

**Nothing' Better
than a Kodak
for Christmas**

Touring and travelling take on a new element of delight, when Kodak pictures are made of all the interesting people and places visited. You have something to show for what you see—when you Kodak.

Kodaks

for the grown-ups

Brownies

for the children

A point that every one contemplating the purchase of a Kodak—either for him or herself, or as a gift for someone else—should remember is this, that Kodak picture-making, though it may supplement and add to all pleasures and pastimes—is a joy in itself.

There is a peculiar fascination in the making of Kodak pictures, that delights every temperament, and every age.

The things that make life worth living, are the things that lend themselves best to Kodak—or Brownie—pictures, for what applies to Kodaks for grown-ups, applies to Brownies for children.

You can always brighten a dull moment, either by making some fresh Kodak pictures, or by turning to your album of snapshots—a veritable treasure-box of pleasure.

When you go on a holiday, bring back Kodak picture-records of the seashore or bushlands, of the sunshine and happiness.

You can make charming pictures in the home surroundings, of your garden or domestic pets; of relatives, friends and visitors.

If you go camping—think what delightful pictures you can make of all your walking tours and rambles, of the birds and wildflowers, of beauty spots and historic landmarks.

Whether taking a quiet walk in your own district, or motoring or boating in strange places, whether swimming, riding or driving, whether taking part in sports, pastimes,

or any hobby—you should make Kodak pictures of everything worth remembering.

Tourists and travellers, those who seek pleasure afar off, and those who find it at home; those with ample leisure, and those with whom every moment is precious—need a Kodak with equal importance.

There is nothing else can give greater pleasure and satisfaction than

Kodaks and Brownies for presentation

The recipient can start right away, making pictures of everything worth while—for Kodaks and Brownies are wonderfully simple to use—anybody can make pictures with one, after half-an-hour's practice.

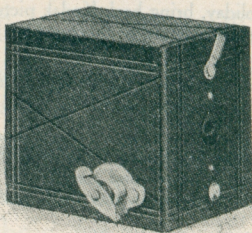

Make your selection in the following pages, and, if you require further information, it will be gladly supplied you by any Kodak dealer, or

The Vest Pocket Autographic Kodak

Everybody should own a Vest Pocket Kodak, whether they have a larger camera or not.

It can be carried where a camera of larger size may not be convenient. It slips neatly into a man's pocket or lady's handbag.

The Vest Pocket Autographic Kodak has far more than its compactness to recommend it. Although small, it is built as accurately as a watch, and makes pictures of excellent quality.

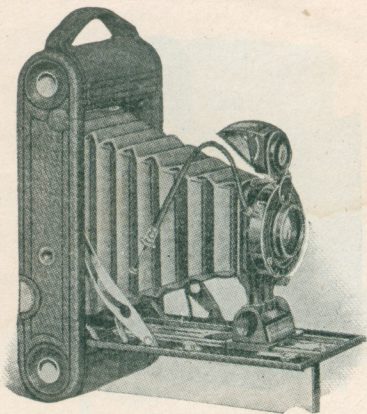

It opens easily and quickly to a fixed focus, and is always ready for service. Takes pictures $2\frac{1}{2} \times 1\frac{5}{8}$ inches—which may be readily enlarged.

The No. 2c Autographic Kodak Junior, takes a picture $4\frac{7}{8} \times 2\frac{7}{8}$ inches—the same pleasing proportions as the post card, but just a trifle smaller. This attractive shape is particularly suitable for horizontal landscapes and vertical portraits. Price, **£4/0/0**

The No. 3a Autographic Kodak

Since the introduction of the post-card size picture, the 3A has been the leader in the hand camera field, and to-day is the most popular camera in the world.

It is the largest of the pocket series, but still can be carried without inconvenience.

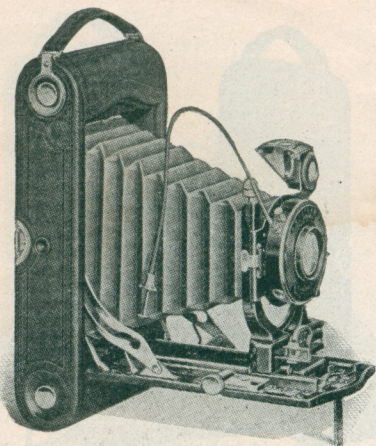

The shape of the picture— $5\frac{1}{2} \times 3\frac{1}{4}$ inches—makes it specially useful for landscapes and portraits.

It is equipped to give the best results in general photography, with nothing that is superfluous—and though simple enough for the beginner, meets every demand of the expert.

The 3A will accommodate glass plates, by the addition of a combination back—which is interchangeable with the regular back.

The No. 3A uses ten and six exposure films.

The Autographic Kodak Specials

There are some pictures that lie outside the range of any ordinary camera, that can be taken easily with a Special Kodak—pictures on dull days, pictures of some rapidly moving object, and many other pictures are possible only when you have a lens and shutter of great speed and perfect reliability.

The Lens in a Kodak Special is practically three times as fast as an ordinary lens, and the shutter seven or eight times as fast as the ordinary shutter.

The Kodak Specials delight the most exacting photographic experts, and yet they are so simple that the beginner can obtain perfect results from the start.

No. 1 Autographic Kodak Special, for pictures $2\frac{1}{4} \times 3\frac{1}{4}$ inches. Price, **£11/5/0**
