

Introducing the exclusive Contax G1 Leather System Case

The Contax G1 represents the highest level of precision craftsmanship in the photographic world. To complement the design achievement of the G1 we have created a custom designed System Case to protect and provide easy access for all system components.

Other camera bags, even those from major camera bag manufacturers, are compromise designs necessary to accomodate many camera brands and styles. The Contax G1 System Case was designed exclusively in the U.S.A. to hold the entire G1 system. It is produced from the finest materials to insure the highest quality and longest life.

The G1 System Case is available through your authorized Contax Specialty Dealer. For the dealer nearest you, call 1-800-526-0266, ext 4315.

Suggested Retail Price: \$199.95

Product Item #: 996190

Designed from the Inside Out.

(Cut-away case shown below to illustrate system layout)

Antique Brass Finish Clasp w/Lock

All hardware is matched in a beautiful antiqued brass finish. The front clasp provides easy access while the lock/key provides security.

Soft Velveteen Interior Lining

To protect your camera, lenses and accessories, maximum consideration was given to both the type and thickness of the interior material. Soft velveteen and closed cell foam was the natural choice. It's finished in a medium tan color to complement the exterior.

Fine Mesh Accessory Compartment

Located just inside the top flap, the zippered, "see through" accessory compartment is the perfect location for filters, rolls of film or other small items.

Contax G1 Camera w/Sonnar 90mm f2.8 Lens

The G1 can be easily inserted or removed using this innovative bag design. Simply face the camera downward, either with or without a lens attached (the Sonnar 90mm is shown), and you can instantly access your camera. Flaps on either side provide protection and support.

Planar 45mm f2 Lens

Simply open the flap and you have quick access to your Planar lens.

Adjustable Interior Dividers

To allow the ultimate in flexibility, a system of soft dividers is used. Incorporating velcro-like attachments, they provide protection while allowing you to personally customize the interior layout.

Contax TLA 140 Flash Unit

Lower left pocket is ideal for your Contax TLA 140 flash.

Fold Down Accessory Door

The unique fold down door provides quick and easy access to the lower storage area of the system bag. With one hand you can get to your 16mm Hologon lens (plus viewfinder/gradation lens), TLA 140 flash or any other combination of G1 accessories/lenses.

Hologon 16mm f8 Lens

The Hologon 16mm is a very special lens so we've created a special place to keep it.

Heavy-Duty Velcro Type Fastener

In addition to the front clasp, a heavy-duty velcro type system is incorporated to add an extra sense of security in case of accidental tipping of the case.

Ultra Supple, Full Leather Exterior

Crafted in the tradition of the finest Italian and French tanneries, the G1 system case exemplifies "class". Finished in the most contemporary, dark mahogany color, the leather is as soft as it is durable. An ideal combination for the professional or serious amateur alike.

Compact Size

Our objective was not only to create a complete system case for the G1, but design one that was ultra compact, very portable and totally "user friendly". The end result accomplishes all these objectives in a very small package, measuring only 8" high x 9" wide x 4-3/4" deep.

Biogon 28mm f2.8 Lens

Need to use your 28mm lens? It's as easy as getting to your 45mm!

Adjustable, Soft Leather Strap

The full length leather shoulder strap allows a wide range of adjustment.

Hologon 16mm Viewfinder/Gradated Filter

Note that the lower right corner section includes an extra divider - these two pockets house your 16mm Viewfinder and Gradated Filter.

Leather Name Tag

Complementing this beautiful case is a personalized name tag, finished in matching leather.

Leather, Non-Slip Shoulder Pad

It's adjustable with extra padding for maximum comfort, even on those extended photo outings.
