

# Complete, compact outfit simplifies choice of quality enlarging equipment for films up to 35mm

## DURST M300 ENLARGING OUTFIT

There is no better nor easier way for anyone to get started making enlargements. This single package contains everything needed. All equipment is kept ready for use, can be set up quickly in any convenient, small space, and stored compactly in the sturdy carton.

Advanced photographers will choose the easily portable M300 outfit for use while away from home or studio, wherever conditions preclude the use of bulkier enlargers. They can look forward to the same quality of results as obtained with their accustomed equipment.

For details of the Durst M300 enlarger, see separate catalog page.
