Profit Maker Promotions

As always, you can expect a wide range of support programs from Canon! We have designed creative new promotions to help you make even more of your peak selling seasons. And we will be repeating many promotion programs that have been proven profit makers.

We're also making it easier for you to know what promotions apply to any given Canon product. Just turn this page to see the definition of each symbol, plus additional promotions. Then simply look for these symbols in each product section; or refer to the quick reference chart on the top of this page.

**1991 Holiday Profit Maker is effective
August 26, 1991 to December 31, 1991.**

Profit Maker Promotions and Ad Support Summary

Special Savings

This symbol indicates special savings are available on specific Canon products. Savings vary so see the individual product page for details.

Extra Co-op Allowance

This symbol indicates that you will accrue a special Co-op allowance in addition to the standard 3% Co-op allowance. Your special Co-op allowance will be immediately added to your account and will appear on your monthly Co-op statement.

Special Bonus Promotion

When you see this symbol you can become eligible for a special bonus. Ask your Canon sales representative for details.

Television Advertising

The TV symbol indicates which products Canon is supporting with national television advertising. For a complete listing of TV ads, see the advertising section of the Profit Maker.

Print Advertising

The print symbol indicates which products Canon is supporting with eye-catching, full-color advertisements. For a complete list of color print ads, see the advertising section within the Profit Maker.

Mix and Match Promotions

Here are three ways to combine Canon merchandise to maximize savings and profits.

- A.** Buy any 4 or more Canon SLR cameras and you can purchase any one or more Canon lens shutter cameras and/or one or more EF or FD lenses and/or any one or more Canon EOS Speedlites at low dealer net.
- B.** Buy any 6 or more Canon lens shutter cameras and you can purchase any one or more Canon SLR cameras and/or any one or more EF or FD lenses and/or any one or more Canon EOS Speedlites at low dealer net.
- C.** Buy any 4 or more Canon EF and/or FD interchangeable lenses and you can purchase any one or more Canon SLR cameras and/or any one or more Canon lens shutter cameras and/or any one or more Canon EOS Speedlites at low dealer net.

Special Filter Promotion

For every Canon SLR camera or Canon EF or FD lens you purchase, you can save 50% on the cost of any one Canon regular filter when purchased at the same time as the camera or lens. (Example, you may purchase any 10 Canon regular filters at the 50% discount at the same time you purchase five SLR cameras and five lenses.) For applicable filters see pages 28-29 of Canon's 1991 Holiday Season Authorized Dealer Price List. (Note: This offer does not apply to FD 50mm f1.8 and 50mm f1.4 lenses.)

Promotional Price Terms

This 1991 Holiday Season Profit Maker Program will be in effect from August 26, 1991 to December 31, 1991. It has been designed to make it easy for you to maintain a broad inventory of Canon photographic products while realizing substantial savings on your purchases throughout this promotional period.

Please review each section of this program which covers Canon SLR cameras, lenses, main accessories, lens shutter cameras and additional SLR merchandise to find some really exciting promotions.

This 1991 Holiday Season Profit Maker Program also shows you the actual net price of each product you order. There are special promotions throughout this book.

135mm f/3.5
KONICA HEXAR
AUTOMATIC TELEPHOTO LENS

This most widely-preferred SLR focal length represents an excellent choice for portraiture, sports, wildlife, action and numerous other applications. At the minimum focus of 59.1", the magnification equals that achieved with the standard 50mm lens at 21.9"; yet, the camera-to-subject distance is increased by 2.7x . . . a welcome advantage for photographer and subject alike! The relatively short length of 3.7" continues the Konica tradition of more compact and easily hand-held telephoto lenses. Optical construction consists of four elements in four groups, with Konica Color-Dynamic Coating to optimize light transmission and color saturation. The built-in retractable lens hood provides added protection against flare. Accepting standard Konica 55mm filters, the Hexar 135mm f/3.5 combines superior optical performance with fast-working, responsive controls in the classic medium-telephoto focal length for SLR photography.

TECHNICAL SPECIFICATIONS

Focal Length 135mm
Aperture Range f/3.5 – f/16; AE
Construction 4 elements in 4 groups
Coating Konica Color-Dynamic
Angle of View 18°
Magnification Compared to 50mm lens . 2.7x
Diaphragm Type Konica AE (Automatic Exposure) with optional manual aperture control.
Min. Focus from Film Plane 59.1"
Filter/Accessory Size . 55mm Screw-In
Lens Hood Built-in Retractable
Length 3.7"
Maximum Diameter . . 2.7"
Weight 19.5 oz.
Catalog Number 703-382

200mm f/4.0
KONICA HEXAR
AUTOMATIC TELEPHOTO LENS

A superb choice for sports, wildlife, nature, and all forms of action photography at long range with Konica Autoreflex cameras. Only 5.8" long, the Konica Hexar 200mm f/4.0 "pulls-in" distant objects a full four times as compared to 50mm lenses. The relatively-fast maximum aperture and minimal depth-of-field make fast, accurate focusing a certainty both with the Konica Microdiaprism and Split-Image Rangefinder screens. So compact it accepts standard Konica 55mm filters, the new lens combines Konica Color-Dynamic Coating and a built-in retractable lens hood to assure crisp, flare-free images at every aperture. One of the lightest 200mm lenses ever created, the Konica Hexar 200mm f/4.0 is an invaluable asset to creative long-range photography with the Konica Autoreflex System.

TECHNICAL SPECIFICATIONS

Focal Length 200mm
Aperture Range f/4.0 – f/16; AE
Construction 4 elements in 4 groups
Coating Konica Color-Dynamic
Angle of View 12°
Magnification Compared to 50mm Lens 4x
Diaphragm Type Konica AE (Automatic Exposure) with optional manual aperture control.
Min. Focus from Film Plane 8.2'
Filter/Accessory Size . . . 55mm Screw-in
Lens Hood Built-in Retractable
Length 5.8"
Maximum Diameter 2.9"
Weight 28.3 oz.
Catalog Number 703-383

KONICA HEXAR

Automatic Lenses for Konica Autoreflex Cameras

CONCEPT

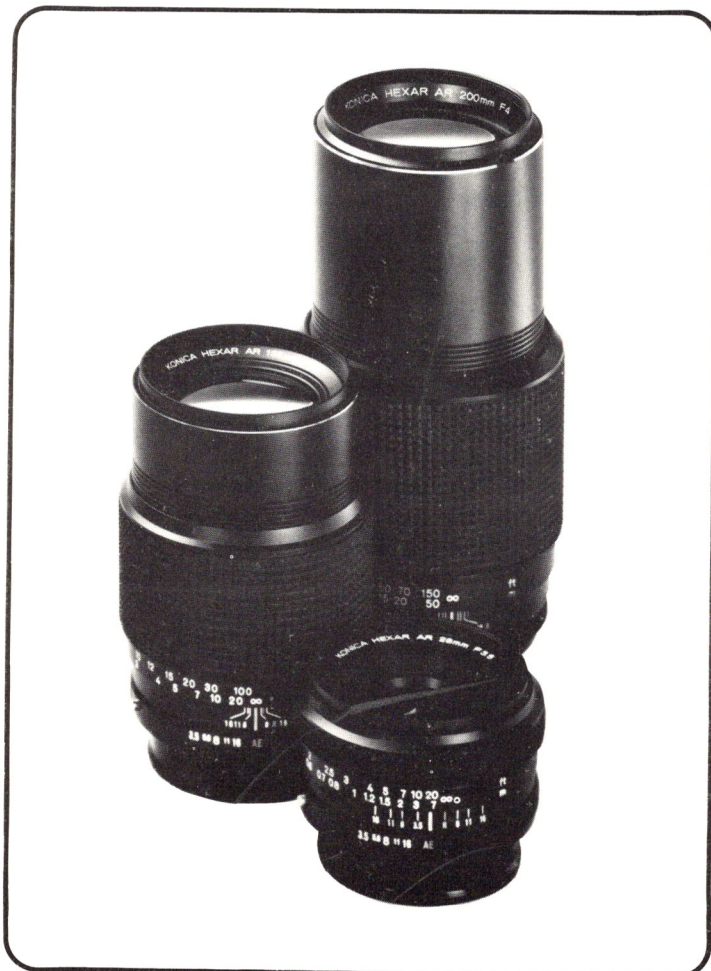

Konica Hexar automatic lenses represent a significant addition to the Konica Autoreflex system of photography. Made to the same exacting standards of quality as all Konica products, each Hexar lens insures genuinely superb optical and mechanical performance with all Konica Autoreflex cameras. Despite their modest cost, each Hexar lens couples completely to the camera's automatic diaphragm and exposure (AE) controls. The aperture ring incorporates a precision AE-Lock mechanism to prevent inadvertent manual operation; yet, apertures may be selected manually at any time, with the added convenience of positive click stops at every f/ stop. The exceptionally large focusing rings are finished in heavily-textured "diamond"-studded material for fast, slip-proof operation. Each Hexar lens is compact and unusually lightweight . . . a significant benefit in hand-held use. Yet the most important feature of every Konica Hexar lens is Konica quality — the quality which, decades ago, gave birth to the famed Konica slogan "The Lens Alone is Worth The Price".

28mm f/3.5 KONICA HEXAR AUTOMATIC WIDE-ANGLE LENS

The most popular of wide-angle lenses, ideally suited to panoramic landscape photography as well as indoor picturetaking. The precision helical mount allows continuous focusing from Infinity to a close 11.8" from the film plane, thus making the Hexar 28mm f/3.5 equally suitable for stunningly-attractive close-ups of flowers and other three-dimensional objects. The computer-derived 5-element, 5-group optical formula ensures optimum resolution and contrast, with excellent evenness of illumination readily apparent in the Konica Autoreflex viewfinder. A rectangular lens hood (supplied) and famed Konica Color-Dynamic Coating virtually eliminate flare. A superb complement to any Konica Autoreflex System . . .

W-EOSP	EOS 4-Year Extended Protection Plan provides 4 years of added protection (body only) in addition to standard 1-year limited warranty. (EOS-1 not included)	49.95	14.95

Rebel Owners Club

Every U.S. owner of an EOS Rebel S or EOS Rebel is invited to join the EOS Rebel Owners Club. Members receive special fanny pack, T-shirt, and the Rebel Image, a four-page instructional bulletin issued four times per year, the EOS Rebel newsletter, and they are eligible to participate in special contests open only to EOS Rebel Owners. Communication between Canon dealers and EOS Rebel owners is encouraged, with technical staff available to answer questions by phone or mail.

Featured Accessories

Extension Tube EF25

This close-up accessory for EF lenses is compatible with the EOS-1, the EOS 10s, and the EOS Elan. Extension Tube EF25 extends the close-focusing range of EF lenses. Primarily beneficial for macro work, it can also be helpful with telephoto lenses. Autofocus and autoexposure are fully coupled, though manual focusing is recommended and EOS-1 spot metering should not be used. Extension Tube EF25 measures 2.7 x 1.1 inches and weighs 4.4 oz.

Macro Lens Mount Converter FD-EOS

The Macro Lens Mount Converter FD-EOS is compatible with the EOS-1, the EOS 620, 630, 650 and RT. It can be used to attach any lens or accessory with an FD mount for close-up photography. (Infinity focus is not possible.) This converter facilitates high magnification photography for EOS cameras. For example, it can be used with Photo Micro Unit F for photomicroscopy, or with the FD system Auto Bellows and accessories for slide duplication. It is also effective with many other close-up accessories such as the FD 50mm, 100mm and 200mm macro lenses and the 20mm f3.5 and 35mm f2.8 macrophoto lenses.

For prices on all Canon Photographic Products, see Canon's 1991 Holiday Season Authorized Dealer Price List. All prices subject to change without notice.

Note: EF lenses marked (USM) use Canon's exclusive Ultrasonic motors for focusing. Note: You can assort EF lenses with Canon FD lenses to obtain maximum quantity discount.

* Requires Hood Adapter 62

EOS System Accessories

As Canon puts more support behind the growing EOS line, you'll want to stock up on our wide range of EOS system accessories. Help yourself to bigger sales and extra profits as you help your customers explore the world of EOS SLR photography.

2. Canon ships SPP order to dealer.

Canon Credit Card Program

More than just another consumer credit program, the Canon Revolving Charge Plan can be used as a dynamic marketing tool to increase your consumer purchases. Plus it keeps selling for you every month, year after year!

The plan is serviced by General Electric Capital Corporation (GECC) and works just like a bank card account. To apply, the customer must complete a Canon consumer credit application, and you must complete a charge sales slip. Each credit request is given immediate attention, with credit approvals usually coming within 30 minutes.

Credit lines for new accounts usually exceed the customer's initial purchase amount, so it's easier for you to make add-on sales immediately! Plus you'll receive payment on sales within 48 hours after receipt of documentation.

Flexible terms allow you to offer your customers the convenience of extended payments. Customized billing statements keep the Canon name in front of your customers every month. Plus your customers will be able to purchase any Canon product, without making large cash outlays or tying up their other lines of credit.

All this and more keeps the Canon name, and the value of Canon quality products, alive in the customer's mind. Research has proven that these credit customers buy more frequently, buy higher-priced products, and have a higher level of advertising recognition.

The Canon Revolving Charge Plan brings these benefits to you. Use it frequently, and increase sales. And be on the lookout for our special credit card promotion in the near future!

PROGRAM HIGHLIGHTS:

- Open to all authorized Canon Dealers, subject to Credit Department approval
- Covers all Canon products
- Easy enrollment: just forward completed dealer agreement to Canon Regional Credit Manager
- 1.5% program fees for non-promotional merchandise
- All necessary forms and supplies provided at no cost
- Both consumer and business credit accounts available
- Timely credit processing provided from national service point
- Strong program support through Canon's national advertising and special promotional campaigns

For more information, contact your Regional Credit Manager. Or call Toll-free 1-800-423-6696 and ask for the Canon Account Manager.
