

# A complete darkroom for films up to 2¼-square in one compact package

## DURST M600 DARKROOM OUTFIT

Those who want to enjoy the creative pleasure of darkroom work can simplify their equipment choice with this truly complete outfit. It provides everything needed to start developing and enlarging film up to 2¼-square, leaving nothing else to buy. The new Durst M600 is precision-built to assure quality enlargements with black & white as well as color.

The outfit can be set up quickly in minimum space and stored in the compact, sturdy carton. Lightweight and easily portable, it is also ideal for use while traveling.

For details of the Durst M600 enlarger, see separate catalog page.
