CORRECTIVE VIEWFINDER EYEPIECES (G)		

Bronica finders are designed to simulate a 26.3" eye to focusing screen separation. If you normally have blurred vision at this viewing distance without eye-glasses, you may consider replacing the standard -1.5 diopter eyepiece with one more suitable. The following chart will aid you in comparing your (close-up) eye-glass prescription (B) with an optional corrective eyepiece (A).

For The Waist-Level Finder
