# New xl Polaroid\* Pack Film Holder...

easy to load, easy to attach, easy to use. Gives you color prints in just 60 seconds ... black and white in 10!

## Attaching Holder

Holder attaches directly to the xl camera body.

Insert the four metal posts on the Holder into the four corresponding snap-lock openings in the camera body.

Press until the metal posts snap in. Lock by pushing downward on the locking cones on the front of the camera (Fig. 1).

To remove, reverse the loading process.

## Right and left hand operation

For right hand use, the dark slide points upward with the tab-pull to your right. For left hand use, face the dark slide downward with tab-pull to your left.

## Inserting the dark slide

To insert the dark slide properly, the edges of the slide must line up exactly

with the edges of the Holder slot. Do not try to insert a slide tilted at an angle (Fig. 2).

## Using other types of film

Your Polaroid Pack Film Holder will accept other types of pack film.

Polaroid film is held in a plastic retainer encased in a metal frame. To load another pack film, discard the metal frame. Insert the new film in the Polaroid plastic retainer. Return the retainer (without metal frame) to the Holder.
