with 35mm or 50mm f/2.8 Lenses)—Fits bayonet surrounding 35mm and 50mm f/2.8 lenses. . . . . **\$2.50**

**Kodak Retina 45 Lens Hood** (for Kodak Retina Automatic III and Retinette 1A Cameras)—Slip-on type. Round. Black plastic with bright metal slip-on clamping ring. . . . . **\$2.50**

**Kodak Retina 135 Lens Hood** (for 135mm f/4 Lens)—Slip-on type. . . . . **\$2.50**

**Kodak Retina Lens Hood**—Slip-on type for 35mm f/4, 50mm f/1.9, and 80mm f/4 lenses, 60mm diameter. . . . . **\$2.95**

**Kodak Retina Tele-Auxiliary Lens, T I/32**—Coated. Screw-in type, 32mm diameter. Extends the focusing range of the 85mm f/4 Tele-Arton Lens from 6 feet to 3¼ feet . . . . . **\$6.50**

**Kodak Retina Tele-Auxiliary Lens, T I/60** Coated. Screw-in mount, 60mm diameter. Provides picturetaking range for 80mm f/4 lens component from 6 feet to 3½ feet and for 135mm f/4 lens from 6½ feet to 4¾ feet. . . . . **\$13.25**

**Kodak Retina Filter Compartment Case, Model B**—For three 32mm diameter filters, Kodak Retina Lens Hood, Bayonet Type (for 50mm lens) and Extension for it, Kodak Retina 35-50 Lens Hood, Bayonet Type and Extension for it, or Kodak Retina 45 Lens Hood. . . . . **\$4.25**

**Kodak Retina 8-Filter Pocket Case**—For four 32mm diameter filters for color films and four 32mm diameter filters for black-and-white films. . . . . **\$4.50**

**Kodak Retina Filters**  
Filters for both black-and-white and color films are in screw-in mounts.

**32mm size filters fit:**

- Schneider Reomar Lens, 45mm f/2.8
- Kodak Retina Xenar Lens, 45mm f/2.8
- Kodak Retina Xenar Lens, 50mm f/2.8
- Kodak Retina Curtagon Lens, 35mm f/2.8
- Kodak Retina Tele-Arton Lens, 85mm f/4
- Kodak Retina Xenon C Lenses, 50mm f/2.8 and f/2
- Kodak Retina Curtar Lens Component, 35mm f/5.6

**60mm size filters fit:**

- Kodak Retina Xenon Lens, 50mm f/1.9
- Kodak Retina Curtagon Lens, 28mm f/4
- Kodak Retina Tele-Xenar Lens, 135mm f/4
- Kodak Retina Curtar Lens Component, 35mm f/4
- Kodak Retina Longar Lens Component, 80mm f/4

**Filters for black-and-white films—**

- Kodak Filter, Yellow-Medium, FII (similar to Wratten K2) (Screw-in type, 32mm diameter.) . . . . . **\$ 4.50**
- Kodak Filter, Yellow-Medium, FII (similar to Wratten K2) (Screw-in type, 60mm diameter.) . . . . . **14.25**

## KODAK FILTER SYSTEM

**KODAK ADAPTER RING.** Used to fit filters to lenses not accepting filters directly. Supplied in two types—screw-in for specific lenses, slip-on for most other lenses. Supplied complete with double-thread retaining ring to hold filter or supplementary lens. Second filter or supplementary lens can be held in place by lens hood or by extra retaining ring. For listing of cameras fitted, see

booklet "A Guide to the Kodak Filter System."

**KODAK RETAINING RINGS.** Can be used with Kodak Adapter Rings mentioned above, or directly with Kodak cameras and lenses having threaded lens mounts in series sizes. A second filter or supplementary lens can be held in place by lens hood or camera adapter ring.

**KODAK LENS HOOD.** Shields lens from undesirable side light and inclement weather. Especially recommended when using filters or supplementary lenses. Can be attached to or can replace the retaining ring to hold filter in place.

**KODAK STEP-UP RING.** Allows using single set of lens attachments on two or more cameras of different lens mount diameters.

### SUPPLEMENTARY LENSES

**Kodak Portra Lenses.** Used either singly or in combination for dramatic close-ups. Permit taking pictures as close as 8 inches.

**Kodak Telek Lenses.** Used for telephoto effects with cameras with double-extension bellows or equivalent.

**KODAK RETINA LENS ATTACHMENTS.** See Recommended Auxiliary Equipment for Kodak Retina Cameras in Camera Section of this Price Catalog.

**KODAK FILTERS.** In series sizes, supplied permanently cemented between optical glass and sealed into protective metal rim. See film instructions or booklet "A Guide to the Kodak Filter System" for specific recommendations.

**Packaging.** Kodak Filters in Series 4 through 7 are supplied in a handy plastic case which fits easily into pocket or gadget bag. The case is transparent for quick identification of the filter and protects the filter from dust, dirt, or scratching.

**KODAK POLA-SCREEN AND VIEWER.** Used to darken skies and reduce reflections on glass, water, and other nonmetallic surfaces. Provides the only method of darkening blue skies in color photography without changing color of other objects.

The Kodak Pola-Screen is available in series sizes threaded to fit into adapter rings or cameras accepting series size filters directly. The viewer is attached to the Pola-Screen handle to predetermine visually the photographic results. Also available in 3½-inch size without viewer (Listed on page E-5).

**GELATIN FILTERS.** For laboratory, experimental, and professional color photography, Kodak Wratten Filters (including Light Balancing Filters) are usually used in gelatin film squares.

**KODAK GELATIN FILTER FRAME.** Made in 2-, 3-, and 4-inch square sizes to hold and protect gelatin filters. Shown in Gelatin Filter Frame Holder.

**KODAK GELATIN FILTER FRAME HOLDER.** Shown with Gelatin Filter Frame. Attached to camera or enlarger lens by means of the appropriate size of adapter ring (and step-up ring, if required). Series 6 size for use with 2-inch square, Series 8 for use with 3-inch square, and Series 9 for use with 4-inch square Gelatin Filter Frame or Wratten Filter in "B" glass.

**KODAK ADJUSTABLE FILTER HOLDER.** Securely attaches a 4-inch Wratten Filter in "B" glass or in a Kodak Gelatin Filter Frame to any lens barrel 2¾ to 3⅞ in. diameter.

	ADAPTER RING SIZES		Series 4 Filter Diameter 1 1/8 in.	Series 5 Filter Diameter 1 1/4 in.	Series 6 Filter Diameter 1 5/8 in.

### KODAK WRATTEN FILTERS AND KODAK COLOR COMPENSATING FILTERS

Kodak Wratten Filters are available in more than a hundred varieties. For technical information see the Data Book "Kodak Wratten Filters for Scientific and Technical Use."

Kodak filters are available in series sizes 4, 5, 6, 7, 8, and 9. In addition, Kodak filters are supplied as 2-, 3-, 4-, and 5-inch Gelatin Film Squares. These Gelatin Film Squares can be cut by the customer to fit specific equipment. Further, the Gelatin Film Filters are also supplied cemented between optical glass and listed in circles or squares of 2, 3, and 4 inches. The same filter can thus be used in a variety of applications to fit customer use.

**Filters Stocked in Sales Divisions.** Not all standard filters are stocked in our Sales Divisions in all sizes. Series size filters are normally stocked

Gelatin Film Squares are normally stocked in 2-, 3-, and 4-inch sizes. Additional filters are stocked as determined by the individual Sales Division.

**Special Order Filters.** In addition to the standard filters listed on this page and the special filters other Kodak filters are available on a special order basis. Information and prices on unlisted sizes, special individual filters, and lens attachments not listed in this Price Catalog will be furnished on request. Special order filters are not returnable for credit.

Orders for special order filters or filters not normally stocked in Regional Sales Divisions may be subject to delays in shipment.

### Conversion Filters For Color Films

- 80B (Kodak Photoflood Filter for Kodak Daylight Type Color Films)
- 80C (Kodak Photoflash Filter for Kodak Daylight Type Color Films)
- 85 (Kodak Daylight Filter for Kodak Type A Color Films)
- 85B (Kodak Daylight Filter for Kodak Type B Color Films)
- 85C (Kodak Daylight Filter for Kodak Type F Color Films)

**Kodak Light Balancing Filters**—These filters are used over a camera lens to change the color quality of the exposing light to obtain the proper color balance with color films. For example, the use of filters in the No. 82 (bluish) series is equivalent to raising the temperature of a tungsten source in steps of 100 K, giving the picture a "colder" appearance. Filters in the No. 81 (yellowish) series lower the color temperature in steps of about 100 K to give pictures a "warmer" appearance.

Yellowish	Bluish	Miscellaneous Filters
81	81C	87
81A	81D	88A
81B	81EF	89B
	82C	90 (Monochromatic Viewing Filter)

**Kodak Color Compensating Filters**—These filters change the over-all color balance of color results to compensate for possible deficiencies in lighting quality. They can be used singly or in combination for almost any desired correction. The density of each filter is indicated by the two numbers and the color by the final letter.

3½-inch. . . . . **\$35.00**

**Kodak Pola-Screen Holder, Model B**—A holder, including lens hood, which allows the use of a Pola-Screen and a filter at the same time. Pola-Screen Size—3½ inches. Lens Diameter Fitted—3 to 4½ inches. **\$55.00**

## AUXILIARY CAMERA EQUIPMENT AND SUPPLIES

**Kodak Flexiclamp**—Clamps still camera, movie camera, or Electric-Eye Remote Flash Unit firmly to a support, such as a chair or table. Takes the place of a tripod, yet is easily carried in gadget bag or pocket. Has two separate swivel connections with wing nuts for locking camera or flash unit in the desired position. Attaches to any flat or round surface up to 2 inches thick.

..... \$9.50

**Kodak Metal Cable Releases**—Stainless-steel wire-braided outer casing with a spiral-wound core. Flexible cable; will not stretch or kink in normal use. Has a universal tip which fits most cable-release sockets.

No. 5 (7 inches).

..... \$2.50

**Bulbs and Tubing**—Both bulbs and tubing are made from a blend of the best synthetic and natural rubbers. Will give years of service.

No. 5 Bulb only, without tubing (black).

..... \$1.50

Tubing only (black), 51 ft

..... 10.25

**Kodak Pola-Light, Model 2**—Provides effective control over all surface reflections in copying glossy prints; semi-matte prints; wrinkled, cracked, or broken prints; pencilled, inked, or colored drawings; oil paintings; and other pictures. Including Kodak Baffle with Pola-Screen and mounting bracket, electric cord, and switch.

..... \$90.00

Without stand.

Kodak Pola-Screen (unmounted) for Kodak Pola-Light.

..... 16.00

## KODAK 16mm MOVIE CAMERAS

### KODAK REFLEX SPECIAL CAMERA

Professional 16mm camera designed for versatility. Features 10X and 20X ground-glass focusing, variable shutter, three-lens turret. Spaced gate of unique design handles film more gently than gates of conventional design. Film transport system with ball pivot claw pull-down assures steadiness. Detachable motor. Variable-speed and single-frame motor drives also available.

**Equipment includes**—Kodak Cine Ekton lens, 25mm f/1.4 type "R" mount, 400-foot film chamber, synchronous motor drive, accessory brackets.

**Accessories include**—1200-foot Film Chamber, Kodak Magnetic Sound System, 8 other Kodak Cine Ekton lenses, compartment case.

Kodak Reflex Special Camera with Kodak Cine Ekton lens, 25mm, f/1.4, 400-foot Film Chamber, synchronous motor, carrying handle, accessory brackets . . . . . †\$1895

†Supplied from Rochester only.

### CINE-KODAK K-100 CAMERA

Mechanical and optical excellence with the capacity for precise effects. 100-foot, roll-loading camera. Variable speeds. New-type spring motor exposes up to 40 feet at a winding. Interchangeable telescopic viewfinders with individual eye-adjustment controls; added field of view around rectangle ideal for sports photography.

**Equipment includes**—Kodak Cine Ektar II Lens, 25mm f/1.9 or 25mm f/1.4 (L), and Cine-Kodak K-100 Viewfinder Lens, 25mm.

**Speeds**—16 through 64 frames per second and single frame. **Film Pull**—Single winding sufficient to expose 40 feet of film. **Film Capacity**—100-foot roll, 16mm. **Dimensions**—8 7/8 x 2 1/2 x 5 3/4 inches. **Weight**—5 1/2 pounds.

**Iden No. 97.** Cine-Kodak K-100 Camera with 25mm f/1.9 Lens in Type C Mount . . . . . \$380.00

**Iden No. 87.** Cine-Kodak K-100 Camera with 25mm f/1.4 Lens in Type S Mount with Type C Adapter . . . . . 470.00

Kodak Combination Lens Attachments for:  
25mm f/1.9 lens—Series 5 with Series 5 Screw-in Kodak Adapter Ring, No. 522.

25mm f/1.4 lens—Series 6 with Series 6 Screw-in Kodak Adapter Ring, No. 626.

### CINE-KODAK K-100 TURRET CAMERA

Turret holds any 3 Kodak Cine Ektar Lenses and corresponding individual telescopic viewfinders which automatically position with swing of the turret. New-type spring motor exposes up to 40 feet at a winding. Variable speeds. Choice of lenses—wide angle to telephoto.

**Equipment includes**—Kodak Cine Ektar II Lens, 25mm f/1.9 or 25mm f/1.4 (L), and Cine-Kodak K-100 Viewfinder Lens, 25mm.

**Speeds**—16 through 64 frames per second and single frame. **Film Pull**—Single winding sufficient to expose 40 feet of film. **Film Capacity**—100-foot roll, 16mm. **Dimensions**—8 7/8 x 2 1/2 x 5 3/4 inches. **Weight**—6 1/4 pounds.

**Iden No. 98.** Cine-Kodak K-100 Turret Camera with 25mm f/1.9 Lens in Type C Mount . . . . . \$450.00

**Iden No. 88.** Cine-Kodak K-100 Turret Camera with 25mm f/1.4 Lens in Type S Mount with Type C Adapter . . . . . 540.00

See Cine-Kodak K-100 Camera for lens attachments.  
(L) Lumenized lens.

### RECOMMENDED AUXILIARY EQUIPMENT FOR CINE-KODAK K-100 CAMERAS

**Cine-Kodak K-100 Field Case**—Combines practical protection with smart appearance and convenience. Camera is ready for instant use without removal from case.

**Iden No. 97/87FC** . . . . . \$21.00

**Kodak K-100 Compartment Case**—Accepts single-lens or Turret camera, additional equipment such as lenses, and film.

**Iden No. 89C** . . . . . \$59.50

**Cine-Kodak K-100 Hand Crank**—Makes possible varying exposure for adverse lighting conditions; and, because of its back-winding ability, can be used for lap dissolves.

. . . . . \$26.50

**Cine-Kodak K-100 Motor Drive Shaft**—Facilitates attaching electric motor drive. Drive shaft is made so that direct coupling of a standard 1800 rpm synchronous motor drives the camera at 24 frames per second.

Each . . . . . \$18.50

**Cine-Kodak K-100 Viewfinder Lenses**—These viewfinder lenses combine the sharpness and brightness of optical finders with the full-view advantage of sports-type finders. Quickly changeable. Available for a full complement of auxiliary picturetaking lenses.

## KODAK 16mm MOVIE PROJECTORS

### KODAK ANALYST MOVIE PROJECTOR

Designed for making detailed analyses of film subjects. Separate motors for film transport and for lamphouse blower. Governor-controlled 5 and 24 frame per second speeds — rheostat control for speeds between 5 and 24 frames per second. Remote reverse control for rapid change of film movement. Daylight screen permits easy projection viewing in lighted room. Lubricated for life. Attached reel arms with enclosed nylon gears.

**Equipment includes**—Kodak Projection Ektanar Lens, 2-inch f/1.6 (L); 750-watt lamp (ASA code DDB); 400-foot Kodak Movie Reel; instantaneous remote reversing switch; and integral translucent projection screen and mirror for viewing in daylight.

**Power Required**—105- to 125-volt dc or 25-60-cycle ac. **Illumination**—750-watt lamp; 1000-watt lamp can be used. **Film Capacity**—400 feet, 16mm. **Speeds**—5 to 24 frames per second. **Dimensions**—Length 12½ inches, width 10¼ inches, height 14¼ inches. **Weight**—25 pounds.

**Idea No. 199** ..... \$465.00\*

Cine-Kodak Bifocal Converter ..... \$35.00

### KODAK PAGEANT SOUND PROJECTOR, MODEL 8K5

For projection of sound or silent films. Single-switch control for amplifier, motor, and lamp. Tungsten-carbide-toothed film pulldown for long wear. Built-in, fully baffled 9-by-6-inch oval speaker in lift-off cover with 25-foot cord. Permanently attached folding reel arms. Permanently prelubricated. 10-foot power cord. Case has scuff-resistant, spatter-tone finish.

**Equipment includes**—Kodak Projection Ektanar Lens, 2-inch f/1.6 (L); 750-watt lamp (ASA code DDB); 1600-foot Kodak Movie Reel.

**Power Required**—105 to 125 volts, 60-cycle ac. **Audio Output**—8 watts. **Speaker**—9x6-inch oval. **Illumination**—750-watt lamp; 1200-watt lamp can be used. **Film Capacity**—2000 feet, 16mm. **Amplifier**—Printed circuit type. Input receptacle for Kodak Microphone, Model PA-6, or Kodak Phono Adapter, Model PP-3. **Frequency Response**—50 to 7000 cycles per second. **Dimensions**—Length 14½ inches; width 10¼ inches; height 13 inches. **Weight**—33 pounds.

**Idea No. 194** ..... \$550.00\*

Kodak Phono Adapter, Model PP-3 ..... 8.95

Kodak 35-foot Speaker Extension Cord, Type B ..... 8.95

Cine-Kodak Bifocal Converter ..... 35.00

### KODAK PAGEANT SOUND PROJECTOR, MAGNETIC-OPTICAL, MODEL MK5

In addition to the traditional quality of Pageant picture and optical sound reproduction, the MK5 records and plays back sound from magnetic tracks (either full-, half- or quarter-width) at either silent or sound speeds. Two separate volume controls, with individual "preselector" stops, permit the recording of background music as well as voice commentary and facilitate the proper change in volume level during periods of commentary. Corrections are easily made — rerecording automatically erases the previous recording. Tungsten-carbide-toothed film pulldown for long wear. Projector lubricated for life.

**Equipment includes**—Kodak Projection Ektanar Lens, 2-inch f/1.6 (L); 750-watt lamp (ASA code DDB); 1600-foot Kodak Movie Reel; Kodak Microphone, Model PA-4; 4-foot record player connector cord with clip-type connectors; practice film loop with full-width magnetic coating.

**Power Required**—105- to 125-volt, 60-cycle ac. **Audio Output**—10 watts. **Speaker**—11x6-inch oval in lift-off baffle cover. **Illumination**—750-watt lamp; 1200-watt lamp can be used. **Film Capacity**—2000 feet, 16mm. **Micro and Phono Inputs**—High impedance. **Magnetic Record—Playback Characteristics**—Conform to industry standards. **Dimensions**—Length 16¾ inches; width 10¾ inches; height 13 inches. **Weight**—39 pounds.

**Idea No. 290** ..... \$995.00\*

Kodak Protective Cover, No. 479 (Idea No. 479) ..... \$15.50

Kodak 35-foot Speaker Extension Cord, Type B ..... 8.95

Cine-Kodak Bifocal Converter ..... 35.00

(L) Lumenized lens.

## KODAK ZOOM 8 AUTOMATIC CAMERA

This fully automatic zoom camera features a full-focusing  $f/1.6$  lens. Lens can also be used in a fixed-focus position. Viewfinder zooms with lens, and signal telling when light is too dim for good picturetaking is visible in viewfinder. Type A Filter built in. Provision on top of finder for Kodak 8 Movie Light. Attractively styled with die-cast metal sides of gun-metal gray.

**Equipment includes**—Kodak Zoom Lens,  $f/1.6$ , 9mm to 25mm (L).

**Speed**—16 frames per second. **Film Pull**—Single winding will expose about 10 feet of film. **Film Capacity**—8mm roll, 25 feet (50 feet when processed). **Dimensions**— $9\frac{3}{4} \times 4\frac{1}{4} \times 2\frac{5}{8}$  inches. **Weight**— $2\frac{3}{4}$  pounds.

## KODAK ZOOM 8 REFLEX CAMERA, MODEL 2

Smooth, push-button zoom plus manual zoom control. Fully automatic lens setting plus meter-lock control. Camera features through-the-lens reflex viewing which shows the field exactly as it will be projected. Lens focuses from 4 feet to infinity for all focal lengths. Universal focus position marked on barrel. Insufficient-light indicator. Automatic footage reset. Easy loading.

**Equipment includes**—Kodak Zoom Ektanar Lens, 8.5 to 25mm  $f/1.6$  (L).

**Speed**—16 frames per second. **Film Pull**—Single winding sufficient to expose about 15 feet of film. **Film Capacity**—8mm roll, 25 feet (50 feet when processed). **Dimensions**— $8\frac{1}{2} \times 4\frac{7}{8} \times 3\frac{1}{2}$  inches. **Weight**— $3\frac{1}{4}$  pounds.

## KODAK ANALYST 8 PROJECTOR, MODEL A75

Deluxe, heavy-duty, 8mm, 400-foot, completely automatic threading projector for sports analysis, industry, and similar use. New ease of operation is provided by a 6-channel remote control unit on a 12-foot cord with controls for focusing, variable speed, and rapid change to forward, still, and reverse. Brilliant, sharp optical system uses 22mm  $f/1.0$  Ektar lens and low-voltage DKR projection lamp. The bright still is designed for extended

study of single frames made possible by a new dichroic lamp, safety shutter, and heat-absorbing filter. A 3-position voltage-accommodation switch plus a switch for bright and extra-bright showings provide added versatility and economy of operation. Self-contained in sturdy plywood with built-in screen in lift-off cover. Other features include quiet operation, high-speed rewind, wing-type geared elevation knob, room-light control, 10-foot power cord, 400-foot take-up reel, and permanent lubrication.

### KODAK SOUND 8 PROJECTOR (MODEL 1)

Features undistorted, natural reproduction of sound on 8mm magnetic-stripped film. Easy to thread, simple to record, erase, and rerecord. Provides a complete magnetic sound system. It can be operated at two forward speeds—16 frames per second for standard 8mm movies and 24 frames per second for playing back professionally recorded sound tracks. Lamp-saving switch has two positions—"Lamp normal" for editing purposes and "Lamp bright" for regular projection. It includes many of

the Showtime features, such as rapid rewind, still pictures, 400-foot film capacity, wide-screen lens, and brilliant light output, and can be used as a top-quality silent projector.

**Equipment Includes**—Kodak Projection Ektanar Lens, 3/4-inch f/1.6 (L), 150-watt, 21.5-volt lamp (ASA code DLG), microphone, phono connector cord, 400-foot Kodak Movie Reel, built-in speaker, and special (33 1/4) 12-inch record of background music and sound effects.

**Power Required**—105 to 125 volts, 60-cycle ac only. **Illumination**—150-watt lamp. **Film Capacity**—400 feet, 8mm. **Dimensions**—11x10 1/2 x 15 1/4 inches. **Weight**—30 pounds.

**Cine-Kodak Bifocal Converter (for Kodak Projection Ektanar or Ektanon Lens, 2-inch f/1.6)**

—When mounted on a Kodak Projection Ektanar or Ektanon Lens, 2-inch f/1.6, shortens the effective focal length to 1 1/8 inches or lengthens it to 2 1/2 inches, depending on which end of the converter is placed next to the basic lens. It fits all current Kodak 16mm silent and sound projectors ... and all of their predecessors fitted with the 2-inch f/1.6 lens: Sixteen-10, Sixteen-20, E and EE; Sound Kodascope Projectors, Models F, FS-10, FS-10N, FB, FB-25, and FB-40. .... **\$35.00**

**Kodak Phono Adapter, Model PP-3**—For Kodak Pageant Sound Projector, Models 1, 7K2, 7K4, and 8K5. When connected to a suitable turntable unit, makes possible the playing of phonograph records through the projector's sound system. .... **\$8.95**

(L) Lumenized lens.

**Kodak Microphone, Model PA-6**—For Kodak Pageant Sound Projector, Models 1, 7K2, 7K4, and 8K5. Satin-chrome, rectangular, crystal microphone. Has 8-foot shielded cable terminated in a three-prong plug. .... **\$17.50**

**Kodak 35-Foot Speaker Extension Cord, Type B**—For Kodak Pageant Sound Projectors. Complete with telephone-type connections. .... **\$8.95**

**Kodak Special Lubricating Oil**—Specially designed for Kodak equipment requiring lubrication. 1-ounce bottle. .... **\$ .75**

**KODAK MAGNETIC RECORDING AND PLAYBACK AIDS**

**Kodak Synchronous Motor Kit** (for Kodak Pageant Sound Projectors)—When coupled to a Kodak Pageant Sound Projector operates as a control device to maintain the operating speed of the projector at exactly 24 frames per second over a line voltage range of 105-125 volts 60-cycle ac. No modification of the internal mechanism of the projector is necessary. Kit consists of a 105-125-volt 60-cycle ac 1800 rpm synchronous motor, motor pulley, projector pulley, and timing belt. Supplied from Rochester only. .... **\$109.50**

**Kodak Synchronizing Brake Kit** (for Kodak Pageant Sound Projectors)—Enables the user to control the speed of the projector to a precise 24 frames per second using the stroboscopic pattern (furnished) in conjunction with a neon lamp, fluorescent lamp, or ordinary 15- or 25-watt tungsten lamp, operating on 60-cycle ac. Kit consists of a nylon spool and a braking strap with thumb-screw. After the Kit is attached to the projector, the desired speed is easily attained by adjusting the thumbscrew with resultant pressure on the spool. Supplied from Rochester only. .... **\$23.50**

**Kodak 2-Projector Synchronizing Kit** (for Kodak Pageant Sound Projectors)—Consists of two projector pulleys and a timing belt. Permits interlocking two projectors to run "in step." Supplied from Rochester only. .... **\$62.50**

**EDITING EQUIPMENT AND SUPPLIES**

**Kodak Presstape Movie Splicer** (8mm and 16mm)—Easy-to-use 8mm and 16mm dry splicer. Makes notched cuts for butt joints—thin and durable. Supplied with ten 8mm Presstapes and ten 16mm Presstapes. Iden No. 64 .... **\$7.50**

**Kodak Presstapes (8mm) No. 65 Merchandise Card** of 20 packages (20 per package) Per package of 20 .... **\$.50**

**Kodak Presstapes (16mm) No. 66 Box** of 20 packages (20 per package) Per package of 20 .... **\$.50**

**Kodak Presstape Editing Outfit** (8mm and 16mm)—Includes Kodak Movie Rewind and Kodak Presstape Movie Splicer. Iden No. 67 .... **\$12.95**

**Cine-Kodak Duo Splicer Outfit**—Complete with cement, containers, and applicators. Each .... **\$14.50**

**Kodak Movie Film Cleaner** (with Lubricant)—Helps to keep film ready for clear projection at all times. 4-ounce bottle .... **\$1.10**

**Kodak Film Cement**—Assures speedy, smooth, permanent splicing. 1/2-ounce bottle. .... **\$.70**  
2-ounce bottle. .... **1.05**  
16-ounce can. .... **1.95**  
1-gallon can. .... **8.95**

**Kodak Movie Reels and Film Cans**—Protect film from dust and curl. Can be marked for ready identification and neatly stored. Make possible long, uninterrupted showings. The 200- and 400-foot reels have the "easy-load" slot.

## SLIDE PROJECTORS

### KODAK CAROUSEL PROJECTOR, MODEL 550

**Design**—A round, 80-slide tray is positioned on top of the projector, and simple gravity feed drops the slides into projection position. This unique system offers jamproof operation, longer one-tray slide shows, and the advantage of continuous operation for display and advertising. Controls for automatic operation, slide changing, and focusing are provided at the projector. Full remote control of slide change and focus is afforded by a 12-foot remote control cord. The

rugged die-cast body, with carrying handle, is attractively styled in black with silver and red trim.

**Slide Tray**—The 80-slide tray accepts 2x2-inch cardboard or glass mounts (not over 1/10 inch thick). A removable retaining ring, which prevents slides from spilling, permits drop-in loading and rapid slide editing, even during projection. Trays are numbered for quick slide identification, and the tray box with index card is attractively styled for bookshelf storage.

**Operation**—An illuminated panel at the rear of the projector has controls for automatic slide changing at 5-, 10-, or 20-second intervals; forward and reverse slide changing; single slide selection; "High" and "Low" lamp

illumination; and separate lamp and motor operation. The remote control cord attaches here for remote focus control and forward and reverse slide changing. On the side of the projector are grouped controls for manual focus, elevation, and leveling. During projection, slides are preconditioned by warm air to prevent popping. The dark-screen interval between slides is less than one second.

**Optical System and Lamp**—Bright, sharp pictures are produced by a 500-watt lamp, efficient condenser system, and choice of 3-inch, 4-inch, 5-inch, 7-inch, or Zoom lenses. Maximum slide cooling is maintained by a quiet, powerful blower. The lamp, condenser lenses, and heat-absorbing glass are quickly accessible when the side cover plate is removed.

**Packaging**—Each projector is supplied in a separate container within the shipping carton for handy, dustproof storage.

**Power Required**—105- to 125-volt, 60-cycle ac only. **Dimensions**—13x 12x5½ inches. **Weight**—18 pounds. UL and CSA approved.

### KODAK CAROUSEL PROJECTOR, MODEL 570

This projector is especially designed for advertising and display applications which often require continuous, unattended operation of the projector, and separate control of the lamp. The Model 570 is identical to the Model 550 with the following additional features: A lamp safety switch in the air duct which automatically turns off the projection lamp if the blower should fail to operate, and a lamp circuit receptacle in the cord compartment to which may be attached an on-off cord for independent control of the lamp.

### KODAK CAROUSEL PROJECTOR, MODEL 550

With Kodak Carousel Slide Tray; title slide; 10-foot power cord; 12-foot remote control cord; 500-watt, 115-120-volt lamp (DFW).

## AUXILIARY EQUIPMENT—KODAK CAROUSEL PROJECTORS

**Kodak Carousel Slide Tray**—Accepts up to 80 2x2-inch slides. Numbers are clearly visible at all times for quick location of any slide. A retaining ring prevents slides from spilling, but when this ring is removed any slide can be edited in the tray, even during projection. Because of its unique round shape, a full Carousel Slide Tray can be used for continuous repeating slide shows

for commercial, advertising, or display purposes. Supplied in an attractive book-shelf-type storage box including an identification card and tray sticker.

**Idea No. 581** ..... \$2.95

**Kodak Carrying Case for Kodak Carousel Projector**—Will accept a projector without a tray. Made of gray, heavy-duty, simulated leather. Provides complete protection plus convenience and attractive appearance during transportation and storage.

**Idea No. 583C** ..... \$10.95

**Kodak Carrying Case for Kodak Carousel Slide Trays** (Illustrated above)—Has two compartments so that three trays may be carried or a lesser number plus extension cords, lenses, and other miscellaneous equipment. Made of gray, heavy-duty, simulated leather.

**Idea No. 582** ..... \$10.95

**Kodak Carousel Single Tray Case**—Permits owner to carry one slide tray with his projector. Can be carried separate from the projector, or with the slotted back extension locked over the projector case handle, as illustrated. Will accommodate one tray in box, or other miscellaneous equipment. Made of gray, heavy-duty, simulated leather.

**Idea No. B581C** ..... \$5.95

**Kodak Carousel Dust Cover**—Protects the projector from accumulating dust when stored on a projection stand. Made of clear polyethylene formed to fit over the projector with slide tray in place. Package of 5

**Idea No. B588C** ..... Each \$0.95

**Kodak Remote Extension Cord, 25-foot (for Kodak Carousel Projectors)**—Extends the range of the 12-foot remote control cord on the Carousel or Supermatic 500 Projectors so that a lecturer can operate his projector from a location near the screen. Any number of extension cords can be added to accommodate any projection distance.

**Idea No. 586** ..... \$4.25

**Kodak Carousel Programmer, Model 1**—Permits the recording and showing of synchronized slide-sound programs with any Kodak Carousel or Supermatic 500 Projector and most standard tape records. The Programmer is used as a central control unit coupling the projector to the recorder. A second Carousel Projector can also be operated from the Programmer if connected to the 5-wire socket. UL approved. Dimensions, 9 $\frac{1}{2}$  x 9 $\frac{1}{2}$  x 5 $\frac{1}{2}$  inches. Weight, 4 $\frac{1}{2}$  pounds. 105- to 125-volt, 60-cycle ac.

**Idea No. 590** ..... \$99.50

## FILING SUPPLIES

**Kodak Compartment File**—Has 12 compartments, each holding up to 20 Kodak Ready-Mounts or 11 2x2-inch thin-glass slides. Slides may be organized by occasions or other groups; then that particular compartment can be swung out, as shown, for easy access to that group of slides. With textured ivory-colored top and either teal green or cardinal red base and individual compartments. Shipping case contains 10 red, 10 green, or assortment of 5 red and 5 green. Unless otherwise specified, red supplied on orders for single files and assortment of 5 of each color on orders for case of 10.

**Idea No. 330R Kodak Compartment File (Red)** ..... \$4.25

**Idea No. 330G Kodak Compartment File (Green)** ..... 4.25

**Kodaslide Box**—Each of these shatterproof, Polyethylene boxes holds twenty or more Kodak Ready-Mounts. Especially handy for use in Kodak Ready-File. Also usable with Kodaslide Signet Projectors, Model 1 or Model A, as it can be used in place of the slide receiver.

..... \$0.85

**Kodak Ready-File**—Holds up to 188 Kodak Ready-Mounts, 82 2x2-inch thin-glass slides, 96 Kodak Stereo Ready-Mounts, or 6 Kodaslide Boxes with 20 or more slides in each box. Supplied in a counter display tray containing 6 Ready-Files—all cardinal red, all teal green, all beige, or 2 of each color. Unless otherwise specified, the case containing 2 of each color will be supplied.

**Idea No. 331R Case of 6 Kodak Ready-Files (Red)** ..... Each \$2.25

**Idea No. 331G Case of 6 Kodak Ready-Files (Green)** ..... Each 2.25

**Idea No. 331B Case of 6 Kodak Ready-Files (Beige)** ..... Each 2.25

**Kodak 400 File Box**—Provides an especially convenient method of filing and storing 2x2-inch slides. Supplied in red or green. Molded of durable Polystyrene with leather-grain finish on the front and back. It is styled like a book for library filing. Contains 16 Kodaslide Boxes for easy filing of slides by groups. Capacity—up to 400 Kodak Ready-Mounts or 224 2x2-inch thin-

glass slides. Supplied in merchandise carton, attractively displaying 10 file boxes—all red, all green, or 5 red and 5 green (5 red and 5 green will be supplied unless otherwise specified).

**Idea No. 332R Kodak 400 File Box (Red)** ..... \$5.75

**Idea No. 332G Kodak 400 File Box (Green)** ..... 5.75

**Idea No. 332/10 Kodak 400 File Box Assortment (5 Red and 5 Green)**

## SLIDE-MAKING MATERIALS

**Kodak Ready-Mounts**—For mounting 28x28mm (126), 24x36mm (135), 28x40mm (828), and 1 7/8x1 1/8-inch (super-slide) transparencies. Solid grayboard with printing on face, "Seal edge with warm iron, do not touch film"; and on the reverse side, "Made in U.S.A." Two types are available: *Folded*—Convenient for mounting a few transparencies at one time. Supplied with 3 edges

sealed; open edge can be sealed with a household iron. *Flat*—Can be sealed on 4 edges with a household iron or mounting press. Note: Kodak Ready-Mounts for mounting 23x24mm stereo transparency pairs are available flat, only (see listing).

**Folded, 2x2 in.**

126, for 28x28mm transparencies	Pkg of 50	\$2.50

**Kodak Lantern Slide Cover Glass (Pre-cleaned)**—Thickness: .050 inch. 3 1/4x4, Pkg of 24 ..... \$2.25

**Kodak Lantern Slide Binders**

3 1/4x4, ..... Per Pkg \$5.00

**Kodak Film Cleaner**—Helps to keep film ready for clear projection at all times. 4-ounce bottle

**Iden No. B359** ..... \$1.10

## MOUNTING EQUIPMENT AND SUPPLIES

†**Kodak Slide Mounting Press, Model 2**—A compact and versatile press for large-volume mounting of color transparencies. Accessory removable jaws, supplied separately (see below), are available for use with the various sizes of transparencies. A numbering attachment to emboss numbers into the mounts is also available. 115-volt, 50-60-cycle ac.

..... \*\$815.00

†**Kodak 135-828 Adapter Jaw**. For 35mm and 828 transparencies. .... \*\$115.00

†**Kodak 1 5/8x1 1/8-inch Adapter Jaw**. For super slides—1 5/8x1 1/8-inch transparencies. .... \* 95.00

†**Kodak Stereo Adapter Jaw**. For stereo mounts. [4633-75] \* 45.00

†**Kodak 2 1/4x2 1/4-inch Adapter Jaw**. For 620 square transparencies. .... \* 125.00

†**Kodak 2 1/4x3 1/4-inch Adapter Jaw**. For 620 full-frame transparencies. .... \* 60.00

†**Kodak Automatic Numbering Attachment** (for Kodak Slide Mounting Press, Model 2). .... \* 395.00

\***Kodak Heat Disconnect Switch** (for Kodak Slide Mounting Press, Model 2)—For sealing mounts with pressure-sensitive adhesive which do not require heat. Permits Mounting Press to operate with unheated jaws. Part No. 827381 ..... \*\$2.40

**Kodak Tacking Iron**—Used to tack mounting tissue to the print and to the mount. This holds the print in position until it can be mounted in a dry mounting press. .... \$27.00

**Kodak Dry Mounting Tissue**—Provides a quick, safe, and permanent way of mounting prints. Coated on both sides with a thermo-adhesive which fuses to both the mounting surface and the print. It is used with an automatic household iron or a Dry Mounting Press.

Sizes	25 Sheets	150 Sheets
4x5 inches	—	\$ 1.25
5x7 inches	\$ .50	2.05
8x10 inches	.90	4.50
11x14 inches	1.55	8.50
14x17 inches	2.30	—
16x20 inches	3.05	17.50
10 yards, 20 inches wide. Per roll.		3.65
10 yards, 40 inches wide. Per roll.		6.10

**Kodak Rapid Mounting Cement**—Made particularly for mounting small-size photographic prints, this cement will have many uses in photo work. Produces a flexible, lasting bond rapidly and with no lengthy pressure or weight. Will not stain prints or mounts. Packaged in 1¼-fluid-ounce tubes. . . . . **\$ .70**

**Kodak Ektacolor Print Film Cement**—When large-size transparencies are produced on Kodak Ektacolor Print Film, two or more sheets of the processed film can be joined together by using Kodak Splicing Tape to which the cement has been applied. Cement is available in 1-quart bottles. . . . . **\$4.75**

†**Kodak Background Sheeting**—For diffusion of light required in displaying color transparencies. Two or more large sheets of sheeting can be joined together by means of splicing tape and cement. Supplied on special order. Available in rolls 40 inches x 100 feet. . . . . **\$101.10**

**Kodak Splicing Tape** (For Kodak Background Sheeting and Ektacolor Print Film)—For joining together two or more large sheets of Kodak Background Sheeting or Kodak Ektacolor Print Film. Available in rolls 2¾ inches x 200 feet. . . . . **\$12.00**

**Kodak Film Lacquer, No. 266**—Used in our operation for coating processed Kodachrome Film against fingerprints, etc. This lacquer is a flammable mixture and processors intending to use it must follow the usual safety precautions necessary for handling such materials. 1-gallon can. . . . . **\$12.90**

Also available in 50-gallon size packaged in 55-gallon nonreturnable steel drum. . . . . **\$535.00**

†**Kodak Dip Lacquer, No. 264**—Used in our coating of processed Kodachrome Film. This lacquer is a flammable mixture and processors intending to use it must follow the usual safety precautions necessary for handling such materials. 1-gallon can. . . . . **\$10.95**

Also available in 50-gallon size packaged in 55-gallon nonreturnable steel drum. . . . . **\$440.00**

**Kodak Ready-Mounts**

Unlisted sheet sizes will be furnished on a minimum order of \$50 list of any one size in 150-sheet packages only.

Unlisted rolls supplied only as follows:

- 25 yards, 10 inches wide—Minimum order \$50 list in multiples of 4 rolls.
- 50 yards, 20 inches wide—Minimum order \$50 list in multiples of 2 rolls.
- 50 yards, 40 inches wide—Minimum order \$50 list.

Prices for unlisted sheet sizes and rolls quoted on request.

**RETOUCHING SUPPLIES**

**Kodak Etching Knife**—The Kodak Etching Knife is especially designed for the photographer. It has a light-weight Tenite plastic handle and nickel-plated steel blade of correct hardness for etching and keeping its edge. The blade is beveled on one side only, and is easy to sharpen. . . . . **\$2.75**

**Kodak Negative Pencils**—A grease pencil especially made for working on film surfaces. Can be used for sketching backgrounds on glass, building up shadow areas in negatives, titling negatives, and labeling. Per box of 1 dozen. . . . . **\$3.00**

**Kodak Opaque**—Recommended for blocking out backgrounds or other areas in film or plate negatives to produce white areas in the print. Provided in paste form.

- Black**
- 1-oz jar. . . . . **\$ .95**
  - 8-oz jar. . . . . **4.55**
- Red**
- 1-oz jar. . . . . **1.15**
  - 8-oz jar. . . . . **5.75**

**Kodak Abrasive Reducer**—Used on a tuft of cotton, it permits quick reduction of dense areas in a negative without scratching. Paste form. ½-oz jar. . . . . **\$1.25**

**Kodak Crocein Scarlet** (neo-coccine)—For use on negatives as a retouching or dodging dye for masking pinholes and scratches, opaquing large areas, lightening shadows, intensifying highlights, etc. Because it is red, the area being retouched can be easily identified. 1-oz bottle. . . . . **\$2.80**

**Kodak Retouching Fluid**—Gives complete retouching efficiency with modern negative materials. Provides an excellent tooth for working with the retouching pencil. Not carried at Northeastern Sales Division.

- ½-oz bottle. . . . . **\$ .60**
- 2-oz bottle. . . . . **1.00**

**Kodak Spotting Colors**—Supplied as a set of three colors—black, white, and sepia—in envelope. These cards provide a convenient source of pigment for retouching prints or negatives. Carton of 10 three-color sets. . . . . Per set **\$1.15**

**BRUSHES**

†**Kodak DeLuxe Spotting and Coloring Brushes**—Offered in a series of graduated sizes. All are of excellent-quality sable hair. No. 0 brush is designed for retouching and fine detail work. No. 2 and 6 are recommended for general photographic coloring purposes, Flexichrome work, and retouching. No. 8 brush is well adapted for opaquing.

- No. 0. . . . . **\$ .85**
- No. 2. . . . . **1.15**
- No. 6. . . . . **2.75**
- No. 8. . . . . **5.50**

†Supplied six of one size on a merchandise card.

**Kodak Camel's-Hair Brushes**—These brushes are ideal for dusting negatives before printing or enlarging. A sturdy metal sleeve holds the fine-quality bristles firmly. When used as intended, these brushes give exceptionally long service without shedding.

- 1-inch. . . . . **\$1.50**
- 2-inch. . . . . **2.25**

\*These items may be purchased on a conditional sales contract if the total order exceeds \$1,000, subject to Credit Department approval.

\*Available from Apparatus Parts Service Department, Eastman Kodak Co, Rochester, New York.

# Professional & Technical publications

## GUIDES

- Kodak Master Photoguide** ..... \$1.95  
 Complete information for taking still pictures in black-and-white and color on miniature, roll, pack, and sheet films.
- Kodak Aerial Exposure Computer** ..... 2.50  
 Contains Time-Motion Dial and Exposure Dial, a typical aerial exposure problem and its solution.

## DATAGUIDES

- Kodak Master Darkroom Dataguide** ..... \$2.95  
 Key data for black-and-white processing, printing, etc.
- Kodak Color Dataguide** ..... 4.95  
 Basic descriptive and working data needed to correctly expose, process, and print color pictures in professional and advanced amateur work. 40 pages on varnished card stock.

## BOOKS

- Kodak Industrial Handbook** ..... \$5.00
- Kodak AV Handbook** ..... 6.95
- Radiography in Modern Industry** ..... 5.00

- Kodak Photographic Notebook** ..... \$1.95

This extra-large binder makes possible a photographic handbook tailored to individual interests and needs. Includes backbone title strips and tabbed separator pages. The Data Books on the following two pages are punched to fit this notebook.

- Copying 6th ed.** ..... .75
- Enlarging in Black-and-White and Color 2d ed.** ..... .75
- Films in Rolls (Black-and-White), Kodak 1st ed.** ..... .75  
 Covers the physical and photographic properties of all Kodak black-and-white roll films.
- Filters and Pola-Screens 5th ed.** ..... .75  
 Describes the theory and use of filters and Kodak Pola-Screens.
- Flash Pictures 4th ed.** ..... .75  
 Techniques for making better flash pictures. Special attention is given to flash with color film and electronic flash.

- Photographic Papers, Kodak 7th ed.** ..... .75  
 Discusses Kodak contact and enlarging papers—showing their characteristics, selection, and use to obtain high-quality prints.
- Precise 35mm Technique with the Kodak Retina Camera 1st ed.** ..... .75
- Processing Chemicals and Formulas 6th ed.** ..... .75  
 Discusses processing principles and techniques for black-and-white roll films, sheet films, plates, and papers.
