

CRA-6 and CRA-6/A Crystal Controlled Motors for Arriflex 35mm Cameras

Cinema Products' Academy Award winning crystal controlled motor — designed for Arriflex 35mm cameras — is now available in two new models: the CRA-6, which runs at 24 fps; and the CRA-6/A, which runs at 24 fps or 25 fps (controlled by a selector switch). All the electronics are contained within the motor housing — making the CRA-6 and CRA-

/A crystal controlled motors the lightest and most compact motors available for the Arriflex 35mm camera. CRA-6 and CRA-6/A motors are ideally suited for normal hand-held sync shooting from any standard Arri battery pack.

The control circuitry for CRA-6 and CRA-6/A motors utilizes the very latest COS/MOS integrated circuitry for extremely compact, efficient operation.

These motors contain the same advanced crystal oscillators as in all of our previous motors, with an accuracy of ± 15 parts per million over a temperature range of 0° to 140°F.

Complete CRA-6 and CRA-6/A motor packages are ¼-lb. lighter than the existing constant speed motor, and are smaller in diameter, providing a much more convenient handgrip.

Both CRA-6 and CRA-6/A motors are remarkably efficient! Current drain from standard Arri battery pack is less than 1½ amps . . . That's more than 15 thousand feet of film from a standard battery!

MODEL CRA-6/A
(24 fps / 25 fps)

TECHNICAL SPECIFICATIONS

- CRA-6 and CRA-6/A crystal motor housings are designed for use with standard Arriflex 35 tripod heads, including Ronford, Sachtler & Wolf, and other similar heads. • Frame Rate: (*forward only*) CRA-6 @ 24 fps; CRA-6/A @ 24 fps or 25 fps (controlled by selector switch) • Accuracy: Crystal controlled accuracy of ± 15 parts per million over temperature range of 0° to 140°F. • Power Consumption: 1.5 amps maximum full load current. • Out-of-sync warning tone integral with motor package. • Built-in resettable circuit breaker. • Instant start button. • Lightweight, highly efficient, extremely compact. Permits hand-held operation. • Power cable with in-line switch.

FLAT BASE

Optional Flat Base includes digital footage counter and fits in "Cine 60" blimp or Arri 120 S blimp. (Note: Adapter bracket required for Arri 120 S blimp)
