OVAL LENS PLATES FOR D5/D6 AND UNIVERSAL D5				
The D5/D6 and Universal D5 uses a system of oval lens plates which fasten to the slide-in lens mounts or the three lens turret with knurled thumb screws. Some lenses may not fit on turret. Lenses shorter than 50mm must be used with the slide-in lens mount (Cat. No. 421-105) which accepts any of the oval lens plates. If an oval lens plate for a particular lens type is not listed, order a blank one which can be drilled or bored.				
421-111	Blank Plate (for lenses not listed — must be drilled or bored by customer)	19.95	11.97	▲
