## THE COMPACT 3001

### CONVERTIBLE SERIES TRIPODS

Because no one tripod can meet every photographic need, Bogen offers a broad selection of tripods, manufactured in Italy by Manfrotto, and ranging from our Compact Convertible 3001 to our Super Pro 3058. Each is available with a wide choice of heads, dollies, and performance enhancing accessories so you can select the combination that best fits your working patterns: in your studio or in the field, whether you use 35's or view cameras, whether you use wide angles or tele's. You'll find here the versatility and stability you need. Tripods that are easy to manage, easy to move, and easy on you.

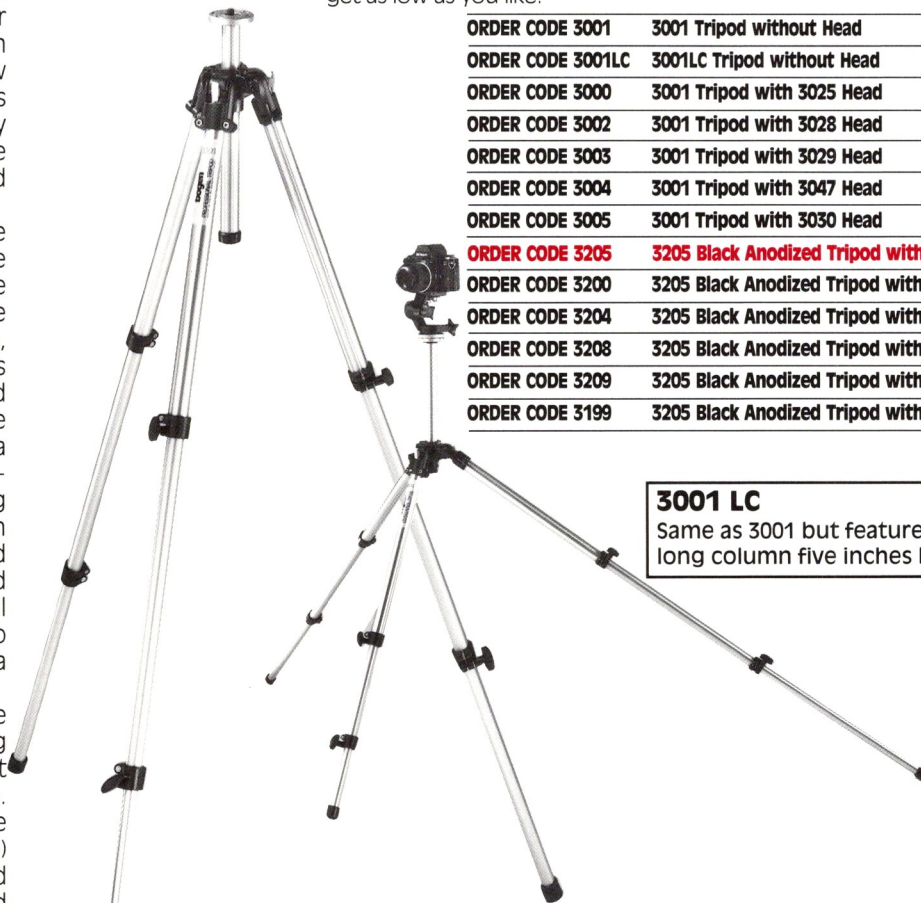

Professionals will appreciate the thought and the field testing we've lavished on our tripods. That's because there's more to them than meets the eye. All our tripods use hard finish, high strength aluminum alloys. That's one reason why they resist wear and remain rigid and stable with heavy use and abuse. All our models employ a clamping system for leg length adjustment that resists fouling and scoring and stays secure even under rough field conditions. And the legs are keyed internally to keep the locks aligned and accessible--a not so small point you'll appreciate the next time you have to level a camera on rough terrain on a cold, windy day.

All Bogen tripods feature removable heads, but there's a unique locking system to make sure that you don't remove the head unless you want to. And the critical point at which the head is mounted uses a 3/8" (Euro) thread connector, 50% larger and much stronger than the 1/4" thread you'll find on most tripods. Most models incorporate a 3/8" head mounting screw for low-level shooting.

Whether it's features or performance you're looking for, you'll find both here. Whether you prefer high angle or low angle shooting, you'll find a practical way of doing it with Bogen Tripods. And most of all, you'll find they give you the stability you need so your camera can adjust to life's ups and downs smoothly.

This is our lightest (3 5/8 lbs.), one of the smallest (folds down to 20 1/2 in.), and one of the most versatile tripods we offer. No matter where you use this model, indoors or out, rough ground or smooth floor, Bogen's Compact Convertible Tripod sets up steady, quick, and easy. An ideal tripod for 35's.

Legs are made of sturdy, tubular hard-finish aluminum and each has sure-grip, quick-acting lever locks that don't foul in sand or mud. Legs have three different separately settable click-stopped spread angles for easy levelling that allow you to get close to things like walls and tables or even boulders. Maximum elevation is 54 1/2 in. Adjustable leg spread combined with reversible center post, lets you get as low as you like.

# THE BASIC 3011 SERIES TRIPODS

Here's a tripod with exceptional stability that weighs just 5 1/4 lbs. Bogen professional quality through and through, the 3011 offers high utility combined with simplicity of use and easy portability. It's compact—yet it goes up to 60 in., and has a reversible center post that lets you shoot at almost ground level. Sturdy, tubular aluminum legs have sure-grip, quick-acting lever locks, ideal for cameras up to medium format. Choice of versatile heads and a variety of Bogen accessories.

# 3021 THE CONVERTIBLE SERIES TRIPODS

The first thing you'll like about these tripods is their versatility. You'll find that no matter where you want to place your camera—indoors or out, rough terrain or smooth floor—the 3021 will accommodate you.

One of the reasons for this is the legs. Featuring flip-lock levers for precise height adjustment, the 3021 has 3 different click-stopped spread angles, as well, so levelling is easy no matter how rough the going gets. Equally important, it's ideal in confined areas where other tripods normally have to maintain an arm's—or leg's—length distance.

The 3021 has a maximum shooting height of 71 in. The adjustable spread of the legs combined with telescoping convertible center post, lets you get as low as 10 1/4 in.

# 3021S

The 3021S is the compact, or short, version of the 3021. It features the same 3 different click-stopped leg spread angles and it has a maximum shooting height of 44 1/2 in., but you can get down to a minimum height of only 7 1/2 in. Folded, it's just 17 1/2 in. long. Weighs 4 3/4 lbs. Any head that fits the 3021 will fit equally well on the 3021S.

**ORDER CODE 3021S** 3021S Tripod without Head

**ORDER CODE 3221S** 3221S Black Anodized Tripod without Head

## THE PROFESSIONAL 3033 SERIES TRIPODS

Most true lightweight tripods are a bit shaky beyond three feet. Not our 3033. It's lightweight, yet can look you steadily in the eye and give support for great, vibration-free shots.

This makes it ideal for location shooting where you need a compact, sturdy tripod. The 3033 has three-section legs and a geared center post, which means it provides good maximum working height—67 in.—then telescopes into a really manageable package for carrying.

Leg adjustment is fast and easy, even when you're wearing gloves, thanks to our exclusive rocker arm leg lock, and a spirit level on the shoulder which shows you when you're on the level. Convertible cushioned spike tip legs and rigid center bracing hold everything firm.

**ORDER CODE 3233** 3233 Black Anodized tripod without Head

**ORDER CODE 3234** 3233 Black Anodized tripod with 3047 Head

# THE WORK HORSE 3036 SERIES TRIPODS

You can use our 3036 Tripod at it's maximum height of 80<sup>3</sup>/<sub>4</sub> in., then lower it to 16<sup>1</sup>/<sub>2</sub> in., or go virtually to ground zero by opening the legs and mounting the camera on the column bottom. Center post is geared and features an automatic safety lock with push button release. Most important, the 3036 maintains its stability at all heights.

Stability is enhanced by independent variable-spread leg braces that allow you to obtain different entangles on each leg. The three legs are continuously adjustable in relation to each other. A real plus where you need a level head (and a built-in spirit level tells you when you are there). And the 3036's convertible cushion/spike tip legs give you sure footing indoors or out.

ORDER CODE 3236	3236 Black Anodized Tripod without Head
ORDER CODE 3235	3236 Black Anodized Tripod with 3047 Head

# THE STURDY 3046 SERIES TRIPODS

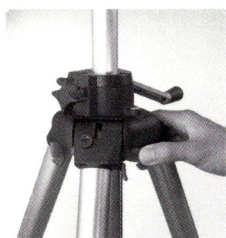

The 3046 Tripod weighs 8<sup>1</sup>/<sub>4</sub> lbs., yet gives you features and strength normally found only in twenty pounders.

It's strong. Two section bi-post design, light-weight aluminum alloy construction, with exceptional sturdiness built-in. A single, easy to reach locking knob controls extension of each leg. Geared 19<sup>3</sup>/<sub>4</sub> in. center post has threaded <sup>5</sup>/<sub>8</sub> in. mount on the bottom of the column to allow low angle shots. Maximum height is 68<sup>1</sup>/<sub>2</sub> in., yet it folds to a compact 34<sup>1</sup>/<sub>4</sub> in. Minimum height is 29 in., Legs are equipped with convertible cushion/spike tips.

It's on the level: Built-in shoulder spirit level keeps you on the level.

ORDER CODE 3240	3246 Black Anodized Tripod with 3047 Head

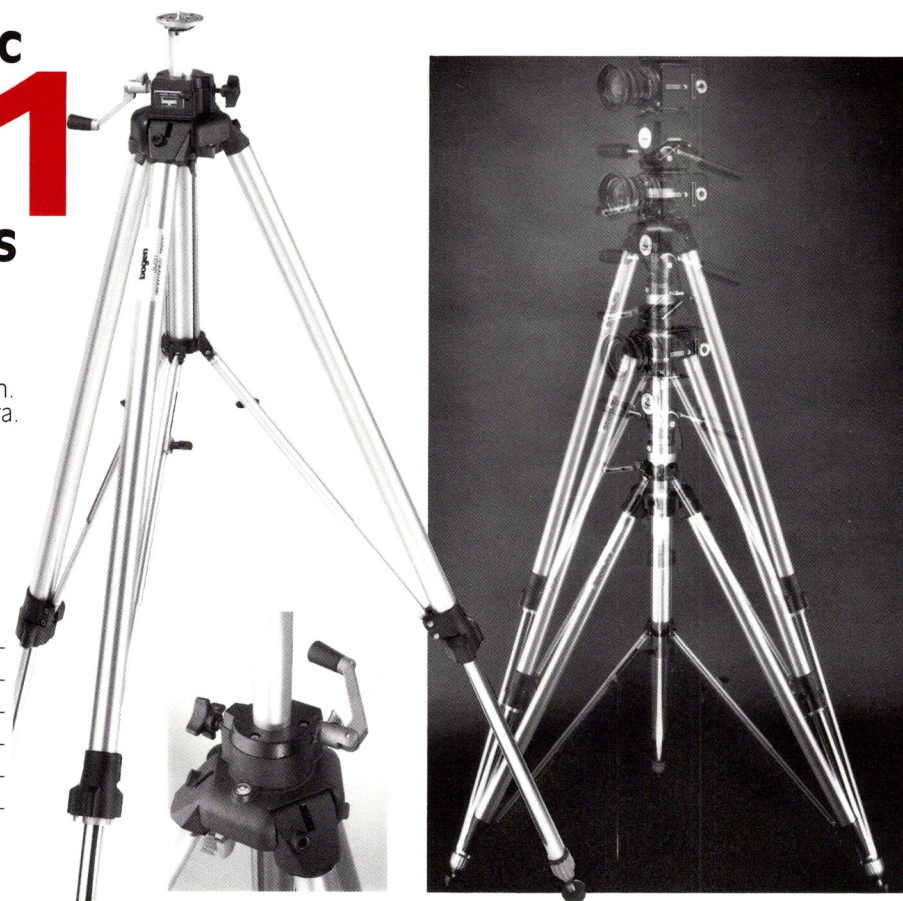

## THE AUTOMATIC 3051 SERIES TRIPODS

Extension of each leg can be adjusted individually, or all three can be released simultaneously. All it takes is firm pressure on one of two separate sets of triggers.

These triggers let you move from as low as 15<sup>3</sup>/<sub>4</sub> in. to 63<sup>1</sup>/<sub>4</sub> in., almost as fast as you can lift your camera. And, you can do it all with a level head, thanks to a built-in spirit level on the 3051's shoulder plus two more levels on the 3047 Pan/Tilt Head. Legs are equipped with convertible cushion/spike tips.

The 3051 Auto Tripod has independent, continuously variable leg braces that let you set each leg at a different angle. Ideal for uneven terrain, close quarters, low to the ground, just about everything.

# HEADS

## DELUXE 3-WAY PAN HEAD

# 3047

Ever had a view camera set up for a precisely framed shot, only to have it move ever so slightly on your tripod head just when you've pulled the slide on a film holder? That won't happen with the 3047. Two fixed bosses seat the mounting plate, while the third opens and closes with a quick-acting, positive-locking lever. Mounting plate has an inlaid friction surface, and a convenient, adjustable length 1/4-20 mounting screw. For heavier cameras, you can purchase mounting plates with a large, flathead screw. For an even more secure mount, these plates have small slotted wedging screws which can be tightened to bear against the camera base plate (3041 for 1/4-20 sockets, 3042 for 3/8" Euro threads). Both are tapped with 1/4-20 and Euro sockets so that they can be used with conventional tripods without removing the plate.

**ORDER CODE 3047** Deluxe 3-Way Pan Head

**ORDER CODE 3049** Replacement QR Plate for 3047 (1/4-20 Thread)

## 3-D HEAD

# 3025

Separately locked movements on three axes make the 3025 perfect for 35's, and the conical self-adjusting bearing surfaces on the tilt pivots provide more than enough strength to support medium format cameras. Thumb screw movement locks won't poke you in the eye like conventional handles sometimes do.

**ORDER CODE 3025** 3-D Head

## SUPER 3-D HEAD

# 3028

The 3028 has the same three axes movement system, including a pan lock, as does the 3025. But we've made the camera platform a bit wider for better support of larger camera bodies and added a pair of ratchet-type positive locking handles that give you something substantial to grip, yet can be rotated to any desired position so they're always where you want them and never in your way.

**ORDER CODE 3028** Super 3-D Head

## PAN/TILT HEAD

# 3029

A beautifully designed, easy-to-use pan/tilt head for cameras up to medium format. Full 3-way action with each axis movement controlled by a separate locking handle.

**ORDER CODE 3029** Pan/tilt Head

## PAN/TILT HEAD w/QUICK RELEASE

# 3030

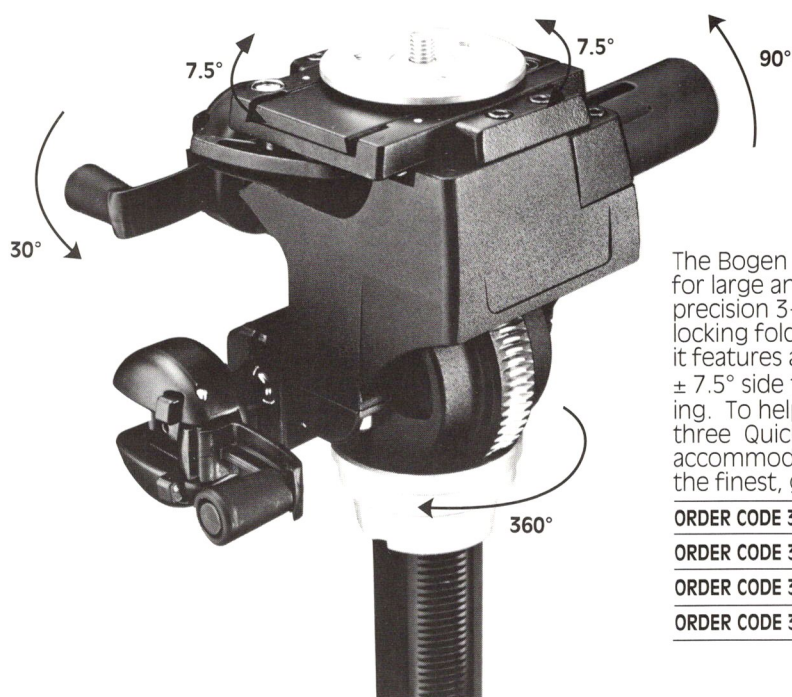

The 3030 is similar to the 3029 Pan/Tilt Head, but we've made it even better by adding a Quick-Release Plate to make camera changes as easy as flipping a lever.

**ORDER CODE 3030** Pan/tilt Head w/Quick Release

**ORDER CODE 3157** Replacement Quick Release Mounting Plate (1/4-20 Thread)

**ORDER CODE 3157A** Replacement Quick Release Mounting Plate (3/8" Thread)

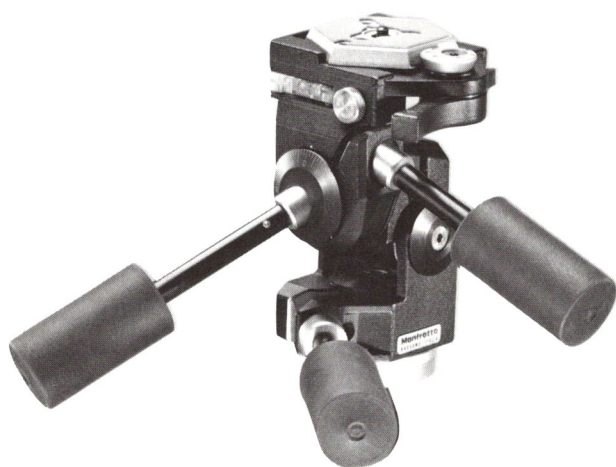

## DELUXE GEARED HEAD

# 3263

The Bogen Deluxe Geared Head has been designed especially for large and medium format cameras to offer the ultimate in precision 3-way geared adjustment and control. Exclusive self-locking fold-away cranks allow 360° pans, +30° and -90° tilts and it features a comfortable grip handle that lets you level  $\pm 7.5^\circ$  side to side with a bubble level to aid in precise positioning. To help you quickly mount your camera, there are also three Quick Release Plates, each with a different height, to accommodate all types of cameras. If your cameras deserve the finest, give them the Bogen Deluxe Geared Head.

ORDER CODE 3263	Deluxe Geared Head
ORDER CODE 3264L	Replacement QR Plate for 3263, 13mm
ORDER CODE 3264M	Replacement QR Plate for 3263, 23mm
ORDER CODE 3264H	Replacement QR Plate for 3263, 42mm

## SUPER PRO HEAD

# 3039

Our top-of-the-line head, finely machined for greater positioning precision with smooth, certain action. Three built-in bubble levels for horizontal and vertical. Oversized handles have calibrated degree indicators viewed from the operator's position for all axes. This is a rock-steady head that locks into position easily and surely. Quick-release Plate has a Safety Lock for greater security. Auxiliary 3/8 in. camera screw. The ideal head for heavy cameras and long lenses.

ORDER CODE 3039	Super Pro Head w/ Quick Release Plate
ORDER CODE 3049	Replacement Quick Release Plate for 3039 (1/4-20 Thread)

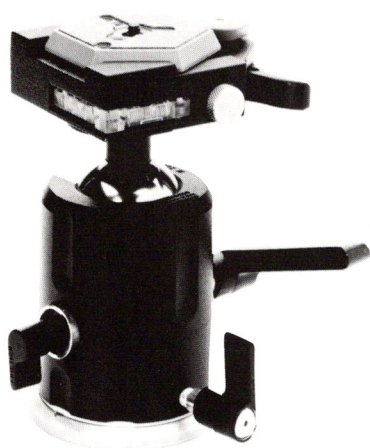

## HEAVY DUTY HEAD

# 3057

For large format cameras. Supplied with 4 in. x 4 in. quick release plate. (Order Code 3297). Oversized locking knobs and heavy-duty construction provide an extra measure of security for view cameras up to 8 x 10, for large format technical cameras, and for 70mm portrait cameras. Weighs 4lbs. 6oz. Height above base plate is 6 in. Provides tilts along lens axis from +15° to -90°, side movement allows full vertical positioning for fixed-back cameras.

ORDER CODE 3057	Heavy Duty Head w/Quick Release Plate
ORDER CODE 3297	Replacement Quick Release Plate for 3057

### SUPER BALL HEAD

# 3038

This is our top-of-the-line Ball Head. Superbly designed for cameras as heavy as 26 lbs., it is a finely-machined, very smooth operating head that features bubble levels for both axes, a 360° scale in 5° increments, tension control and pan action levers that ratchet out of the way and a locking lever that sets the head as solidly and firmly as you'll ever need. For added safety and convenience, it also has a Quick-Release Plate with a Safety Lock and both 1/4-20 in. and 3/8 in. camera screws. Wgt: 3 3/4 lbs; H: 6 3/4"; W: 4".

**ORDER CODE 3038** Super Ball Head

**ORDER CODE 3049** Replacement QR Plate for 3038 (1/4-20 Thread)

### DOUBLE ACTION BALL JOINT HEAD

# 3026

Both of these heads have separate, quick-acting locks for panning and tilting functions. You can position your camera anywhere in a 180° sphere with confidence and ease.

The 3055 uses the larger hexagonal QR Plate for better support of larger camera bodies.

**ORDER CODE 3026** Double Action Ball Joint Head w/QR Plate

**ORDER CODE 3027** Replacement QR Plate for 3026

**ORDER CODE 3055** Heavy Duty Double Action Ball Joint Head w/QR Plate

**ORDER CODE 3049** Replacement QR Plate for 3055 (1/4-20 Thread)

### HEAVY DUTY DOUBLE ACTION BALL JOINT HEAD

# 3055

### GRIP ACTION BALL HEAD

# 3265

Grip the handle and you can position your camera any where within a 180° sphere. Supplied with a 1/4-20 Quick Release Plate, it features built-in bubble level and tension adjustment. Made of enameled cast metal, 8 1/4 in. high, weighs 1lb. 14oz. Capacity 6lbs.

**ORDER CODE 3265** Grip Action Ball Head w/QR Plate

**ORDER CODE 3266** Replacement QR Plate for 3265 (1/4-20 Thread)

**ORDER CODE 3266A** Replacement QR Plate for 3265 (3/8" Thread)

### MINI BALL HEAD

# 3009

Designed for lightweight cameras, the Mini Ball Head is an excellent accessory for our Monopods, Car Window Pod, and Table Top Tripod.

**ORDER CODE 3009** Mini Ball Head

### MEDIUM BALL HEAD

# 3262

This versatile ball head has a unique feature: a special spring-loaded, retractable dual thread (both 1/4-20 in. and 3/8 in.) for either the camera or the tripod mount. Our Medium Ball Head is light-weight but strong enough for 35mm and medium format cameras and features single lever operation. Ideal for tripods and monopods.

**ORDER CODE 3262** Medium Ball Head w/dual retractable thread

### QR MEDIUM BALL HEAD

# 3262QR

Bogen 3262 QR Head. Just like our 3262 Medium Ball Head, but now comes with a Quick-Release Plate.

**ORDER CODE 3262QR** QR Medium Ball Head

# MONOPODS

**Bogen Monopods. Ideal for sports and action photography, especially with telephoto lenses. Choose from three models, all with convenient carry straps.**

# DOLLIES

## AUTO AND FOLDING AUTO DOLLIES 3056/3156

Many dollies brake against the caster or wheel itself, which can cause flats, wear, and slippage. But when you depress the centrally located foot pedal of either the Bogen Auto Dolly or the Bogen Folding Auto Dolly, you release all three wheels. When you lift the pedal, cam action raises the wheels free of the ground and the weight of the dolly and tripod rest on separate feet. The ideal companions for Bogen 3033, 3036, 3046, 3051 and 3058 series tripods, the **Auto Dolly** weighs only 6 lbs., incorporates Shephard Casters, and is easily assembled. Spread from center to tripod leg socket is 18½".

The **Folding Auto Dolly** features 3" wheels, weighs 9¾ lbs., spread from center to tripod leg socket is 20". Folds to a compact 29".

On either dolly, mounting and dismounting the tripod is accomplished by cam operated kick-locks. If you need to support a camera for very low angle shooting, we've thoughtfully provided a European thread stud on the central casting on which you can mount your Bogen head.

ORDER CODE 3056 Auto Dolly

ORDER CODE 3156 Folding Auto Dolly

ORDER CODE 3254 Black Folding Auto Dolly

## HEAVY DUTY DOLLY 3067

We also use this model with our large Video Tripods. It features individually braked wheels measuring 5" in diameter and a unique locking system. Folds for transporting. The tripod legs are captured in a 38" diameter circle and the doorway clearance needed for the fully assembled dolly is only 39½".

ORDER CODE 3067 Heavy Duty Dolly

## VARIABLE LEG SPREAD DOLLY 3137

Here's a dolly with a difference – variable leg spread for added versatility. The newest member in our growing dolly line, it has a special feature that allows you to adjust the radius from a maximum of 20" to as little as 12½". For use with all Bogen Tripods, this dolly has 2" casters with a sure-lock feature that raises casters free of the ground so that the dolly rests on separate feet.

ORDER CODE 3137 Variable Leg Spread Dolly

## PORTABLE DOLLY 3127

Designed for all Bogen Tripods. This dolly weighs only 5 lbs. 4 oz. has a 20" radius and folds to a compact 22½". 3" wheels have a sure-lock feature that raises casters free of the ground so that the dolly rests on separate feet.

ORDER CODE 3127 Portable Dolly
