

# POWER TO RUN THEM ALL

# FREZZOLINI®

## MODEL 100-DX

### "THE STANDARD OF PORTABLE AC POWER SUPPLIES"

This New Super 100-DX powers all AC 16 mm camera motors. It features deliverable power to 100 watts with internal battery and up to 150 watts using external batteries.

Supplied with a 50 or 60 cycle transistor control module for single system cameras, or a precision crystal-controlled module for "double-system" camera operation. A matching "built-in" crystal control module is available for pilotone Nagra recorders.

- MORE POWER — OVER 100 WATTS
- GREATER EFFICIENCY  
For up to 20% more Running Capacity
- RELIABLE AND RUGGED  
Under all Weather Conditions
- UNSURPASSED PERFORMANCE

### SPECIFICATIONS:

Weight:	12 pounds
Size:	3" x 9" x 8"
Case:	All Welded Aluminum
Output:	3 position selection of 120/130/140 volts A.C.
Recharging:	Automatic from 120/240 volts. 50/60 cycles AC in six hours
Capacity:	Auricon Conversion — 3600' (typical) Arriflex — 2000' Eclair — 1600' Super 1200-2400'
